The Sacred Books of the Jainas Series was started by Kumar Devendra Prasada Jain, Arrah, of sacred memory.

The First Volume, *Dravya Samgraha*, was translated and edited with exhaustive Commentaries by Mr. Sarat Chandra Ghoshal, M.A., B.L., Sarasvati, Kavya-Teertha, Vidyabhushana, Bharati, now District Magistrate, Cooch-Behar, and published in 1917. The Second Volume *Tattvarthadhigama Sutra* or *Moksha Shastra*, appropriately called the *Jaina Bible*, was edited by Mr. J. L. Jaini, M.A. and published in 1920.

Panchastikayasara, the Third Volume, was edited by Prof. A. Chakrvarti, M.A., of the Presidency College, Madras, and published in the same year.

The Fourth Volume, *Purushartha Siddhyupaya* was edited by Pandit Ajit Prasada, M.A., LL.B. It was being printed at the Indian Press, Allahabad, when Kumar Devendra Prasad suddenly died at Calcutta in 1921, and the work remained unfinished. It was published in 1933, from Ajitashram, Lucknow.

Gommatsara Jiva Kanda, and *Karma Kanda Part I*, forming Volumes V and VI, were edited by Mr. J. L. Jaini, and published from Ajitashram, Lucknow in 1927.

Mr. J. L. Jaini died the same year in July.

Atmanushasana Vol. VII and *Samayasara Vol. VIII*, both by Mr. J. L. Jaini, followed in 1928 and 1930 respectively. *Niyam-sara Vol. IX*, by Mr. Uggar Sain Jain was published in 1931.

The translation of, and Commentaries on, the remaining portion of Karma Kauda Gommatsara, were prepared by Jaina Dharma Bhushan Brahmachari Sital Prasada Jee, with the assistance of the Sanskrit Commentary, Jiva-tattwa-pradeepika by Keshava Brahmachari, and the Hindi Commentary Samyak-Jnana-chandrika by Pandit Todarmal, published at the Calcutta Jaina Sidhant Press. The work was several times revised by Pandit Ajit Prasada in collaboration with Brahmachari Sital Prasada Jee.

Vol. X Gommatsara Part II was placed in the hands of the Press in 1933, but through various reasons, reasonable and unreasonable, proper and improper, we had to take it back from one Press and give it to another; and there also, similar difficulties hindered the progress of the work. It is after a lapse of 5 years that we have been able to publish this work. We deplore the unpardonable delay.

In the preparation of the work, we have derived assistance from the Edition of Gommatsara published by the Param Shruta Prabhavak Mandal of Bombay.

INTRODUCTION

Karma is a word well-known not only in India, but beyond it, far and wide, in all countries of the world, where Oriental Philosophy is studied or talked of.

It was only a few years ago, that a talking picture, with an Indian back-ground was prepared and exhibited in all English-speaking countries and in India, and was called Karma.

Every villager and every citizen in India uses the word Karma in daily parlance as signifying destiny, fate, happening, or event, for which he does not find, or to which he fails to ascribe an immediate cause.

“My Karma is bad” is the cry of woe and despair, which is uttered when one is overtaken by a sudden calamity, or is the victim of a fraud, perfidy or swindle. With the majority of people Karma is the unknown factor in life, quantity X.

In all systems of Indian Philosophy the word has been used with profusion.

Shri Krishna is styled the Great Karma-Yogi, the superman of action. According to Hindu tradition it was on the battlefield of Kurukshetra that Lord Krishna preached the Philosophy of Action, and raised the drooping spirits of Arjun, who hesitated to draw the bow against his respected elders, and near and dear relations arrayed in battle against him.

The Great Warrior, the incomparable Archer, the bravest of the brave, had at that moment been overtaken by the weakness of inaction, indecision, incapacity to act, a sort of mental stupor; and to drag him out from that lethargic condition, the advice given was: “Do what is your duty in the circumstances in which you are placed, and be indifferent to the result.” Desire and expectation are sinful. No sin attaches to the mere commission of an act, which does not proceed from, or is not based on desire, or expectation, or any ill-will or good-will; but is merely a performance of duty, and is not a wanton or negligent act. This Discourse is called the Bhagwat Geeta—the Song Celestial. It consists of 700 verses and is divided into 18 Chapters.

In verse 3 of Chapter VIII, it is said that *Karma* is the emanation (from the eternal) that gives rise to ideas, which taking shape or form, come to be.

अक्षरं ब्रह्म परमं स्वभावोऽध्यात्ममुच्यते ।

भूत भावोद्भवकरो विसर्गः कर्म संज्ञितः ॥

Stated in simple and clear language, Karma is there said to be the resultant of the vibrations proceeding from Eternal Life; which vibrations take shape and have a duration; an existence for a definite period.

Some sages meant by Karma the acts enjoined by the sacred scriptures; and others considered it as synonymous with a submission to the duties and responsibilities of normal life.

In a modern sense, a Karma-Yogi is a purposeful man or woman, who has settled views, a house-holder practising Yoga, while actively engaged in the world's turmoil, who calls himself unattached.

In Jaina Philosophy, however, the word Karma has quite a different and unique significance. The starting principle of Jainism is that there is an eternal beginningless union between soul and matter. This union though without a beginning is not without an end. When once the union is entirely broken, when once the soul is free from the slightest vestige of a contact with matter, nothing can bind it again. It is liberated.

The activity of the soul which invites and enables matter of an exceptionally subtle form to flow into it, as also the matter which actually does flow into the soul, is called Karma. The thought-activity is called Bhava-Karma; and the actual matter flowing into the Soul and binding it is called Dravya-Karma. It is a substance. It is matter, in itself inert, lifeless, like a pebble, but in combination with Jiva, Life, its potency is immense, beyond calculation, beyond measure. It then keeps the Jiva itself bound and fettered, a prisoner, dancing constantly at Karma's beck and gesture. At each step, the momentum for a new movement is gained. At each embrace of matter, the delighted deluded soul throbs and vibrates for a fresh embrace. Wily matter is ever ready to attack the soul and to flow into it with

its million insinuations, and to keep alive and vigorous the bondage of the living by the non-living. It is so very fine, so very subtle, that it cannot be perceived, recognised, discerned by any the most highly developed sense organ, or by the most perfected, the highest magnifying microscope. It eludes all efforts of the Chemist and the Physicist to calculate, measure, graph, photograph, utilise, harness or control it. It is millions of times finer and subtler than the waves of sound, light, or electricity, or the electrons, protons, conceived by man. And yet this matter is ever and anon surrounding us on all sides, and permeating through and through every particle of our body and soul. There is no space where it is not. And it is perceivable, appreciable, knowable by the Omniscients; and its workings, metamorphoses, make-ups and changes, are explained by Achaaryas, who have heard the letter-less Voice of the Omniscient, and who have transmitted the knowledge thus directly acquired from the Omniscient to others through the past milleniums, by word, and in writings.

Karma is the Cause, the first, the ultimate, the original Cause which keeps the Universe going. All phenomena, all changes, all manifestations are due to Karmic effects.

And Jaina saints, the Masters of wisdom, have analysed the workings of Karma in the most minutest details. And what would be a marvel and a miracle to the Modern Man is that they did so without the use of pen, pencil, or paper, without any of the modern resources and appliances. Mind and Memory were the only two instruments they used for researches into the workings and inter-actions of Soul and Matter, with an accuracy and a wealth of detail which would command the admiration of the modern scientist.

The Jaina Saints did all this wonderful research work without any selfish motive, without expectation of praise or worship, or service in any shape or kind whatsoever from their admirers, worshippers or devotees. They thought deeply because it was a joy to think, they entered into intricate and far-reaching arithmetical and algebraical calculations because it was a pleasure to do so, because it was the natural, effortless exercise of their

exalted, purified, refined intelligence and consciousness. They spoke, they uttered, not from desire but involuntarily, as an inherent, natural physical urge, being stimulated thereto by the intense desire of the seekers after truth.

In the learned and exhaustive introduction to Gommatsara, Karma Kanda Part I, Mr. J. L. Jaini of sacred memory has described the different kinds of substances which compose the Universe, their attributes, modifications, the conditions in which the embodied souls are found, the rules which regulate the combination of Soul and Matter, Jiva and Karma, the Bondage, Inflow, Stoppage, and Dissolution of Karmic connection with Soul; and the ways and means of obtaining deliverance, Moksha, Liberation from Karmic contact.

Part II deals with the same subject in details, more minute, more exhaustive and more extensive.

To give, however, a brief idea of the subject-matter by way of introduction, a little recapitulation would be pardonable.

It has already been stated that molecules having the capacity to adopt the Karmic form, take shape in what have been termed 8 main classes, and 148 sub-classes of Karmas. This division into 8 main and 148 sub-classes has been made for the sake of facility of comprehension, and discussion of the subject. Speaking from an absolute point of view, the classes and the sub-classes are innumerable and even infinite. They vary, and no two are alike in every particular. The divisions into classes and sub-classes are based on points of preponderating similarity.

Karmic matter never remains in an isolated condition. As soon as it takes form, it combines with the physical or fluid body, which stimulates it into activity. The stimulation into activity is called Asrava, Inflow, and the combination Bandha, Bondage. The Karmic molecules produce their effect after a certain period. This duration is called Aabaadhaa, quiescence. The action or effect is called Udaya, Operation. The period for which it continues to operate is called Stbithi, duration, and this varies with the mildness or intensity of passions. The natural siddance, falling, or shedding off, of Karmic molecules in due

course during the period of duration is called Nirjara, shedding. This can also be effected earlier, and the operation and duration period can be shortened, by austerities. As regards natural shedding of Karmas, it commences immediately at the moment operation begins and it is gradual, regular, and methodical by a fixed rule of Arithmetical progression. The highest number of molecules shed off in the first instant of duration, and the lowest number in the last instant, while the number goes on decreasing by a common difference at every instant. This has been illustrated in the Chart Annexure A.

The operation may be tangible, the result may be apparent, appreciable, felt, or it may not be so. That would depend on circumstances ever varying in their nature. Every ordinary mundane soul, every one of us, so to say, binds Karmic matter of all the four passions—Anger, Pride, Deceit, and Greed—at every instant, while it suffers from the action of only one of them, at an instant and the others shed off in the manner shewn in Annexure A, without producing any result, without being felt.

For example, take the case of a person engaged in pious meditation, or in deep study of the Sacred philosophy. The operation of evil and pain-producing Karmas will not affect him and they will continue to shed off in due course. He has a pious desire, and there will be the effect and bondage of good Karmas only.

Again Karmas of one sub-class can be transformed into those of another sub-class. Consider again the just-above-stated case of a person engaged in deep pious study. He will not mind, or feel or be affected by the inclemencies of the weather, by thirst, hunger, sleep, lassitude, etc., but will be enjoying the pleasure of acquisition of knowledge. The pain-producing Karma will thus be transformed into pleasure-producing one.

Duration and effect or fruition of Karmas can also be similarly increased or decreased. A person is thus the maker and master of his destiny, he can make himself happy or miserable, he can rise above circumstances, and can make a hell of heaven and a heaven of hell.

A Karma bound in one life may produce its effect in the same life, in the next, or in a life thereafter.

In this second Part of Karma Kanda will be found a rich detail of the various groups of sub-classes of each of the eight main classes, which are bound by a soul, which operate, and which simply remain in existence, at various spiritual stages. For example, a soul in the first stage—wrong belief—binds 22 out of the 28 sub-classes of Deluding Karma—wrong belief, 16 kinds of passion, one of the 3 sexes, fear, disgust, and one from each of the two pairs of indulgence and ennui, laughter and sorrow. Only 10 will be in operation—only one out of the four kinds of each of the 4 passions can operate at one time, and hence 12 kinds of passion fall out of calculation, and only 10 out of the 22 which are bound can operate. Existence there is of all the 28.

The object of all this travail is to purify the Soul, to evolve it to its inherent perfection, to remove all the possible Karmic contaminations which obstruct the full and complete enjoyment and exercise of Omniscience, and Omnipotence. And how to attain this end is the subject discussed in Karma Kanda, Parts I and II.

The knowledge and analysis of the various forms and workings of Karma is helpful in all stages of life, to the child, the student, the householder, the man of business, the admiral, the general, the warrior, the soldier, on land, water and air, the teacher, the preceptor, the protector of the people, the king, the politician, the administrator, the ascetic, the recluse, the saint, and the super-saint. It is a general panacea. May it prove beneficial to the reader.

THE THREE APPENDICES.

398. After having made obeisance, with the head, to the mighty Heroes, the Great Conquerors with unassisted might, I shall describe the three Chulikas (appendices). Hear (this) with a (concentrated) mind.

Commentary.

The opening verse contains, as is customary, a very respectful obeisance to the Tirthankaras, the great Jinendras. They have attained Infinite Power, the inherent attribute of the Pure Perfect Soul. Human strength, might or power is limited. Soul-Power is infinite; and does not stand in need of assistance of any weapon, instrument, nourishment, stimulant, or encouragement.

Obeisance is made in various ways. It may be a salutation in words only. Such salutation may be accompanied by the placing of the palms together, with fingers opened out, so as to form a hollow between them; it may further be accompanied by a waving of the

hands so folded, or the folded hands may be placed against the forehead; or the head may also be lowered as far as it will go. Again one may go down on the ground sitting on the toes and the knees, and bend down the body and head so that the forehead may touch the ground, and the folded hands, stretched out and beyond the head, be also touching the ground. Again a worshipper may lie full flat on the ground face downwards, with the folded hands, the forehead, and the other parts of the body touching the ground. Here the salutation made while squatting on the ground, is by bowing the head with folded hands touching the forehead.

The three Appendices, Chulikas are:—

- (1) Nava Prashna Chulika, an appendix dealing with 9 questions;
- (2) Pancha Bhāgāhāra Chulika, an appendix dealing with five kinds of divisors;
- (3) Dasha Karaṇa Chulika, an appendix treating of the ten modes of Karmas.

399. Of what (Karma Prakrities) is cessation of Bondage caused before, after and simultaneously with (cessation of) operation ? Of what (is Bondage caused) along with the operation of themselves, of others, and of both ; (of what is Bondage caused) continuously, with intervals and in both ways.

Commentary.

The following are the nine questions relating to the bondage of various Karma Prakrities, which are discussed in this Appendix.

1. Of what Karma Prakrities is cessation of Bondage caused before.
2. Of what after, and
3. Of what along with the cessation of their operation.
4. Of what Karma Prakrities is Bondage caused along with operation of these Prakrities.

5. Of others, and
6. Of those and others,
7. Of what Karma Prakrities is Bondage caused continuously,
8. After interval,
9. In both ways.

400-401. (Cessation of Bondage of eight Karma Prakrities *i. e.*,) the celestial four (*i. e.*, the celestial condition, celestial migratory form, fluid body and limbs), the assimilative two (*i. e.*, the assimilative body and limbs), notoriety and celestial age, (happens after) (the cessation of their operation); (bondage-cessation) of thirty-one, right-belief-deluding, radiant heat, human migratory form, the immobile four (*i. e.*, immobile, fine, undevelopable, and common body), the fifteen passions (*i. e.*, all the 16 passions except perfect conduct-preventing-greed), the fear pair (*i. e.*, fear and disgust), the risible pair (risible and ennui), the four genus (*i. e.*, from one-sensed to four-sensed beings) and masculine sex, (occurs) simultaneously (with cessation of their operation); while (bondage cessation) of the remaining eighty-one (*i. e.*, all 120 which are taken in bondage minus the abovesaid 8 and 31, occurs) before their cessation of operation).

Commentary.

The first set of the three question is dealt with here. With reference to eight Karma Prakrities which continue binding even

when their operation ceases, it should be noted that the celestial four (*i. e.*, celestial condition, celestial migratory form, fluid body and fluid limbs) can not operate beyond the fourth spiritual stage of vowless right belief, but their bondage ceases at the sixth part of the eighth spiritual stage of New-thought-activity. The assimilative two operate only in the sixth stage of imperfect vows, while their bondage ceases at the sixth part of the 8th stage of New-thought-activity. Notoriety Karma ceases to operate at the end of the fourth stage of vowless-right-belief, while its bondage may continue till the sixth stage of imperfect vows. The celestial-age Karma operates only till the first four stages, while its bondage ceases at the end of the seventh stage of perfect vows.

Thirty-one Karma Prakrities named above have the same spiritual stage as regards their cessation of bondage and operation, both. They are in bondage only in those stages where they are in operation. For example, the Right-Belief-deluding Karma operates and is bound only in the first stage. For examples of other Prakrities see previous Chapters.

The remaining eighty-one Karma Prakrities cease to bind in the spiritual stages preceding those of cessation of their operation, for example the Knowledge-obscuring Karma of five kinds is bound till the tenth stage of Slightest delusion, while it operates till the twelfth stage of Destroyed-delusion.

See pages 48 and 155 of Gommatsara Karma Kanda, Volume VI, of the Sacred Books of the Jainas.

402-403. Bondage of (the eleven Prakrities *i. e.*,) the celestial and human ages. Tirthankara, the fluid six (*i. e.*,

the fluid body and limbs, celestial and hellish conditions, and celestial and hellish migratory forms) and the assimilative (body and limbs), (occurs) only on operation of other (karma Prakrities); bondage of (twenty-seven Karma Prakrities *i. e.*,) wrong belief, the (fourteen) destructive (Prakrities) of the slightest (delusion, the 10th spiritual stage, *i. e.*, the five knowledge-obscuring, the four conation-obscuring, and the five obstructive), (the twelve) continuously operative (prakrities *i. e.*,) the electric two (*i. e.*, the electric and Karmic bodies), the colour four (*i. e.*, colour, smell, taste and touch), the pairs of steady and beautiful (*i. e.*, the steady and unsteady, the beautiful and ugly), not-heavy-light and formation (occurs) on their own operation. The remaining eighty-two (out of 120) are bound in both (ways *i. e.*, on their own operation or on operation of others).

Commentary.

The second set of the three questions is answered in these two verses. The above-mentioned eleven Karma Prakrities are never bound during the operation of such Prakrities, but are bound when other Karma Prakrities are operative. For example, when a soul is in celestial or hellish life, it will never bind celestial or hellish; age, condition, fluid body etc. A soul in human or sub-human condition of life may bind celestial age, condition etc. It means that a celestial soul after death can not be born as celestial or hellish, similarly a hellish soul can not just after death take birth in hellish or celestial condition of life. It may take birth in any human or sub-human life. Similarly Tirthankara Karma is bound from the 4th to the 8th spiritual stage of new-thought-activity; but it operates only in the 13th and 14th stages of the perfect soul.

The twenty-seven Karma Prakrities next referred to are bound only when they are operative; for example, wrong-belief is bound only in the first stage of wrong belief, where it is operative also. The fourteen destructive Karmas which are operative till the 12th stage are bound only till the 10th stage of slightest delusion. It should be noted that these twenty-seven Karma Prakrities may remain operative even when they are not bound; but their bondage will occur only when they are operative. Out of 120 Karma Prakrities, which are taken in bondage, subtract eleven and twenty-seven, and the remaining eighty-two may bind when similar Prakrities are in

operation or otherwise. For example, the human age Karma is bound when it is operative or otherwise. A celestial, hellish or a sub-human soul can bind the human age Karma. Similarly the Physical-body Karma can be bound (when it is operative) in human or sub-human life or (when it is not operative) in celestial or hellish life. Feeling-Karma is of two kinds, Pleasure-feeling and pain-feeling. One of the two is operative at a time, but the bondage of any of the two can occur during operation of any of the two. A man while enjoying operation of pleasure-feeling Karma, may bind either pain-feeling or pleasure-feeling Karma according to the nature of his thought-activity.

404-405. The forty-seven (Karma Prakrities which are in operation) continuously (*i. e.*, five knowledge-obscuring, nine conation-obscuring, five destructive, wrong belief, sixteen passions, fear and disgust, electric and karmic bodies, not-heavy-light, self-destructive, formation, colour, smell, taste and touch), as well as Tirthankara, assimilative (body and limbs), (four), ages, (all these fifty-four are bound) continuously (Nirantara). The hellish two (*i. e.*, the hellish condition and migratory form), four genus (*i. e.*, from one-sensed to four-sensed), five (kinds of) bones (*i. e.*, all the six except the first adamantine-nerve-joint-and-bones), five figures (*i. e.*, all the six except the first symmetrical), awkward movement, the two-hot-light and cold-light), the ten, immobile (fine body, undevelopable, common body, unsteady, ugly, unprepossessing, harsh voice, non-impressive and notoriety),

pain (feeling), common and female (sexes), ennui, sorrow, these thirty-four are (bound) with intervals (*i. e.*, *Sântara*).

Commentary.

The third set of 3 questions is dealt with here. Out of fifty-four Karma Prakrities which bind continuously the first forty-seven go on binding continuously till the stage of their cessation of bondage; while out of the remaining seven, Tirthankara and assimilative two are bound continuously only in the stages where their bondage is possible, and age Karma is bound continuously only during one Antar-Muhurta at its proper time of bondage. The thirty-four Karma Prakrities are not bound continuously. They are bound with intervals. For example, hellish condition is bound sometimes, but not always. Similarly one-sensed or two-sensed.

नष्टे पुनः प्रतिपक्षे निरन्तरा भवन्ति द्वात्रिंशत् ॥ ४०७ ॥ युग्मम् ।

406-407. (The remaining) thirty-two (out of one-hundred and twenty Karma Prakrities *i. e.*,) the pairs of celestial, Human, sub-human, physical and fluid (*i. e.*, celestial condition and migratory form, human condition and migratory form, sub-human condition and migratory form, physical body and limbs, fluid body and limbs), graceful-movement, adamant (nerves joints and-bones), the two, destructive (and respiration), symmetrical (figure), five-sensed, the ten mobile, (gross developable, individual, steady, beautiful, amiable, sweet-voice, impressive and fame), pleasure (feeling), risible, indulgence, masculine (sex), and the two family (high and low), are (bound) with intervals (*i. e.*, *Sântara*) in

presence of (their) opposites ; but are (bound) continuously (i. e., Nirantara) on destruction of (their) opposites.

Commentary.

The word "opposite" as qualifying Prakriti signifies "the other" Prakriti or Prakrities of the group. The thirty-two Karma Prakrities named in the verses are bound in both ways, with and without interval. When their opposite Prakrities are not destroyed, they are bound with intervals, but when they are extinct, they are bound continuously till the stage of their bondage-cessation. For example when human, sub-human or hellish condition is bound, celestial condition will not be bound. In the spiritual stages where bondages of all the four conditions of life is possible, celestial condition will be bound only with interval; but in the stage where no other conditions of life can be bound, the celestial condition only will go on binding continuously. Such is the case with the other thirty-one Karma Prakrities.

In wrong belief stage, celestial condition and migratory form as well as their opposites, the other three forms and conditions can be bound ; viz., any of the four conditions and migratory forms can be bound. In the downfall stage, only two opposites, sub-human and human conditions and migratory forms, as well as celestial condition and form are bound. In the mixed and vowless-right-belief stages, celestial condition and migratory form, and one opposite viz the human condition and migratory form are bound. From the fifth stage of partial-vow to the sixth part of the 8th stage of new-thought-activity, in humans of work-region, and in humans and sub-humans of enjoyment-region, celestial condition and forms only without any opposites are continuously bound. Human condition and migratory forms are bound continuously, without any opposites in the heavens above the 12th i.e., from the 13th till Sarvartha Siddhi, the last heaven. Sub-human condition and migratory form, and low-family are continuously bound without any opposites in the seventh hell, and in the conditions of the fire-bodied and air-bodied souls.

Physical body and limbs are bound continuously without any opposites in hellish and celestial lives. Fluid-body and limbs are continuously bound without their opposites, in human and sub-human right-believers, as well as enjoyment regions. Graceful movement is bound continuously, without its opposite, from the mixed stage to the sixth part of the 8th stage of New-thought activity. Adamantine nerves-joints-and-limbs is bound continuously without its opposites in the 3rd and 4th spiritual stages. Destruc-

tive and respiration do not bind along with undevelopable; they are bound continuously from the 2nd stage to 6th part of the 8th stage. Symmetrical figure is continuously bound from the 3rd stage to 6th part of the 8th stage. Five-sensed genus, mobile, gross, developable, individual,--these five are continuously bound from the downfall-stage to the 6th part of the 8th stage.

Steady and beautiful are continuously bound without their opposites from 7th stage of perfect-vows to the 6th part of 8th stage. Fame-Karma is continually bound from 7th to 10 stage. Amiable, sweet-voice and impressive are bound without their opposites from the 3rd stage to 6th part of the 9th stage. Pleasure-feeling Karma is bound with interval till 6th stage upto which, its opposite, the pain-feeling Karma is also bound; but it is bound continuously without its opposite from 7th stage to the 13th stage of Vibrating Omniscient. Risible, and indulgence are bound without interval, till the 6th stage upto which their opposites sorrow and ennui are also bound, but from 7th they are continuously bound till the end of the 8th stage. Masculine sex has its opposites, the common and female sexes, in the 1st stage; and only female sex in the 2nd stage; and thereafter till the sixth part of the 9th stage, it is bound continually without any opposite. High family is continually bound from 3rd stage to 10th stage of slightest delusion.

Speaking in plain language, on acquiring Right-Belief a person is assured, in the next birth, of a human condition of existence, with masculine sex, symmetrical figure, and in a high family. A right believer has thus no fear of death even, because he knows that death to him only means a change of the present physical body for a better one.

The acquisition of Right-Belief, a firm and unshakeable conviction in the reality of things, in the real nature of Life, and non-Life, puts an end to all pain and misery and makes life happy.

Time which hangs heavy on an idle fellow, passes on in happy reverie with an ascetic. He is above want, distress, pain, disappointment, worry or vexation. His is a life of continuous Bliss, showering knowledge, happiness on all beings. What seems mortification of the body to others, is to him exquisite enjoyment of inherent direct knowledge and power beyond common measure. Every moment he is progressing in spiritual advancement, is destroying the past accumulated Karmas until he transcends all, and is eternally identified, with Omniscience and Omnipotence.

The following Table will make the contents of the above two verses easy of comprehension :—

Table 1, of Continuous Bondage without the opposite sub-classes.

408. May that Abhayanandi (Ācharya), the ocean of pure scriptural-knowledge, from whom worthy Nemi-chandra has risen pure, and without churning, remove the dirt of bad Karmas.

Commentary.

There is a tradition current that the moon along with other things came out of the churning of the ocean.

The author Nemi Chandra Sidhant Chakravarti here pays homage to his preceptor Āchārya Abhayanandi, whom he likens to the ocean, because his knowledge was vast and deep. The preceptor, however, had to undergo no painful operation like churning in transmitting scriptural knowledge to this disciple, and with knowledge bestowed, and acquired, without trouble, the pupil shone forth shedding the cool and comforting light of knowledge, far and wide, like the moon, but pure and without the black spots which mar the purity of the moon. The excellence of both the pupil and the preceptor is here extolled.

410. The bound up (Karmas) are transferred ; not those which are not bound. There is no transference among the root (eight) Karma-classes (among themselves). (Even among the sub-classes of 8 Karmas), (there is) no (transference) between Right-belief-deluding-Karma and Right conduct-deluding Karma ; (and also) between four (kinds of) age Karma (themselves).

Commentary.

Matter of one kind of Karma already bound up with a soul can be transferred to another kind of Karma. This process is called Sankramana or transference. Matter of one main class however cannot be transferred to that of another main class, e. g., Karmic matter of Knowledge-obscuring-Karma cannot be transferred to Conation-obscuring or to any of the othersix classes. There is transference of matter among sub-classes of a main class. For example, matter of Sensitive-knowledge-obscuring Karma can be transferred to Scriptual-Knowledge-obscuring Karma, or to any other sub-class of that very class.

Feeling Karma is of two kinds, pleasure-feeling and pain-feeling. There can be transference of matter between these two only. As an exception to this rule it is said that matter of Right-belief-deluding-Karma can not be transferred to that of Right-conduct-deluding Karma, or *vice versa*, and matter of any of the four Age-Karmas, can not be transferred to that of another age-Karma.

411. Clouded-right-belief, Wrong-belief, and Mixed-right and-wrong-belief (three sub-classes of right belief-deluding Karma) have no transference (among themselves) in their own respective spiritual stages. It is also a rule that transfer-

rence of these three sub-classes of right-belief-deluding-Karma does not occur in downfall and mixed (the second and third) spiritual stages.

Commentary.

There is no transference of three sub-classes of Right-belief-deluding-Karma among themselves in downfall and mixed spiritual stages. Again matter of Wrong-belief-Karma will not be subject to transfer in the first spiritual stage of Wrong-belief. It will only be subject to transfer in the four stages from fourth to seventh. Similarly in the above four stages matter of Mixed-right-and wrong belief-Karma can be transferred into another. As Wrong-belief-spiritual stage is not the operative stage of this mixed Karma, matter of this mixed sub-class may in the first stage also, be subject to transfer. There are four stages for operation of Clouded-right-belief, i. e., 4th to 7th and as transference cannot occur in the stages of downfall and mixed, it is evident that its transference is possible in the first stage of Wrong-belief only.

412. As a rule, during (the stage of) wrong belief, (transference) of clouded right-belief and mixed-right-and-wrong-belief (Karmic matter goes on) till one Antaramuhurta by (the division called) Adhah-pravritta ; afterwards till last section (of time) but one (dvi-charama Kānda), (transference occurs by (the division of) Udvelana.

Commentary.

Transference occurring in one instant of time is called फालि (Phāli); that in a group of many instants काण्डक (Kāndak).

उव्वेलणपयडीणं गुणं तु चरिमम्हि कंडये णियमा ।

उद्वेखनप्रकृतीनां गुणं तु चरमे काण्डके नियमात् ।

चरमे फालौ पुनः सर्वं च भवति संक्रमणम् ॥ ४१३ ॥

413. Necessarily, there is transference of (all) the Karmas referring to Udvelana (division) in the last section (of time i. e., Kándak) by the division called Gunṇa (Samkramana); but during the last part of that very section of time, (there is transference) by Sarva (Sankramana division).

Commentary.

There are five kinds of transference, which take place according to five kinds of divisions.

(1) Transference of matter of one Karma to another without the thought-activity of three kinds called Adhah, Apurva and Anivritti (see Page 44, Gommatasara Jiva Kanda volume V, of the Sacred Books of the Jainas) is called transference by division of Udvelana Sankramana.

(2) That transference which occurs in a soul with slight purity of thought, after it has passed into the sections of time, (Kándakas) where duration and fruition of Karmas are decreased, or after such thought activities as Guna Shreni etc., by the help of division called Vidhyáta, is Vídhyáta Sankramana.

(3) Transference of matter of a Karma into that of others during their bondage, by division of Adhah Pravritta, is called Adhah Pravritta Sankramana.

(4) Transference of Karmic matter by constant innumerable-fold multiplication, every instant, by division Guna is called Guna-Sankramana.

(5) Transference of all Karmic matter into another during the last part (Pháli) of the last section (Kánda) of time is called Sarva-Sankramana.

Clouded-right-belief, and Mixed-belief sub-classes are included into the sub-classes of Udvelana; therefore their Gunā-Sankramana takes place in the last section of time, and their Sarva Sankramana occurs during the last part of that very section.

They are known as sub-human-eleven or Triyagekádasha.

Commentary.

The eleven sub-classes mentioned above come into operation, as a rule, in sub-human condition only. Therefore they are called Tiriyagekadasha.

416. Adhah Pravritta (kind of transference occurs) during the bondage (time of Karmas); Vidhyāta (kind of transference), during non-bondage (of Karmas) only till the seventh (stage of perfect vows); afterwards (till the eleventh stage of sub-sided delusion) there is Guṇṇa (Sankramana, kind of transference) of bad sub-classes during (their) non-bondage (time).

Commentary.

Adhah Pravritta transference occurs only during bondage of the sub-classes till their cessation of bondage, but wrong-belief-Karma does not transfer into another during stage of wrong-belief as has been already stated above. Matter of those sub-classes, whose bondage has ceased, is transferred into another, from the fourth stage till the seventh stage. This is called Vidhyāta Saṅkramaṇa. From 8th to 11th stage, those bad sub-classes which are not bound there, are transferred into others. This transference is called Guṇa Saṅkramaṇa. It also should be noted that there is Guṇa Saṅkramaṇa of Karmic matter, for one Antar muhurta during the time of acquirement of the first Subsidential-right-belief, and also during the full time of Mixed-right-and-wrong-belief, and of clouded-right-belief when Wrong-belief-karmic-matter is going to be destroyed with the help of New-thought-activity, till the last but one part of that section of time. During the remaining last part there is Sarva Saṅkramaṇa i. e., full transference of matter.

heavy-light; destructive; respiration; graceful movement, the ten, mobile, (gross, developable, individual, steady, beautiful, amiable, sweet-voice, impressive, and fame), and formation, of which (there is) only Adhah Pravritta (transference), Bondage-cessation (occurs in the stage) of slightest delusion. The three somnambulism (heavy-drowsiness and deep-sleep); the twelve passions (*i. e.*, all sixteen except perfect-conduct-preventing four passions), common and female (sexes), ennui, sorrow, and the sub-human eleven (*i. e.*, sub-human condition and migratory form, four genus from one-to-four-sensed, hot-light, cold-light, immobile, fine-body and common), among these thirty (there are) four (kinds of) transference, (that is, all five) except Udvelana. Sleep, drowsiness, bad four, colour, (smell, taste and touch), and self-destructive, among these seven, (there are two kinds of transference, Guṇa Sankramaṇa, and Adhah-Pravritta. Pain (feeling), awkward-movement, the ten (*i. e.*, five kinds of) bones, (excepting the first, and five kinds of) figure, (excepting the first), low (family), undevelopable, the six unsteady (ugly, unprepossessing, harsh-voice, unimpressive, and notoriety), among these twenty, there are three kinds of transference, Vidhyāta, Adhah Pravritta and Guṇa (Sankramaṇa). And in wrong-belief (sub-class there are also three kinds of transference *i. e.*) Vidhyāta, Guṇa, and Sarva. And in clouded-right-belief (there are four kinds of transference *i. e.*, all five) except Vidhyāta.

424-425. Among (twelve sub-classes of) Udvelana, *i. e.* all thirteen) except clouded-right-belief, (namely assimilative body, and, limbs, mixed-right-and-wrong-belief, celestial condition and migratory form, hellish condition and migratory form, fluid body, and limbs, high family, human condition and migratory form), there are all the five (kinds of) transference. Three perfect-conduct-preventing (passions *i. e.*, all four except greed), and masculine (sex), (among these four, there are two kinds of transference *i. e.*,) Adhah-Pravritta and Sarva. The two physical (body-and-limbs), adamantine (the first kind of bone), and Tirthankara, (among these four there are two kinds of transference), Vidhyāta and Adhah-Pravritta. Laughter, indulgence, fear, and disgust, (among these four, there are three kinds of transference) Adhah Pravritta, Guṇa and Sarva.

Commentary.

There are 148 sub-classes of 8 Karmas, out of which 122 are counted among the operative sub-classes, Five kinds of molecular bondage, and 5 kinds of interfusion, have been included in five kinds of bodies, while twenty kinds of colour etc., are counted as four only. $10 + 16 = 26$ being thus excluded from 148, 122 only are left. All five kinds of transference occurring among 122 sub-classes are detailed in verses 419 to 425.

The number of sub-classes enumerated in these verses comes to $39 + 30 + 7 + 20 + 1 + 1 + 12 + 4 + 4 + 4 = 122$. It should be noted that they do not include four age Karmas, because transference of matter of one age Karma to another is not possible, as only one kind of age Karma is operative at a time, (*vide* Gatha 410); but four sub-classes of colour etc., have been counted twice, because they are both good and bad; thus although 118 sub-classes are mentioned in the five kinds of transference, yet they really come upto 122, as the 4 colour etc., are to be counted twice, as good and bad.

427-428. One hundred and twenty-one sub-classes (*i. e.*, all the 122) except wrong-belief, belong to Adhah Pravritta (transference). Subtracting (47, from 122 *viz.*) thirty-nine, beginning from (the fourteen of which there is) bondage-cessation in slightest delusion stage, physical two (body and limbs), Tirthankara, adamantine (bones), masculine (sex), the three (passions) perfect-right-conduct-deluding (*i. e.*, anger, pride and deceit), the remaining number of seventy-five sub-classes belong to Guṇa transference. Thus should be known the rule of sub-classes.

Commentary.

Transference, thus, works as follows :—

39	sub-classes	have	only	Adhah Pravritta.
30	Adhah.	Vidhyāta, Guṇa and Sarva.
7	Guṇa	and Adhah.
20	Vidhyāta,	Adhah and Guṇa.
1	has	Vidhyāta,	Guṇa and Sarva.
1	Udvelanā,	Adhah, Guṇa and Sarva.

12 sub-classes have Udvelana Vidhyāta, Adhah, Guṇa and Sarva.

4 „ „ „ Adhah and Sarva.

4 „ „ „ Adhah and Vidhyāta.

4 „ „ „ Adhah, Guṇa and Sarva.

Among all these, the highest number of sub-classes belong to Adhah, Guṇa and Vidhyāta kinds of transference.

Adhah has $39+30+7+20+1+12+4+4+4=121$.

Guṇa has $30+7+20+1+1+12+4=75$.

Vidhyata has $30+20+1+12+4=67$.

Udvelana sub-classes are only 13, as said in Gatha 415, while Sarva covers $30+1+1+12+4+4=52$ sub-classes *vide* Gatha 417.

The following chart will be found useful.

429. The duration and fruition bondage takes place as a rule till (the 10th stage of) slightest (delusion), so there is transference of matter in bondage till that slightest delusion only.

Commentary.

Duration and fruition are caused by passionate thought-activity. Passions cease to operate beyond the 10th stage of slightest delusion, and therefore Karmic matter can not have these two kinds of bondage beyond that stage. Though pleasure-feeling Karmic matter is attracted towards the soul in the eleventh, twelfth and thirteenth stages owing to the soul's vibrations, it has only the remaining two bondages i.e., of kind and quantity, Prakriti and Pradesha.

Transference of one sub-class of Karmic matter to that of any other sub-class is possible only through passions, mild or strong. In the total absence of passions there is no transference of Karmic matter beyond the 10th stage.

430-435. Sarva-bhágáhàra, (Sarva Division). (in Sarva Sankramana is by) one Guṇa (division), (in Guṇa Sankramana is by innumerable times of Sarva which is equal to) innumerable part of Palya Ardhachhedas. Innumerable fold of this is Utkarshana and Apakarshana (division). (Its innumerable fold is) the Adhah Pravritta division in (Adhah Sankramana). Innumerable fold of this, is the multiplier in vibratory (division). (Innumerable fold of this, is the number) of Shalákás of Náná Guṇa Háni (in duration of Karmas). (Thus each one) is innumerable fold (of the former) respectively. (The number of) Ardhachhedas of Palya (is the above), increased by (the number of) Ardhachhedas of Palya Varga Shaláká. The first square root of Palya and (the instants of) one Guṇa Hani (in duration of Karmas) (are each) innumerable fold (of the former) respectively. Annyonyá-bhyasta Ráshi (in duration of Karmas) and Palya itself (are each) innumerable fold (of the former) respectively.

Its numerable fold is the maximum duration of Karmas. (Its innumerable fold is) Vidhyáta (division) (in Vidhyáta Sankramana, which is equal to) innumerable part of Suchi-Angula. Its innumerable fold is Udvelaná (division in Udvelaná Sankramana). Its infinite fold is Náná Guṇa Hāni Shaláká in fruition (of Karmas). Its infinite fold (is) one Guṇa Hāni Áyama (in that duration). One and a half of such Guṇa Hāni Áyama is (the above) increased (by half of itself). (Number of) Nishekáhára or two Guṇa Hāni Áyama (is the above increased by half of that Guṇa Hāni Áyama). Infinitfold of that is Annyonyá bhyasta Rāshi (of that duration.) (Such is) the order.

Commentary.

Here is set forth the quantity in the five kinds of transference, which takes place according to their respective divisions, increasing in the order given below :—

1. Sarva division.
2. Guṇa division.
3. Utkarshana and Apakarshana divisions.
4. Adhah Pravritta division.
5. Multiplier in Vibratory divisions i. e., Yoga Guṇakara.
6. Náná Guṇa Hāni Shaláká in duration of Karmas.
7. Number of Ardha-Chhedas in a Palya.
8. First Square root of Palya.
9. Guṇa Hāni in Duration.
10. Annyonyá bhyasta Rāshi in Duration.
11. Palya.
12. Maximum duration of Karmas.
13. Vidhyáta division (in Vidhyáta Sankramana).
14. Udvelaná division (in Udvelaná Sankramana).
15. Náná Guṇa Hāni Shaláká in Duration.
16. Náná Guṇa Hāni Áyama in duration.
17. One and half of that Guṇa Hāni.
18. Nishekáhára.
19. Annyonyá bhyasta Rāshi of Duration.

Thus it will be seen that Sarva Bhágáhára division is taken as one. It means that the karmic matter which remains in the last part of the last section of the duration of a Karma, will be divided by one and the result, i. e., the same number of Karmic molecules

will be transferred to another sub-class. This is called Sarva transference. Guṇa division comes next. Its number is innumerable fold of Sarva. The number of Karmic molecules in any sub-class in Guṇa Saṅkramaṇa will be divided by Guṇa division. The result will be the number of molecules to be transferred to another sub-class in the first instant of the fixed time of this Saṅkramaṇa. Then at each successive instant, the innumerable fold of its former will continue to be transferred till the last instant of its duration. This is called Guṇa Saṅkramaṇa

The third Adhah Pravritta division comes in the fourth order. Karmic matter of any sub-class in Adhah Pravritta being divided by Adhah Pravritta division, the result will be transferred to another sub-class. The fourth Vidhyāta division comes in the 13th order. Karmic matter of any sub-class of Vidhyāta being divided by Vidhyāta division, the result will be transferred to another sub-class. The fifth Udvelanā division is fourteenth in order. Karmic matter of any Udvelanā sub-class being divided by Udvelana division, the result will be transferred to another sub-class.

Utkarshana means an increase in number or quantity.

Apakarshana means decrease in number or quantity.

437. There are (ten) modes (or Karāṇa) affecting each sub-class of Karma :

1. Bondage (Bandha).
2. Increase* (Utkarshāṇa).
3. Transference (Sankramāṇa),
4. Decrease (Apakarshāṇa).
5. Premature operation (Udirnā).
6. Existence (Sattā).
7. Operation (Udaya).
8. Subsidence (Upashama)
9. Nidhatti.
10. Nihkāchanā or Nihkachita.

438. Connection with Karmic molecules is Bondage (Bandha), increment (of duration or fruition of Karmas already bound is) Increase (Utkarshāṇa), change (of Karmic matter of one sub-class into another (is) Transference (Sankrama or Sankarmanā), diminution (of duration or fruition in Karmas already bound is) termed Decrease (Apakarshāṇa).

439. Putting (Karmic molecules) which are beyond (the time of operation) into operation (by decreasing their duration is) Premature operation (Udiraṇā). Remaining of (Karmic molecules, in an un-operative condition is) Existence (Sattva, or Sattā). Coming into fruition (of karmic molecules) in their own time is said to be Operation (Udaya).

440. Those Karmic molecules which cannot come into Operation, into Transference and Operation, or even into (any of the) four (conditions of Operation, Transference, Increase or Decrease of duration and fruition) are respectively (said to be in) Subsidence (Upashama), Nidhatti and Nihkachita.

Commentary.

Difference between Upashama, Nidhatti ; and Nihkachita is this. In Upashama, Karmic molecules are prevented from Operation, for a limited time although the time for their operation has arrived ; they are made to subside for that period. During this time of subsidence they may have transference, increase or decrease of duration and fruition. In Nidhatti, they are neither brought into operation prematurely, nor transferred into that of another subclass, but they may have increase or decrease of duration and fruition. In Nihkachita, they do not operate prematurely nor are transferred, nor can they increase or decrease their duration and fruition.

441. All (the four kinds of) Age-Karma have only nine Karaṇas, excepting the Mode of transference. The rest (of the Karmas have) ten Karaṇas.

These ten modes (are possible) till (the 8th stage of) New Thought-activity (or Apūrva Karana).

Commentary.

It has been said before that matter of any age-Karma can not be transferred into that of another ; therefore Age-Karma can have only the other nine Karanas. All the other 144 sub-classes may have all, the ten modes. Souls in stages from 'wrong-belief to that of New-thought-activity may have all the ten Karanas.

444. Modes of Bondage and Increase (in sub-classes) are applicable, as a rule, upto (the stages where they have) their respective bondage: while the mode of transference applies upto (the stages where) respective (sub-classes) of their kind are bound.

Commentary.

A sub-class of a Karma will not be bound beyond the stage of its bondage-cessation (Bandha Vyuchhitti). For example wrong-belief sub-class of deluding Karma is only bound in wrong-belief stage, at the end of which it ceases to bind. It will not be bound beyond this first stage; nor will there be increase of duration and fruition in the matter of wrong-belief Karma beyond the first stage.

Knowledge-obscuring Karma is of five kinds. These five Karmas are of the same class. They are bound till the 10th stage. The transference of matter from one sub-class to another of the same class will also take place till the 10th stage.

445. And the mode of Decrease (of duration and fruition of (eighty-five sub-classes) which are in existence in the (14th stage of) non-vibrating (perfect soul is possible) till the last instant (of the 13th stage of) vibrating (perfect soul). (Sixteen sub-classes, such as sensitive-knowledge-obscuring Karma, and one sub-class of greed), which are destroyed (respectively) in (the stage of) Delusionless, (the 12th), and Slightest (delusion, the 10th, have the mode of decrease) till their Place of Destruction (Kshaya Desha) which lasts for one Āvali and one instant.

Commentary.

85 sub-classes, out of 143, remain in existence till the last two instants of the 14th stage. Decrease of their duration and fruition

till their Place of Destruction which is called Kshaya Desha. It lasts for one Avali and one instant. It is a rule that those sub-classes which are changed into other sub-classes at the time of destruction, *i. e.*, which are operative in the form of another sub-class at the time of destruction, and are therefore called Paramukhodaya, have their Kshaya Desha in the last part or Pháli of the last section or Kánda of their destructive stage. While those sub-classes which are destroyed when operative in their own form, and are therefore called Svamukhodaya, have Kshaya Desha for one Avali and one instant. This applies to the 17 sub-classes mentioned above.

446. (Mode of Decrease in the Karmic matter of) celestial age (Karma is possible), till (the 11th stage of) Subsid-
ed (delusion); (while in the matter) of the three, wrong-belief
(mixed and clouded-right-belief Karmas), and sixteen (sub-
classes which are destroyed at the end of the first part of the
9th stage of) destructive (ladder, *i. e.*, pairs of hellish and
sub-human migratory forms, 3 genus from 2-to-4 sensed,
somniaambulism, deep-sleep, and heavy-drowsiness, cold-light,
and hot-light, one-sensed, common, fine, immobile, *vide* Gatha
388 Karma Kānda Volume VI of the Sacred Books of the
Jainas, page 210 211) (it is possible) up to their (respective)
place of destruction and in the twenty (sub-classes), eight
(middle) passions etc., (*i. e.*, four partial and four total-vow-
preventing passions, common and feminine inclination, six
minor passions, laughter etc., male inclination, anger, pride,
and deceit which are destroyed in parts 2nd to 9th of the
9th stage of) destructive (ladder) also, it is possible up to their
place of destruction.

Commentary.

Decrease of duration or fruition of celestial age-Karma is possi-
ble till the 11th stage, according to strong or mild pure thought

activity of the soul. Decrease of duration and fruition of three sub-classes of right-belief deluding Karma is possible till their place of destruction, in any of the stages from the 4th to 7th, while Decrease of the 16 sub-classes is possible up to their place of destruction in the first part of the 9th stage. Kshaya Desha of these nineteen sub-classes continues till the last part of the last section of its time. The other 20 sub-classes have 'Decrease' till their respective Kshaya Desha which coincides with the time of their destruction in the 9th stage, during its parts 2nd to 9th.

Commentary.

Up to the 8th stage, Karmic matter which has been brought under subsidence for a certain time, can not be put into operation before such time has expired. Similarly Karmic matter of Nidhatti-karaṇa cannot be brought into operation, nor can it be transferred till the 8th stage.

In the same way, matter of Nihkachita Karaṇa cannot be brought to operate, nor transferred, nor its duration and fruition increased and decreased till the 8th stage.

451. Having bowed to Nemintha (the 22nd Tirthankara), whose feet were adored by Satya Yudhishtira, (the first of the five Pandavas), I shall describe the place (sthāna) concerning bondage, operation and existence (of Karmas).

Commentary.

The word Sthāna, translated as place, denotes the aggregate number of classes or sub-classes, in bondage, operation, or existence, at a time, in a soul.

The question whether the classes or sub-classes are bound, operative, or existing, in ordered succession or otherwise will also be discussed in this chapter.

452. During six (stages first to the 7th, except the 8th, souls) bind seven classes of Karmas, (when age-Karma is not bound), as well as eight-classes (when age Karma is bound); but only seven classes (excepting age-Karma) during three (stages i. e., 8th of mixed-belief, the 9th and 10th, of new and advanced thought-activity); six classes (excepting age and deluding Karma) in one stage, (the 11th of slightest delusion); and only one (feeling Karma) during three (stages, the 12th, 13th and 14th of subsided delusion, delu-

sionless, and vibrating-perfect-soul). There is no bondage (of any Karma) in one (the last stage of non-vibrating perfect soul).

453. Of the main classes (of Karmas) there are respectively four, three, three, and four class-places (Prakriti sthāna), Increasing (places) (Bhujákāra), Decreasing (places) (Alpatara) and steady (places Avasthita).

Commentary.

The variety in the number of Karmas bound at a time in the 14 spiritual stages, has been discussed in verses 452 and 453, and different names are given to this variety, looked at from different points of view.

1 In 6 spiritual stages, from the 1st to the 7th, excepting the 3rd, a soul binds seven classes of Karmas when age Karma is not bound, and all the eight, when age Karma is bound. Age Karma is bound only on 8 occasions in a life as stated elsewhere (See Gom-matsara Jiva Kanda).

2. In the 3rd, 8th and 9th stages it binds only seven, excluding age Karma, which can not bound in these stages.

3. In the 10th it binds 6 classes, excluding Age and Deluding Karma.

4. In the 11th, 12th, and 13th it binds only one, the Feeling Karma.

Bondage of Karmas may again be viewed as Bhujákāra, Increasing, when the numbers bound begin to increase, as would happen when a soul begins to descend from the 11th, where it binds only one, the Feeling Karma.

This increase is of three sorts ?

(1) to 6, in the 10th

(2) to 7 in the 9th, 8th, and 3rd and

(3) to 8 in the other stages.

When the soul progresses upwards, the bondage decrease, and the Decreasing places Alpatara are also three.

- (1) to 7 in the 3rd, 8th and 9th stages,
- (2) to 6 in the 10th,
- (3) to 1 in the 11th and onwards.

When the soul remains steady, Avasthita, binding the same number in every instant, there are 4 such Places ; with reference to spiritual stages :—

- (1) In the 1st to 7th except the 3rd stage, where it binds 7 or 8 Karma, just as Age Karma is not bound or bound.
- (2) In the 3rd, 8th and 9th stage, where it binds 7.
- (3) In the 10th, where it binds 6.
- (4) In the 11th, where it binds only 1.

Whether ascending from 8th to the 11th, or descending from 11th to 8th, the ascent, or descent, must be gradual and no leaping over an intermediate stage is possible, and hence the Increasing and Decreasing Places must stand as described above.

There is also a kind of bondage called Indescribable or Avak-tavya, where a soul may not bind any Karma at a stage, but may bind some in the next. This happens only with reference to sub-classes of Karmas.

454. (There is) operation of eight (classes) till (the 10th stage of) slightest (delusion), (of seven) leaving deluding (Karmas) in (the 11th and 12th stages of) subsided (delusion and delusionless. As a rule (there is) operation of the four non-destructive (Karmas only) in the two (vibrating and non-vibrating) perfect souls.

455. Souls with imperfect knowledge (Chhadmasthah) have premature operation of (the four) destructive (Karmas), those with attachment have premature operation of the deluding Karma. Pramatta souls (namely those up to sixth stage of imperfect vows, have premature operation) of the third (i. e., feeling Karma) and age Karma. And souls with vibrations have (premature operation) of the two (i. e., the body-making and family Karmas).

Commentary.

Udirna or premature operation of deluding Karmas lasts up to the 10th stage; of the remaining three destructive Karmas, till the 12th stage, of Feeling and Age Karma till the 6th stage, and of Body-making and Family Karmas till the 13th stage of vibrating perfect soul.

456. Seven, five, and two (classes of Karmas) have premature-operation, respectively, till the (7th stage of) perfect vows excepting the (3rd) mixed stage; in (the 10th stage of) slightest (delusion) and in (the 12th stage of) delusionless (so long as) one avalī (time) remains in (extinction of) the age Karma (already in fruition).

Commentary.

There is premature operation of knowledge-obscuring, conation-obscuring, feeling, deluding, body-making, family and obstructive Karmas, in the stages of wrong-belief, partial-vows, imperfect vows, and perfect vows; of knowledge-obscuring, conation-obscuring, body-making, family, and obstructive Karmas in the 10th stage of slightest delusion, and of body-making and family Karmas in the 12th, delusionless stage. It ceases when one Avalī remains in the completion of Age-Karma.

457. (There is) existence of (all the) eight (Karmas) till (the 11th stage of) subsided delusion ; only seven (*i. e.*, all excepting the deluding Karma) have existence in (the 12th stage of) delusionless ; while only four (non-destructive Karmas) have existence in (the 13th and 14th stages of) vibrating and non-vibrating (perfect souls).

458. (There are) three, ten and eight (bondage-places respectively) in the conation-obscuring, deluding and body-making Karmas), the Increasing (Bhujākāra places) occurring only in them ; there is only one place in (each of) the remaining (five Karmas).

Commentary.

As five sub-classes of Knowledge-obscuring Karma and five sub-classes of Obstructive Karma are bound without any variation, therefore each of these two Karmas has only one bondage-place. There are two sub-classes of family Karma and two of the feeling Karma and four of the age Karma. As only one sub-class of each of these three Karmas is bound at a time, therefore each of them has only one place. Conation-obscuring Karma has nine sub-classes. They are bound in three variations, therefore there are three bondage places in it. Deluding Karma has twenty-eight sub-classes which are bound in ten variations and has therefore 10 places. Body making Karma has ninety-three sub-classes which are bound in eight variations, therefore they have eight places.

459. (Three) bondage-places of the second (conation) obscuring (karma contain) nine, six and four (sub-classes respectively). Therein should be known the Increasing, Decreasing, Steady, and also (the Indescribable places.)

Commentary.

Conation-obscuring Karma has nine sub-classes. At one place all the nine can be bound simultaneously. At the second place, excepting three kinds of sleep Karma, i. e., somnambulism, heavy-drowsiness and deep sleep, only six are bound together ; at the third place, leaving all five sub-classes of sleep, only four are bound at a time.

There are two increasing or Bhujákára bondages :—

(1). A soul descending from 11th stage of subsidential ladder, and coming down to the 2nd part of the 8th stage, binds the first four sub-classes of conation-obscuring, and then going down to the first part of that stage, it binds only six sub-classes.

(2). A soul which binds six in the 6th, 5th and 4th stage, binds all the nine sub-classes when it goes down to the second or first stage.

There are two Decreasing (Alpatara) bondage-places also—

(1) A soul in wrong belief stage binds all nine sub-classes. When it faces First-Subsidential-Right-Belief and ascends directly to the 4th, 5th, or 7th stage it binds six only.

(2) A soul in the 1st part of the 8th stage on subsidential or destructive ladder, binds six sub-classes. On ascending to 6th part of the same stage it binds only four.

There are three steady, Avasthita, bondage places :—

1. When there is steady bondage of nine in wrong belief and downfall stages (2) of six from third to 1st part of 8th stage, and (3) of only four from 2nd part of 8th to the 10th stage.

There are two Indescribable (or Avaktavya) bondage-places:—

(1). A soul in 11th stage of subsidential ladder does not bind any conation-obscuring Karma. Coming down to the 10th it binds the first four sub-classes.

(2) A saint dying in the 11th stage reaches the 4th stage and celestial condition, when it binds six sub-classes.

460 There is bondage of nine (sub-classes of conation-obscuring Karma) till the downfall (stage), of only six till the 1st part of (8th) new-thought-activity, and then of four only till the last (instant of the 10th stage of) slightest delusion.

461. There is operation of the (1st) four (sub-classes of conation-obscuring Karma) till (the 12th stage of) delusionless. (This is so while awake). (While asleep), (there is further) operation of one out of five sleeps (up to 6th stage); and of (one) out of two (sleeps) (from the 7th) to the last but one instant of the delusionless (stage). Thus (there is) operation of five (sub-classes altogether).

Commentary.

When a person is awake, only the first four conation-obscuring classes are in operation till the last instant of the 12th stage.

A person in sleep will have besides these four, the operation of any one of the five kinds of sleep till the 6th stage. From the 7th to the last but one instant of the 12th stage however, either drowsiness or sleep, only, will operate along with the first four sub-classes.

464. (In each place the number of) sexes being multiplied by (the number of) the pairs gives the (number of) Combinations (Bhangas) in that (place).

467. (There are) six Combinations (Bhangas) in Bondage place of twenty-two (sub-classes of Deluding (Karma), four in twenty-one, two (in each, up to those which appertain to stages) till the 6th; thereafter only one.

Commentary.

Taking the wrong belief stage the bondage-place in respect of Deluding Karma, is of 22 sub-classes. Out of which 19, namely, wrong belief, 16 passions, and fear and disgust are of continuous bondage. All the three sex Karmas can be bound here; but at a time, only one is bound. Adding one of the three sexes, which can be bound here, and one of the two pairs of laughter and sorrow, indulgence, and ennui, 22 sub-classes are bound altogether. Owing to the varying combinations of the three sexes, and the two pairs, there will be six Combinations of the bondage of 22 sub-classes.

Thus a soul may bind :—

- (1) 19 + male sex + laughter + indulgence.
- (2) 19 + female sex + laughter + indulgence.
- (3) 19 + common sex + laughter + indulgence.
- (4) 19 + male sex + sorrow + ennui.
- (5) 19 + female sex + sorrow + ennui.
- (6) 19 + common sex + sorrow + ennui.

In the downfall stage, 16 passions and fear and disgust, 18 in all are of constant bondage. Adding to these either the male or the female sex, and one of each of the 2 pairs aforesaid there will be a bondage of 21 sub-classes. These will be bound in four Combinations. In the mixed stage, 12 passions, excluding the four error-feeding ones, fear and disgust, 14 in all are of constant bondage. Only the male sex is boundable here, and adding one from each of two pairs, we have bondage of 17 sub-classes at a time, and in 2 Combinations. In the 4th stage the bondage is similar to that in the 3rd. In the fifth stage only 8 passions excluding partial vow-preventing, also, fear and disgust, 10 in all are of constant bondage. Only the male sex is bound; and adding one out of each of the two pairs, we have 13 sub-classes which are bound at a time and in two Combinations.

In the sixth stage, six only are of constant bondage, *vis.*, the four perfect-conduct-preventing-passions and fear and disgust. The male sex only is bound. Adding one from each of the two pairs, we have bondage of 9 at a time, and in 2 Combinations. Hereafter bondage of sorrow and ennui ceases. In the 7th and 8th stages there is constant bondage of six as above. Adding male sex, laughter and indulgence, we have bondage of 9 at a time, and there is only one Combination. At the end of the 8th stage, indulgence, laughter, fear and disgust also cease to bind. In the first part of the 9th stage

we have a bondage of 4 passions and the male sex. In the second part only the four passions are bound. In the 3rd part only 3 passions excluding anger, and in the 4th only 2 passions excluding pride also, and in the 5th, only greed is bound. It is obvious that in each of the five parts there is only one Combination.

The result may be tabulated as below :—

Table No. 3 showing number of places with their combinations.

Serial No. of places.	Stage.	No. of Sub-classes bound.	No. of combination.
1	Wrong belief	22	6
2	Downfall	21	4
3	Mixed	17	2
4	Vowless	17	2
5	Partial vows	13	2
6	Imperfect vows	9	2
7	Perfect vows	9	1
8	New Thought Activity	9	1
9	Advanced thought activity 1st part ...	5	1
10	" " 2nd part ...	4	1
11	" " 3rd part ...	3	1
12	" " 4th part ...	2	1
13	" " 5th part ...	1	1
13			25

Thus the total number of places is 13 and of Combinations 25.

This is quite consistent with verse 467, where the number of bondage places is described as 10. It should be observed that there are two bondage places containing 17, and 3 containing 9 sub-classes, and hence actually there are only 10 different places.

470. Generally, Indescribable (Avaktavya bondage place) is one, when descending (from the subsidential ladder), and also one at (time of) death there (i. e., in the subsidential ladder); while (there are) only two steady (bondage) places.

Commentary.

The four kinds of bondage places in respect of deluding Karma are explained in verses 469 and 470. The twenty Increasing bondage places are detailed below :—

(1) There are two Increasing places when (a) one sub-class of greed passion only is bound in the 5th part of the 9th stage, descending from there to 4th part, there is bondage of two, greed and deceit.

The soul of a saint (*b*) dying in that stage reaches the 4th stage in celestial condition where it binds 17 sub-classes of deluding Karma.

(2). (*a*) A soul binding two in the 4th part of the 9th stage descends to the 3rd part where it binds three, pride, along with greed and deceit and (*b*) when dying and reaching 4th stage, it binds 17.

(3) (*a*) A soul binding three in the 3rd part of 9th stage descends to the 2nd part, and binds four *viz.*, anger also, (*b*) when dying and coming to 4th stage, it binds 17.

(4) (*a*) A soul binding four passions in 2nd part of 9th stage, descends to 1st part and binds five, (the above four and male sex); (*b*) when dying and coming to the 4th stage it binds 17.

(5) (*a*) A soul binding five in the first part of the 9th stage descends to the 8th and binds nine, the above five and laughter and indulgence, fear and disgust; (*b*) when dying and coming to 4th stage it binds 17.

(6) (*a*) A soul binding nine in 8th, 7th, and 6th stages, descends to the 5th and binds thirteen, the four total vow preventing passions being added on; (*b*) when dying and coming to the 4th, or otherwise descending to the 4th it binds 17; (*c*) a soul which has First-Subsidential-Right-Belief and binds nine, descends at once to the second downfall stage and binds 21; (*d*) a soul which has First-Subsidential-Right-belief binding nine descends at once to the first stage of wrong-belief, and binds 22.

(7) (*a*) A soul in the 5th stage binding 13 comes to the 4th, when living or at death and binds 17, (*b*) with First-Subsidential-Right-Belief, it descends to 2nd stage from the 5th and binds 21; (*c*) with Destructive-Subsidential or First-Subsidential-Right-Belief it descends to the wrong belief stage, and binds 22.

(8) (*a*) A soul with First-Subsidential Right-Belief in the 4th stage binding 17 sub-classes, descends to 2nd stage and binds 21; (*b*) the same and also the soul with Destructive Subsidential-Right belief, binding 17 in 3rd stage of mixed belief, comes down to the 1st wrong belief stage and binds 22.

(9) A soul, binding 21 in the downfall stage comes down to wrong-belief, and binds 22.

There are thus $2 + 2 + 2 + 2 + 2 + 4 + 3 + 2 + 1 = 20$. Increasing places as shown above.

To consider the 11 Decreasing places :—

(1) A soul in Wrong-Belief stage binding 22 sub-classes of Deluding Karma, ascends to the 4th, 5th or 7th stage, at once, and then binds 17, 13 or 9 sub-classes respectively. Thus there are 3 decreasing places when ascending from the place of 22.

(2) A soul, as a Destructive-Subsidential, or Destructive. Right-Believer, binding 17 in 4th stage, ascends to 5th or 7th stage at once, and binds 13 or 9 respectively. Thus there are 2 decreasing places from the place of 17.

(3) A soul in the 5th stage, binding 13, ascends to 7th and binds 9.

(4) A soul in the 7th, binding 9, ascends to 8th, or to the 1st part of the 9th, and binds 5 only.

(5) A soul in 1st part of 9th, binding 5, ascends to the 2nd part, and binds 4.

(6) A soul in 2nd part of the 9th binding 4, ascends to the 3rd part and binds 3.

(7) A soul in 3rd part binding 3, ascends to 4th part and binds 2 only.

(8) A soul in 4th part binding 2, ascends to 5th part of 9th, and binds one only.

There is one decreasing place in each of cases 3, 4, 5, 6, 7 and 8.

Thus there are $3 + 2 + 1 + 1 + 1 + 1 + 1 + 1 = 11$ Decreasing-Bondage-places.

The Indescribable Bondage-places are two. A soul in the 10th or 11th stage of Subsidential ladder not binding any deluding Karma, comes down to 5th part of 9th and binds one, or it dies in that stage and comes to 4th stage and binds 17.

Adding together the 20 Increasing, 11 Decreasing and 2 Indescribable Bondage-places, we get 33 in all.

When a soul stays in any of these 33 places, it binds the same number of Karmas at every instant during the period of such stay, and thus there are 33 Steady Bondage-places as described in verse 468 above.

471. In detail (there are in deluding Karma) one hundred and twenty-seven, forty-five, and one-hundred and seventy-five Increasing, Decreasing and Steady Bondage places (respectively.)

472. The (special) Increasing (bondage-places in deluding Karma) in Wrong Belief etc., (stages are respectively) zero, twenty-four, twelve, twenty, twenty-four, twenty-eight, two and two (till the 8th stage); while three in each (of the) five parts of the Sthoola (9th stage of Advanced-Thought-Activity).

Commentary.

This may be discussed in detail as below :—

(1) A soul in Downfall stage, binding 21 sub-classes of deluding Karma, in four combinations, descends to Wrong-Belief and binds 22 classes in 6 Combinations. Thus there are $6 \times 4 = 24$ Increasing Bondage-places.

(2) A soul in Mixed stage binding 17 in 2 combinations, descends to Wrong-Belief stage and binds 22 in 6 combinations. Thus there are $6 \times 2 = 12$ Increasing places.

(3) A soul in Vowless stage binding 17 in 2 combination, when coming down to downfall stage, binds 21 in 4 combinations, or coming to Wrong-Belief binds 22 in 6 combinations. Thus there are $4 \times 2 + 6 \times 2 = 20$ Increasing places.

(4) A soul in Partial-vow-stage, binding 13, in two combinations descends, while living or at time of death, to the 4th or to Mixed stage and binds 17 in every case, in two combinations; or comes back to Downfall stage and binds 21, in 4 combinations; or descends

at once to Wrong-Belief stage, and binds 22, in 6 combinations. Thus there are $2 \times 2 + 4 \times 2 + 6 \times 2 = 24$ Increasing places.

(5) A soul in Imperfect-vow stage, binding 9, in 2 combinations, descends, to 5th stage, and binds 13, in 2 combinations; or comes back to the 4th, or 3rd stage, and binds 17 in 2 combinations, or goes back at once to Downfall stage, and binds 21, in 4 combinations; or even returns to Wrong-Belief stage and binds 22 in 6 combinations. Thus there are $2 \times 2 + 2 \times 2 + 4 \times 2 + 6 \times 2 = 28$ Increasing places.

(6) A soul in Perfect-vow stage, binding 9, goes down to 4th at death, and binds 17, in 2 combinations. Thus there are only 2 Increasing places. When it goes down to 6th stage, it binds the same number, and there is no Increasing place there.

(7) A soul in New-Thought-Activity, binding 9, descends to 7th and binds 9 only. Here is no Increasing place. When it dies it comes to 4th stage, and binds 17, in 2 combinations. Thus there are 2 Increasing places.

(8) A soul in 1st part of 9th stage, binding 5, comes down to 8th stage, and binds 9, or dies and goes to 4th stage, and binds 17, in 2 combinations. Thus there are 3 Increasing places.

(9) A soul in 2nd part of 9th, binding 4, comes down to its 1st part, and binds 5, or dies and goes to 4th stage and binds 17, in 2 combinations. Thus there are 3 Increasing places.

(10) A soul in 3rd part of 9th, binding 3, comes down to its 2nd part, and binds 4; or dies and goes to 4th, and binds 17 in 2 combinations. Thus there are 3 Increasing places.

(11) A soul in the 4th part of 9th, binding 2, comes down to its 3rd part, and binds 3, or dies and binds 17, in 2 combinations in 4th stage. Thus there are, 3 Increasing places.

(12) A soul in the 5th part of 9th, binding 1, comes down to 4th part, and binds 2, or dies and binds 17, in 2 combinations, in 4th stage. Thus there are also 3 Increasing places. All these added together will come to 127, thus :—

Stage—I, II, III, IV, V, VI, VII, VIII, $\frac{IX}{1}$, $\frac{IX}{2}$, $\frac{IX}{3}$, $\frac{IX}{4}$, $\frac{IX}{5}$.

Place— $0 + 24 + 12 + 20 + 24 + 28 + 2 + 2 + 3 + 3 + 3 + 3 + 3 = 127$.

अप्पदरा पुण तीसं एव एव छद्दोणिण दोणिण एव एकं ।

थूले पणगादीणं एकेकं अन्तिमे सुणं ॥ ४७३ ॥

अरुपतराः पुनः त्रिंशत् नभो नभः षट् द्वौ द्वौ नभ एकः ।

स्थूले पञ्चकादीनामेकैकः अन्तिमे शून्यम् ॥ ४७३ ॥

473. And the Decreasing (Alpatara bondage places are) thirty, zero, and one (respectively in each of the first eight spiritual stages); one each (in first four out of) five parts of the Sthoola (the 9th stage) and zero in the last (part of the 9th).

Commentary.

(1) A soul in Wrong-Belief stage, binding 22 sub-classes of deluding Karmas in six combinations, going to 3rd or 4th stage, binds 17 in two combinations; or at once ascends to 5th stage of Partial vows, and binds 13, in two combinations, or even goes direct to the 7th stage of Perfect Vows, and binds 9, in one combination. Thus there are $6 \times 2 + 6 \times 2 + 6 \times 1 = 30$ Decreasing places, in Wrong-Belief stage.

(2) There is no Decreasing place in Downfall stage, because the soul always comes down to Wrong-Belief, and binds a greater number of sub-classes.

(3) Similarly, there is no Decreasing place in Mixed stage, as a soul in this will either come down to Wrong-Belief stage, where it binds more deluding Karmas or will only go up to 4th, where it binds the same number of deluding sub-classes. which it bound in the Mixed stage.

4. A soul in Vowless stage, binding 17, in 2 combinations going to the 5th, binds 13, in 2 combinations, or ascending at once to 7th, binds 9, in one combination. Thus there are $2 \times 2 + 2 \times 1 = 6$ Decreasing places.

(5) A soul in the 5th stage, binding 13, in 2 combinations, goes to 7th, and binds 9, in one combination. Thus there are $2 \times 1 = 2$ Decreasing places.

(6) A soul in the 6th stage, binding 9, in 2 combinations, goes to 7th, and binds 9. Thus there are $2 \times 1 = 2$ Decreasing places.

(7) A soul in 7th stage going to the 8th, binds the same number of deluding Karmas; so there is no Decreasing place.

- (8) A soul in 8th, binding 9, goes to 1st part of 9th, and binds 5,
 (9) A soul in 1st part of 9th goes to 2nd part, and binds 4.
 (10) A soul in 2nd part of 9th, goes to 3rd part, and binds 3.
 (11) A soul in 3rd part goes to 4th, and binds 2.
 (12) A soul in 4th part goes to 5th, and binds one.

There is only one Decreasing place in each of the cases (8), (9), (10), (11), (12).

(13) A soul in 5th part of the 9th, goes to 10th stage and binds nil, so there is no Decreasing place, Thus there are $30 + 0 + 0 + 6 + 2 + 2 + 0 + 1 + 1 + 1 + 1 + 1 + 1 + 0 = 45$ Decreasing places in Deluding Karma.

भेदेण अवत्तत्वा ओदरमाणम्मि एक्यं मरणे ।

भेदेन अवक्तव्या अवतरति एको मरणे ।

द्वौ चैव भवत अत्रापि त्रय एव अवस्थिता भङ्गाः ॥ ४७४ ॥

474. In detail, the Indescribable (bondage-place is) one on descending (from 10th stage); but there are two also with reference to death. Here also there are only three Steady combinations.

Commentary.

The Indescribable or Avaktavya Bondage places are three. Thus :—

(1) A soul in 10th stage, not-binding any sub-class of the deluding Karma, comes down to 9th, and binds the Perfect conduct-deluding greed-Karma.

(2) A soul while ascending to 10th stage, not binding any deluding Karma, just dies and comes to 4th stage, and binds 17 sub-classes.

(3) A soul in 10th stage, while descending to 5th, just dies, and comes to 4th stage, and binds 17.

Thus there are 127 Increasing, 45 Decreasing, and 3 Indescribable, aggregating 175 Bondage-places.

At every such place, a soul binds the same number of classes,

for some instants regularly, and therefore there are 175 Steady bondage-places, as described in verse 471.

दस एव अष्ट य सत्त य छप्पण चत्तारि दोणिण एक्कं च ।

दश नवाष्ट च सप्त च षट् पञ्च चत्वारि द्वे एकं च ।

उदयस्थानानि मोहे नव चैव च भवन्ति नियमेन ॥ ४७५ ॥

475. As a rule, there are only nine Operation places (Udaya sthana) in deluding (Karma) of (1) ten, (2) nine, (3) eight, (4) seven, (5) six, (6) five, (7) four, (8) two, and (9) one (sub classes).

476. (At one time operation of) Wrong-belief, and Mixed-right-and-wrong-belief occurs in their own respective spiritual stages ; Clouded-right-belief (operates) only during Destructive-subsidential-right-belief. One (out of four kinds of) passion, one (out of three) sex inclinations, (and one each) of the two pairs (of laughter and sorrow, and indulgence and ennui operate at a time).

Commentary.

There are 28 sub-classes of deluding Karma. Out of them, Wrong-Belief Karma always operates in a soul in the Wrong-Belief stage only. Mixed-right-and-wrong-belief Karma operates in the third, Mixed stage only. Clouded-right-belief-Karma operates along with Destructive subsidential-right-belief which may be present in four stages from the 4th to 7th.

Of the 16 passions, anger, pride, deceit, and greed, each is of four kinds error-feeding, partial-vow-preventing, total-vow-preventing and perfect-conduct-preventing. At a time, any one of the four

main passions, will operate in a soul, either anger or pride or deceit or greed. At a stage where all the four kinds, error-feeding etc., can operate, four kinds of anger or pride or deceit or greed will operate at a time. At a stage, where error-feeding-passions are not operating, only the remaining three kinds (any of the main passions) will operate at a time in a soul. Of the nine minor passions, one sex inclination, out of three, will operate at a time in a soul. Of the pair of laughter and sorrow, one only will operate at a time. Of the pair of indulgence and ennui, only one will operate at a time. The operation of the remaining two, fear and disgust, is discussed in the following verses.

भयसहियं च जुगुच्छासहियं दोर्हिवि जुदं च ठाणाणि ।

मिच्छादिअपुठ्वंते चत्तारि हवंति णियमेण ॥ ४७७ ॥

भयसहितं च जुगुप्सासहितं द्वाभ्यामपि युतं च स्थानानि ।

मिथ्याद्यपूर्वान्ते चत्वारि भवन्ति नियमेन ॥ ४७७ ॥

477. As a rule, there are four (kinds of operation) places (of sub-classes of deluding Karma), (1) with fear only, (2) with disgust only, (3) with both of them, and (4) (without any of them) during, the stages from Wrong-Belief to the end of (the 8th stage of) New-thought-activity.

Commentary.

Fear and disgust operate in three ways, either both together at a time, or only fear, or disgust only. To discuss in detail the operation of sub-classes of Deluding Karma in different stages.

(1) Wrong-Belief stage with operation of error feeding passions.

According to the chart of operation sub-classes given at page 155 of Vol. VI Gommatsara Karma Kanda of the Sacred Books of the Jainas Series, 117 Karma Prakrities generally operate in the first stage. These include only 26 out of the 28 sub-classes of Deluding Karma. Mixed, and Clouded-belief do not operate in this stage. Out of these 26, there will be operation of Wrong-Belief, four kinds of anger, pride, deceit or greed, any one of the three sexes, any one of the two laughter and sorrow, any one of the two indulgence and ennui in four ways, *viz*, (1) with operation of fear and disgust both, (2) with fear only (3) with disgust only, or (4)

without any of the two. Thus in a soul in the above stage, there will be operation of ten, nine or eight sub-classes at a time.

This may, with advantage, be represented in the form of a chart.

Table No. 5 relating to Wrong-Belief with error-feeding passions.

	I	II	III	IV
Fear & Disgust. ...	2	1	1	0

Wrong-Belief ...	1	1	1	1
Number of classes which operate, at one instant.	10	9	9	8
Out of ...	26	25	25	24

As stated in verses 476 and 477, ten sub-classes out of 26, 9 out of 25, and 8 out of 24 will operate at one instant of time as shown in the above chart, and found by adding up vertically the figures in each of the five horizontal columns. The four vertical columns show that these sub-classes, in each of the 4 groups indicated by Roman figures, will have not only four but many more different combinations, because of the operation of one of the four passions, one of the three sexes, and Laughter and Indulgence, or Sorrow and Ennui, along with others.

As one example of the several variations, a soul may in Group IV have operation of 8 sub-classes—Wrong-Belief with 4 kinds of greed, common sex inclination, laughter and indulgence.

(II) Similarly there will be four Groups as shown below in the downfall stage. Wrong-belief-Karma will be excluded as it does not operate in that stage.

Table No. 6 showing four groups in the Downfall stage.

The Downfall stage Four groups.	I	II	III	IV
Fear and Disgust	2	1	1	0
2 pairs of Indulgence & laughter, Ennui and Sorrow.	2 2	2 2	2 2	2 2

Number of sub-classes which operate at one instant.	9	8	8	7
Out of ...	25	24	24	23

Thus there will be operation of 9, 8 or 7 at a time in the 2nd stage with different variations. As one example of the several variations in Group IV a soul may have operation of four kinds of anger, with female sex, and laughter and indulgence.

(III) The Mixed stage. There is no operation of error-feeding passions here, and therefore only three kinds of the four kinds of passions will be counted. Mixed-right-and-wrong belief will however be added in place of wrong belief.

Thus we shall have four groups like this.

Table No. 7 relating to Mixed Stage.

The Mixed stage four groups.	I	II	III	IV
Fear and Disgust	2	1	1	0
Pairs of Laughter & Sorrow, Indulgence and Ennui.	2 2	2 2	2 2	2 2

Out of ...	22	21	21	20

Thus there will be operation of 9, 8, or 7 sub-classes of Deluding Karma at a time in a soul in the Mixed stage. Taking an example in Group IV a soul may have operation of 8 sub-classes, Mixed belief, with 3 kinds of greed, common sex, sorrow and ennui and fear.

(IV) Vowless stage with Destructive-Subsidential, or Clouded Right Belief. Replacing mixed by clouded-Right Belief we have four groups here again, similar to those just preceding

Table No. 8, relating to Vowless stage with Clouded Right Belief.

(V) Partial Vow Stage. In this stage with Clouded Right Belief, we have no operation, of partial vow-preventing passions.

Two out of the four kinds of passion only operate, the other operating sub-classes being as before. The sub-joined groups are similar to the preceding, except that here we have operation of 8, 7, or 6 sub-classes at a time.

(VI) Imperfect Vow Stage. In this stage with Clouded-Right Belief there is no operation of total-vow-preventing passions. The four groups will stand as below.

Table No. 10 relating to the 6th and 7th stages with Clouded Right Belief.

(VII) Perfect Vow Stage. The same number of sub-classes operate here in groups similar to the just preceding.

(VIII) New Thought Activity Stage. There is no operation of Clouded-Right-Belief here. The 4 groups will stand thus.

Table No. 11 relating to the 8th stage.

(IX) Advanced Thought Activity stage. Here we have no operation of any of the six minor passions. *i. e.*, fear, disgust, laughter, sorrow, indulgence and ennui. There are five parts of this stage. Sexes are operative in the first part only. In the second only the 4 passions operate. In the 3rd anger, in the 4th pride, in the 5th Deceit, ceases to operate.

478. A right believing (soul) having transformed matter of error-feeding (Passions to other passions) when descended to wrong belief (stage has) no (Operation of error-feeding passions) for one Avali. In subsidential and destructive Right-Belief (there is) no operation of Clouded Right-Belief. Certainly there are 4 groups also (in both cases).

Commentary.

When a soul with destructive subsidential, or second subsidential Right-Belief, which has already transformed error-feeding passions into other passions, descends to Wrong-Belief stage, it will for one Avali have no operation of error-feeding passions. It will bind fresh error-feeding Karmas, which will come into operation after one Avali. In the absence of operation of error-feeding passions, it will have operation of only 9, 8, or 7 sub-classes of deluding Karma in different ways in four groups as below :—

Table No. 13 relating to Wrong-Belief, without Error-Feeding Passions.

During stages from 4th to 7th a soul which has subsidential or destructive Right-Belief has no operation of Clouded-Right-Belief. Therefore in none of the four groups in each of these 4 stages the sub-class of Clouded Right-Belief will find a place as shown in chart below.

Commentary.

Here the groups of operation places of each stage, from Wrong Belief to Slightest Delusion are enumerated.

The sub-joined chart shows the number of groups (operation-places) as well as the number of sub-classes operating in each group at one instant.

x When clouded right belief is operative.

y When clouded right belief is not operative.

To take an example. In wrong belief stage there is operation of ten, nine, nine, and eight sub-classes in the upper four groups and of 9, 8, 8 and 7 in the lower four groups.

It should be noted here that in the 9th stage there are five parts of them, the 1st part has operation of 2 sub-classes at a time but the rest four parts have only 1 sub-class operating at a time. See Chart No. 7. Therefore only two operation places have been shown in the chart.

480. (There are) four (Operation) places of ten, (nine, eight and seven sub-classes in 1st stage); three of nine, (eight and seven, in the 2nd); three of nine, etc., (eight and seven, in 3rd); four of nine, (eight, seven and six, in 4th); (four), of eight, (seven, six and five, in 5th); (four) of seven, (six, five and four in 6th), (the same (four) of seven etc., (in 7th); and three of six (five and four in the 8th). There are twenty four Combinations, (Bhanga) in (each of) these places till the New-thought-Activity (stage).

Commentary.

In Table 16, the same number of sub-classes occurs twice in some groups. Leaving out of consideration the number which occurs repeatedly in the group, relating to a stage, we have 4 operative places in 1st stage, 3 in 2nd, 3 in 3rd, 4 in 4th, 4 in 5th, 4 in 6th, 4 in 7th, and 3 in 8th stage, aggregating to twenty nine, in all the stages.

With regard to this method of counting, it must be noted, that the same number, though occurring repeatedly, does not indicate the same sub-classes. Taking the wrong-belief stage, although nine sub-classes are shown thrice as operative, they differ in their nature. In one set of nine, fear, and in the other disgust, operates along with other 8, and in the third set of nine, passions of 3 kinds only operate along with both fear and disgust to make up the nine sub-classes.

481. (In the first eight spiritual stages, we have, respectively, one, six, eleven, eleven, eleven, nine, and three, (sets of operation places of ten, nine, eight, seven, six, five, and four sub-classes of Deluding Karma). (Each of) these

(has) twenty-four combinations. In the two places (of 9th stage there are) twenty-four (in one), and eleven combinations (in the other).

Commentary.

As shown in Table 17 there is only one operation place of ten sub-classes. There are six of 9 sub-classes; eleven of eight, eleven of seven, eleven of six, nine of five, three of four. Each of them has got 24 combinations

In order to understand the 24 combinations in each of these operation-places which are $1 + 6 + 11 + 11 + 11 + 9 + 3 = 52$, in the first 8 stages, let us take any two of them.

Take the 1st operative place of 10 sub-classes in wrong-belief stage. These can operate in 24 variations thus :—

(1) Wrong belief, 4 kinds of anger, female sex, laughter and indulgence, fear and disgust.

(2) Wrong belief, 4 kinds of anger, male sex, laughter and indulgence, fear and disgust.

(3) Wrong belief, 4 kinds of anger, common sex, laughter and indulgence, fear and disgust.

(4) Wrong belief, 4 kinds of anger, female sex, sorrow and ennui, fear and disgust.

(5) Wrong belief, 4 kinds of anger, male sex, sorrow and ennui, fear and disgust.

(6) Wrong belief, 4 kinds of anger, common sex, sorrow and ennui, fear and disgust.

When we substitute pride, deceit, or greed for anger we have 6 combinations in respect of each of the four passions. And thus we have 24 combinations.

We have the same result by multiplying together, wrong belief, by 4 passions, by 3 sexes, by 2 pairs, of laughter and sorrow, indulgence and ennui, by 1 pair of fear and disgust, $1 \times 4 \times 3 \times 2 \times 1 = 24$.

Let us take another example, that of the operation of 4 sub-classes in the 8th stage.

(1) Anger, female sex, laughter and indulgence.

(2) Anger, male sex, laughter and indulgence.

(3) Anger, common sex, laughter and indulgence.

(4) Anger, female sex, sorrow and ennui.

(5) Anger, male sex, sorrow and ennui.

(6) Anger, common sex, sorrow and ennui.

Adding six combinations for each of the other 3 passions, pride, deceit and greed, we shall have 24 combinations. By multiplication also we get, 4 passions \times 3 sexes \times 2 pairs of minor passions = 24.

We have 24 combinations in each of the 52 places, in the eight stages, shown in Table 17, and worked out in detail below:—

W = Wrong belief ... M = Mixed belief.
 P = Passions ... Cl. = Clouded belief.
 S = Sex.
 Pr. = Pair of minor passions.

Thus we have $52 \times 24 = 1248$ combinations.

482. In the two operation-places of 2 (sub-classes) (in the first part of the 9th stage where) five are bound, (and in a part of the second part where) four are bound, there is (operation) of one (of the last kind of passion, and of one of the sexes). In the remaining (parts, there is one operation) place (of one sub-class) only.

Commentary.

In verse 481, it was said that the operation place of 2 sub-classes in 9th stage has 24 combinations. There is operation of the four passions and the three sexes in the first part of 9th stage (where 4 passions and 1 male sex are bound) and also, for some instants, in the second part, (where only four passions are bound). Thus $4 \times 3 + 4 \times 3 = 24$. The operation place of one sub-class has $4 + 3 \times 2 + 1 = 11$ combinations as below :—

(1) 4 combinations in the second part, where all 4 passions are operating.

(2) 3 in the 3rd part where 3 passions operate.

(3) 2 in the 4th part where 2 passions only operate.

(4) 1 in the 5th part where only 1 passion is operating.

(5) 1 in the 10th stage where only one is operating.

483. Operation-time (or Udayáddhá) of the common and the female sex is the same beginning from the first

(instant of the 9th stage) of advanced thought-activity. Afterwards beginning from operation time of male sex etc., it increases respectively by one Antara-Muhúrta (at each step).

Commentary.

In the 9th stage there is operation of the female, common, and male sexes, and of the four perfect-conduct-preventing passions anger, pride, deceit and greed. They cease to operate one after another in the order given above, until at the end of the 9th stage only slight greed remains, with which the soul passes on to the 10th stage.

The operation-duration of the female sex is equal to that of the common, and the one ceases to operate when the other does. Male sex ceases to operate one Antar Muhurta after the cessation of operation of the female and common sexes. Where male sex also ceases to operate, the four passions only operate for one Antar-Mahurta. When anger ceases to operate, the other three operate for one Antar-Muhurta. When Pride ceases to operate, the remaining two continue to operate for one Antar-Muhurta. When deceit also ceases to operate, greed only operates for one more Muhurta,

It is obvious that the operation duration of each, excepting the female and common, which two are of equal duration, and are the first to cease to operate, exceeds that of the preceding by one Antar-Muhurta, the longest being that of greed.

484 Ascending (from the 8th stage) with operation of male sex, the cessation of (its) bondage and operation (is) simultaneous; when ascending with operation of (either of) the other (sexes), cessation of the bondage of male sex (is) in the last but one instant of the operation (duration).

Commentary.

According to some Acharyas, cessation of the bondage of male sex, when ascending with male sex operation is in the last but one

instant of its operation, while the cessation of its operation follows an instant later.

485. During bondage of five (sub-classes, 4 passions and male sex in the first part of the 9th stage, there is) operation of only two sub-classes (passion and sexes), and the combinations (are) twelve; while in bondage place of (only) four (passions in a part of the second part), the (same) two operate, and the combinations are also twelve.

Commentary.

As anticipated in verse 482; the operation of 2 sub-classes in part 1, and in portion of part 2 of the 9th stage, are clearly described here. The combinations are $4 \times 3 + 4 \times 3 = 24$,

कोहस्य य माणस्य य मायालोहाणियट्ठि भागमिह ।

चदुतिदुगेकंभंगा सुहुमे एको हवे भंगो ॥ ४८६ ॥

क्रोधस्य च मानस्य च मायालोभानिवृत्तिभागे ।

486. In Advanced-Thought-Activity in the parts where greed deceit; pride, and anger operate there are (respectively) four, three, two, and one combinations. In slightest delusion (stage) there is only one combination.

Commentary.

In verse 481, it was said that the operation place of 2 sub-classes in 9th stage has 24 combinations. There is operation of the four passions and the three sexes in the first part of the 9th stage, (where 4 passions and 1 male sex are bound) and also, for some instants, in the second part, (where only the four passions are bound).

Thus $4 \times 3 + 4 \times 3 = 24$. The operation place of one sub-class has $4 + 3 + 2 + 1 + 1 = 11$ combinations as below :—

(1) 4 combinations in the second part, where all 4 passions are operating.

(2) 3 in the 3rd part, where 3 passions operate.

(3) 2 in the 4th part, where 2 passions only operate.

(4) 1 in the 5th part, where only 1 passion is operating.

(5) 1 in the 10th stage, where only one passion is operating.

437. During the stages (till 10th, there are) twelve hundred and eighty-three combinations, with reference to (operation) places, and eighty-five hundred, and seven (8,507) combinations with reference to their sub-classes. Mundane souls are thus deluded.

Commentary.

As shown in Table 17 under verse 479, we have 52 operation places. Adding one place of two sub-classes during the first 8 stages of the 9th stage, there are 53. Each has 24 combinations. Thus we have $53 \times 24 = 1272$ combinations. Adding 11 of the 9th and the 10th stages, as shown in the commentary, to verse 482, we have $1272 + 11 = 1283$ combinations. Now with reference to sub-classes as shown in table 17, under verse 479.

Total ... 354 sub-classes.

In each of the above places there are 24 variations, therefore there are $354 \times 24 = 8496$ combinations. Adding the 11 of one sub-class. We have altogether 8507 combinations as regards sub-classes.

488-489. Non repeated (operation places are respectively), one, six, eleven, ten, seven, four and one (of ten, nine, eight, seven, six, five and four sub classes) See chart verse 479. These (forty places) being multiplied by twenty-four combinations, (adding to them) twelve (combinations) of two and five of one, (they aggregate to) Nine-hundred seventy seven. ($40 \times 24 = 960 + 17 = 977$) Mundane souls are deluded by these combinations of (operation) places. They should be known to be sixty-nine hundred and forty-one, with reference to combinations of sub-classes.

Commentary.

In the 52 places mentioned in the previous verse there are some which have the same classes. These are called "repeated". Ignoring them, the "unrepeated" places are only 40. These are, 1 of 10, 6 of 9, 11 of 8, 10 of 7 (seven sub-classes in the sixth and the seventh stage are the same, therefore one of set of 7 has been left out), 7 of 6 (they are 11. But three sets of 6 in the 6th and 7th and one in the 8th stages have the same sub-classes. Four sets of 6 are therefore left out of account), 4 of 5 (They are 9, but five are left out as "repeated", the same 5 as are in the 6th, being contained in the 7th and 8th), 1 of 4 (They are 3, but two are not counted,

as the four-classes in the 6th, are the same as in the 7th and 8th stage). Thus we have $40 \times 24 = 960$ combinations. In the 9th stage, operation place of 2 sub-classes is counted twice, thus leaving one as "repeated", the remaining one place will have only $4 \times 3 = 12$ combinations.

In 9th and 10th stages, operation place of one passion sub-class has 11 combinations, but as, greed, deceit, and pride are repeated thrice, twice, and once again, 6 combinations are left out, and we have only five. The slightest greed in the 10th stage is also taken as "repeated", Thus there are $12 + 5 + 960 = 977$ combinations, as regards un-repeated operation places.

Counting all the sub-classes of these 977 combinations we have

1 of 10	=	10	sub-classes.
6 of 9	=	54	„
11 of 8	=	88	„
10 of 7	=	70	„
7 of 6	=	42	„
4 of 5	=	20	„
1 of 4	=	4	„

288 sub-classes.

And $288 \times 24 = 6912$ combinations. Adding 24 of both the operation places of 2 in the 9th stage, and 5 operation places of one in the 9th and 10th, we have $6912 + 24 + 5 = 6941$ combinations.

Reference to Gatha 485 shows that there are 12 combinations in the first part, and 12 in a portion of the 2nd part of the 9th stage. The sub-classes though the same are not the same as regards the first part, and the whole of the second part. Hence the operation of 12 in a portion of the second part is not taken as a repetition.

490. Operation places and sub-classes being (respectively) multiplied by conscious attentiveness (Upyoga), vibratory activity (yoga) etc., (i. e., by full control, Sanyama, or partial con-

trol, (Desha Samyama), thought-paint, (Leshya), right belief, (Samyaktva), possible in their own respective (spiritual stages), the number of (all the operative) places and the number of (all the) sub-classes respectively is (found) by adding together (the result of every one of these multiplications)

Commentary.

The operation of any sub-class of deluding Karma causes impurity in conscious attentiveness, soul's vibratory activity, full control, partial control, thought-paint and right-belief. In every spiritual stage, one or more of them are present along with the operation of deluding Karma till the 10th stage. The learned Acharya wishes here to show their combinations with reference to Deluding Karma,

मिच्छदुगे मिस्सति ये पमत्तसत्ते जिणे य सिद्धे य ।

पणं छस्सत्त दुगं च य उवजोगा होंति दो चेव ॥ ४६१ ॥

मिध्यद्विके मिश्रत्रये प्रमत्तसत्तके जिने च सिद्धे च ।

पञ्च षट् सत्त द्विकं च च उपयोगा भवन्ति द्वौ चैव ॥ ४६१ ॥

491. There are five (kinds of) consciousness (Upyoga), in (each of) the two, wrong belief (and downfall stages); six in (each of) the three, mixed, (vowless and partial-vow stages); seven in (each of) the seven (from) imperfect vow (to the 12th stage of delusionless); two in the perfect soul and the same two in the liberated souls).

Commentary.

Consciousness is of 12 kinds. There are 8 kinds of knowledge and 4 kinds of conation consciousness. Wrong belief, as well as, downfall stage has wrong sensitive knowledge, and visual knowledge and ocular and nonocular conation *i. e.*, five kinds of consciousness.

Third, fourth and fifth stages have, each six kinds of consciousness *i. e.*, right sensitive, spiritual and visual knowledge and ocular, non-ocular and visual conation. Stages from 7th to 12th have 7 kinds of consciousness *i. e.*, mental knowledge is added to the six aforesaid. Vibrating and non-vibrating perfect souls in 13th and 14th stages and all the liberated souls have only two kinds of consciousness, namely perfect knowledge and perfect conation.

Now we shall find out the number of operation places and sub-classes, in each stage with reference to number of the kinds of conscious attentiveness present, there.

See table No. 17 under verse 479. In the 1st stage there are 8 operative places containing $10+9+9+8+9+8+8+7=68$ sub-classes. Multiplying the 8 places and the 68 sub-classes, with 5 kinds of attentiveness, we have 40 places and 340 sub-classes.

It should be noted that in all stages till the 12th, one kind of consciousness works at one particular instant. A wrong believer with sensitive knowledge will not have the other 4 kinds of attentiveness. Thus, along with sensitive knowledge he can have 8 operation places with 68 sub-classes in operation. With reference to all the five kinds of consciousness at different instants, we have 40 operation places, and 340 sub-classes.

Calculation with reference to other stages may be similarly made. Deluding Karma operates from 1st to 10th stage only. The Table below will show the number of places and sub-classes till that stage.

Table No. 18 showing places and Sub-classes with reference to consciousness.

492-493. With reference to conscious attentiveness, seven thousand, seven hundred and ninety-nine operative places, in (various) combinations should be known in the deluding Karma. The number of sub-classes (of) deluding Karma with reference to consciousness (in all combinations) should be known to be fifty-one thousand and eighty-three.

Commentary.

See Table 18 under Gatha 491. The total number of operative places with reference to consciousness, till the 8th stage are $40 + 20 + 23 + 48 + 48 + 56 + 56 + 28 = 320$. There are 24 combinations in each place. We thus have $320 \times 24 = 7680$ combinations of operative places. In the 9th (a) stage where sex and passion both are operative there are seven places. Each of them has 12 combinations and we have 84 combinations in all. In the 9th (b) stage only the passions are operative. There are also seven places; and each has four combinations. Thus we have 28 combinations in all. In the 10th stage there are 7 places in one combination. All combinations of all operative places in deluding Karma with reference to consciousness are thus $7680 + 84 + 28 + 7 = 7799$ as stated above.

With reference to sub-classes in these operative places we have $340 + 160 + 192 + 360 + 3 + 2 + 308 + 308 = 2120$ till 8th stage. Each has 24 combinations. We thus have $2120 \times 24 = 50880$, sub-classes in various combinations. In 9th (a) we have 14 sub-classes. Each has 12 combinations thus there are 168 sub-classes. In 9th (b) we have 7, each has 4 combinations and thus there are 28 sub-classes. In

10th we have only 7 sub-classes, in one combination. The total number of sub-classes in 7799 combinations of operative places in deluding Karma, will thus come to $50830 + 168 + 28 + 7 = 51083$.

There are 15 vibrations in all :—

1. True mind vibration.
2. False mind vibration.
3. Mixed, both true and false, mind vibration.
4. Neutral, neither true nor false, mind vibration.
5. True speech vibration.
6. False speech vibration.
7. Mixed, both true and false, speech vibration.
8. Neutral, neither true nor false, speech vibration.
9. Physical body vibration.
10. Physical mixed vibration.
11. Fluid body vibration.
12. Fluid mixed vibration.
13. Assimilative vibration.
14. Assimilative mixed vibration.
15. Karmic body vibration.

See pages 131 to 141 of Chapter IX of Gommatasasa Jiva Kanda, Volume V of the Sacred Books of the Jainas.

 त्रिषु त्रयोदश दश मिश्रे नव सप्तसु षष्ठे एकादश ।

494. There are thirteen vibrations (yoga) in (each of the) three (stages, wrong belief, downfall and vowless); ten in the mixed; nine in (each of) the seven (5th, 7th, 8th, 9th, 10th, 11th, and 12th stages); eleven in 6th and seven in vibrating (perfect soul). There is none in the non-vibrating stage.

Commentary.

In the stages of wrong belief, downfall and vowless; assimilative body and assimilative mixed vibration are not possible; and we have thirteen vibrations in each of them. In the mixed stage,

there is no death, and we exclude physical mixed, fluid-mixed, and karmic vibrations from the above 13, and have only 10 vibrations. In the 5th and from the 7th to 12th stage we have no fluid body vibration either. These stages are not possible in hellish and celestial beings, who only have a fluid body vibration, we have therefore nine vibrations only, in these stages. In the 6th stage, assimilative body and assimilative mixed should be added to the above nine, and we have 11 vibrations.

There are 7 in the vibratory perfect soul *viz.*, (1) true mind (2) neutral mind; (3) true speech, (4) neutral speech, (5) physical body, (6) physical mixed, and (7) karmic body. In the non-vibrating perfect soul, there is no vibration at all.

495. (The operation places and sub-classes in deluding Karma) are added together in the (stages of) wrong belief, downfall, vowless and imperfect vow, with reference to vibrations existing in undevelopable as well as in developable conditions, but in the remaining (stages) only in developables.

Commentary.

Undevelopable condition is possible in a soul for one Antar Muhurta, in the beginning of a life, after its transmigration from one condition of existence to another. There are only 3 spiritual stages in the transmigratory condition, and in the life to which it transmigrates, until it does not develop itself. They are Wrong-belief, Downfall and Vowless. In these undevelopable conditions, mixed vibratory activity is found. Similarly, there is mixed vibration for one Antar-muhurta, during which an assimilative body is being formed, by a saint in the 6th stage. So we have to consider operation places of Deluding Karma in both the undevelopable and developable conditions in the above said four stages. In other stages till the 10th only developable condition is to be taken into account. In order to find out the different places,

and combinations of operation places with reference to vibrations, we should refer to commentary on verse 477 and the table given under 479.

I. *Wrong belief stage.* Here, in the upper group there are 4 places with 36 sub-classes. Multiplying them with the 13 vibrations possible here, we get 52 places and 468 sub-classes. In the lower group, where there is no operation of the error-feeding passions, there are 4 places with 32 sub-classes; multiplying them by 10 vibrations only (excluding 3, the mixed-physical, mixed-fluid, and karmic, because a soul does not die in this state), we get 40 places and 320 sub-classes. Thus we have 92 places and 788 sub-classes in this stage.

II. *Downfall stage.* Here are 4 places and 32 sub-classes. Multiplying them by 12 vibrations, excluding fluid mixed which is dealt with hereafter, we have 48 places and 384 sub-classes.

III. *Mixed Stage.* There are 4 places and 32 sub-classes. Multiplying them with 10 possible vibrations, we get 40 places and 320 sub-classes.

IV. *Vowless stage.* In both the groups there are 8 places and 60 sub-classes. Multiplying them by 10 vibrations, the other three physical mixed, fluid mixed, and Karmic vibrations being dealt with hereafter; we get 80 places and 600 sub-classes.

V. *Partial vow stage.* Here are 8 places and 52 sub-classes in both the groups. Multiplying them by 9 vibrations, we get 72 places and 468 sub-classes.

VI. *Imperfect vow stage.* Here are 8 places and 44 sub-classes in both the groups. Multiplying them by 9 vibrations, because special mention is to be made as regards the assimilative two, which are found in this stage we get 72 places and 396 sub-classes.

VII. *Perfect vow stage.* Here are also 8 places and 44 sub-classes. Multiplying them by 9 vibrations, we have 72 places and 396 sub-classes.

VIII. *New-thought-activity-stage.* Here we have 4 places with 20 sub-classes. Multiplying them by 9 vibrations, we have 36 places and 180 sub-classes.

Each of these places and classes are to be multiplied by 24 combinations. The result may be shown in a tabular statement.

Table No. 19 showing Combinations.

Stages.	Combinations in.	
	Places.	Sub-classes.
I	$92 \times 24 = 2208$	$788 \times 24 = 18912$
II	$48 \times 24 = 1152$	$384 \times 24 = 9216$
III	$40 \times 24 = 960$	$320 \times 24 = 7680$
IV	$80 \times 24 = 1920$	$600 \times 24 = 14400$
V	$72 \times 24 = 1728$	$468 \times 24 = 11232$
VI	$72 \times 24 = 1728$	$396 \times 24 = 9504$
VII	$72 \times 24 = 1728$	$396 \div 24 = 9504$
VIII	$86 \times 2 = 4864$	$180 \times 24 = 4320$
Total ...	512×2412288	2532×2484768

IX. *Advanced Thought Activity.* So far as sex operates, we have one place with 2 sub-classes. Multiplying them by 9 vibrations, we have 9 places and 18 sub-classes. Each has 12 combinations; so we have 108 combinations of places and 216 of sub-classes. Where passion only operates, we have 1 place with 1 sub-class; multiplying it by 9 vibrations, we have 9 places and 9 sub-classes. Each has 4 combinations; so we have 36 combinations of places and 36 of sub-classes.

X. *Slightest Delusion Stage.* Here is 1 place and 1 sub-class. Multiplying by 2 vibrations, we have, 9 places and 9 sub-classes. There is only one combination.

सासणअयदपमत्ते वेगुव्वियमिस्स तं च कम्मयियं ।

सासनायतप्रमत्ते वैगूर्धिकमिश्रं तच्च कर्मणम् ।

496. In Fluid-mixed (vibration) of Downfall (stage) in fluid—mixed and Karmic (vibration) of the vowless, in physical mixed (of the same), and in (both the) assimilative (vibrations) of the imperfect (vow, stage), the operation places are respectively squares of eight, sixteen, eight, and one hundred and twenty-eight.

Commentary.

II. *Downfall stage.* A soul in the Downfall stage does not go to hellish condition of existence, therefore there is no operation of common sex in fluid mixed vibration, but only female and male sexes operate in this vibration, when it goes to celestial condition of life,

Thus there will be four groups of operation places as shown in the table below :—

Table No. 20 for Downfall stage free from operation of common sex.

Groups.	I	II	III	IV
Fear and Disgust ...	2	1	1	0
Laughter-Sorrow Indulgence-Ennui.	2 2	2 2	2 2	2 2
Male & female 2 inclinations. ...	1 1	1 1	1 1	1 1
4 Passions each of 4 kinds ...	4 4 4 4	4 4 4 4	4 4 4 4	4 4 4 4
Total ...	24	23	23	22

Here there are 4 places with 9, 8, 8, and 7 *i. e.*, 32 sub-classes. There are only 16 combinations, possible in each group, and not 24 as stated and explained in verse 480 because of the non-operation of the common sex.

IV. *Vowless stage.* During fluid-mixed and Karmic vibrations in this stage, the female sex, cannot operate because a soul with right belief does not take birth as a female, therefore we shall have two kinds of four groups like this, with reference to each vibration.

Table No. 21 regarding Vowless Stage with Clouded Right Belief when female sex does not operate.

The four Groups.

Fear and Disgust	...	2	1	1	0
Laughter-Sorrow, Indulgence-Ennui,		2 2	2 2	2 2	2 2
Male and common sexes	...	1 1	1 1	1 1	1 1
4 Passions of 3 kinds	...	3 3 3 3	3 3 3 3	3 3 3 3	3 3 3 3
Clouded Right Belief	...	1	1	1	1
Total	...	21	20	20	19

Table No. 22 Vowless Stage free from the operation of Clouded Right-Belief and female sex.

Groups.		I	II	III	IV
Fear and Disgust	...	2	1	1	0
Laughter and Sorrow, Indulgence and Ennui.		2 2	2 2	2 2	2 2
Male and Common Sex	...	1 1	1 1	1 1	1 1
4 Passions each of 3 kinds	...	3 3 3 3	3 3 3 3	3 3 3 3	3 3 3 3
Total	..	20	19	19	18

Thus in both the groups we have 8 operation places and $(9+8+8+7)+(8+7+7+6) = 32+28=69$ sub-classes, Combinations in each operative place will be 16 only. Therefore we have got $16 \times 8 = 128$ combinations in places, and $60 \times 18 = 960$ in sub-classes.

The total number of combinations in both the vibrations will be 256 in operation places and 1920 in sub-classes. In physical mixed vibration of this stage, there is no operation of female and common sexes. Only the male sex operates, because while going to incarnate

as a human or a sub-human in work or enjoyment region, one will be born as male only. Both the kinds of four groups will be as below :—

Table 23. Vowless Stage.

Stage.	With clouded Right Belief and Sex only.				Free from Clouded with male.		Right Belief sex only.	
Fear and Disgust	2	1	1	0	2	1	1	0
The 2 Pairs ...	2 2	2 2	2 2	2 2	2 2	2 2	2 2	2 2
Male Sex ...	1	1	1	1	1	1	1	1
Passion in 3 kinds.	3 3 3 3	3 3 3 3	3 3 3 3	3 3 3 3	3 3 3 3	3 3 3 3	3 3 3 3	3 3 3 3
Clouded Right Belief.	1	1	1	1				
Total ...	20	19	19	18	19	18	18	17

Then we shall have 8 operative places and $(9+8+8+7) + (8+7+7+6) = 32 + 28 = 60$ sub-classes. Each will have 8 combinations, as only one of the three sexes operates here. Multiplying places and classes by 8, we have 64 combinations in operation places and 480 in the sub-classes.

VI. *Imperfect Vows* —When assimilative mixed or assimilative vibration is working in the 6th stage, there is no operation of female and common sexes, only male sex will operate. Therefore we shall have both kinds of groups as below :—

Table No. 24 Imperfect Vow Stage.

Stages.	With Clouded Right Belief and male sex.				Free from Clouded Right Belief and with male sex.			
Fear and Disgust	2	1	1	0	2	1	1	0
Pairs of Laughter, Sorrow, Indulgence and Ennui	2 2	2 2	2 2	2 2	2 2	2 2	2 2	2 2
Male Sex ...	1	1	1	1	1	1	1	1
4 Passions of last kind.	1 1 1 1	1 1 1 1	1 1 1 1	1 1 1 1	1 1 1 1	1 1 1 1	1 1 1 1	1 1 1 1
Clouded Right Belief.	1	1	1	1				
Total ...	12	11	11	10	10	10	10	9

Thus we have 8 operative places, and the sub-classes are $(7+6+6+5)+(6+5+5+4)=24+20=44$.

Each has only 8 combinations like this.

Multiplying the places and classes by 8, we have 64 combinations in places, and 352 in classes, for each of the two vibrations. The total combinations in places and classes will come to 128 and 704 respectively,

एत्थि एउंसयवेदो इत्थीवेदो एउंसइत्थिदुगे ।

497. Know that in the aforesaid (verse 496) four places of non-developable vibrations, there is no (operation) of common sex, female sex, (in the first two respectively) and of (both the) common and female sex (in the other places).

501-502. Know that there are thirteen hundred seventy-seven combinations of (operation) places in Deluding Karma in relation to control (Samyama). Know that in relation to control, there are seven thousand three hundred and fifty-three combinations of sub-classes in operation in Deluding Karma.

Commentary.

Along with operation of Deluding Karma, Control is possible from the 6th to the 10th stage. Excluding Yathá Khyáta Cháritra, the last kind of control, where there is no deluding Karma, we consider the four controls, namely, equanimity (Sámáyika), Recovery of equanimity after downfall (Chhedopa-sthápaná), pure absolute non-injury (Parihára Vishuddhi), and slightest delusion (Sukshma Sámparáya).

Stages VI and VII—In these two stages, we have the first three kinds of Control. Referring to table No. 17, under verse 479, we know that there are 8 places of operation, and 44 sub-classes, in each of these two stages, or 16 places and 88 sub-classes in both of them. Multiplying them by the 3 Controls, we have 48 places of operation, and 264 sub-classes. Each has 24 combinations. Thus the combinations of places of operation are $48 \times 24 = 1152$ and of sub-classes $264 \times 24 = 6336$.

Stage VIII.—In this stage only the first two Controls are possible.

Here are 4 operative places and 20 sub-classes. Multiplying them by 2, we have 8 places and 40 sub-classes. Each has 24 combinations. Thus the total combinations of places are $8 \times 24 = 192$, and of sub-classes $40 \times 24 = 960$.

IX (a) Stage with sex.—Here also the same 2 Controls are possible. The operation place is only one with 2 sub-classes. Multiplying them by 2 Controls, we have 2 places and 4 sub-classes. There are 12 combinations in each. Combinations of operative places will thus, be $2 \times 12 = 24$ and of sub-classes $4 \times 2 = 8$.

IX (b) Stage without sex.—Here also 2 Controls are found. The operative place is one with one sub-class; Multiplying by 2 Controls we have 2 places and 2 sub-classes. Combinations are four. Combination of places will be 8, and of sub-classes also 8.

X Stage.—Only one Control, the Slightest Delusion is found. The operative place is one with one sub-class; multiplying by one Control, we have 1 place and 1 sub-class only. There is only one combination of each.

Adding all these together we have :

Stages.	Operative places.	Sub-classes.
VI and VII	1152	6336
VIII.	192	960
IX (a)	24	48
IX (b)	8	8
X.	1	1
Total	1377	7353

Apparently Deluding Karma and its accompaniments, the passions should not exist where there is Control. This is so, where we have Perfect Control in stages beyond the 10th. Upto the 10th stage the Control is qualified by comparative degrees of mild passions. Therefore the combinations of sub-classes and operative places relating to control in stage upto the 10th are discussed here.

503. There are six Thought-paints (Leshya) in the four, wrong belief (and the next 3 stages), the good three in the three, partial vow (and the next 2 stages), and thereafter only the white (Thought) paint, till the vibrating (Perfect soul). The stage of non-vibration is without Thought-paint.

Commentary.

The varying aspects of soul vibrations as affected by passions have been designated Thought-Paints and are represented by six colours, black, blue, grey, yellow, pink and white.

The first three are bad Thought-paints, and the other three are good, *vide* page 247 Chapter XV, Gommatsara Jiva Kanda Vol. V of the Sacred Books of the Jainas. All the six kinds of Thought paints are possible in the first four spiritual stages. Partial vows, imperfect vows, and perfect-vows stages have only three good paints. From 8th to 13th stage, only one white Thought paint is formed. There are no vibrations in the 14th stage, and no Thought paint is possible.

Thought-paints vary with the intensity of passions. Even a wrong believer in the first stage can have white Thought-paint, if his passions are very mild, while a Right-believer in the 4th stage may have black Thought-paint, if actuated by strong passions.

504-505. Know that Five thousand two hundred ninety-seven are the combinations of operation-places in Deluding Karma in relation to Thought-paints. Thirty-eight thousand two hundred and thirty-seven are the combinations of sub-classes in Deluding Karma in relation to Thought-paints.

Commentary.

Let us count the operative places and sub-classes till the 8th stage with reference to the Thought-paints present there. Referring to table No. 17 under verse 479, and verses 501-2 the above figures may be worked out in detail as shown below :—

Table No. 26.

Stages.	Multiplying Operation places by Thought-paints and again by the number of Divisions in the Stage.	Multiplying Sub-classes by Thoughts Paints and again by the number of Divisions in the Stage.
I	$8 \times 6 \times 24 = 1152$	$68 \times 6 \times 24 = 9792$
II	$4 \times 6 \times 24 = 576$	$32 \times 6 \times 24 = 4608$
III	$4 \times 6 \times 24 = 576$	$32 \times 6 \times 24 = 4608$

506-507. Know that there are thirteen hundred and seventy-eight combinations of operation-places in Deluding Karma along with the attribute of right belief. And eight thousand twenty-six should be known to be the combinations of the sub-classes of Deluding Karma along with the attribute of right belief.

Commentary.

Right belief is an attribute of soul. It appears from the fourth stage. A Right-believer believes that his soul is quite pure, passionless, all-knowing and happy, yet owing to passions due to the operation of Deluding Karma he can not have pure conduct, or full knowledge, till the 10th stage, that of slightest delusion. When he becomes free from the effect of Deluding Karma and ascends to the 12th stage of Delusionless, he, by virtue of pure, defectless and steady concentration, destroys the other three Destructive Karmas and entering the 13th stage becomes a vibrating Perfect Soul, All knowing, All-blissful and all-powerful. In order to understand what sort of thought-activity a Right-believer experiences from the 4th to 10th stage, it is important to know the combinations of the operation of Deluding Karma. The sub-joined table shows this in detail.

We have, till 8th stage, the places and sub-classes with

reference to three kinds of right belief, Destructive-subsidential, Subsidential, and Destructive as follows.

Let a, b, c, be taken for the 3 kinds of belief respectively.

Table 27 (Refer to Table 16 to Verse 479.)

Stages.	Operation Places.	Sub-classes.
IV (a) With clouded Right-belief	$4 \times 1 = 4$	$32 \times 1 = 32$
(b) With subsidential Right-belief.	$4 \times 1 = 4$	$28 \times 1 = 28$
(c) With destructive Right-belief.	$4 \times 1 = 4$	$28 \times 1 = 28$
V (a)	$4 \times 1 = 4$	$28 \times 1 = 28$
(b)	$4 \times 1 = 4$	$24 \times 1 = 24$
(c)	$4 \times 1 = 4$	$24 \times 1 = 24$
VI (a)	$4 \times 1 = 4$	$24 \times 1 = 24$
(b)	$4 \times 1 = 4$	$20 \times 1 = 20$
(c)	$4 \times 1 = 4$	$20 \times 1 = 20$
VII (a)	$4 \times 1 = 4$	$24 \times 1 = 24$
(b)	$4 \times 1 = 4$	$20 \times 1 = 20$
(c)	$4 \times 1 = 4$	$20 \times 1 = 20$
VIII (b)	$4 \times 1 = 4$	$20 \times 1 = 20$
(c)	$4 \times 1 = 4$	$20 \times 1 = 20$
TOTAL ...	56	332

As each of these has 24 combinations, we get $56 \times 24 = 1344$ combinations in operation places and $332 \times 24 = 7968$ divisions in sub-classes.

In the 9th stage with sex—

with (b)—1 place and 2 classes.

(c)—1 place and 2 ..

2 places

4 classes.

Each has 12 combinations, so we have 24 and 48 combinations in places and sub-classes respectively.

In 9th, without sex—

with (b) 1 place and 1 class.

„ (c) 1 place and 1 class.

2 places 2 classes.

As the combinations are four, so we have 8 divisions in places and 8 in classes.

In 10th stage.

with (b) 1 place and 1 sub-class.

(c) 1 place and 1 „

2 places 2 sub-classes.

There is only one combination in each.

We have 2 combinations in both the places and sub-classes. Taking together.

			Operation-places.	Sub-classes.
Till 8th	1344	7968
9th (a)	24	48
9th (b)	8	8

The combination in Deluding Karma have been stated with reference to consciousness, vibration, control, thought-paint and right belief. They may similarly be considered in relation to soul-classes, conditions of existence etc.

508. The existence (places in Deluding Karma are) of twenty sub-classes added to eight, seven, six, four, two and one, as well as thirteen, twelve, eleven, and five etc. diminishing by one (successively down to one).

Commentary.

28, 27, 26, 24, 23, 22, 21, 13, 12, 11, 5, 4, 3, 2, 1 sub-classes of Deluding Karma may be in existence in different souls in different stages. These different sets of sub classes in existence are called Existence-places, Sattva sthāna.

(1) All 28 exist in the first Existence place.

(2) 27 exist when Clouded-right-belief Karma is made to transfer by Udvelanā method.

(3) 26 exist when Mixed and Wrong belief Karma is also made to transfer by Udvelanā method.

(4) 24 exist when out of 28, 4 error-feeding passions are transferred to other passions.

(5) 23, exist when out of the above 24, Wrong-belief Karma is destroyed.

(6) 22 exist when out of the above 23, Mixed-belief Karma is also destroyed.

(7) 21 exist when out of the above 22, Clouded-right-belief Karma is also destroyed.

(8) 13 exist when out of the above 21, 4 Partial and 4 total-vow-preventing passions are also exhausted.

(9) 12 exist when out of the above 13, one of the sexes, female and common, is destroyed.

(10) 11 exist when out of the above 12, the remaining one of the above two sexes is destroyed.

(11) 5 exist when out of the above 11, 6 minor passions, laughter, sorrow, indulgence, ennui, fear and disgust are destroyed.

(12) 4 exist when out of the above 5, male sex is destroyed.

(13) 3 exist when out of the above 4, Perfect-Conduct-preventing anger is destroyed.

(14) 2 exist when out of the above 3, Perfect-conduct-preventing pride is destroyed.

(15) 1 exists when out of the above 2, Perfect-conduct-preventing deceit is destroyed. Perfect conduct preventing greed exists, as gross in the 9th and as fine in the 10th stage.

509-510. (Out of these fifteen existence places), three (are found) in one (*i. e.* the first stage), one in one (*i. e.*, downfall stage), two in Mixed, five in (each) of the four (from 4th to 7th); three only in New-thought activity, eleven in gross (*i. e.*, 9th), four in fine (*i. e.*, 10th) and three in Subsided-delusion (*i. e.*, 11th). The first three (*i. e.*, the existence places of 28, 27, and 26 are found in the 1st stage). only the first (*i. e.*, the place of 28 in the downfall); the first and (that) of twenty-four in the Mixed; the first and the four, of twenty-four (23, 22, and 21 in) the Vowless, Partial Vow, Imperfect vow, and Perfect vow stages.

Commentary.

I. In the Wrong-belief stage, a soul which has not yet, since eternity, acquired Right-belief will have existence of 26 only, because Mixed and Clouded-belief Karmas are only possible in existence when a soul has once ascended to the 4th stage. A soul descending to the first from the 4th stage has 28, or it may have 27, on transferring the Mixed, or 26 on transferring both the Mixed and Clouded belief.

II. Downfall stage is always reached on descent from the 4th stage. It must have 28 in existence.

III Mixed stage will have all the 28 in case of descent from the 4th, or ascent from the first with 28 in existence. Souls which have transferred the four Error-feeding passions into other passions, in any of the 4th, 5th, 6th and 7th stages will on descent to the Mixed have 24 only.

IV. Vowless stage can have (1) all 28, (2) 24 after transferring the 4 Error-feeding passions, (3) 23 after destroying wrong-belief, (4) 22 (after destroying Mixed belief also), or (5) 21 after destroying Clouded belief Karma also. Stages fifth, sixth and seventh will each have the same five Existence-places as are described for the fourth stage.

511. Existence (places of) twenty-eight, twenty-four and twenty-one (are possible) in (the four stages of) subsidential ladder ; (and that) of twenty-one in (each of the 8th and 9th stages) before destruction of eight passions in the destructive ladder.

Commentary.

Saints who ascend the subsidential ladder with second subsidential Right-belief, without transferring the error-feeding passions, have existence of all the 28 sub-classes of Deluding, Karma. If the same saints transfer those passions before ascending, they will have existence of 24 while they who ascend with Destructive Right-belief will have 21 in existence.

Saints who ascend the destructive ladder have existence of 21 in the 8th stage and also in the 9th till the place where eight passions i. e., 4 Partial-vow-preventing and 4 Total-vow-preventing, are destroyed.

Commentary.

In the 9th stage after destruction of the aforesaid 8 passions, and in the part where male sex and 4 passions are bound, those saints who ascend by the destructive ladder with operation of male sex have existence of 13 i. e., 4 passions and 9 minor passions, or of 12 on destruction of common sex, or of 11 on destruction of female sex also. In the same part of 9th the saints who have ascended with operation of female sex will have existence of all 13 or of 12 on destruction of common sex ; while those who came with operation of common sex, have existence of thirteen only.

Commentary.

Saints who ascend by the destructive ladder with operation of male sex have operation of male sex till the last moment of its destruction while those who ascend with operation of female or common sex have cessation of operation of any of the two very near the last time of destruction of male sex.

514. In that very place, (there is) existence of eleven. (There is) destruction of seven simultaneously in (souls which) ascend (the destructive ladder) with operation of any of the three sexes; but in (a soul ascending with operation of) male sex, (there is destruction) of six only, because new (Karmic matter of male sex) exists.

Commentary.

There is existence of 11 sub-classes, *viz.*, of 7 minor passions, excepting the female and the common sexes, and of the 4 passions of the last kind in the last instant of 9th stage with sex.

This is so in a soul which ascended with operation of male sex. The same happens in a soul which ascended with operation of female or common sex, in the place where operation of these two sexes ceases, which just precedes the last instant of the 9th stage, with sex.

Destruction of the 7 minor passions occurs simultaneously in a soul which ascends with operation of any of the three sexes. After their destruction, only 4 passions will remain existing in 9th stage without sex.

In a soul which ascends with operation of male sex, however, male sex sub-class is bound afresh in the last Avali preceding the moment of its destruction, and in that event, 5 sub-classes *viz.*, the 4 passions and male sex will be in existence, although the 6 minor passions have already been exhausted.

515. Thus till the moment where 4 passions are bound in the destructive (9th stage), (there is) existence of thirteen (in a soul ascended with operation of common sex), of twelve (in a soul ascended with female sex); of 11 (in the place where common or female sex ceases to exist); and of four (where all minor passions cease to exist); of three, two, and one (respectively) in the bondage place of three, two, and one (passion). Not taking into consideration (the classes) remaining in existence (as bound) afresh.

Commentary.

The above table shows the difference in the existence places of sub-classes of Deluding Karma in souls, ascending with one or the other of the three sexes. Souls ascending with common sex have existence of 13 even where 4 passions only are bound and there is operation of sex with passions; afterwards on cessation of operation of sex, they have only 11 because female and common sex both are destroyed simultaneously. For a detail of the cessation of existence of sub-classes in nine parts of the 9th stage, See page 210, verses 338-339 of Karma Kanda, Part I, Vol. VI, of the Sacred Books of the Jainas.

But souls ascending with female sex have existence of 12 only in the part where 4 passions are bound and there is operation of sex, because common sex is already destroyed. Afterwards they also have 11 on destruction of female sex in the part where 4 passions are bound, and there is no operation of sex. Souls ascending with male sex gradually destroy common and female sexes, but they have bondage and operation of male sex till the time of its destruction. Thus even when there is existence of 11 there is bondage of 5. Afterwards there is no bondage of male sex, but after destruction of six minor passions, the matter of male sex remains in existence for a very short time, but it is soon exhausted, and so we have existence of 5 or 4 during the part where four only are bound.

Those which ascend with common and female sex simultaneously, destroying 7 minor passions, retain only 4 passions, where 4 only are bound. Afterwards each of the three sorts of ascenders have 3, 2, and 1 passion in existence where the same numbers are bound respectively. In the beginning of the 9th stage each of the three has 21. When the 9 passions, are destroyed each of them has 13 in existence. It should be noted that as matter of male sex remaining in existence after its bondage-cessation, ceases to exist *i. e.* Sheds off with matter of anger during its destructive time, similarly matter of anger remaining in existence after its bondage-cessation sheds off with matter of pride in its destructive time. Such is the case with pride, deceit and greed also. Thus in the 9th stage we have existence places of 28, 24, and 21 in subsidential ladder, and of 21, 13, 12, 11, 5, 4, 3, 2, and 1 *i. e.*, 9 places in the destructive ladder. As place of 21 is common to both the subsidential and destructive ladder, we have $8+3=11$ places of existence in the 9th stage. In the 10th stage in subsidential ladder, there is existence of 28, 24, and 21, but in the destructive ladder, only the

slightest greed is in existence. In the 11th stage there is only the subsidential condition and we have existence of 28, 24, and 21.

516-517. When twenty-two (sub-classes of Deluding Karma are bound), (there are) three (existence) places in (the bondage place of) twenty-one there is only one of twenty-eight Karmic Sub-classes ; in bondage of seventeen, thirteen and nine, only five ; in that of five sub-classes, six ; in that of four Sub-classes seven. In the remaining (bondage places) four (existence-places should be known (in each). These existence places (are stated) without taking into account the new matter remaining in existence for an Āvali.

40. Assimilative souls.
41. Celestials.

It should be noted that No. 1, and 36 to 41—these seven are developables, having operation of developable sub-class of Body-making Karma. The rest 34 are both developable and undevelopable. Those who have operation of developable Body-making Karma attain complete capacity of developableness within an Antar-Muhūrta; while those under operation of undevelopable Body-making-Karma cannot attain capacity of developableness and die. Such undevelopable mundane souls have a life of 1'18th part of a pulse beat.

521. (There are eight bondage places in Body-making Karma), of (1) twenty-three, (2) twenty-five, (3) twenty-six, (4) twenty-eight; (5) twenty-nine, (6) thirty, (7) thirty-one, and (8) one (sub-class). Bondage of one (sub-class only occurs) in both the ladders.

Commentary.

There are 93 sub-classes of the Body-making Karma, out of which 5 molecular bondage, 5 interfusions and 16 colour etc., are not taken into account as being included in the others, only 67 sub-classes are to be considered. One soul at a time would not bind all the 67. It may bind 23, 25, 26, 28, 29, 30, or 31, till the 6th part of the 8th stage of New-thought-activity. Only one is bound from 7th part of the 8th stage to the end of 10th stage. There is no bondage in stages from 11th to 14th.

522-523. (The first) place (of 23 is bound) with undevelopable (sub-class); (the second of 25) with developable and (undevelopable both), the rest (six are bound) with developable only. (Bondage of 26 will occur) with any of the two hot-light or cold-light; (that of 28), with any of (two) celestial or hellish. (Bondage places of 29 and 30 are possible) with any of the three conditions of life excepting the hellish. (Similarly place of 31 is possible) with celestial condition; (and that of 1), not along with any condition of existence. (Thus) mundane souls bind (these sub-classes) according to the thought-activities, occasioning their (bondage).

524. Hot-light (sub-class is bound only) with Earth-bodied gross developable (sub-classes). Cold-light (is bound) with any of the good sub-classes possible in sub-humans excepting the three fire etc., (viz. fire-bodied, air-bodied and common vegetable, either gross or fine, fine earth-bodied and water bodied may also be excepted).

Commentary.

26 sub-classes including either hot-light or cold-light will be bound with gross developable earth-bodied classes. 26 including cold-light only are bound with gross developable water bodied or developable individual vegetable Karmic class. Thirty including cold-light can be bound with any of two, three, four-sensed or irrational and rational five-sensed beings.

525. Tīrthankara (Karma is bound) along with human condition or celestial condition. Assimilative Karma as well as both the assimilative and Tīrthankara Karma, (are bound) along with celestial condition, in the place of bondage, by vowful saints. (Any of the two) cannot be bound along with any other condition.

Commentary.

Tīrthankara sub-class of body-making Karma is a special good Karma. Any right-believing hellish or celestial being will bind it along with human condition of life; while any human being existing in any of the four stages from Vowless right belief to the Perfect vow will bind it, along with celestial condition. The bondage place of the former is of 30 and that of latter is of 29. A saint in Perfect vow or in the New-thought-activity stage, till its sixth part, will bind assimilative two, along with 30, or both assimilative and Tīrthankara along with 31.

526-528. Nine ever-binding Dhruva Bandha (sub-classes) of the Body-making Karma, one of each of the (nine) pairs of Mobile etc., excepting (the pair) of voice, one of the (4) Conditions, (one) of the (5) Genuses, one of the (8) Bodies, one of the (6) Figures and one of the (4) Migratory forms, (these twenty-three sub-classes) (are) general. Along with bondage of mobile only, any one of the (6) Bones, and any one of the (3) Limbs (is bound), while (along with bondage of mobile) developable only, one of the (two) voices, and one of the (two) Movements (is bound). It is also a rule that respiration and the other-destructive (Karma are bound) by all developables only. Hot-light, cold-light, Tīrthankara and Assimilative (Karmas are bound) in their proper places (as has been said before).

Commentary.

The following are the twenty-three sub-classes of Body-making Karma, which are generally bound by all mundane souls.

9 Ever-binding *i. e.*, Electric and Karmic bodies, Not-heavy light, Self-destructive, Formation, 4 Colour etc.

1 out of the pair, Mobile and Immobile.

1 out of the pair, Gross and Fine.

1 out of the pair Developable and Undevelopable.

1 out of the pair Individual and Common Vegetable.

1 out of the pair Steady and Unsteady.

1 out of the pair Beautiful and Ugly.

- 1 out of the pair Amiable and Unprepossessing.
- 1 out of the pair Impressive and Non-impressive.
- 1 out of the pair Fame and Notoriety.
- 1 out of the 4 Conditions of Life.
- 1 out of the 5 Kinds of Genus.
- 1 out of the 3 Kinds of Limbs or Bodies, Physical, Fluid and Assimilative.
- 1 out of the 6 kinds of Figures.
- 1 out of the 4 kinds of Migratory forms.

23

Any one of the 6 kinds of Bones and any one of the 3 kinds of Limbs, are bound along with Bondage of Mobile, whether Developable or Non-developable. Any one of the two voices, and any one of the two Movements are bound along Mobile Developable. While Respiration and the Other-destructive Karma are bound by all Mobile and Immobile with Developable sub-classes only.

530-531. (There is bondage-place of twenty-three in case of one sensed undevelopable; (that of twenty-five in case) of one-sensed developable, or two, or three, or-four or five (sensed sub-humans), or humans (all) developable; (that of twenty-six in case) of one-sensed developable; (that of twenty-eight along) with celestial or hellish condition; (that of twenty-nine along) with the developable two, or three, or four, or five-sensed sub-human), or human, or celestial conditions; (that of thirty along) with the same (taken) twice (with one variation); (that of thirty-one along) with celestial condition; and (that of one) not along with any condition (of existence). Such are the eight bondage places of the Body-making Karma.

Commentary.

There are eight bondage places as regards Body-making Karma as stated in Gatha 521. They are shown below along with their possible variations.

I. Bondage place of 23 Sub-classes.—The 23 sub-classes will be:—The ever binding nine *i. e.*, electric and Karmic bodies, Not-heavy-light, Self-destructive, Formation and 4 Colour etc., (10) Immobile, (11) Gross or fine, (12) Undevelopable (13) Individual or Common, (14) Steady or Unsteady, (15) Beautiful or Ugly, (16) Amiable or Unprepossessing (17) Impressive or Non-impressive (18) Fame or Notoriety (19) Sub-human condition, (20) Physical body, (21) Sub-human migratory form, (22) one of 6 Figures, and (23) one-sensed Genus. They are detailed in Commentary under verse 526-528. This Bondage is possible along with bondage of one sensed undevelopable, immobile, sub-human condition. This Bondage place will hereafter be represented by I. U.

II. Bondage place of 25 Sub-classes.—This has 6 variations. (a) Taken away the Undevelopable sub-class from the above 23, and add Developable, Respiration, and the Other-destructive. Such Bondage happens along with one-sensed developable sub-human. We shall call it I. D.

(b) Subtract from these 25, the five sub-classes, Immobile, Developable, One-sensed genus, Respiration and the Other-destructive; and add the other five, Mobile, Undevelopable, Two-sensed

Genus, Loosely-joined bones and Physical limbs. This place of 25 is possible with Two-sensed Undevelopable. We shall call it II. U.

(c) In place of Two-sensed genus in the above 25, reckon Three-sensed genus. This place of 25 occurs with Three-sensed Undevelopable. We shall call it III. U.

(d) Similarly replace Three-sensed by Four-sensed Genus, and we shall have a place of 25 with Four-sensed Undevelopable. We shall call it IV. U.

(e) Again replace Four-sensed by Five-sensed Genus, and we shall have a place of 25 with the Five-sensed Undevelopables. We shall call it V. U.

(f) Replace sub-human condition by human condition, and we have a place of 25 with Human Undevelopable. We shall call it. H. U. Thus we have six variations of 25 sub-classes. (1) I. D. (2) II. U. (3) III. U. (4) IV. U. (5) V. U. (6) H. U. III. Bondage-place of 26. This has 2 variations.

(a) In the above 25, replace the six sub-classes, Mobile and Undevelopable, Human condition, Five-sensed genus, and Loosely-joined limbs, by the seven, Immobile Developable, Sub-human condition, One-sensed Genus, Respiration, the Other-Destructive, and Hot-light, This place of 26 is possible with One-sensed developable, with Hot-light. We shall call it I. D. H. L.

(b) Substitute Hot-light in the above by Cold-light. This place of, 26 occurs with One-sensed with Cold-light. We shall call it I. D. C. I.

IV. Bondage place of 28. It has 2 variations.

(a) One such place consists of the 9 ever-binding, (10) Mobile, (11) Gross, (12) Developable, (13) Individual, (14) Steady or Unsteady; (15) Beautiful or Ugly, (16) Fame or notoriety, (17) Amiable, (18) Impressive, (19) Celestial condition, (20) Five-sensed genus, (21) Fluid body, (22) Fluid limbs, (23) Symmetrical figure, (24) Celestial Migratory form, (25) Sweet voice, (26) Graceful movement, (27) Respiration, and (28) Other-destructive. This place is possible with bondage of Celestial condition. We shall call it C.

(b) It may consist of the 9 ever-binding, (10) Mobile, (11) Gross, (12) Developable, (13) Individual, (14) Unsteady, (15) Ugly,

(16) Unprepossessing, (17) Non-impressive, (18) Notoriety, (19) Hellish condition, (20) Hellish migratory form, (21) Five-sensed genus, (22) Fluid body, (23) Fluid limbs, (24) Disproportionate figure, (25) Harsh voice, (26) Awkward movement, (27) Respiration, (28) Other destructive. These are possible with Hellish condition. We shall call it N.

V. Bondage-place of 29. This has 6 variations:—

(a) It consists of the 9 Ever-binding, (10) Mobile, (11) Gross, (12) Developable, (13) Individual, (14) Steady or Unsteady, (15) Beautiful or ugly, (16) Unprepossessing, (17) Non-impressive, (18) Fame or notoriety, (19) Sub-human condition, (20) Sub-human migratory form, (21) Two-sensed genus, (22) Physical-body, (23) Physical limbs, (24) Disproportionate figure, (25) Loosely-jointed bones, (26) Harsh voice, (27) Awkward movement, (28) Respiration, and (29) Other destructive. These 29 are bound with Developable two sensed. We shall call it II. D.

(b) Replace two-sensed genus by three-sensed genus, and we have a place of 29 which is bound with 3-sensed Developable. We shall call it, III. D.

(c) Substituting 3 sensed genus by 4 sensed genus, we have a place of 29 with 4 sensed developable. We shall call it IV. D.

(d) It may also consist of the 9 over-binding, (10) Mobile, (11) Gross, (12) Developable, (13) Individual, (14) Steady or Unsteady, (15) Beautiful or ugly, (16) Amiable or unprepossessing, (17) Impressive or non-impressive, (18) Fame or notoriety, (19) One of the 6 figures, (20) One of the 6 Bones, (21) Sweet or harsh voice, (22) Graceful or awkward movement, (23) Sub-human condition, (24) Sub-human migratory form, (25) Five-sensed genus, (26) Physical body, (27) Physical limbs, (28) Respiration and (29) Other-destructive. This place is possible with five-sensed sub-human developable. This we shall call V. D.

(e) Substitute in the above, Sub-human condition and migratory form by Human condition and Migratory form, and a place of 29 is possible with Human Developable. We shall call it H. D.

(f) It may also consist of the 9 Ever-binding, (10) Mobile, (11) Gross, (12) Developable, (13) Individual, (14) Steady or unsteady, (15) Beautiful or ugly, (16) Amiable, (17) Impressive, (18) Fame or notoriety, (19) Celestial condition, (20) Celestial migratory

form (21) Five-sensed genus, (22) Fluid body, (23) Fluid limbs, (24) Symmetrical figure, (25) Sweet voice, (26) Graceful movement, (27) Respiration, (28) Other destructive, and (29) Tirthankara. This place is possible with Celestial condition and Tirthankara Karma. It is bound by human beings in stages from 4th to 7th. This we shall call C. T.

VI. Bondage-place of 30. It has 6 variations:—

(a) Adding Cold-light to the place of 29, with Two-sensed developable, we have a place of 30. It is bound with Two-sensed Developable and Cold-light. We shall call it II. D. C. L.

(b) Substitute 3 sensed, in the above and we have a place of 30. It is bound with Three-sensed developable and Cold-light. We shall call it III. D. C. L.

(c) Similarly we have a place of 30, bound with 4-sensed Developable and Cold-light. We shall call IV. D. C. L.

(d) Similarly we have a place of 30, with 5-sensed Developable and Cold-light. We shall call it V. D. C. L.

(e) Adding 1 Tirthankara to the above with human, we have place of 30, bound with Human developable and Tirthankara Karma, by celestial or hellish beings. We shall call H. D. T.

(f) Replacing Tirthankara Karma in the place of 29 with celestial condition, and adding the assimilative two, we have a place of 30. It is bound with Celestial and Assimilative by a saint in the Perfect-Vow Stage. We shall call it C. A.

VII. Bondage of 31 H.

Having added the assimilative two to 29 with celestial, and Tirthankara, we have a place of 31. It is bound with Celestial. Tirthankara and Assimilative by a saint in the 7th stage. We shall call C. T. A.

VIII. Bondage of I.

Only fame Karma is bound in a saint from the 6th part of 8th stage to the 10th stage. We shall call it F.

Thus we have 8 places in 25 variations representing them as below :—

NOTE.—Here I, II, III, IV, V represent one to five-sensed beings—U=Undevelopable, D=Developable, H. L. hot-light C. L. cold-light ; C=Celestial ; N=Hellish, H=Human ; T=Tirthankara ; A=Assimilative.

532. With reference to (six kinds of) Figures, (6 kinds of) Bones, the two Movements, and the last six pairs (of steady etc.,) owing to (bondage with) the compatible one (in each set), (there are) (4608) combinations, in Bondage-places.

Commentary.

It is a rule that at a particular time any one kind of the following sub-classes can be bound in a soul. (1) 6 Figures, (2) 6 Bones, (3) 2 Movements, (4) Sweet and harsh voice, (5) Steady and Unsteady, (6) Beautiful and ugly, (7) Amiable and unprepossessing, (8) Impressive and Non-impressive, (9) Fame and notoriety. Each sub-class in every one of these groups can be bound along with the other in the other groups, in different variations. The total number of combinations will thus be $6 \times 6 \times 2 \times 2 \times 2 \times 2 \times 2 \times 2 \times 2 = 4608$.

533. In these (groups), (during bondage) with hellish condition, and with all Undevelopable (sub-classes), only one bad (sub-class) is bound. In the absence of (bondage of) others, (there is) only one combination (in each).

Commentary.

Referring to the table given under verse 531, we find that Serial No. 11, IV (b), 28, N, appertains to Bondage with hellish condition, and No. 1, 23, I. U. and Nos. 3 to 7, II, 25, 2 D. to H. U. belong to Bondage along with undevelopable sub-class. Bondage

of bad sub-classes only of figure etc., will happen there. For example there will be Bondage of Disproportionate figure, Awkward movement, unsteady etc., with hellish condition. Similarly in case of bondage of 23 and 25 with undevelopable sub-class, only the bad sub-classes and not the good ones in the groups will be bound.

Commentary.

Referring to table No. 31, under verse 531, No. 2, 25, I. D., will have four combinations in case of bondage of any of the two Steady and unsteady, or Beautiful and ugly. This will be so in case of bondage with the Developable, Common, Gross, Vegetable and with all the five kinds of Fine Developable, earth, etc.

Commentary.

There will be eight combinations in cases of bondage of one of the two in the 3 parts of, Steady and unsteady, Beautiful and ugly, and Fame and notoriety, in the following places :—

hundred and eight combinations with reference to (bondage of) one of each (of the groups and sub-classes); but in the second (stage, there are) thirty-two hundred.

Commentary.

Referring to verse 532, we find that nine groups binding in various ways produce 4608 combinations. They will comprise of 6 figures \times 6 bones \times 2 movements \times 2 steady etc., \times 2 beautiful etc., \times 2 amiable etc., \times 2 impressive etc., \times 2 voice \times 2 fame etc., = 4608. All these are possible with the following:—

I. During wrong belief stage.

(1) 29, 5, D., with Developable, rational sub-human.

(2) 30, 5, D. H. C. L. „ „ „

(3) 29, H. D., with developable human.

Each of three has 4608 divisions.

II. During downfall stage in the above 3 places of bondage, there will be only 3200 combinations, in case of bondage of any one of the following:—

5 Figures (leaving the last) \times the 5 Bones (leaving the last) \times the 2 Movements \times the 2 Steady unsteady 2 \times Beautiful and ugly \times 2 Amiable and unprepossessing \times 2 impressive and unimpressive 2 sweet and harsh voice \times 2 Fame and Notoriety.
 $5 \times 5 \times 2 \times 2 \times 2 \times 2 \times 2 \times 2 \times 2 \times 2 = 3200$.

537. During the Mixed and Vowless (stages in the bondage) place with Human (condition), in (stages) beginning from Wrong-belief (to Vowless) in (bondage) place with celestial (condition), and (in stages) upto the Imperfect vow (i.e., in the 5th and 6th, there is bondage of) good (sub-classes,) (excepting those of the) pairs of Steady and (unsteady), Beautiful (and ugly), and Fame (and notoriety). (Each has) only eight combinations.

Commentary.

In the places described below there is bondage of good Figure Bone, Movement, Voice etc. Any one of the two in the three pairs:—Steady-unsteady, Beautiful-ugly and Fame-notoriety may be bound, and on account of this variation, we shall have $2 \times 2 \times 2 =$ eight combinations in each of the following cases:—

Verses 95-96 (page 45, Karma Kanda Vol. VI, S B J.) show that generally there is no bondage of the 5 lower Figures, and the 5 lower Bones, Awkward-movement, Harsh-voice, Un-prepossessing, and Unimpressive, beyond the downfall stage.

I. Hellish and Celestial beings in Vowless stage will bind the bondage-place of 29 H.D., with Human Developable and the place of 30.H.D.T., with Human Developable and Tirthankara, while in the Mixed stage 29.H.D. only.

II. Souls in stages from Wrong belief to Vowless, bind 28.C, with Celestial condition. In Vowless stage, they may also bind 29 CT, with Celestial and Tirthankara and in Partial vow or Imperfect vow, they bind 28 C, or 29 C. T.

Beyond the 6th stage there is no bondage of any bad class. Even Unsteady, Ugly and Notoriety can be bound till the 6th, and no further. Therefore only one division is possible in each of the bondage-places shown below from seventh to 10th stage, beyond which there is no bondage of Body-making Karma.

In each of the 7th and 8th Stages there are Bondage-places of 28.C with Celestial, 29.CT with Celestial and Tirthankara, 30.C.A with Celestial Assimilative and 31.C.T.A., with Celestial, Tirthankara and Assimilative.

But from the last part of the 8th stage to the last moment of the 10th, there is bondage of one, the Fame sub-class only.

All the places and combinations in bondage of Body-making Karma are shown in a tabular form below:—

Table 32, showing Bondage places and Combinations with reference to Spiritual stages, in Body-making Karma.

538. Transmigration of hellish beings (is possible) as rational developable sub-humans of work (region), but not as Tirthankara from the last four (hells); while those of the seventh (hell are born) as sub-humans only.

Commentary.

This verse describes the condition of existence, in which, souls in hell can take their birth after cessation of their hellish-age-Karma.

Generally they take birth in work-region of the middle universe as rational developable sub-humans or humans.

Beings of the seventh hell are born as rational developable sub-humans only.

Hellish beings cannot be born as Chakravarti, Balbhadrā, Nārāyaṇa, and Pratinārāyaṇa. Beings from the first three hells can be born direct as Tirthankaras.

Beings from the first four hells can be born as humans capable of attaining liberation from the same life, those of the first five are born as humans capable of adopting vows of a saint. Those of the first six may become partial-vowers in human and sub-human lives.

539. (A soul) born in that (seventh hell), having acquired the vowless and mixed stages, binds as a rule, the two, human (condition and migratory form) and high (family Karma). Such (souls) advanced to these stages (come) down to Wrong (belief stage before) they die.

Commentary.

Only wrong believers go to the 7th hell. There also, some of them acquire Right belief, or descending from it acquire Mixed belief. During the 3rd and 4th stages they will bind Human condition and Human migratory form and High family, but will not be born as humans. At moment of death, their thought activities become degraded, they come down to Wrong-belief stage and are born as Rational sub-humans in Work-region.

540. The two fire (and air bodied souls transmigrate) into (any of) sub-humans; the rest, (developable and) undevelopable, one(-sensed) and not-all (sensed sub-humans are born) in those (viz. sub-humans) and also in humans, but not as Tirthankara. Similarly the irrational (five sensed can take birth in sub-humans and humans) as well as in Gharma. (the first hell) and in the two celestials (Residential and Peripatetics.)

Commentary.

All the gross, or fine; developable or undevelopable; fire and air-bodied souls after death can take birth as sub-human only, as gross or fine, developable or undevelopable earth, water, fire, air, common vegetable, individual vegetable, two, three, four, five-sensed, irrational and rationals, but not in enjoyment region as five-sensed sub-humans. The rest i.e. gross or fine, developable or undevelopable, earth-bodied, or water bodied, common vegetable host-souled, whether Nitya Nigoda or Itara Nigoda, individual souled-vegetables, whether host-individual-souled. two. three. four, sensed sub-humans. All these can take birth in all the sub-humans, as above, where fire-bodied, air-bodied beings born, as are well as in humans, but not as 63 great personages. Fine host-souled-vegetable, however, on being born as human cannot become a saint, but can have Right belief and can adopt Partial vows of a house-holder. Five-sensed irrationals can take birth in any sub-human and human condition like an earth bodied soul. They can also go to first hell and can be celestials in residential or peripatetic groups.

541. The rational (sub-humans can take birth) like (the irrationals), and also in the remaining (six) hells, in enjoyment (regions), and (as celestials) upto the Achyuta (or 16th heaven). Humans go to (all) the four conditions and also to the place of the Liberated.

Commentary.

All the rational sub-humans can be born in all the conditions in which the irrationals take birth. They can also go to any of the seven hells, to enjoyment region; and also attain the celestial condition upto the 16th heaven.

The Developable humans of Work-region can take birth in all the conditions like the Rational sub-humans. They can even go above the 16th heaven upto Sarvārtha Siddhi. Those men who destroy all their Karmas can become liberated. Undevelopable humans can take birth as any sub-humans of Work region or in any condition of humans, excepting the 63 great men. All the sub-humans and humans of the enjoyment region are born as celestials. If they are Right believers, they will take birth in Saudharma and Ishāna heavens. If they are wrong believers or in the downfall stage, they will be Residentials, Stellars or Peripatetics.

542-543. (Saints) with Assimilative body (are born as) celestials (in heavens). Transmigration of celestials (is possible) as rational sub-humans and humans of work region (generally), and also as gross, developable individual vegetables and in earth and water-bodied (conditions); same (is the case with) the three, Residentials (Stellars and Peripatetics); but if born as humans (they will) not (be) Tirthankara (or any of the 63 personages). (Heavenly celestials) till Ishana (are born like others) as one-sensed (also), but those (from 3rd) upto the end of the two Satāra (11th and Sahasrāra the 12th can be born) as Rational (but not irrational, sub-humans).

Commentary.

Saints in the 6th stage of Imperfect vows with Assimilative body, on their death are born as heavenly celestials only. As a general rule all celestials upto those of the last heaven, Sarvārtha Siddhi, on their death take birth as humans of Work-region, but celestials till the 12th heaven including the Residentials, Stellars and Peripatetics may also be born as Rational sub-humans, of Work-region; and celestials till the 2nd heaven including the Residentials, Stellars and Peripatetics may take birth even in gross, Developable Individual, Vegetable, earth-bodied, and water-bodied conditions. It is worthy of note that Residentials, Stellars, and Peripatetics are not born as 63 great men, or as Tirthankaras.

544. Bondage-places of Body-making (Karma) during hellish and (sub-human, human and celestial conditions) (are respectively) of twenty-nine, and thirty (sub-classes); the first six; all; and those of twenty-five, twenty-six, twenty nine and thirty (Sub-classes).

Commentary.

Here the bondage places of Body-making Karma are described with reference to Conditions of existence.

There are two Bondage-places-those, of 29 and 30, in hellish condition. Upto the third-hell Megha, a soul can bind 30 (H. D. T.) Human, Developable with Tirthankara. Up to the 6th hell, Maghawi, it can bind 29 (V. D.) five-sensed Developable sub-humans, or 29 (H. D.) human developable, and upto the 7th hell, Māghawi, 29 (V. D.) five-sensed developable sub-human, or 30 (V. D. C. L.) five sensed developable sub-human with cold-light. Thus souls trans-migrating from the first, second or third hells can be born as Tirthankara; from hells down to the 6th, as humans, and from hells down to the 7th, as five-sensed sub-humans. Four spiritual stages

are possible in Hellish condition, and with reference to Stages the bondage will be as below:—

I stage	29, II. D. or 29, H. D. or 30, V. D. C. L.
II "	" "
III "	29, H. D.
IV "	29, H. D. or 30, H. D. T.

In sub-human condition, the bondage-places are of 23, 25, 26, 28, 29, 30 sub-classes in the following variations.

(1) 23, I. U.	one-sensed undevelopable, with gross or fine sub-class.
(2) 25, I. D.	one-sensed developable, with gross or fine.
(3) 25, II. U.	two-sensed undevelopable.
(4) 25, III. U.	three-sensed "
(5) 25, IV. U.	four-sensed "
(6) 25, V. U.	five-sensed " sub-human.
(7) 25, H. U.	human "
(8) 26, I D. H. L.	one-sensed developable with hot—light as earth bodied soul.
(9) 26, I. D. C. L.	one-sensed developable with cold-light as earth, water, & individual vegetable.
(10) 28, C.	Celestial
(11) 28, N.	Hellish
(12) 29, II. D.	Two-sensed developable
(13) 29, III. D.	Three-sensed "
(14) 29, IV. D.	Four-sensed "
(15) 29, V. D.	Five-sensed "
(16) 29, H. D.	Human "
(17) 30, II. D. C. L.	Two-sensed developable with cold-light.
(18) 30, III. D. C. L.	Three-sensed " "
(19) 30, IV. D. C. L.	Four-sensed " "
(20) 30, V. D. C. L.	Five-sensed " "

Undevelopable sub-humans living for 1/18th part of a pulse beat; and dying without acquiring the capacity of full Development can also bind all except the two of 28 i.e. 28. C, and 28. N. Thus it will be seen that sub-human can bind 20 out of the 25 variations shown in Table 31. The five variations which they do not bind are (17) 29 C.T. (22) 30 H. D. T. (23) 30 C. A, (24) 31 C. T. A, and (25) I. F.

As regards Spiritual, stages five of them are possible in fivesensed rationals. The others can have only two, Wrong-belief and Downfall. Right-believers and those with Partial vows will bind only 28 C.

In Human condition, all the 8 bondage places (verse 521) with 25 variations are possible. Humans can thus acquire the highest or the lowest position according to their thought-activities.

The celestials have the following places of bondage.

- (1) 25 I. D. (2) 26 I. D. H. L. (3) 26 I. D. C. L. (4) 29, 5 D. (5) 29 H. D. (6) 30, V D. C. L. (7) 30 H. D. T.

The first four spiritual stages are possible to them. Right believers among them will bind 29, H. D. and 30, H. D. T. only. Celestials in other stages will not bind 30 H D.T.

545. All (the 8 bondage-places are possible) among five-sensed beings; and among the mobiles, the first six excepting that of twenty-eight, among the rest (i.e., one to four-sensed and the five Immobiles). All bondage places are possible, among beings with four kinds of mind and speech (vibrations), and with physical (vibrations); (only four are possible) in (those with) the two, fluid (and fluid mixed vibrations) like the celestials.

Commentary.

With reference to the Senses, all the 8 bondage-places are possible with the five-sensed, but only five viz those of 23, 25, 26, 29 and 30 sub-classes among one-to-four-sensed beings. With reference to embodiment all the 8 are possible among mobiles, but the 5 kinds of immobile have only the above five bondage-places. With reference to vibrations, beings with four kinds of speech and mind and with physical vibrations have all the 8 bondage-places. Beings with fluid and fluid-mixed vibrations have four places of 25, 26, 29, 30 like those in the celestial condition.

546. (There are) two (bondage-places) of twenty-eight (and twenty nine) sub-classes among (saints with vibrations of) assimilative two (assimilative and assimilative mixed), the first six among the remaining two vibrations (i.e., physical mixed, and Karmic); all (of them) in sex and passion (soul-quests); the first six among (three kinds of) wrong knowledge.

Commentary.

Saints with assimilative and assimilative mixed vibrations can bind 28 C or 29 C T. Souls with Karmic and, physical-mixed vibrations have the first 6 bondage-places of 23, 25, 26, 28, 29, and 30.

Sub-humans and humans in Wrong-belief stage do not bind 28 C and 28 N. In downfall stage, with Karmic vibration, they bind only 29 V D, or 9 H. D, or 30 V. D. C. L. In vowless stage, with Karmic vibration, they bind 28 C. Humans with Karmic vibration, in the vowless stage can also bind 29 C. T.

Generally, speaking in all the three sexes and in all the passions there are all the bondage-places. There are however some exceptions. In the first three hells, with common sex, there are only two Bondage-places of 29 V. D. or 29 H. D. or 30 V. D. C. L. or 30 H. D. T. Tirthankara Karma can be bound upto the third hell. In the other hells there is no 30 H. D. T. Sub-humans, with common sex, have 23 I. U, all six of 25, 2 of 26, the first 5 of 29, till 29 H. D; first 4 of 30, till 30 V. D. C. L, while five-sensed sub-humans with Common-sex have 28 N and 28 C also. Sub-humans with female and male sex have six bondage-places also. Undevelopable humans with common sex have five bondage places like those of not-all-sensed sub-humans.

Humans, having male, female or common bodily formations can each have any of the three kinds of sex thought-inclinations. Such is not the case with Tirthankaras. They have only male inclination. Such humans have generally all Bondage-places till the sixth part of the 9th stage, according to their spiritual thought activities. Humans ascending the destructive ladder, with female or common sex do not bind 29 C. T. or 31 C. T. A. Those humans who bind Tirthankara Karma in destructive ladder will necessarily be with male sex. Such saints will obtain liberation from the same body. It should also be noted that humans who are to be liberated from the same body can commence bondage of Tirthankara Karma from the 4th to the 7th stage. Such humans, binding Tirthankara Karma when in house-

holder's stage can have only three Kalyānakas e.g., at the time of adopting asceticism, on attainment of perfect knowledge, and on liberation; while those who commence binding it in the 6th stage can have only the two last Kalyānakas. Kalyānaka is a special celebration by celestials on five occasions viz., conception, birth, adoption of asceticism, attainment of perfect knowledge, and liberation, by a Tirthankara.

In passion quest, it should be noted that soul is affected by operation of one kind of passion, namely either anger, pride, deceit or greed at a particular instant. All the four degrees of a passion will affect a Wrong-believer. A Right believer in the 4th stage will be free from the operation of error-feeding class. He will be affected by 3 degrees only. One in the 5th stage will be free from passion of the Partial-vow preventing degree also. Those in 6th, 7th or 8th stage will be free from those of total-vow-preventing degree also. In the 9th stage only the perfect-vow-preventing passions operate. In the 10th stage there is the slightest greed only. As stated in Verse 544, bondage places with reference to passions also will be 29 H. D. 30, H. D. T. 29, V. D. 30, V. D. C. L. in hellish conditions. And similarly in respect of sub-human, humans and celestials, the bondage places will be those stated in that verse.

With reference to knowledge-soul-quest. So far as the three kinds of wrong knowledge are concerned only the first five bondage places will be possible.

Hellish beings with wrong knowledge will bind 29 V. D. C. L., Sub-humans from one to four-sensed have five bondage places of 23, 25, 26, 29 and 30 as explained in Verse 544. Five-sensed undevelopable sub-humans and humans with wrong knowledge have the same bondage places as the other lower sub-humans.

Developable sub-humans and humans with wrong knowledge in wrong belief and downfall stages have first six bondage places possible for them.

Residentials, stellars and peripatetics and souls in Saudharma and Ishana Heavens with wrong knowledge can have Bondage-places of 25 I. D, 26 I. D. H. L, 26 I. C.L, 29 V. D., 29 H. D, 30 V. D. C. L.

Celestials from 3rd to 12th heavens with wrong knowledge will have bondage of 29. V. D, 29. H. D and 30. V. D. C. L. Higher on, till the nine Graiveyakas, they will bind only H. D.

547. (There are) the last five (Bondage-places) in Right knowledge, but none in perfect knowledge and Perfect Control. In the three Controls (i. e., equanimity, recovery of equanimity, all-but-entire-freedom-from-delusion), (Bondage places) like (those in) Scriptural knowledge; in Pure, and absolute non-injury (control) the last (Bondage Place) does not exist, (viz. these are only the first four of the last five (bondage-places)

Commentary.

As regards Sensitive, Scriptural, Visual, and Mental knowledge there are the last five bondage places.

Bondage places of 23, 25, and 26 are not possible where Right knowledge is present.

Hellish beings with the first three of the eight kinds of knowledge can bind 29, H D; and 30. H. D. T also in the first three hells only. The same two are bound by heavenly beings with Right knowledge. The 3 kinds of Celestials, Residential, Stellar & Peripatetics with Right knowledge have bondage of 29, H D only. Sub-humans with Right knowledge will bind 28 C only. Humans with the first three kinds of Right knowledge bind 28. C or 29, C. T. Saints with Mental knowledge also, in the 6th stage bind 28. C, or 29. C. T.

Saints with Mental knowledge in the 7th and the 6th part of the 8th stage bind 28 C, 29 C. T, 30 C. A, and 31. C. T. A. Saints from the 7th part of the 8th stage to the 10th stage bind only one sub-class viz., Fame. There is no bondage of Body-making Karma beyond the 10th stage. Thus there are five bondage places in Right knowledge. With reference to the five kinds of Control; there is bondage of five places of 28 C, 29 C. T, 30 C. A, 31 C. T. A and of 1, as stated with reference to Right Scriptural knowledge, in equanimity, recovery-of-equanimity, and All-but-entire-freedom-from-delusion. The stages are from 6th to 10th. Visual and Mental knowledge may not necessarily be possessed by saints before attaining perfect knowledge, because it is the main cause of bringing out perfect knowledge. The Pure-and-absolute-non-injury

control is possible only in the 6th and 7th stages, so there are only four bondage places of 28 C, 29 C. T, 30 C. A and 31 C. T. A. Perfect knowledge and Perfect control can never have any bondage of Body making karma.

548. In slightest (delusion control); there (is only one) the last (bondage) place. In partial (-control) and non-control they are the same as in Assimilative and Karmic (vibration respectively). Both in the ocular (and non-ocular conations) (there are) all (bondage-places). In the two Visual (and perfect conations), same as in their respective (kinds of) knowledge.

Commentary.

All-but-entire-freedom-from-delusion Control has only one bondage place of 1, the Fame sub-class.

Humans with partial control in 5th stage bind 28 C, or 29 C. T, but sub-humans with partial control will only bind 28 C. During non-control stage, the bondage places are the first six.

Hellish being in Wrong-belief and Downfall stages can bind 29 V. D or 29 H. D, or 30, V. D. C. L, in the mixed, only 29 H. D, in the vowless during the first three hells, 29 H. D or 30 H. D. T. but in others, only 29 H. D.

In sub-human condition there are all the first six, but developable or undevelopable one-sensed, and not-all-sensed and undevelopable five-sensed do not bind 28 C or 28 N; and fine or gross, developable or undevelopable, fire-bodied and air-bodied souls do not bind 25 H. U, and 29 H. D.

A sub-human which has come down to the Downfall stage from the First Subsidential-belief or 4th or 6th stage binds 29 V. D, or 29 H. D or 30 V. D. C. L or 28 C. A soul born as a sub-human with Downfall stage, retains this condition during the period of its undevelopableness, and during such period, does not bind 28 C or 28 N. Having come down to the Wrong-belief stage and having acquired capacity of development, it may bind any of these two. Rational sub-humans in Mixed and Vowless stage bind 28 C.

Humans who are totally undevelopable, and are in the Wrong-belief stage do not bind 28 C, and 28 N, but can bind different variations of 23, 25, 26, 29, 30 excepting 29 C. T. 30 H. D. T, 30 C. A.

Developable humans can bind the first six Bondage-places in all the four conditions of life. But in Downfall stage they will bind 29, V. D or 29 H. D. or 30 V. D. C. L. or 28 C. But when any Human, Sub-human, or Celestial has downfall stage, in its developable condition, for a very short time, it may bind 29 V D. or 29, H. D. or 30 V. D. C. L. only; but when it comes down to Wrong-belief stage, during the time of undevelopment, it may bind any variations of 25, 26, 29 and 30, but not 28 C. or 28 N. 29 C. T. 30 H.D.T. and 30 C. A. The same soul becoming developable can bind 28 C or 28 N also.

Humans of Work and Enjoyment region in mixed and downfall stages, can bind only 28 C. A right believing soul having previous Bondage of Tirthankara Karma, whether he may be in transmigration, in undevelopable condition, in womb of his mother, at birth, in childhood, or a being who had bound hellish or celestial age before bondage of Tirthankara Karma, or a human who is to obtain liberation from the same life, will bind 29 C. T. only.

In Wrong-belief stage Residentials, Stellars and Peripatetics and Celestials of Saudharma and I'shâna heavens will bind 25 I. D, or 26 I. D. H. L or 26 I. D. C. L. or 29, V. D. or 29 H. D or 30 V. D C. L; celestials from the 3rd, Sanat Kumar to the 12th Sahasrâra can bind 29, V. D, or 29 H. D, or 30 V. D. C. L; and Celestials from the 13th heaven to the highest Graiveyak will bind 29 H. D. only.

All Sub-humans and Humans of Enjoyment region being in state of Wrong-belief take birth as Residentials, Stellars, Peripatetics or as females in the heavens. But all rational sub-humans, and humans, including saints, with mild passions, who do not follow Right practical conduct, in the Wrong-belief stage may be born in any celestial condition upto the Achyuta heaven.

Jain saints with Right Practical conduct, without Right belief can take birth upto the 9th Graiveyaka. Sub-humans and humans in the 4th or 5th stages can take birth till the 10th heaven Achyuta.

Right believing saints can go upto Sarvârtha Siddhi.

Wrong-believing celestials, such as Residentials, Stellars, and Peripatetics all females, males of Saudharma and I'shâna heavens, so long as they in undevelopable condition, can bind 25 I. D or 26

I. D. H. L., or 26 I. D. C. L., or 29 V. D or 29 H. D or 30 V. D. C. L. Wrong believing celestials from the 3rd to the 12th heaven in the undevelopable condition, will bind 29 V. D, or 29 H. D, or 30 V. D. C. L. and celestials from the 13th heaven to the 9th Graiveyaka will bind 29 H. D only.

Celestials in Downfall stage in their undevelopable condition, if they are Residentials, Stellars, and Peripatetics females; and males of Saudharna and I'shāna, will bind 29 H. D or 30 V. D. C. L. If they belong to heavens from 3rd to 12th, they will bind the same 29 V. D or 29 H. D or 30 V. D. C. L. and celestial from the 13th heaven to the 9th Graiveyaka will bind 29 H. D only. Residentials, Stellars, Peripatetics and all celestials till the 9th Graiveyaka in mixed stage, and Residentials, Stellars and Peripatetics; and heavenly females in vowless stage, will bind 29 H. D only. Heavenly celestials in vowless stage will bind 29 H. D and also 30 H. D. T if they have already got Bondage of Tirthankara Karma.

Hellish beings with Ocular and non-ocular conation can bind 29 V. D, or 29 H. D, or 30 V. D. C. L or 30 H. D. T. Four-sensed beings with Ocular conation, and one-sensed to four-sensed with non-ocular conation bind all places till 30, excepting 28 C, 28 N, 29 C. T, 30 H. D. T, and 30 C. A. Five-sensed sub-humans with ocular and non-ocular conation, will bind all places till 30, excepting 29 C. T, 30 H. D. T and 30 C. A. Humans with ocular and non-ocular conation can bind all the places from 23 I. U, to 1 Fame.

Celestials with ocular and non-ocular conation will bind generally 25 I. D, 26 I. D. H. L 26 I. D. C. L, 29 V. D, 29 H. D. 30 V. D. C. L, 30 H. D. T.

As to visual conation, the Bondage-places are the last five, as in case of Visual Knowledge. Right believers only have Visual conation.

Hellish beings till the 3rd hell having already bound Tirthankara Karma will bind 30 H. D. T. All hellish beings till the 7th without Tirthankara Karma will bind 29 H. D. Sub-humans with Visual conation will bind 28 C. Humans can bind 28 C, or 29 C. T, or 30 C. L, or 31 C. A, or 1 Fame. Celestials with visual conation having already bound Tirthankara Karma will bind 30 H. D. T. Others will bind 29 H. D.

549. (There are the first six Bondage-places) during the three, black (blue and grey thought-paints), like (those in) Karmic (vibration); six places from twenty-five, and four from twenty-eight respectively in the two, yellow (and pink), and (the last five), in white as in Visual Knowledge.

Commentary.

Thought-paints are defined in Jiva Kanda Vol. V of the Sacred Books of the Jainas page 247.

The 1st, 2nd, 3rd hells have grey thought-paints; the last stratum of the 3rd, and the 4th and 5th hells have blue thought-paint. The last stratum of the 5th and the 6th and 7th hells have black thought-paint. Irrational five-sensed sub-humans cannot go lower than the first hell.

Sarīsrapa, a kind of serpent, is born in the first and the 2nd hells. Birds cannot transmigrate to any lower than the 3rd hell. Serpents go up to the 4th, lions down to the 5th, Women down to the 6th, and men, with the first kind of bones and fishes, go down to the 7th hell.

The 7 hells beginning from the first are named as follows:—

1. G harmá, 2. Vansha, 3. Megha, 4. Anjana, 5. Arishtá, 6. Maghawi,

Wrong believers in the first 6 hells bind 29. V. D or 29. H. D, or 30. V. D. C. L and those of the 7th, bind 29. V. D or 30. V. D. C. L. Same is the case in Downfall stage In Mixed and Vowless stages; they bind 29 H. D only. Those in the first hell, with Tirthankara Karma in existence, having right belief, in undevelopable or developable condition, will bind 30. H. D. T. In the 2nd and 3rd hell those who have existence of Tirthankara Karma, and are wrong believers in their undevelopable condition, become right believers in developable condition, and then bind 30. H. D. T.

Among sub-humans, all kinds of undevelopable and developable, one-sensed to 4-sensed, and undevelopable irrationals, wrong believing rationals, who have come from hells, or in other conditions, or rationals, having downfall stage in undevelopable condition, possess three kinds of bad thought-paints.

Five-sensed irrational developable with wrong belief may have any of the four thought-paints black, blue, grey, and yellow. Rationals in Downfall and Mixed stages, being developable, and in vowless stage being undevelopable or developable, have all the six thought-paints.

Sub-humans of Enjoyment region, in vowless stage, have grey thought-paint in their undevelopable condition, but on becoming developable, they have only the three good paints. Even wrong believers have the same three good paints.

Nineteen kinds of undevelopable sub-humans, namely the six, (1) earth, (2) water, (3) air, (4) fire, (5), common vegetables of Nitya Nigoda kinds (6), common vegetables Chaturgati or Itara Nigoda kinds, either gross, or fine (12); host-individual vegetable (13), non-host Individual vegetable (14), 2-to-4-sensed (15-16-17), irrational (18) and rational 5 sensed (19); and sub-humans transmigrating from any of the above 19 kinds, or from developable sub-humans, or from undevelopable and developable humans,—all these wrong believers, with three bad thought-paints, bind five places of 23, 25, 26, 29, and 30, according to their thought activities; while fire-bodied and air-bodied souls bind them only with sub-human condition. It should be noted that the above-mentioned nineteen kinds of undevelopables and the same 19 kinds of developables, and undevelopable and developable humans—aggregating forty, having three bad paints, in wrong belief stage, can be born as developable sub-humans of the aforesaid nineteen kinds in wrong belief stage. They in their potentially developable condition bind five bondage-places of 23, 25, 26, 29, and 30 (according to their thought activities).

Sub-humans in downfall stage having come from sub-human condition, and humans of Work-region and those re-born as gross earth, water, individual vegetable, 2-to-4-sensed, or irrational or rational 5-sensed beings, those having come from the residential stellars, or peripatetics, and heavenly beings of heavens till the 12th, or those having come from any of the first six hells, and reborn as rational five-sensed sub-humans of work-region in uterine birth—all these beings, in downfall stage, bind bondage-places of 29 & 30 according to the thought activities in their undevelopable condition. But they soon become Wrong-believers in the potentially developable condition, as the maximum duration of Dowfall stage is only 6 Avalis. Then those in wrong belief stage, before being developable, bind 23, 25,

26, 29, or 30. Some celestials, and hellish beings of the first six hells, who acquired right belief there, after having bound sub-human age at their death, and who have Destructive-subsidential-right-belief, are born as Right-believing sub-humans with their respective paints. Then they in their potentially developable condition bind 28 C. Being developable they have in the vowless stage all the six kinds of paints, but as partial-vowers they have only the three good paints.

A wrong-believing human who has offered meals to saints or others, or any wrong-believing sub-human who experienced agreeable feelings when meals were being given to the pure ones-both of them having bound sub-human age-Karma, die with any of these bad paints and are born as sub-humans in Enjoyment region. They in their, potentially developable condition bind 29, V. D. or 30, V. D. C. L. or 29 H. D. Having acquired the first subsidential right belief, but by falling down in the downfall stage at the time of death, they may be born as sub-humans in Enjoyment region or in work region with any of the three bad paints. In the potentially developable condition, such will bind 29, V. D. or 29, H. D. or 30, V. D. C. L. A human or sub-human having bound sub-human age Karma, and having afterwards acquired destructive-subsidential right belief, or Destructive right belief in case of humans only, at death, are born as sub-humans, in enjoyment region with grey thought paint and with right belief, and bind 28, C. only in their potentially developable condition. Any human or sub-human in Enjoyment region can possess any such of the three good paints, in their developable condition, in any of the four first stages, as are possible there. Then those who are in wrong-belief or Downfall stage will bind 28, C. or 29, V. D. or 29, H. D. or 30, V. D. C. L, while those in 3rd and 4th stage will only bind 28, C.

Human condition of existence.—Totally undevelopable humans have only the bad paints. Potentially developable humans can have any of the six. They in their wrong-belief stage bind any of 28, U. 25, I D, 25, II.-U, to 25, H. U, 26, I. D. H. L, 28, I. D. C. L, 26, H. D. to 29, H. D, 30, II. D. C. L, to 30. V. D. C. L; in their Vowless stage 29, II. D. or 29, II. D. or 30, V. D. C. L, in their Downfall stage, 28, C, or 29, C, T. When they become developable they have any of the six thought paints. Such humans in Wrong-belief stage will bind all the six bondage places from 28 to 30 except the variations 29 C. T, 30 H. D. T, and 30 C. A; in the Downfall stage, 28, C 29 V. D. 29 H. D, or 30 V. D. C. L; in Mixed stage; only

28 C; in vowless stage or in partial and imperfect vow stages with three good paints, 28 C, or 29 C. T; in perfect vow stage, 28 C. or 29 C. T, or 30. C. A or 31 C. T. A; in new thought activity stage, with white thought paint, the same four; and only Fame in its last part; in the 9th and 10th stages, one, Fame.

Humans of Enjoyment-region have bondage places like Sub-humans.

Celestial condition.—The residentials, stellars, and peripatetics have only three bad paints in their potentially developable condition. They have the slightest degree of yellow thought paint in their developable condition. Heavenly beings in Saudharma and I'shāna, in the first Indraka Vimāna, have the minimum sort of yellow thought paint in both the undevelopable and developable conditions. Those in the second Indraka to those of the 6th Indraka of Sanat Kumar and Māhendra have middle sort of yellow paint in both the conditions, while in the 7th Indraka and in celestial places connected with it, they have the maximum of yellow and minimum of pink. From 5th to 16th they have middle sort of pink. In 11th and 12th heavens, they possess maximum of pink and minimum of white. From 13th to 16th heaven, and in the 9 Graiveyakas, 9 Anudishas and 4 Anuttaras of 4 sides there is middle sort of white paint. Sarvarth Siddhi heavenly beings have maximum white paint.

The three, residentials, stellars, and peripatetics in potentially developable condition, in the wrong belief stage bind 25 V. D, 26 V. D. H. L. or 26 I. D. C. L, 29 V. D, 29 H. D, or 30 V. D. C. L; in their downfall stage, 29 V. D, 29 H. D, or 30 V. D. C. L. Celestials in Saudharma or I'shan heavens, in wrong belief stage, being potentially developable, bind 25 I. D. 26 I. D. H. L, or 26 I. D. C. L, 29 V. D, 29 H. D, or 30 V. D. C. L. The same in downfall stage bind 29 V. D, 29 H. D, or 30 V. D. C. L. They in vowless stage bind 29 H. D, or 30 H. D- T. The same potentially developable heavenly beings of 10 heavens, from 3rd to 12th, in their wrong belief and downfall stages bind 29 V. D, 29 H. D or 30 V. D. C. L, in their vowless stage, 29 H. D, or 30 H. D. T.

The same in the remaining four heavens, and in 9 Graiveyakas in their Wrong belief and downfall stages bind 29 H. D, in their Vowless stage, bind 29 H. D, or 30 H. D. T. Beings of 9 Anudisha, and 5 Anuttras, Vowless stage, also bind 29 H. D, or 30 H. D. T. Celestials in their developable condition will also bind the same according to their thought paints and stages.

Note. Here the commentator does not discuss their developable condition, but from the description given in previous gathas, this fact will be clear to the readers.

Thus there are 6 bondage places from 23 to 30 in three bad paint a, 6 from 25 to 31 in yellow; 4 from 28 to 31 in pink and 5 from 28 to 1 in white thought paint till 10 stage. There are no bondage-places of 24, and 26.

550. All (bondage) places (are possible) in Bhavya souls; (only the first six) in Abhavyas as in black (thought paint); (the last five from 28) in subsidential and destructive right belief as in white paint; and (the four from 28) in destructive subsidential (right belief) as in pink (thought paint).

Commentary.

Bhavya souls have all the fourteen stages, therefore all eight kinds of bondage places are possible to them. Abhavya souls are always wrong-believers; therefore they can have 6 bondage places from 23 to 30 according to their thought activities. Subsidential and Destructive Right-believers have 5 places from 28 to 1, while Destructive-subsidential-right-believers can have four places from 28 to 31.

Hellish beings with first-subsidential-right-belief till 3rd hell will bind 29 H. D. or 30 H. D. T. Sub-humans with that belief in the 4th or 5th stage will bind 28 C. only. Humans with that belief in 4th, 5th, and 6th stage can bind 28 C. or 29 C. T. and in 7th stage, 28 C, 29 C. T, 30 C. A, and 31 C. T. A.

Celestials with first-subsidential-right-belief till 9 Graiveyakas will bind 29 H. D. only. They will not bind 30 H. D. T. because the rule is, that humans who have bound Tirthankara Karma with Right belief, and also Celestial age will be born as celestials with right-belief and will not fall into wrong belief. First-subsidential-right-belief is acquired only by ascending from the first stage of wrong belief.

Second-subsidential-right-belief is acquired by a saint in the 7th stage, already possessing Destructive subsidential right belief. He

can bind 28 C, 29 C. T, 30 C. A. or 31 C. T. A. in its 7th stage and in 6 parts of the 8th stage. Beyond that till the 10th stage he will bind only one, the Fame Karma. Falling down from the 11th stage, he gradually comes to the 7th, 6th, 5th, or 4th stage and can bind 28 C. or 29 C. T. Thus Second-subsidential-right-belief has 8 stages from the 4th to the 11th. Any soul with First or Second-Subsidential-right-belief, and having existence of bondage places of 31 C. T. A, can not descend to Wrong belief stage, neither does it come to the Downfall stage, nor to the mixed stage. It should be known that a soul having existence of both Tirthankara and Assimilative, cannot become a Wrong believer; the one having existence of Assimilative cannot come to Downfall, and the one with Tirthankara Karma cannot come to the Mixed stage. A soul having Destructive-right-belief will bind 5 bondage places from 28 to 1, i.e., 28 C, 29 H. D, 29 C. T, 30 H. D. T, 30 C. A 31 C. T. A, or 1. If it goes to the first hell, it will bind the same. If it goes to the Enjoyment region, and is born as sub-human or human it will bind 28 C. As human of work region, it will bind 28 C, 29 C. T. 30 C. A, 31 C. T. A. or 1. Humans with Destructive-subsidential-right-belief, staying in stages from 4th to 6th bind 28 C, or 29 C. T, while in the 7th stage, they bind these and also, 30 C. A. 31 C. T. A. Hellish beings having this belief bind 29 H. D. or 30 H. D. T. in the first 3 hells, but only 29 H. D. in other hells. Sub-humans of both Work and Enjoyment-regions, and humans of Enjoyment-region with this belief, bind only 28 C. Celestials with this belief bind 29 H. D, or 30 H. D. T.

551. (Souls) in Downfall (stage, bind) the three places of twenty eight (twenty-nine and thirty); in Mixed (the two of 28 and 29); in Wrong-belief (the first six) as in the black (Paint); (both the) Rational and Assimilative (bind) all; while the others i. e., (Irrational and Non-assimilative bind only) the (first) six from twenty three.

Commentary.

Souls with Downfall belief in potentially developable condition of gross earth, water, individual vegetable, 2 to 4-sensed, irrational and rational 5-sensed, sub-human and human, or in developable hellish life, or in undevelopable and developable celestial condition, till the 12th heaven bind 29 V. D, 29 H. D. or 30 V. D. C. L. As developable rational sub-humans and humans they will bind 28 C.; 29 V. D., 29 H. D. or 30 V. D. C. L. Developable and undevelopable celestials from 13th heaven to 9th Graiveyaka will bind only 29 H. D.

Hellish and celestials with Mixed belief will bind 29 H. D., while sub-humans and humans with this belief will bind only 28 C.

Wrong-believers in the first six hells, in undevelopable or developable condition bind 29 V. D, 29 H. D. or 30 V. D. C. L. while in the 7th hell, they bind 29 V. D. or 30 V. D. C. L.

Wrong-believing sub-humans either totally undevelopable, or potentially developable, as gross or fine, earth, water, fire, air, common, individual vegetable, 2-to-4-sensed, irrational, and sub-humans, and also humans bind 23, 25, 26, 29, 30 but fire and air-bodied souls will not bind 25 H. U. and 29 H. D. Developable irrational and rational sub-humans and humans bind all the 6 places from 23 to 30. Wrong-believing celestials till 1'sāna heaven in undevelopable and developable conditions bind 29 I. D, 26 I. D. H. L, 26 I. D. C. L, 29 V. D, 29 H. D, or 30 V. D. C. L; while from 3rd to 12th heaven they bind 29 V. D, 29 H. D, or 30 V. D. C. L; and those from 13th heaven to 9th Graiveyaka bind only 29 H. D.

Rationals, and those in Assimilative soul-quest have all the 8 bondage places. Hellish beings will bind 29 V. D, 29 H. D, 30 V. D. C. L, or 30 H. D. T. Sub-humans will not bind 29 C. T, 30 H. D. T, 30 C. A; and 31 C. T. A, and 1. Celestial have 26 I. D, 26 I. D. H. L, 26 I. D. L, 29 V. D, 29 H. D, 30 V. D. C. L, 30 H. D. or 30 H. D T.

Irrationals do not bind any place with Tirthankara and Assimilative body Karma; otherwise they bind 6 places from 23 to 30.

Non-assimilatives, during celestial and hellish migration, bind 29 V. D, 29 H. D, 30 V. D. C. L, 30 H. D. T. sub-humans and humans have the first 6, from 23 to 30.

552-553.—Considering the respective combinations of bondage places (bound along) with hellish (condition) etc., the combinations of downfall stage are certainly included in the combination of Wrong-belief stage; all the combinations in Mixed, Partial-vow and imperfect-vow (stages) are included in the combination of Vowless stage.

Having deducted the (repeated ones), (the un-repeated combinations are those appertaining to) Wrong-belief, Vowless and Perfect-vow stages.

Commentary.

Here one should refer to table No. 32 given under verse 537 and find out "the repeated combinations" stated therein.

IN WRONG BELIEF STAGE we have.

With hellish condition	...	1 combination of 28 N.
		{ 1 combination of 28 U.
		8 " 26 I. D.
With sub-human condition	...	8 " 26 I. D. H. L.
		and 26 I. D. C. L.
		{ 4608 combination of 29 V. D.
		4608 " 30 V. D. C. L.
With human condition	...	{ 4608 combination of 29 H. D.
		1 " 29 H. U.
With celestial condition	...	8 combination of 28 C.

IN DOWNFALL STAGE.

With sub-human	...	{ 3200 combination of 29 V. D.
		3200 " 30 V. D. C. L.
With human condition	...	8 combination of 29 H. D.
With celestial condition	...	8 combination of 28 C.

It will be seen from above that 3200 combinations of 29 V. D. and 3200 of 30 V. D. C. L. of downfall are included respectively in 4608 of 29 V. D. and 4608 of 30 V. D. C. L. of Wrong-belief, and 3200 of 29 H. D. of downfall are included in 4608, 29 H. D. of

wrong-belief, as well, as the 8 of 28 C. of Down fall are included in the 8 of 28 C of wrong-belief stage.

In Mixed stage,

With human condition there are ... 8 combinations of 29 H. D.

With celestial condition, „ „ ... 8 „ 28 C.

In Vowless stage,

With human condition „ „ ... { 8 combinations of 29 H. D.
8 „ 30 H. D- T.

In Vowless stage,

With celestial condition „ „ ... { 8 combination of 29 C. T.
8 „ 28 C.

In Partial-vow and Imperfect vow stages.

With celestial condition, there are ... { 8 combinations of 29 C. T.
8 „ 28 C.

It will be seen from the above that all the combination of Mixed, Partial vow and Imperfect vow are included in those of Vowless stage, as stated in the verse.

From the 7th to 10th stage there is only one combination,

भुजगारा अप्पदरा अवट्टिदावि य सभंगसंजुत्ता ।

सव्वपरट्ठाणेण य णेदव्वा ठाणबन्धम्मि ॥ ५५४ ॥

भुजाकारा अल्पतरा अवस्थिता अपि च स्वभङ्गसंयुक्ताः ।

सर्वपरस्थानेन च नेतव्याः स्थानबन्धे ॥ ५५४ ॥

554. The bondage places with their respective combinations should be considered as increasing (Bhujākāra), decreasing (Alpatara), steady (Avasthita) and in-describable (Avaktavya) with reference to own place, other-place, or altogether-other-place.

555. In bondage, the bondage places in the own (spiritual place), in other (spiritual-place) or in both (different condition and different spiritual place) are named (respectively) as own-place (Svāsthana), other-place (Parasthāna) and altogether-other-place, (Sarva para-sihāna),

Commentary.

Svasthāna or own-place bondage places are places which are possible when a soul remains in one and the same spiritual stage in a certain condition of existence.

Parasthāna or other-place bondage-place are places which are possible when a soul continuing in the same condition, changes its spiritual stage.

Sarva parasthāna altogether-other-place is that in which the condition of existence and the spiritual stage are both changed. They will be considered with reference to 4 kinds of bondage, Increasing, Decreasing, Steady, and Indescribable as stated in verse 554.

A wrong believer directly approaches (all the stages) till the Perfect vow, excepting the Downfall and Imperfect-vow; a soul in the second stage goes to Wrong-belief only; (one in the) Mixed (may go) to the first and the fourth (stages); A right believer and a Partial-vower, goes to the end of the Perfect-vow

leaving the Imperfect-vow, (stage). Imperfect vower (goes) to the sixth stage, and the Perfect-vower to the sixth and (to the 8th and the 4th on death).

559. Those in subsidential ladder ascend and descend gradually. Those who die in subsidential stages attain the high position of celestials.

Commentary

A soul in the wrong belief stage can directly go to the 3rd, 4th, 5th or 7th stage. Thus it has four changes. A soul in downfall stage will always fall to the wrong belief stage: it has only one change. A soul in the Mixed stage will either ascend to the 4th or come down to the 1st; it has two changes. A Right-believing-soul in the 4th stage can directly ascend to the 5th or 7th and descend to the 3rd, 2nd or 1st; so it has five changes. A soul with Partial-vows will either ascend to the 7th or descend direct to the 4th, 3rd, 2nd or 1st, so it has five changes. A soul with Imperfect-vows will either ascend to the 7th or descend directly to any of the first five stages, so it has six changes. A saint with Perfect-vow will either ascend to the 8th in Subsidential or Destructive ladder or descend to the 6th or come down to 4th if he dies. So it has three changes. A saint in the subsidential 8th stage can either ascend to the 9th or come down to the 7th or directly go to 4th, if he dies. Similarly a saint in the 9th stage will either go to the 10th or return to the 8th or go to the 4th stage on death. A saint in the 10th stage also will go upto 11th or come down to 9th or to 4th on death. So each of the 8th, 9th, and 10th subsidential stages have three changes. A Saint in Subsided-delusion of 11th stage cannot go upward, but comes down to the 10th or to the 4th, if he dies. So it has two changes.

Those who ascend by Destructive ladder, do not come down but proceed further onwards, and attain Perfect knowledge and the stage of Arhat. The following table will show changes in different stages.

560. Souls in the Mixed stage, in Assimilative mixed (vibration), in Destructive (ladder), ascending the first (part) of (subsidential) new (thought-activity), having first subsidential right belief, and existing in (second, third and fourth) stages, in Mahātama (7th hell) do not die.

Commentary.

Saints who die in the 11th stage of subsided delusion are born Ahmindra in Sarvārtha Siddhi, the last heaven. Souls which die in 1st or 4th stage can go to any of four conditions of life. Souls in Downfall stage can go to three conditions, celestial, human and sub-human. A good soul dying in the 14th stage, goes to Nirvāna. All souls dying in any stage from 5th to 10th certainly attain celestial condition. A person never dies in the 3rd, 12th or 13th stages.

The following table will show the stage where death can occur and the conditions which souls can acquire after death.

561. (A soul), (which reaches) the Wrong-belief stage after having transformed matter of error-feeding (passions) does not die within one Antarmuhurta. Similarly (a soul attaining Destructive right belief does not die) so long as it does not become accomplished (Kritakritya) (right believer). (Such souls have) eight positions in the altogether-other-place.

562. Krita-kritya (right-believers, at death) during (four parts of) an antar-muhurta are, respectively, born as celestials, celestials or humans, celestials humans or sub-humans, and in the four conditions.

Commentary.

A soul about to attain Destructive right belief, remains for one antar muhurta a Krityakritya Right-believer. If it dies in the 1st part of the antar-muhurta, it must attain celestial condition; if in the 2nd part, it will be either celestial or human; if in the 3rd part, it may be born as celestial human or sub-human; and if in 4th part, it may transmigrate in any of the four conditions.

563.564. Bondage places (are) of three kinds, Increasing, Decreasing, and Steady. The first is that where a soul binding a small (number of sub-classes), (subsequently) binds a greater (number). The second (is) its opposite. The third (is) evident from its very name. They arise from consistent bondage places. I shall gradually describe their causes with their combinations.

565. A gross, earth bodied, wrong believing soul binding twenty-three, afterwards binds all the combinations of twenty-five; similary consider for the rest.

Commentary.

In the Commentary to verses 519-520 are shown 41 grades of mundane souls.

In table 23 to verse 537 are shown the various bondage places and their combinations with reference to Wrong Belief stage.

Bondage place of 23. I. U takes place with eleven grades, the ten, undevelopable, gross, or fine, earth, water, fire, air and common vegetable, and the eleventh, the undevelopable individual vegetable. There is one combination with reference to each grade.

25 I. D. is bound with each of five i. e., developable gross earth, water, fire, air, and individual vegetable. With reference to variations in pairs Steady, Beautiful and Fame, each one has $2 \times 2 \times 2 = 8$ combinations.

Thus there are $5 \times 8 = 40$ combinations. As stated in verse 534, the six, developable-common-gross-vegetable (1), and fine, earth (2), water (3), fire (4), air (5) and common vegetables (6), are bound with 25 sub-classes, having two variations owing to pairs of Steady and Beautiful. Thus each has $2 \times 2 = 4$ combinations, and the total comes to $6 \times 4 = 24$. The six, undevelopable 2 to-4 sensed, (1-2-3) irrational and rational five-sensed sub-humans (4-5), and humans (6) also are bound with 25, with only one combination each; and thus there are 6 combinations. $40 + 24 + 6 = 70$ is the total number of combinations of 25 I. D.

26 I. D. H. L., is bound with gross earth and 26 I. C. L. with gross earth, water, and vegetable. There are 8 combinations for each; and thus there are $8 \times 4 = 32$ combinations in bondage place of 26.

28 C, has 8; and 28 N has 1, and thus there are 9 combinations in bondage places of 28.

29-II-D, to 29 V. D. Irrationals have each 8 combinations; so there are $8 \times 4 = 32$ combinations. 29 V. D. rational has 4608, and 29 H. D. has 4608. Thus there are $4608 + 4608 + 32 = 9248$ combinations in bondage place of 29.

30 II. D to 30 II. V. D. Irrationals have each 8 combinations, so there are $8 \times 4 = 32$ combinations 30 V. D irrational has 4608 combinations. Thus there are $4608 + 32 = 4640$ combinations in bondage place of 30.

In order to find out Increasing combinations, it should be known that a soul binding 28 sub-classes can bind all combinations of 25, 26, 28, 29, and 30. Similarly a soul binding 25, can bind all combinations of 26, 28, 29 and 30. A soul binding 26, can bind all the combinations of 28, 29 and 30; one binding 28 can bind all combinations of 29 and 30; one binding 29 can bind all combinations of 30. The following table will show all the combinations in wrong-belief-stage.

Table 35 of Increasing combinations in Wrong-belief-stage.

These combinations show the numerous changes in thought-

activity. A soul binding 28 U, can bind afterwards 28 C or 28 N or 29. V. D or 29. H. D, etc.,

566. A wrong believer binds (all these combinations) from the place of twenty-three to that of thirty in wrong belief stage, but the developable five-sensed only (can bind) twenty-eight.

Commentary.

Five-sensed sub-humans, and humans only, can be reborn as hellish and celestials; and they only can bind 28 N or 28 C. The other combinations from 23 to 30 can be bound by any wrong-believer.

568. Combinations of (bondage) places of wrong belief (stage) (are respectively) eleven, seventy, thirty-two, nine, nine-thousand two hundred and forty-eight, and forty-six-hundred and forty (for 23, 25, 26, 28, 29, and 30).

Commentary.

All these have been shown in Commentry to verse. 565.

569. The Decreasing Combinations are opposite (to those of increasing and found) by rule of three, Combinations of the previous and the next places (should) gradually (be taken) as the Desired and the Resulting (number).

Commentary.

The total number of Decreasing Combinations is the same as that of Increasing ones. The calculation here is however reversed. A soul binding any of 4640 combinations of thirty can bind any of 9248 of 29, 9 of 28, 32 of 26, 70 of 25 and 11 of 23. Similarly a soul binding any of 9248 of 29, can bind any of 9 of 28, 32 of 26, 70 of 25, and 11 of 23 and so on. The rule of three works in, when we calculate the total number of combinations of Decreasing classes. Thus if 1 combination of 30 can have 9248 combinations of 29, howmany combinations will there be in 4640 of 30. Thus calculated, the total number of Decreasing combinations are shown in the following table.

Table 36 showing Decreasing combinations in wrong belief stage.

	For 29.	For 28.	For 26.	For 25.	For 23.	Total.	Multipled By.	Total of all Combination.

Note—The total number of Decreasing Combinations is thus the same as that of Increasing ones.

This is shown in tables 35 and 36.

571. The total number of the Increasing combination in wrong-belief (stage is) of course the same, 4460. 9435.-

Commentary.

These combinations may last for more than one instant in any soul, and therefore the steady combinations, will be the sum of both the Increasing and Decreasing combinations, i. e. 8,92,18,870.

574. A wrong believing hellish being, having existence of Tirthankara Karma, binds twenty-nine with human (with its 4608 combinations in potentially developable conditions); there-after, (on being developable and) acquiring Right-belief (it) binds thirty (with human and Tirthankara with eight combinations; thus by multiplying them we have) 36864 (increasing combinations.)

Commentary.

The total number of Increasing Combinations in vowless stage as shown below, is given above as 36,864, and adding 64+64 to it as stated in Verse 573, the aggregate sum is 36,992. Thus,

8 For 28 C.	Multipled By	8 For 29 C. T.	= 64
8 For 29 CT.	„	8 For 30 H. D. T.	= 64
4608 For 29 H.D.	„	8 For 30 H.D.T.	= 36864

575. (A human soul having already bound hellish age and then acquiring Right belief, and commencing bondage of Tirthankara Karma binds) twenty-nine with celestial (and Tirthankara, with 8 combinations; becomes again a Wrong-believer just before going to hell) it binds twenty-eight with hellish (with one combination; thus there are eight Decreasing combinations). (A hellish, or Celestial Right-believer already binding thirty with human and Tirthankara with eight combinations dies and is born as Tirthankara human, and binds twenty-nine with celestial and Tirthankara, with eight combinations, thus there are 64 decreasing combinations. The total comes to) 72 Decreasing combinations in vowless stage). (Vowless binding 29 with human, with 8 combinations) without Tirthankara (and then binding twenty-eight with celestial, and thus 64 decreasing combinations are) certainly repeated ones (and are included) in combinations of wrong belief.

Commentary.

The Decreasing Combinations in Vowless stage are 72, as shown below:—

8 For 29 C.T.	Multiplied By	1 For 28 N.	= 8
8 For 30 H.D.T.	Do.	28 For 29 C.T.	= 64
Total			72

The total of Increasing 36992, and Decreasing 72 Combinations, viz. 37064 is the steady number of Combinations in Vowless stage.

Commentary.

They are explained as below:—

(1) A saint binding 28 C with one combination in perfect vow stage descends to imperfect vow and commences binding Tirthankara also, *i. e.*, 29 C.T, with 8 combinations. Here we have only 8. Increasing combinations by multiplying 1 by 8.

(2) A saint in Imperfect vow stage binding 28 C with 8 combinations, ascends to Perfect vow, and commences bondage of Assimilative two *i. e.*, binds 30 C.A. with one combination. By multiplying 8 by 1 we have 8 combinations.

(3) A saint in Perfect vow stage binding 28 C with 8 combinations ascends to Perfect vow, and binds 31 C.T.A with one combination. Thus we have $8 \times 1 = 8$ combinations.

(4) A saint in Perfect vow stage binding 29 C.T with one combination dies and is born as Vowless celestial and binds 30 H.D.T with 8 combinations. Thus we have $1 \times 8 = 8$ combinations.

(5) A saint in Imperfect vow stage binding 29 C.T with 8 combinations ascends to Perfect vow and binds 31 C.T.A with one combination; thus we have $8 \times 1 = 8$ combinations.

(6) A saint in Perfect vow stage binding 30 C.A with one combination again binds 31 C.T.A. with one combination; thus we have $1 \times 1 = 1$ combination.

(7) A saint in New-Thought-Activity stage binding 1 with 1 combination, descends to lower parts of the same stage or to perfect vow and binds 28 C with 1 combination or

(8) 29 C.T with 1 combination or

(9) 30 C.A with I combination or

(10) 31 C.T a with I combination. Thus we have I combination in each of the above conditions, (7), (8), (9), (10).

Adding 8 + 8 + 8 + 8 + 8 + 1 + 1 + 1 + 1 + 1 we have 45 combinations. The repeated combinations are with reference to bondage of 28 C with one combination, and binding 29 C.T or 30 C.A or 31 C.T.A, each with one combination in this same perfect vow stage.

The above statements may be verified at a glance, as shown below:—

Stages.	VI	VII	VII	IV	VII	VII	VII	VII	VII	VII

By Multiplying the combinations in the upper with those in the lower line we have $8+8+8+8+8+1+1+1+1+1=45$ combinations in all

578. (Binding) thirty with one, one, zero, zero, each with one combination, and (then binding) twenty, with ten, nine, nine and eight each with 8 combinations, (and binding) four places with celestial, each with one combination; then binds only one with one combination. (Thus there are) thirty six Decreasing (Combinations) in Perfect stage.

Commentary.

(1) A saint in seventh stage binding 31 C. T. A. with I combination, dies and comes to 4th stage of a celestial and binds 30 H.D.T. with 8 combinations; thus the Increasing combination are $1 \times 8 = 8$.

(2) The same saint binding 81 C. T. A. with 1 combination descends to the sixth stage, and binds 29 C. T. with 8 combinations thus we have $1 \times 8 = 8$ combinations.

(3) The same saint binding 30 C. A. with 1 combination descends to the 6th stage, commences binding Tirthankara Karma, and then binds 29 C. T. with 8 combinations; thus we have $1 \times 8 = 8$ combinations.

(4) The same saints binding 30 C. A. with 1 combination descends to the 6th and binds 28 C. with 8 combinations, thus we have $1 \times 8 = 8$ combinations.

(5) The same saint going to the 8th stage while binding 28 C. 29 C. T, 30 C. A. and 81 C. T. A. in lower parts each with 1 combination, ascends to the 7th part and binds only 1 Fame with one combination, thus there are 4 combinations.

Adding them all together we have $8 + 8 + 8 + 8 + 4 = 36$ Decreasing combinations in Perfect vow stage, as shown below:-

Stages.	...	IV	VI	VI	VI	VII	VII	VII	VII	
Bondage Places.	...	30	29	29	28	1	1	1	1	
Combinations.	...	8	8	8	8	1	1	1	1

Bondage Places.	...	31	31	30	30	28	29	30	31	
Stages.	...	VII	VII	VII	VII	VII	VII	VII	VII	

Thus we have $8 \times 1 + 8 \times 1 + 8 + 1 + 8 \times 1 + 1 \times 1 + 1 \times 1 + 1 \times 1 + 1 + 1 = 36$ Decreasing combinations.

The total of Increasing and Decreasing divisions in perfect vow stage are the steady combinations i. e., $45 + 36 = 81$.

Commentary.

To take an example of repeated bondage place.

29 sub-classes can be bound as 29 H. D. viz., without Tirthankara but with bone Karma, and also as 29 C. T. namely with Tirthankara without bone Karma.

582. (A saint) in subsided delusion (not binding any sub-class of body-making Karma), descends (to 10th,) (and) binds one (Fame Karma); (if he) dies, (he binds) twenty-nine or thirty (sub-classes each with 8 combinations). (Thus there are seventeen Indescribable-bondage (combinations); (the same are) the steady ones, (because they are bound) in second instant, and further.

Commentary.

As has been shown in table No. 37, there are 17 Indescribable and 17 Steady Bondage-combination in the 11th stage. A saint in the 11th stage does not bind any body-making sub-class. But this is a stage from which there is no progress. He must come back to 10th or to 4th stage on death. If he descends to 10th, he will bind one Fame Karma with one combination. (Vide Table to verse 537). If he dies, and comes to 4th vowless stage, then he will bind 29 H. D. or 30 H. D. T. each with 8 combinations. Thus there are 17 Indescribable combinations. As they can continue for more than one instant, steady combination are also seventeen.

End of description of Bondage of Body-making Karma.

NOTE:—Operative places of Body-making Karma are described in the following:—

583. (There are) gradually five periods of operation (of body making Karma). (1) during transmigration, having Karmic body vibration, (2) during mixed body vibration, (3) during completion of bodily developement, (4) on completion of respiration developement, and (5) (on completion of) speech (developement till the end of life).

Commentary.

There are variations of the number of sub-classes operating at a particular time. Five different periods have been taken into consideration as below:—

(1) A soul going from one body to another has a transmigration period with Karmic body vibrations. This kind of vibration is also found during 3 out of 8 instants of Omniscient overflow, though there is no transmigration.

(2) When a soul reaches a nucleus, it begins to complete its capacity of development, which is of 6 kinds in a rational being i.e., (1) assimilative, (2) body, (3) sense, (4) respiration, (5) speech, (6) and mind (vide Jiva Kanda Chapter III). Each capacity is to be completed within an Antar-muhurta; and the period for the completion of all six developments does not exceed one Antar-Muhurta. They are gradually completed. So the second period of operation of Body-making Karma is taken to be from the first instant of conception to the instant preceding the completion of Body-development capacity.

(3) On completion of bodily capacity till the instant preceding completion of respiration capacity. This third period lasts for an Antar-muhurta.

(4) On completion of respiration capacity to the instant preceding completion of speech capacity. The fourth period has also a duration of an Antar-Muhurta.

(5) The 5th period extends to the whole life time. It commences from the instant of completion of speech capacity.

584. Period of operation (during transmigration is) one or three instants. In each of the other three one Antar-Muhurta. In the last, (whole life time) minus the (aggregate) period of the preceding (four conditions).

585. There are only (the first) two periods of operation in all the totally undevelopable souls, the (first) four among the one-sensed, while the five in mobiles; the last four in assimilative body.

Commentary.

(1) All undevelopable souls have only two periods of operation (1) transmigration period (2) Mixed-Body vibration period; because they die before completing the capacities.

(2) One sensed beings cannot have speech development period. They have four periods only. (1) transmigration (2) Mixed-body vibration (3) completion of bodily development (4) completion of respiration development. Of course their fourth period or operation will last till their whole life.

(3) Mobiles have all the five periods of operation.

(4) Saints in Assimilative body in 6th stage do not have transmigration period.

586. During withdrawing (soul-spatial Units) in (Omniscient) overflow, (there are) gradually (five) periods—(1) Karmic (vibratory), (2) Physical mixed (vibratory), (3) Physical (vibratory), (4) Respiration and (5) Speech.

587. There is physical (vibratory period) during the two stick-like (Danda) (overflows, expanding and withdrawing the spatial units), mixed (vibratory period) in the two door-like (Kapata) (overflows in both the conditions); and only Karmic (vibratory period) in the (two) Sheet-like (Pratara), and in the full universal expansion (Lokapurna). Know this please.

Commentary.

During Omniscient overflow the spatial units of the soul expand; in the first instant, they take the form of a long stick, the expansion is linear; in the second instant they become door-like; the expansion is in two dimensions but limited; in third instant they spread like sheet occupying the universe except the area of the three kinds of atmosphere surrounding the universe; in fourth instant, they occupy the whole universe; in 5th instant they withdraw themselves into sheet form; in sixth instant, they further withdraw into door-form; in seventh instant, they become like a stick, and in eighth instant, they assume the form of the body of the omniscient. When the spacial units are in form of stick whether in expansion or withdrawal, there is physical body vibration. When they are in door form in both the conditions, there is physical mixed vibration. When they are in sheet form either expanding or withdrawing or when occupying the whole universe there is Karmic body Vibration. When they are in the original body they are like a developable five-sensed soul.

588. During transmigration (period, when a soul goes with turnings) (there is operation of twenty-one sub-classes of) Body making Karma; *i. e.*, twelve steady operative (namely, electric and Karmic bodies, colour etc., four, steady and unsteady, beautiful and ugly, not-heavy-light, and formation) one (out of four) conditions, (five) genuses, and (one) three pairs of mobile (immobile, gross-fine, and undevelopable-developable); and (one) of the pairs

of amiable, (not-prepossessing) impressive (-non-impressing), and fame (-notoriety), (and one of four) migratory forms.

Commentary.

When a soul goes direct to another condition, without any turnings, it has operation of 24, and not of 21, as stated in the verse following.

593-594. Possessors (of the eleven operation places from twenty-one to eight are respectively) (1) beings of four conditions (2) one-sensed, (3) special human, celestial, hellish and one-sensed, (4) ordinary one, two, three, four and five (-sensed), (5) special (humans) celestial, hellish and one-sensed (6) and (7) ordinary (men), all and not-all(-sensed), special men, celestial and hellish, (8) all and not-all (sensed) and ordinary (men) (9) vibrating (omniscients), five (sensed) and not-all-sensed, and (10) and (11) (non-vibrating omniscient).

Commentary.

Possessors of different operative places are explained as below:—

(1) Operative place of 21. It is possible in transmigratory condition of all the four kinds of existences, when souls go with turnings from one life to another, but not direct. Also in Tirthankara with Karmic vibration. The 21 sub-classes are:—the twelve ever-operative i. e., electric and Karmic bodies, four colour etc., steady and unsteady, beautiful and ugly, not-heavy-light, formation; one of four conditions, one of five kinds of genus, one of mobile and immobile, one of gross and fine, one of developable and undevelopable, one of amiable and non-prepossessing, one of impressive and non-impressive,

and one of fame and notoriety, and one of four migratory forms. In Tirthankaras, Tirthankara will operate instead of migratory sub-class form.

(2) Operative place of 24. This is possible in undevelopable condition with mixed body vibration in one-sensed only.

The sub-classes are the above 21 minus 1 migratory form and plus one of three bodies, one of 6 figures, one of individual and common and 1 self-destructive.

(3) Operative place of 25. It has three variations:—

(a) Adding other-destructive to the above 24, they operate in one sensed on completion of bodily development capacity.

(b) Adding assimilative limbs to the above 24, they operate in saint producing assimilative body during its mixed vibration.

(c) Adding fluid limbs to the above 24, they operate in fluid body mixed vibration period of celestials and hellish.

(4) Operative place of 26. They have 3 variations.

(a) Add hot or cold-light to 25 (a). They operate on completion of bodily capacity in one-sensed.

(b) Add respiration to 25 (a). They operate on completion of respiration capacity in one-sensed.

(c) Add physical limbs and one of six kinds of bones to the above 24. They operate in two to five-sensed sub-humans, ordinary humans, and in both the door-like overflows of ordinary omniscients with physical mixed vibration.

(5) Operative place of 27. There are four variations.

(a) Adding to the above 24, Assimilative limbs, Other-destructive, Graceful movement—the 27 are operative in a saint of 6th stage on completion of capacity of Assimilative body.

(b) Add Tirthankara Karma to the above 26, in (4) c in both the door-like overflow of omniscients. These 27 are operative in a Tirthankara in the stage of omniscient overflow.

(c) Adding to the above 24, fluid limbs, Other-destructive. Graceful movement for celestials, and awkward movement for the hellish, these 27 are operative in celestial, and hellish beings, on completion of their bodily capacity.

(d) Addidg to the above 24, Other-destructive, one of the two, hot-and-cold-light, and respiration, these 27 are operative in one-sensed on completion of respiration capacity.

(6) Operative place of 28. There are three variations.

(a) Adding to the above 24, Physical limbs, one of 6 bones; other-destructive and one of two movements—these 28 are operative in ordinary humans, in an omniscient entering his own body after overflow, and in two-to-5-sensed, on completion of bodily capacity.

(b) Adding to the above 24, Assimilative limbs, Other-destructive, Graceful movement, and Respiration, these 28 are operative in a saint with Assimilative body, on completion of Respiration capacity.

(c) Adding to the above 24, fluid limbs, Other-destructive, one of two Movements, and Respiration—these 28 are operative in celestials and hellish beings, on completion of respiration capacity.

(7) Operative place at 29. There are six variations.

(a) Adding to the 28 in 6 (a) Respiration, these 29 are operative in ordinary humans and in an omniscient entering his own body after overflow, on completion of respiration capacity.

(b) Adding to the above 24, Physical limbs, one of 6 Limbs, Other-destructive, one of two Movements, Cold-light; these 29 are operative in two-to-5-sensed, on completion of bodily capacity.

(c) Adding to the above 24, Physical limbs, one of 6 Bones, Other-destructive, one of two Movements, and Respirations, these 29 are operative in 2-to-5-sensed, on completion of respiration capacity.

(d) Adding to the above 24, Physical limbs, the highest Bone, Other-destructive, Graceful movement and Tirthankara; These 29 are operative in a Tirthankara with omniscient over-flow on completion of bodily capacity.

(e) Adding to the above 24, Assimilative-limbs, Other-destructive, Graceful movement, Respiration and Sweet voice, these 29 are operative in a saint with Assimilative body, on completion of speech capacity.

(f) Adding to the 28 in 6 (e), Sweet voice in Celestials, and harsh voice in hellish-beings, these 29 are operative in celestials and hellish, on completion of speech capacity.

(8) Operation place of 30. It has four variations:—

(a) Adding to the above 24, Physical limbs, one of 6 Bones, Other-destructive, one of two Movements, Respiration, and Cold-light, these 30 are operative in 2-to-5-sensed, on completion of Respiration capacity.

(b) Adding to the above, 30 any of two voices, and deducting Cold-light, these 30 are operative, in ordinary human and 2-to-5-sensed, on completion of speech capacity.

(c) Adding to the above, 24, Physical limbs, the first Adamantine bones, Other-destructive, Graceful movement, Respiration and Tirthankara, these 30 are operative in a Tirathankara with Omniscient overflow, on completion of respiration capacity.

(d) Deducting Tirathankara from the above, and adding one of two Voices-these 30 are operative in ordinary omniscients with overflow, on completion of speech capacity.

(9) Operative place of 31. It has two variations.

(a) Adding to 30 (d), Tirthankara, these 31 are operative in Tirthankara, on completion of speech capacity.

(b) Adding to the above 24, Physical limbs, one of 6 Bones, Other-destructive, Cold-light, and one of two Movements, Respiration, and one of two Voices..... these 31 are operative in 2-to-5-sensed, on completion of speech capacity.

(10) Operative places of 20. Deducting Tirthankara, from 21 above relating to Tirthankara, these 20 operate in ordinary Omniscient overflow with Karmic vibration.

(11) Operative place of 9. See verse 589.

Human condition, 5-sensed, Mobile, Gross, Developable, Amiable, Impressive, Fame and Tirthankara. They operate in the 14th stage of Tirthankara.

					7692

II. Downfall Stage.

1. Operation place of 21 has 31 combinations such:—

Thus the total combinations in 14 stages, including those in the the subsidential and Destructive ladders in stages VIII, IX, and X are $7692 + 4080 + 3458 + 3658 + 432 + 148 + 144 + 72 + 72 + 72 + 72 + 24 + 24 + 24 + 60 = 2 = 20053$.

(They are respectively) all, (all) minus Tirthankara, (all minus) assimilative two, (all minus) both (i. e. all minus Tirthankara and assimilative two), (ninety minus) celestial two being untwisted, (eighty-eight-minus) hellish four (being untwisted), (eighty-four-minus) human two (being untwisted), (then) four (places) i. e., ninety-three, ninety-two, ninety-one and ninety each) being reduced by thirteen (which are destroyed in the 9th spiritual stage), (and) ten and nine appertaining to non-vibrating (omniscients).

Commentary.

The thirteen existence places are mentioned below:—

- (1) Where all the 98 sub-classes are found in existence in a soul.
- (2) Where 92 exist, without Tirthankara Karma.
- (3) Where 91 exist, after deduction of the Assimilative two from 93.
- (4) 90 After subtraction of Tirthankara and Assimilative two from 93.
- (5) 88, after elimination of Celestial condition and Migratory form from the above 90.
- (6) 84 after taking away Hellish condition and Migratory form, Fluid body and Fluid limbs from the above 88.
- (7) 82, taking away Human condition and Migratory form from the above 84.
- (8) 80, after subtraction of 13 (which are destroyed in the 9th stage) from 93. Those 13 are Hellish condition and Migratory form, Sub-human condition and Migratory form, two-sensed to four-sensed, Cold and Hot-light, one-sensed, Common, Fine and Immobile (vide Verse 338 of Karma Kanda).
- (9) 79, after taking away Tirthankara from the above.
- (10) 78, after taking away the above 13 and Assimilative two from 93.
- (11) 77, after eliminating the above thirteen, Tirthankara and Assimilative two from 93.
- (12) 10, viz., Human condition and Migratory form, Five-sensed, Amiable, Mobile, Gross, Developables, Impressive, Fame, and Tirthankara vide Verse 341.
- (13) 9 viz., the above 10 minus Tirthankara.

611. Taking away the third (Feeling-Karma), Age and Family from the thirteen (sub-classes existing) in nonvibrating omniscient, there is existence of ten as well as of nine without Tirthankara (sub-class) of body-making Karma.

Commentary.

During the last instant of the 14th stage, 13 sub-classes remain in existence. In a Tirthankara out of these, 10 belong to Body-making Karma. Human age, High family and Feeling Karma, should be ignored, because they do not appertain to Body-making Karma. In an Ordinary non-vibrating omniscient, Tirthankara sub-class should not be taken into account, and only 9 will therefore be found in existence.

612. A (wrong believing) soul, as a rule, untwists the sub-classes which come into existence while the attribute (of right belief is evolved), and these are not bound nor do they operate in wrong belief (stage). (He also untwists) the other (nine) untwisting sub-classes, as well.

Commentary.

All 13 untwisting sub-classes are untwisted during the wrong belief stage. Out of these, clouded-right-belief and right-belief-mixed-with-wrong-belief and the Assimilative two are neither bound, nor operative in the wrong belief stage.

When a soul acquires Subsidential-Right-belief, some matter of Wrong-belief-Karma takes the form of clouded-right-belief Karma and some of right-belief-mixed-with-wrong-belief. The one sub-class of Wrong-belief is then broken up into three sub-classes of the Right-belief-deluding Karma. The Mixed-belief Karma operates only in the third spiritual stage, while Clouded-right-belief in the 4th stage along with Destructive-subsidential right-belief. The two, Assimilative body and limbs, good sub-classes, are bound only in the 7th and 8th

stages and are operative only in the 6th stage. The remaining nine i. e., the Celestial Condition and Form, Hellish Condition and Form, Fluid body and Limbs, Human Condition and Form, and High Family are bound in wrong-belief stage and also operate therein. They can however be untwisted also in that stage. There are only 13 such sub-classes, the matter of which is untwisted without help of three kinds of special thought activities called Adhaha Karana etc. Such process is termed Udvelana. It has been explained before in chapter IV. Vide verses 409 to 429.

618. A soul can, at most acquire (First Subsidential) Right-Belief, (Destructive Subsidential Right-Belief) process of transforming (error-feeding passions into lesser passions as many times as (there are instants in) an innumerable part of a Palya.)

Commentary.

The mundane soul being in Wrong-belief stage at first attains First-Subsidential-Right-belief. This can not last longer than an

Antar Múhūrta. If it acquires Destructive-Subsidential-Right-belief, that may last at least for an Antar Múhūrta and at most for 66 Sagars. The fifth stage of Partial vows can at the most last for the whole life of a man or a sub-human; and is lost when that soul goes to Celestial Condition of existence. Transformation of error-feeding passions along with Destructive-subsidential-right-belief or Second-subsidential-right-Belief is also of short duration. These four conditions can repeatedly be acquired by a soul as many times as there are instants in an innumerable part of a Palya. After all these repetitions are concluded, a soul must be liberated; this would be the maximum number of repetitions. At the least, a soul can at first acquire any of these four mental conditions in the same life and can attain liberation from the same life.

(A soul) can (at most) have Full vows thirty-two times; (thereafter it) must be liberated.

Verse 333 (is repeated here with slight difference).

During the three stages of Wrong-belief etc., Tirthankara and Assimilative, and both (of them) (can) not (co-exist in one soul in the Wrong-belief stage). None (of them exist in Downfall stage). Tirthankara (cannot exist in the Mixed stage); (because) in the souls in which these sub-classes can exist, these stages are not possible.

Commentary.

A soul can not be found in Wrong-belief stage with existence of Tirthankara and Assimilative two, together. But a wrong-believer may have Tirthankara Karma in existence without Assimilative or may have Assimilative without Tirthankara. Both of them do not co-exist in one soul in the Wrong-belief stage. Any soul which has Tirthankara or Assimilative two in existence cannot come down to Downfall stage. Similarly a soul with existence of Tirthankara Karma cannot touch the Mixed stage.

Commentary.

A soul, in any of the four conditions of life, which has not yet bound Tirthankara and Assimilative two can have existence of 90 sub-classes only, till it acquires the 9th spiritual stage. The place of 88 can be found in wrong-believing human or sub-human, which has not

yet bound or which has untwisted celestial condition and migratory form. The place of 84 is possible in those Wrong-believing humans, which have untwisted, and sub-humans which have not yet bound or have untwisted celestial and hellish conditions etc. The place of 82 can only be possible in those wrong believing sub-humans which have not yet bound, or which have untwisted celestial, hellish and human condition etc.

Commentary.

In a saint who has existence of Tirthankara and Assimilative two, 80 will be found in existence from 9th stage where 13 are destroyed to the last but one instant of the 14th stage. In a saint who has no existence of Tirthankara, there will be 79. In the saint who has Tirthankara but not the Assimilative two, there will be existence of 78. While in the saint who has neither Tirthankara Karma nor the Assimilative two, only 77 will be found in existence till the last but one instant of the 14th stage.

623. In hellish beings ninety-two, (ninety)-one, and ninety, and in all the sub-humans earth-bodied etc., ninety-two, ninety, eighty-eight, eighty-four and eighty-two are in existence.

Commentary.

Those hellish beings who have not yet bound Tirthankara Karma,

will have 92 in existence; those who have bound Tirthankara, but not the Assimilative two, will have only 91; while those who have neither bound Tirthankara nor Assimilative two, will have only 90. All sub-humans can have any of the five. Those who have not got bondage of Tirthankara, will have only 92, and those with-out bondage of Tirthankara and Assimilative will have 90. Those who have no bondage of these three and of celestial condition and Migratory form will have existence of 88; while those who along with these five have not bound hellish condition and migratory form, fluid body and limbs will have 84 in existence. Lastly those who along with these 9, have not got bondage of human condition and migratory form will have 82 in existence. It appears that a soul having already bound Tirthankara Karma will not go down to sub-human condition; so the existence of 93 is not possible in them.

625. There are respectively even and odd places in Tirthankaras and (ordinary) omniscients. The Assimilative (saints have) ninety-three and (ninety-two), while the first four places are found in celestials.

Commentary.

Tirthankaras, in the 13th stage, will have even places of 80 and 78; and in 14th stage, of 80, 78 and 10; while ordinary omniscients will have odd places of 79 and 77 in 13th, and of 79, 77 and 9 in the 14th stage.

The Assimilative saints will have 93, when they have got bondage of Tirthankara Karma; but only 92 on non-bondage of Tirthankara Karma. Celestials have the first four places as below :—

626. (There are) existence-places of ninety-two, and ninety, only among the Residentials three, the beings of Enjoyment-region, and those of the four underneath earths. And (the place of) ninety (is) in Downfall stage.

Commentary.

In Verse 625, we have shown places of 93 and 91 also in

celestials. As a soul with Tirthankara Karma in existence will not be born in the Residentials three, so there cannot be places of 93 or 91 (which include Tirthankara Karma) in the residentials three. Similarly such a soul will not be born in Enjoyment region, so humans and sub-humans of that region will not have 93 and 91. A soul with Tirthankara Karma in existence cannot go to hell beyond the third; so beings residing in 4th, 5th, 6th and 7th hells will not have 93 and 91.

A soul with Tirthankara or Assimilative two goes to Downfall stage. The place of 90 only is therefore possible, among beings in that stage.

629. Of the combinations of Bondage, Operation and Existence, the second one is found during the Mixed stage and the

two, New (and Advanced thought-activity stages), the first two till the stage of Full vows, and the third etc., during stages of Slightest delusion etc.

Commentary.

This verse deals with the main 8 classes of Karmas.

When age Karma is bound, there is bondage of all the 8 Karmas, otherwise only of 7. Bondage of Age and Deluding Karma ceases in the 10th stage, so there is bondage of six only in that stage. In the 11th, 12th and 13th stages, only one, the Feeling Karma is bound. There is no bondage of any Karma in the 14th stage. Till the 10th stage, all the 8 Karmas are in Operation and Existence also. In the 11th stage, there is Operation of seven, except Deluding Karma, but all the eight are in Existence. In the 12th stage there is both Operation and Existence of seven excepting Deluding Karma. In the 13th stage there is Operation and Existence of four only. So when there is bondage of one Karma, there are three variations. In the 14th stage of non-bondage; there is Operation and Existence of four Karmas. The following table, with the explanation below shows the conditions of Bondage, Operation and Existence of 8 Karmas.

631-632. With regard to the second (Conation)-obscuring Karma, when nine (sub-classes) are bound, five or four (of them) are operative (at a time), while nine remain in Existence; the same, when six are bound; and on bondage of four, the same; and there is existence of six also. When bondage ceases, five or four are in Operation, and nine or six are in Existence; there are also four, both (in Operation and Existence).

Having described the third (Feeling Karma), Family and Age (Karmas), I shall thereafter describe Deluding (Karma).

Commentary.

Conation-obscuring Karma has 9 sub-classes. All are bound in Wrong-belief and Downfall stages at a time, but only four, excepting sleep, or five taking 1 out of 5 kinds of sleep Karma, operate at a time, while all the 9 remain in Existence. The three, Somnambulism, Deep-sleep and Deep-drowsiness cease to bind from third stage till the first part of the 8th stage of both the ladders. Thus there is bondage of 6 while there is operation of 4 or 5 as above, and all the nine remain in Existence. Sleep and Drowsiness cease to bind from the 2nd part of the 8th stage to the Subsidential 10th stage or to Destructive 9th stage, where 16 sub-classes are destroyed; thus there is Bondage of four only, but 4 or 5 Operate and 9 remain in Existence. From the 9th stage of Destructive ladder where 16 are destroyed to the 10th, 4 are in Bondage, 4 or 5 are Operative and 6 only are in Existence. On cessation of their Bondage, 4 or 5 operate in both the 11th and 12th stages, but there is Existence of 9 in 11th, and of 6 in 12th till last but one instant; while in its last instant only 4 are in Operation and Existence both. This is shown below in a tabular form.

S = subsidential ladder; D = Destructive ladder.

633-634. Either of the (two) Pleasing and Painful Feeling (Karmas), as may be possible, Bind and Operate (at a time), while both (of them) remain in Existence till the Vibratory (Omniscient stage). In the last (Non-vibrating stage), the one which is Operative remains in Existence (also). There are four combinations of each place of Feeling (Karma) till the 6th (stage), two combinations till the Vibrating-conqueror (stage); while four combinations (are possible) in Non-vibrating Conquerors.

Commentary.

Feeling Karma is of two kinds, Pleasure and Pain. Only one of them is bound and is operative at a time. Both cannot be bound nor can they operate simultaneously. But both of them can be found in Existence together. From the first to the 6th stage of Imperfect Vows, there is carelessness and outward dealings with persons and things. The stages from 7th onwards are all found when a saint is absorbed in soul contemplation. Therefore till 6th there are four combinations in Feeling Karma, thus :—

(1) There may be Bondage and Operation of Pleasure only, with Existence of both Pain and Pleasure. This is possible when a soul enjoys a pleasure, with in-ward non-attachment.

(2) There may be Bondage of Pleasure, but Operation of Pain, with Existence of both. This is possible when a soul calmly suffers troubles and misfortunes.

(3) There may be Bondage of pain, but Operation of Pleasure, with Existence of both. This is possible when a soul deeply indulges in sensual gratifications.

(4) There may be Bondage and Operation of Pain only, with Existence of both. This happens when a soul has painful and vexing thought-activity at the time of sufferings, diseases, and calamities.

635. Bondage and Operation of any of the Low and High (Family Karma), as may be possible, occur (at a time), but both (of them) can be in Existence till (last but one instant of) the Non-vibrating (omniscient stage). There is Existence of High (Family only) in the last (instant).

Commentary.

Those fire and air-bodied souls which have untwisted High Family Karma, have only Low Family Karma in Existence throughout their life-duration. When they die and take birth in the rest, one-sensed, not-all-sensed, all-sensed beings, they have Low Family Karma in existence, atleast for one antar-muhurta from the

instant of their birth. Afterwards they may have High Family Karma also in Existence, if they bind it.

638. There are five combinations of Family (Karma) in the Wrong-belief (stage), four (in the second), two in the three (i. e., 3rd to 5th stage), one in (each of the) 8 stages (from 6th to 13th), and of course two combinations in Non-vibrating conqueror.

Commentary.

There are altogether 7 combinations in Family Karma as follows:

(1) Bondage and Operation of Low, with Existence of Low Family Karma.

(2) Bondage and Operation of Low, with existence of High and Low.

(3) Bondage of Low, Operation of High, and Existence of both.

(4) Bondage and Operation of High, with existence of both.

(5) Bondage of High, operation of Low, with Existence of both.

(6) No bondage, but Operation of High and Existence of both.

(7) No bondage, but Operation and Existence of High only.

All these combinations are possible on account of different thought-activities. A person having operation of High Family Karma is proud of his position or despises others, then he will bind Low family Karma. Again if the soul, so situated, is not elated with pride, but loves and praises another's good qualities, it will bind High Family Karma.

A person having Operation of Low Family Karma is well-behaved, and has regard for other good persons of high conduct, then he will bind High Family Karma.

These seven combinations are shown below :—

Combinations.	1	2	3	4	5	6	7
Bondage	Low	Low	Low	High	High	0	0
Operation	Low	Low	High	High	Low	High	High
Existence	Low	Both	Both	Both	Both	Both	High

To consider these combinations with reference to stages. The first five are possible in Wrong-belief stage; four combinations from second to 5th in Downfall stage, because fire and air-bodied souls are never found in this stage. There are only two combinations, the fourth and the fifth in the 8 stages, 3rd to 5th. There is only one combination, the 4th, during 5 stages, from 6th to 10th. In stages from 11th to 13th, there is only one, the 6th combination. In the 14th stage there are two combinations the 6th and 7th; till its last but one instant there is operation of High with existence of both, but in the last instant only High Family Karma is in Operation and Existence. These combinations of Bondage, Operation, and Existence of High and Low Family Karma in the 14 stages are shown below in tabular form (h = High, l = Low, b = Both).

Beings of enjoyment region bind only celestial age when six months (of their age) remain.

642. Only one age (Karma) is bound in a soul, existing in any condition of life, at the proper time, on eight occasions only; that too always, (when on each of such occasions) a third part of the operative age remains.

643. Except the first occasion (when age Karma is bound), there may be increase, decrease or steadiness (of the duration of the age so bound, at each of the remaining occasions), and decrease of duration can happen only according to thought-activities of the souls, This decrease is called) *Apavartanaghāta*.

Commentary.

Age Karma is not bound at every moment like the other seven classes of Karmas. It is not bound in celestial, hellish, and in beings of the Enjoyment region before 6 months remain in their life duration, and in humans and subhumans of work-region before $\frac{1}{3}$ rd of their age is yet to pass. During the last six months of the age in the case of the former, and during a third period of age in case of the latter, a soul has 8 occasions for bondage of age Karma each lasting for one Antar-muhurta. Such an occasion comes after the expiry of two-thirds of the age then remaining. A celestial will have the first occasion when 6 months remain in his life. The second will come when 4 months have passed away, the third time when $\frac{1}{3}$ rd of the 2 months have expired. The other 5 occasions may be calculated in this manner. In humans of Work-region the first occasion will come when $\frac{1}{3}$ rd of life remains. The second on expiry of $\frac{1}{3}$ rd of the remaining $\frac{1}{3}$ rd and so on. Take the case of a person who has an age of 81 years. The first occasion comes at the age of 54, second at the age of 72, third at the age of 78 and so on. After it has been bound, its duration can be increased, or lessened or maintained on subsequent occasions for bondage of age Karma. Only one subclass of age Karma can be bound by a soul in its lifetime.

644. Thus, with reference to non-bondage, bondage as well as over-bondage (Uparata Bandha), as a rule there are three combinations for each age Karma in one life of one soul.

Commentary.

A soul in any of the four conditions of existence has operation of that very age in which condition it is existing. That is called the Operative (Bhujyamāna) age. But it has to bind any of the four age Karmas for future life. Age Karma is however bound on special occasions only as stated before, so there are three combination periods in that very life :—

(1) That in which age Karma is not bound; (2) that in which age Karma is bound; (3) that in which age Karma for future life has already been bound, which is called over-bondage period. In both of the latter periods, there is Existence of two age Karmas, with Operation of one only.

There are thus 3 combinations as below in respect of each Age-Karma.

Non-bondage	0	Bondage	1	Over-Bondage	1
Operation	1	Operation	1	Operation	1
Existence	1	Existence	2	Existence	2

एकायुषः त्रिभङ्गा संभवायुभिस्ताडिते नाना ।

जीवेषु एकभवभङ्गा रूपोनगुणोनमसदृशे ॥ ६४५ ॥

645. Taking the three combinations of one age—(Karma) and multiplying (them) with (the number of) age (Karmas) possible (to be bound in one condition of life), (we get) combinations in one condition of life, with reference to different souls. (In order to get) unrepeatd combinations we must subtract one (from the number of age possible to be bound and the result) be deducted from the total (combinations in each condition of life).

Commentary.

Hellish beings can bind two age-Karma only i. e., sub-human and human, and the combinations are $2 \times 3 = 6$.

Unrepeatd combinations are $6 - (2 - 1) = 5$.

Celestial beings also bind the two age-Karma, sub-human and human, so the total combinations are 6 and unrepeatd ones are 5. Humans and sub-humans, both, can bind all the four ages; so total combinations for each are $4 \times 3 = 12$. Unrepeatd combination for each are $12 - (4 - 1) = 9$.

Thus total combinations for the 4 condition of life will be $6+6+12+12=36$, and unrepeatd combinations for them will be $5+5+9+9=28$.

In tabular form this will appear as below.

	Hellish Condition						Sub-human condition						Human Condition						Celestial Condition.

Note.—Here O (ZERO)=non-bondage, O/B=Over-bondage, N=hellish, S/H=Sub-Human, H=Human, C=Celestial.

In hellish condition there are 6 combinations. As O.N.I. is repeated once, the unrepeated combinations are 5. So is the case in celestials.

In sub-human condition there are 12 combinations; as O. S. H. I is repeated thrice, so unrepeated ones are 9. Same is the case with humans,

646. There are five, nine, nine and five combinations of age (Karma respectively) in four conditions of existence in wrong belief (stage); the same (are) in the second stage excepting combinations of bondage of hellish age.

Commentary.

As shown under Verse 645, all the unrepeatd combinations in the wrong belief stage in hellish, sub-human, human and celestial conditions $5+9+9+5=28$ are found. Hellish age is not bound by a soul in the Downfall stage, so N-S.H.-2 and N-H-2 will not be counted in sub-human and human conditions. 26 combinations will thus be found.

647. In Mixed (stage), all the combinations of bondage of age (Karma) should be deducted; in Vowless (stage) during the celestial and hellish (conditions of life), and in humans and sub-humans (respectively), the combinations of bondage of sub-human age and three ages, (the celestial) should not be counted.

Commentary.

As age Karma is not bound in mixed stage, so S/H-N-2, H-N-2 in hellish condition, N-S/H-2-S/H-S/H-2, H-S/H-2, C-S/H.-2 in sub-human condition, the same 4 in human condition, and S/H-B-2 and H-O-2 in celestial condition should not be taken into account. Thus there will be $3+5+5+3=16$ combinations only. The hellish and celestial beings do not bind sub-human age in Vowless stage, so S/H-N-2 and S/H-C-2 will not be taken into account; thus there will be only 4 combinations in each of them. Sub-humans and humans in Vowless stage do not bind any other age than the

celestial, therefore N-S/H-2, S/H-S/H-2, H-S/H-2 and N-H-2, S H-H-2, H-H-2 respectively will be deducted from combinations of both of them thus leaving 6 combinations in each of two. Total combinations in vowelss stage will be 4+4+6+6=20.

648. In Partial (vow stage) there are (respectively) three and three combinations in humans and sub-humans. (There are) three combinations in (each of) the sixth and seventh stages, two in each (of the four stages) of subsidential (ladder) and one in each (of the six stages) of the Destructive.

Commentary.

Celestial age only can be bound in Partial-vow stage; so there will be three combinations O-S/H-1; C-S/H-2 C/O/B-S/H-2 in sub-humans and also three combinations O-H-1; C-H-2; C/O/B-H-2 in humans. The latter three combinations are possible in each of 6th and 7th stages. As there is no bondage of age Karma beyond the 7th stage, there will be only two combinations such as O-H-1 and C/O/B-H-2 in each of 8th, 9th and 10th and 11th stages of subsidential ladder, and only one i. e., C-H-1 in 8th and 9th, 10th, 12th, 13th, and 14th stages where Karmas are being destroyed.

Commentary.

The total number of combinations of age-Karma in the 14 stages including the subsidential and destructive ladders in the 8th, 9th and 10th stages will come to $\frac{I}{28} + \frac{II}{26} + \frac{III}{16} + \frac{IV}{20} + \frac{V}{6} + \frac{VI}{3} + \frac{VII}{3} + \frac{VIII\ S.}{2} + \frac{VIII\ D.}{2} + \frac{VIII-D.}{2} + \frac{IX\ S.}{2} + \frac{IX-S.}{2} + \frac{IX-D.}{2} + \frac{X-S.}{1} + \frac{X-D.}{1} + \frac{XI}{2} + \frac{XII}{1} + \frac{XIII}{1} + \frac{XIV}{1}$, i. e. 116

653-654. The Bondage (places) of Deluding (Karma is) one in (each of the first) eight (stages); (its) Operation (places are) four (in the first stage), and three (each) in (the next) two, four in (each of the next) four, and three only (in the 8th stage). (Its) existence (-places are) respectively three, one, and two (in the first three stages), five in (each of the next) four, and three (in the 8th stage). These three Bondage, (Operation and Existence-places are respectively) five, two and eleven in Advanced (thought-activity stage). Operation and Existence (-places are respectively) one and four in Slightest-delusion; only three Existence (-places are) in Subsided (delusion).

Bondage, Operation and Existence places of Deluding Karma, in 11 stages are shown in the chart below.

655. In wrong-belief (stage), the Bondage etc., (i. e., Bondage, Operation and Existence are respectively) twenty-two, the fourteen, (nine, eight, seven); and the three twenty-eight, (twenty-seven and twenty-six). In second stage (they respectively are) twenty-one; the three-nine, (eight and seven) and twenty-eight.

Commentary.

It has been shown before, that a soul in the Wrong-belief stage can bind only 22 sub-classes of Deluding Karma at a time i. e., the 16 main passions, Wrong-belief, Fear and Disgust with any one of the three sex inclinations, any one of the two Indulgence and Ennui, and any one of the two Laughter and Sorrow. In the same stage a soul can have operation of 10, 9, 8 or 7 sub-classes of Deluding Karma at a time, i. e., Wrong belief, 4 kinds of anger, pride, deceit or greed, Fear and Disgust, any one of the three sexes, any of the two Indulgence and Ennui, and any of two Laughter and Sorrow. They are 10. Taking away either fear or disgust, they will be 9. Leaving out both of them, they will be 8. When a soul which has transformed Error-feeding passions into lesser ones comes down to Wrong-belief stage, it will not have Operation of Error-feeding passions for an Avali. Then one kind of the 4 passions will not operate. Thus there will be 9, 8 or 7 in Operation at a time. Thus there are only 4 places of Operation in this stage. But there can be Existence of all the 28, or 27 excepting Clouded-belief or of 26 excepting Mixed and Clouded-belief.

In Downfall stage, Wrong-belief will not be bound; thus there will be bondage of 21 at a time. It should be noted that Common sex is also not bound in this stage, yet the number of sub-classes bound at a time will not be less than 21. Wrong-belief Karma will not operate, therefore 9, 8, or 7 will operate at a time in this stage. All the 28 sub-classes must be in Existence here, because this stage is always acquired by a soul when falling from the Subsidential right belief in the 4th stage, where matter of Wrong-belief Karma takes three forms of Wrong-belief, Mixed and Clouded-belief.

656. (In Mixed stage) seventeen (are bound); the three (places of) nine (eight or seven operate); twenty-eight or (twenty-four remain in existence). (In Vowless stage) seventeen (are bound); the four (places of) nine eight, seven or six operate; twenty-eight, (twenty-four), and the three (places of) twenty-three (twenty-two, and twenty-one are in) Existence till four (stages, from Vowless to Perfect vow).

Commentary.

As the four Error-feeding passions are not bound in the Mixed stage, the number of sub-classes in bondage at a time will be $21-4=17$. It should be noted, that here female sex is not bound, yet the number of binding sub-classes will not be less than 17. As there will be no operation of any of the four Error-feeding passions, one sub-class will be lessened, but mixed sub-class will be in operation, thus there will be operation of 9 or 8 or 7 in this stage. There will be existence of 28 or 24 only or transformation of four error-feeding passions. In Vowless stage, the same 17 as in Mixed stage are bound. The Operation-places are of 9, 8, 7, 6 with reference to non-operation of Error-feeding passions, and operation of Clouded-belief and its non-operation in Subsidential and Destructive right belief. The Existence-places are 5, i.e., all 28, 24 on transformation of Error-feeding passions, 28 on Destruction of wrong belief, 22 on destruction of Mixed Belief also, 21 on destruction of Clouded Belief also. The same 5 places are also found in Partial vow, Imperfect vow and Perfect vow stages.

657. In Partial (vow stage, the bondage-place is of thirteen; (the operation-places are) four (i.e.) of eight (seven, six, and five);

in Imperfect (vow) and the other, (Perfect vow stage, bondage is of) nine, (the operation places are) four, of seven etc., (i.e., of seven, six, five and four). Then (in New-thought-activity stage); the three bondage (operation, and Existence) are respectively of nine sub classes), of three (places) six etc., (i.e., six, five and four), and of twenty-eight, (twenty) four and (twenty) one; and (the same twenty one in destructive ladder).

Commentary.

In Partial vow stage, the four Partial-vow-preventing passions are not bound, thus only 13 are bound. Operation of Partial-vow-preventing passions is deducted, so we have operation of 8, 7, 6, and 5. The Existence places are the same five as in the previous stage. In both the 6th and 7th stages the four Total-vow-preventing passions are not bound, thus only nine are bound. Total-vow-preventing passion ceases to operate, thus there is operation of 7, 6, 5 and 4. The Existence-places are the same 5 as in 4th stage. In the 8th stage also the bondage is of 9; and as Clouded Belief does not operate, operation is of 6, 5 and 4 only. The Existence places are 3 in subsidential ladder i.e., 28, & 24 on transformation of the four error-feeding passions, and of 21 in the Destructive Right Believer. The same 21 are in Existence in the 8th stage of the Destructive ladder.

658. In the ninth stage, the Bondage (places are) five of five etc., (i.e., of five, four, three, two and one) and the operation (is) of two and one; the Existence (is) of twenty-eight, (twenty)-four, (and twenty) one (in Subsidential ladder, while there are eight (Existence places) of thirteen etc., (i.e., of 13, 12, 11, 5, 4, 3, 2 and 1 in the Destructive ladder).

Commentary.

In the 9th stage all minor passions cease to bind except male sex; so in its first part, there is bondage of the four Perfect-vow-preventing passions and of one sex, the male; in its second part, male

sex ceases, and only 4 are bound. In its third part, anger ceases, and only 3 are bound. In its fourth part, pride ceases, and only 2 are bound. In its fifth part deceit ceases, and only one, greed is bound. Thus there are five Bondage places. Only two operation-places are found; i.e., one of any of the four passions with male sex, and of only one passion without the male sex. The Existence places are the same three, i.e., of 28, 24, and 21 as in the previous stage in Subsidential ladder. In the Destructive ladder the four partial-vow-preventing and the four total-vow-preventing passions, common sex-inclination, female sex-inclination, and the six minor passions, male inclination, perfect-vow preventing anger, pride, deceit are destroyed; so there are 8 Existence places of 13, 12, 11, 5, 4, 3, 2 and 1.

659. In the Slightest (delusion) spiritual stage, (there is) operation of one greed (only), twenty-eight, (twenty-four and (twenty-) one exist (in subsidential ladder and only) one (in destructive ladder); in Subsided delusion, (there is) Existence (only) of twenty eight, (twenty-) four and (twenty) one.

Commentary.

In the 10th stage there is no bondage of Deluding sub-class; only the slightest greed operates, but 28, 24, and 21 exist in its subsidential ladder as in the previous stage. In its destructive ladder only greed is in Existence.

In the 11th stage there is neither Bondage nor Operation of any deluding sub-classes; only there is existence of 28, 24, or 21 as in the previous stage of subsidential ladder. Beyond this stage, no Deluding Karma is found. The following chart will show the places of sub-classes in the 11th stage with reference to Bondage, Operation and Existence.

Stages	Bondage	Operation	Existence.
I	22	10, 9, 8, 7	28, 27, 26

Commentary.

The author here wants to show the sub-classes of the Deluding Karma in three ways, by way of Cross-reference as if it were, viz:—

(1) when there is Bondage of certain sub-classes of deluding Karma, how many of them will be in Operation and Existence () when there is Operation of certain sub-classes, how many, will be in Bondage and Existence (3) where there is Existence of so many sub-classes, how many will be in Operation and Bondage.

(They are respectively) four, of ten etc., and the first three; three of nine etc., and of twenty eight; the four of nine etc., and of twenty-eight, (twenty) four, (twenty) three, (twenty) two and (twenty) one; the four of eight etc., and Existence like its previous one; the four of seven, etc., and Existence like its previous one;

Commentary.

These Verses describe the Operation and Existence places with reference to Bondage-places, as below.

Bondage Places.	Operation Places.		Existence Places.	
	Number,	Description.	Number.	Description.
22	4	10, 9, 8, 7 ...	3	28, 27, 26.
21	3	9, 8, 7 ...	1	28.
17	4	9, 8, 7, 6 ...	5	28, 24, 23, 22, 21.
13	4	8, 7, 6, 5 ...	5	28, 24, 23, 22, 21.
9	4	7, 6, 5, 4 ...	5	28, 24, 23, 22, 21.
5	1	2 ...	6	28, 24, 21, 13, 12, 11.
4	1	1 ...	8	28, 24, 21, 13, 12, 11, 5, 4.
3	1	1 ...	5	28, 24, 21, 4, 3.
2	1	1 ...	5	28, 24, 21, 3, 2.
1	1	1 ...	5	28, 24, 21, 2, 1.

Comparing this chart with that given under Verse 659, it is evident that this is merely a summary of what is stated there. Take an example; Bondage of 9 sub-classes occurs in the stages VI, and VII, then there can be only four Operation places of 7, 6, 5, and 4 and the Existence place will be 5 of 28, 24, 23, 22, and 21. In the 9th stage the Bondage places are 5, of these when there will be bondage of 5, Operation is of 2 only and Existence places will be 6 of 28, 24, 21, 13, 12 and 11. When only 4 are in bondage, Operation is of 1 passion only and Existence will be of 8 i. e., 28, 24, 21

in Subsidential, and 18, 12, 11, 5 and 4 in Destructive ladder. When 3 are in Bondage, Operation is of 1 only, and existence is of 5 *i. e.*, 28, 24, 21, 4, 3, and so on.

665-668. During (operation places of) 10 etc., the Bondage and Existence (places are respectively) one and three; three and six; four and seven; five and five; three and five; two and five; one and five; two and six; and four and nine. The Bondage (places are) respectively the first (of 22), the first three (of 22, 21, 17), the (first) four (of 22, 21, 17, 13), the (first) five (of 22, 21, 17, 13, and 9), the three of 17, (13 and 9) during (next) four (Operation places). The Existence (places in these Operation places are respectively) the first three (of 28, 27 and 26), the (first) six (of 28, 27, 26, 24, 23, 22), the (first) seven (from 28 to 21), (five of) twenty-eight, (twenty)-four, (twenty)-three, (twenty)-two and (twenty)-one (each) in (the last) two. (In the Operation places of five, the Bondage places are) two (*i. e.*) of thirteen (and nine); the Existence (places) as in the previous

one; (in the next, the bondage place is) of nine, the Existence (is) of twenty-eight, (twenty)-four and twenty (one); beyond it, (the Bondage places are) two (*i. e.*,) of five (and four), the Existence (is) of twenty-eight, (twenty)-four and (twenty)-one, and the three, of thirteen (twelve and eleven). In the last (the Bondage places are of) four, three, two, and one; (the Existence places are) twenty-eight, (twenty)-four, (twenty)-one, and three, of thirteen (twelve and eleven), and all (the rest *i. e.*,) of eleven (five, four, three, two and one). In the last (the Bondage-places are of) four, three, two, and one; the Existence-places are twenty-eight, (twenty)-four and (twenty)-one. They (are such) respectively with reference to Deluding (Karma).

Commentary.

These verses describe the number of Bondage and Existence places with relation to Operation places as shown below.

Operation Places	Bondage Places.		Existence places.	
	Number.	Description.	Number.	Description.
10	1	22	3	28, 27, 26
9	3	22, 21, 17	6	28, 27, 26, 24, 23, 22
8	4	22, 21, 17, 13	7	28, 27, 26, 24, 23, 22, 21,
7	5	22, 21, 17, 13, 9	5	28, 24, 23, 22, 21
6	3	17, 13, 9	5	28, 24, 23, 22, 21
5	2	13, 9	5	28, 24, 23, 22, 21
4	1	9	3	28, 24, 21
2	2	5, 4	6	28, 24, 21, 13, 12, 11
1	4	4, 3, 2, 1	9	28, 24, 21, 11, 5, 4, 3, 2, 1.

Thus, where there is Operation of ten sub-classes of Deluding Karma, there will be Bondage of 22, while 28 or 27 or 26 can be in Existence. When 9 operate, Bondage of 22 or 21, or 17 is possible and Existence may be of 28, 27, 26, 24, 23 or 22 with reference to different souls. Similarly if we take the last operation place of one, *i. e.*, of any of the four Perfect-conduct-preventing passions,

there can be Bondage of 4, 3, 2, or 1, while Existence can be of 28, 24, 21 in Subsidential ladder, and of 11, 5, 4, 3, 2, or 1 in the Destructive ladder.

669-672. During Existence-places, the Bondage and Operation (places are respectively) ten and nine, one and three, (each) in the two; eight and eight: three and five (each) in the two; eight and seven; two and one (each) in the two; two and two; one and one; two and one; (each) in three; (lastly) one with zero and one. (In the first Existence place) all (the Bondage and) all (the Operation places are possible); in (each of) the (next) two, (there is only) the first (Bondage place), (the Operation places are) three of ten, (nine and eight); (in the next, the Bondage places are) all from seventeen, etc., (the Operation places are) all from nine etc., in (each of) the (next) two places, (the Bondage places are) three of seventeen (thirteen and nine) and (Operation

places are) five of nine etc., (In the next, the Bondage-places are) all from seventeen etc., (and Operation places are all) from eight etc.; in (each of the next) two, (Bondage is of) five and four (and Operation is) of two; beyond it (Bondage places are) of five and four, (and Operation places are) of two and one; (Afterwards the Bondage place is of) four, (and Operation place is of) one; (then the Bondage places are of) four and three (and Operation is of) one. Beyond it, (the Bondage places are of) three and two, (and Operation place is of) one; (then the Bondage places are of) two and one sub-classes, and (Operation) place (is of) one; in the last (Existence place) of Deluding (Karma) the Bondage (places are of) one and zero, and Operation (is of one only).

This chart shows that Existence of 2/8 sub-classes of Deluding Karma is found in all the stages till the 11th stage of Subsidential ladder and so all the ten Bondage places and all the nine Operation places are possible with reference to different stages in different souls. Similarly the Existence places of 27 and 26 are found only in the first Wrong-belief stage, so there will be Bondage of 22; and 10, or 9, or 8 sub-classes will be in Operation. The Existence place of 24 is possible from 3rd stage to 11th stage, so there are 8 Bondage places from 17 to 1 and 8 operation places from 9 to 1. The Existence places of 23, and 22 are found from 4th to 7th stage, therefore the Bondage places are of 17, 13, and 9; and Operation places are of 9, 8, 7, 6 and 5. Thus by referring to the chart given under Verse 659, where Bondage, Operation and Existence place in all the stages are described, will appear the Bondage and Operation places, corresponding to a particular Existence Place.

673. Taking two places as *ādihāra*, and one as *ādheya*, (e. g.,) Existence during Bondage and Operation, Operation place during Bondage and Existence, and Bondage-place during Operation and Existence should be known (also).

Commentary.

Now the author wants to clear the point that if so many sub-classes of Deluding Karma are Binding and Operating at a particular time in a soul, how many of them will be found in Existence; if so many of them are Binding and are in Existence, how many will be Operating, or if so many are Operating and are in Existence, how many will be in Bondage. These three cases are described hereafter.

Commentary.

The chart given on the next page shows the details of Existence places, with reference to the different Bondage and Operation places, in Deluding Karma.

To examine the chart in some detail. A wrong believer in any of the four Conditions of existence, binds 22 sub-classes of Deluding Karma at a time, when he will have operation of 10 or 9 or 8 sub-classes of Deluding Karma, and there can be existence of all the 28 sub-classes of Deluding Karma, or of 27 (28 minus Clouded-belief) or of 26 (28 minus Mixed and Clouded-beliefs). But when he will have operation of only 7 classes, leaving the Error-feeding passions, he will have existence of all the 28; because such a soul has transformed matter of Error-feeding passions into other

passions, in any of the four stages from 4th to 7th, and has come down to the 1st stage of wrong belief, where he must bind matter of Error-feeding passions. This matter cannot come into Operation for one Avali. Till that time, there will be existence of all the 28 although there is no Operation of Error-feeding passions, and because matter of Mixed and Clouded-belief cannot be twisted during this period.

A soul in Downfall stage binds 21 sub-classes, where it can have operation of 9 or 8 or 7 classes. Then there will be existence of all the 28, because such a soul comes down from subsidential-Right-belief, and retains the downfall stage only from one instant to six 'Avalis, when matter of Mixed and Clouded belief cannot be twisted back. As a soul which has transformed Error-feeding passions into others, cannot come down to this stage, therefore there cannot be existence of 24 sub-classes. A soul in Mixed stage will bind 17 sub-classes, and can have operation of 9 or 8 or 7. Then there will be existence of 28 or 24. A soul in Vowless stage also can bind 17 sub-classes, when it will have operation of 9 including Clouded-belief. Such a soul of a human of Work-region can commence destruction of Right-belief-deluding-Karma, so there can be existence or non-existence of Error-feeding passions, Wrong belief and Mixed beliefs, and therefore Existence of 28, 24, 23 and 22. A soul in the 5th stage binding 17 sub-classes, but having operation of 8 or 7, can have Existence of all the 28, during the First Subsidential-Right-belief, of 28 or 24 during the Second-Subsidential Right belief, of 28, 24, 23, or 22 in Destructive-Subsidential-Right-belief, and of 21 only during Destructive-Right-belief, because the four Error-feeding passions and the three Right-belief-deluding Karmas have been destroyed. A soul in the 6th stage having operation of 6, excepting Clouded-Right-belief will have existence of 21 only in Destructive, and of 28 or 24 in Subsidential-right-beliefs. A human or a sub-human in the Partial vow stage binds 13 sub-classes. When there is Operation of 8 sub-classes, a sub-human in Destructive-Subsidential-Right-belief will have existence of 28 or 24, while a human having such belief will have existence of 28 or 24 or 23 or 22, because a human being only can commence to attain Destructive-right-belief. The same soul binding 13, and having operation of 7 or 6, and existing in Subsidential-Right-belief will have Existence of 28 or 24, but during Destructive-subsidential-right-belief, a sub-human will have existence of 28 or 24, but a

human will have existence of 28 or 24 or 23 or 22, while a Destructive-right-believing human being will have existence of, 21 only. The same soul binding 18, but having operation of only 5, can have existence of 28 or 24 during Subsidential-Right belief, but of 21 only as a Destructive-right-believing human being. A saint in Imperfect and Perfect-vow stages has bondage of 9 sub-classes. When he has Operation of 7 he is a Destructive-Subsidential-right-believer, and will have existence of 28, or 24 or 23 or 22. The same saint, having Operation of six or five, will have existence of 28 or 24 in Subsidential-right belief, or 28 or 24, or 23 or 22 during Destructive-subsidential-right-belief, of 21 only in Destructive-right-belief. The same saint having Operation of 4, will have Existence of 28 or 24 in Subsidential, and of 21 in Destructive-right-belief.

Commentary.

A saint in the stage of New-thought-activity binding 9 sub-classes, at a time, and having Operation of 6 or 5 or 4, will have Existence of 28 or 24, in Subsidential, and of 21 only in Destructive-right-belief. A saint in Advanced thought-activity, binding 5 or 4 sub-classes, and having Operation of 2, will have existence of 28 or 24 in subsidential, and of 21, 13, 12, and 11 in destructive right-belief. The same saint having Bondage of 4, and Operation of 1, only, has Existence of 28 or 24 in Subsidential, and of 21 or 11 or 5 or in Destructive-right-belief. The same saint having Bondage of 3, and Operation of 1, has Existence of 28 or 24, in Subsidential, and of 21 or 4 or 3 in Destructive-right-belief. The same saint having Bondage of 2, and Operation of 1, has Existence of 28 or 24, in Subsidential, and of 21 or 3 or 2 in Destructive-right-belief. The same saint, having, Bondage of 1 and Operation of 1, has Existence of 28 or 24, in Subsidential, and of 21 or 2 or 1 in Destructive-right-belief. A saint with Destructive-right-belief and on the Destructive ladder, in the 9th stage, having Bondage of 4 or 3 or 2 or 1, will have respectively Existence of 5 and 4, or 4 and 3, or 3 and 2, or 2 and 1 sub-classes of Deluding Karma.

680. During (Bondage of) twenty-two, (and Existence of) twenty-eight, (there is) Operation of four (places of) ten (etc.), but in (Existence of) twenty-seven and twenty-six, (where) Error-(feeding passions are) not (transformed), (the operation is) of three (places of) ten (etc.) And during Bondage of: twenty-one (and Existence of twenty)-eight), the operation is of) three (places of) nine etc.

Commentary.

A wrong-believer in all the four Conditions of existence, binding 22 sub-classes of Deluding Karma, and having Existence of 28, will have Operation places of 10, 9, 8, or 7. It includes the Operation place where Error-feeding passions will not operate. The same Wrong-believing soul binding 22, but having Existence of 27, without Clouded belief, or of 26 without Mixed and Clouded beliefs will have Operation of 10, 9, or 8. Here Error-feeding passions are not out of operation, although Clouded and Mixed beliefs are twisted back. A soul in downfall stage, binding 21, and having Existence of 28, can have Operation of 9, 8 or 7 without Wrong-belief.

681. During (Bondage of) seventeen, (and Existence of) twenty-eight, and (twenty)-four, Operation (is) of four (places of) nine (etc.); (but) in Existence of) (twenty)-one, the first (place of) nine does not operate; similarly in (Existence of) (twenty)-three and (twenty)-two, (there is) no operation of the last (place of 6.)

Commentary.

A soul in Mixed stage, binding 17, and having Existence of 28 or 24, has 8 Operation places of 9, 8 or 7. A soul in Vowless stage, binding 17, and having Existence of 28 or 24, has 4 Operation places

of 9, 8, 7 or 6. A Destructive-right-believer in Vowless stage, binding 17, and having Existence of 21, has 3 Operation place of 8, 7 or 6. There is no Operation place of 9, because there is no Operation of Clouded belief. A Destructive-Subsidential-right-believer in Vowless stage, commencing destruction of Right-belief-deluding-Karma, binding 17, and having Existence of 28 or 22, can have 3 Operation places of 9, 8 or 7. It has no places of 6, as there is Operation of Clouded-belief Karma.

682. During (Bondage of) thirteen, (and) nine, and Existence (of Classes) as previously (stated), Operation of the four (places) of eight etc., and the four (places) of seven etc., should be (respectively) considered, as in (Bondage of) seventeen. During (bondage of) five, in Subsidential (ladder), in their respective (Existence places), (there is) Operation of two.

Commentary.

During Partial-vow stage, when 13 are bound, and 21 are in Existence, Operation places of 7, 6 and 5 are possible, and in Existence of 28 and 22, the Operation places of 8, 7, and 6 are possible; while in Existence of 28 and 24, Operation places of 8, 7, 6, and 5 are possible.

During Bondage of nine, and in Existence of 28 and 24, Operation places of 7, 3 5, and 4 are possible; in Existence of 23, and 22, Operation places of 7, 6, and 5 are possible, while in Existence of 21, Operation places of 6, 5, and 4 are possible. In the stage of Advanced-thought-activity in Subsidential ladder, when 5 are bound and 28, 24 and 21 are in Existence, only 2 in operation.

683. Similarly with the (Bondage of five), and Existence of) three (places) of thirteen (etc.), (and) in Bondage of four, and in Existence of the previous ones, (there is Operation of) the same (two sub-classes). With the (Bondage of four), (and) Existence (of 28 etc.), in subsidential (ladder), (and), (Existence of) three (places) of eleven (etc.), there is Operation of one.

Commentary.

During Bondage of 5 and Existence of 13, 12 and 11 in Destructive ladder, and Bondage of 4 and Existence of 28, 24, 21 in Subsidential, or 13, 12, 11 in Destructive ladder, the Operation of 2 sub-classes is possible. During Bondage of 4, and Existence of 28, 24 and 21, in Subsidential and of 11, 5 and 4 in Destructive ladder, only one sub-class is operative.

684. During Bondage of three, two, or one, and Existence of twenty-eight, (twenty) four, and (twenty) one (in subsidential), and existence of four and three, three and two, and two and one respectively, there is Operation of one.

Commentary.

During Bondage of 3, and Existence of 28, 24 and 21, on Subsidential, and of 4 and 3 on Destructive ladder, or during Bondage of 2 and Existence of 28, 24, 21 in Subsidential, and Existence of 28, 24, 21 in Subsidential, and 2 and 1 in Destructive ladder, only one sub-class is Operative.

The following chart will show the Operation places of Deluding Karma with reference to Bondage and Existence places.

685-686. During Operation of ten, (and) Existence three, (i. e.,) twenty-eight, (twenty-seven and twenty-six), Bondage (is) of twenty-two (sub-classes of Deluding Karma). During (Operation of) nine (and) eight, (and Existence of) twenty-eight, (there is) Bondage (respectively) of three (i. e.,) twenty-two, (twenty-one and seventeen, and) of four (i. e., twenty-two, twenty-one, seventeen and thirteen), (but) in (Existence of) two (i. e.,) twenty-seven (and twenty-six), the Bondage (is) of twenty-two (only); (and) during Existence of twenty-four, (twenty) three (and twenty) two, the Bondage (is) of two, (i. e., of) seventeen in Vowless, (and of thirteen in Partial-vow stages). During Operation of eight, and (Existence) of twenty one, Bondage (is) of seventeen only, especially.

Commentary.

Now with reference to Operation and Existence of sub-classes of Deluding Karma, Bondage sub classes are described.

When there is Operation of ten sub-classes in Wrong-belief-stage with Existence of all the 28, or of 27 excepting Clouded-belief Karma, or of 26 excluding both Clouded, and Mixed Belief Karmas, there is Bondage of twenty-two sub-classes. When there is Operation of nine, till the 4th stage, and Existence is of 28, the Bondage will be of 22, 21 or 17. When there is Operation of 8, till the 5th stage, and Existence is of 28, the Bondage will be of 22, 21, 17 or 13. During Operation of 9 or 8, and Existence of

27 or 26, the Bondage is of 22 only. During Operation of 9 or 8, and Existence of 24, in Mixed stage, and of 24, 23, or 22 in Vowless stage, there is Bondage of 17 only. During Operation of 8, and Existence of 24, 23, or 21 in Partial-Vow stage, there is Bondage of 13 only; but during Operation of 8 and Existence of 21, in a Destructive-right-believer in 4th stage, there is Bondage of 17 sub-classes only.

687. During Operation of seven, (and Existence of) twenty-eight, (there is) Bondage of five (i. e., of) twenty-two, (twenty-one, seventeen, thirteen or nine), With (Operation of) that (and Existence of) three (i. e.,) twenty four, (twenty-three and twenty-two), the Bondage (is of) three (seventeen relating to) Vowless, (and thirteen and nine); but during (Existence of) twenty one, Bondage (is) of two (seventeen relating to) Vowless, (and thirteen).

Commentary.

When there is Operation of 7 sub-classes of Deluding Karma without Operation of Error-feeding passions, in Wrong-belief stage, without operation of Fear and Disgust, in Down-fall stage, with Operation of either Fear or Disgust, in Mixed stage, without Fear and Disgust; in Vowless stage, as a Destructive-subsidential-Right believer, without Fear and Disgust, or even as a subsidential-right-believer with Operation of either of Fear or Disgust, in Partial vow stage as a Destructive-subsidential-right-believer with Operation of either Fear or Disgust or as a Subsidential-right-believer with Operation of Fear and Disgust, and in Imperfect or Perfect vow stage as a Destructive-subsidential-right believer with Operation of Fear and Disgust, there can be Existence of all the 28 sub-classes of Deluding Karma. Under these circumstances five places of Bondage are possible. They may bind 22, 21, 17, 13 or 9 respectively with reference to stages 1st, 2nd, 3rd, or 4th 5th and 6th, and 7th.

Under Operation of 7 and Existence of 24 only, excluding four Error-feeding passions, or 23 leaving Wrong-belief also, or 22

leaving Wrong-belief and Mixed-belief also, there is Bondage of 17, 13, or 9 respectively in 4th, 5th and 6th, and 7th stage.

A Destructive-right-believing soul having Existence of 21, and Operation of 7, will bind 17 in Vowless stage, in any of four Condition of life, but of 13 only in Partial vow stage of human life.

688. During Operation of six or five, and Existence (as per stage of) Subsided (delusion), (there is) Bondage (respectively) of three (places) of Vowless (seventeen), (and thirteen and nine), and of two (places) of Partial (vow, thirteen), (and nine). With (Operation of) that, (and) existence of twenty-three, (and twenty)-two, there is Bondage of two (places) of Partial (vow, thirteen), (and) nine.

Commentary.

When there is Operation of six sub-classes of Deluding Karma, during 5 stages, from 4th to 8th, and Existence of 28, 24, or 21 as is possible in the stage of Subsided-delusion, there can be Bondage of seventeen, thirteen or nine sub-classes. During Operation of 5, in stages from 5th to 8th, and Existence of 28, 24, and 21, there is Bondage of 13 or nine. During Operation of 6, in a Destructive-subsidential-right-believer or Partial-vow stage and Existence of 28, on destruction of wrong-belief Karma, or of 22 on destruction of Mixed-Belief also, there is Bondage of 13. The same human being, having Operation of 5, in 6th and 7th stages, will bind nine only.

689. During Operation of four, (and) Existence in Subsided (delusion), (there is) Bondage of nine; during Operation of two and Existence like the previous (stage), as well as in Existence of three

(places) of thirteen (twelve, and eleven), (there are) Bondage-places of five (and) four.

Commentary.

When 4 sub-classes of Deluding Karma are operative, in 6th 7th and 8th stages, and when there is Existence of 28, 24, and 21, there is Bondage of nine. When only 2 are Operative, during 9th stage, with sex inclination, and with Existence of 28, 24 and 21, there is Bondage of 5, till the last instant with Operation of male inclination, but of only 4, if the saint has ascended the ladder with Operation of Common or female sex inclination. During Destructive ladder, at the time of destroying the four Partial-vow preventing and the four total-vow-preventing passions, and the three Sex-inclinations, when there is Existence of 21, 18, 12, or 11, there is Bondage of 5, when Male inclination is Operative, and of 4 only when there is Operation of Common or female sex.

690-691. During Operation of one and Existence as in Subsided (delusion stage there are) four Bondage (places) of four etc., (i. e., four, three, two and one). And with the same (Operation) and (Existence of) the two (i. e.,) eleven (and five), (there is) Bondage of four, while with Existence of four, (there is) Bondage of four and three (sub-classes). (Again) with that (Operation and Existence) of three, Bondage (is) of three and two; with Existence of two, Bondage (is) of two and one; and in Existence of one, (there is) Bondage of one or nil in Deluding (Karma).

Commentary.

When only one sub-class of Deluding Karma is in Operation in Subsidential ladder, and 28, 24, 21 are in Existence, there can be

Bondage of 4, 3, 2 or 1. During Destructive ladder, when one is operative, and 11 or 5 are in Existence, there will be Bondage of 4; if 4 are in Existence, there will be Bondage of four or three, if three are in Existence, there will be Bondage of three or two; if 2 are in Existence, there will Bondage of 2 or 1; and if only one is in existence, there will be Bondage of 1, in 9th stage, and no bondage in the 10th Stage of slightest-delusion.

717. Among five immobile earth etc., and among mobiles, Bondage, Operation and Existence (are) respectively as in one (sensed) and all-sensed, but there is no Operation of twenty-seven in the two, fire (and air-bodied souls).

Commentary.

In Embodiment soul-quest earth etc., five immobiles, have one-sense only; therefore Bondage, Operation and Existence of subclasses of Body-making Karma are like those of the one-sensed beings, but there is no operation of 27 in fire-bodied and air-bodied

souls because they never have operation of hot and cold-light sub-classes. Bondage, Operation, and Existence in mobile-soul-quest should be known as has been said in all-sensed beings. Vide Table to Verse 761.

On Cessation of Bondage, ten Operation and ten Existence (places) are only possible.

Commentary.

There are altogether eight places of bondage, in the Body-making-Karma. Now the author wants to describe the possibilities of different Operation and Existence places of Body-making Karma with reference to different souls, which have any of these 8 kinds of bondage at a particular time. These two verses only mention the number of Operation and Existence places during each place of Bondage. This detail has been given in the following verses.

(1) *Bondage place of 23.*—This Bondage happens along with non-developable and one-sensed sub classes. This place is not bound by hellish and celestial souls, but it is bound by all immobile and mobile sub-human and human wrong-believers. When sub-humans bind this place, they have Operation of 21, 24, 25, 26, 27, 28, 29, 30 and 31 sub-classes, and have Existence places of 92, 90, 88, 84 and 82; but humans of work-region binding this place, have Operation-places of 21, 26, 28, 29, and 30, and have Existence places of 92, 90, 88 and 84.

(2) *Bondage place of 25.*—This is along with developable one-sensed or with undevelopable mobiles. This is bound by sub-human, human and celestial wrong-believers. When sub-humans have this place of Bondage, they have Operation places of 21, 24, 25, 26, 27, 28, 29, 30 and have existence places of 92, 90, 88, 84 and 82. When humans bind this place, they have Operation places of 21, 26, 28, 29 and 30 and Existence places of 92, 90, 88, and 84. The three

residential and the heavenly beings of Saudharma and Ishāna bind this place of 25 with developable and one-sensed; then they have Operation of 21, 25, 27, 28 and 29 and Existence of 92 and 90.

(3) *Bondage place of 26*—It is bound along with one-sensed, developable, hot-light, or cold-light. This is bound by sub-human, human and celestial, wrong believers. Souls with Operation of hot or cold-light do not take birth among fire-bodied and air-bodied, nor in common vegetables, nor in fine immobiles, nor in undevelopables. Sub-humans binding this place of 26, have Operation places of 21, 24, 25, 26, 27, 28, 29, 30, 31 and Existence places of 92, 90, 88, 84, and 82. Humans having this Bondage, have Operation places of 21, 26, 28, 29, and 30 and Existence places of 92, 90, 88, and 84. The three, residential etc., and celestials of Saudharma and Ishāna heavens having this bondage, have Operation of 21, 25, 27, 28 and 29 and Existence place of 92 and 90.

(4) *Bondage place of 28*.—This is along with hellish or celestial condition of existence. Irrational and rational five-sensed sub-humans and humans bind this place of 28, in the state of developableness. Sub-human wrong believers binding this place, with hellish or celestial condition have Operation places of 28, 29, 30 and 31 and Existence places of 92, 90 and 88. Sub-humans in Downfall stage binding 28, with celestial condition have Operation places of 30 and 31, and Existence place of 90 only. The same in Mixed stage binding 28, have Operation places of 30 and 31 and Existence places of 92, 90.

In Vowless stage binding 25, they have Operation-places of 21, 25, 28, 29, 30, and 31, and Existence places of 92 and 90. In Partial-vow stage binding 28, they have Operation places of 30 and 31, and Existence places of 92 and 90. The reason why there are no Existence places of 84 and 82 in the bondage of 28 is that fire-bodied and air-bodied souls having existence of 82, die and are reborn as sub-humans. Then during transmigration or Mixed physical vibratory activity and binding 23, 25, 26 and 29 with sub-humans condition, they can have existence of 82. When a soul binds 25, and 29 with human Condition and Migratory form, it cannot have existence of 82. When one-sensed and not-all-sensed beings after having twisted the hellish Condition and Migratory form and fluid-body-and-limbs (called hellish four) die and are born as developable five-sensed sub-humans, they in transmigration and Mixed-physical body Vibratory activity, have existence of 84.

Humans binding 28 with hellish or celestial condition in wrong belief stage have Operation places of 28, 29 and 30 and Existence places of 92, 91, 90, and 88. As fire-bodied and air-bodied souls do not bind human age Karma, so they can not be born as humans. That is why there is no existence of 82 in humans. One-sensed and not-all-sensed, having twisted the hellish four, are born as humans. They do not bind 28 in transmigration and Mixed physical vibratory activity, so they cannot have existence of 84. On completion of physical Development when they bind the hellish four or the celestial four, they have existence of 88. A human who, before acquiring right belief had already bound hellish age becomes a wrong believer at death, and goes to 2nd or 3rd hell, he then binds 28 with hellish condition and has 30 in Operation and 91 in Existence. Humans in Downfall etc., stages bind 28 with Celestial condition. In Downfall stage, they have Operation of 30 and Existence of 90; in Mixed stage have Operation of 30 and Existence of 92 and 90; in Vowless stage have Operation of 21, 26, 28, 29 and 30 and Existence of 92 and 90. There is no existence of 91, because when any human has already commenced binding Tirthankara Karma he continues binding it, unless he is obliged to fall from Right Belief having previously bound hellish-age-Karma. He who has commenced binding Tirthankara Karma, as a rule binds 29 with Tirthankara and Celestial condition. Humans binding 28 in Partial vow stage have Operation of 30, and Existence of 92 and 95. In Imperfect vow stage they have Operation of 25, 27, 28, 29 and 30 and Existence of 92 and 90. In Perfect vow stage, they have Operation of 31 and Existence of 92 and 90; and in New Thought Activity stage they have Operation of 30, and Existence of 92 and 90.

(5) *Bondage place of 29.*—This bondage is possible with developable two-sensed etc., with sub-human or with human Condition or with Tirthankara and celestial condition. This place is bound by souls in all in the four Conditions of Existence. Hellish beings binding 29 in wrong-belief stage with five-sensed sub-human or human condition have Operation of 21, 26, 27, 28, and 29 and Existence of 92, 91, and 90. It should be noted that this Existence of 91 is possible in the first three hells during undevelopable period. The hellish beings in Downfall stage binding 29, have Operation of 29 and Existence of 90. They, in Mixed stage binding 29, with human condition, have Operation of 29 and Existence of 92, 90. The same in Vowless stage, binding 29 with human Condition, have Operation

of 21, 26, 27, 28 and 29 and Existence of 92, 90 in the first hell; in the 2nd and 3rd hell they have Operation of 29 and Existence of 92, and 90; in the other hells also they have Operation of 29 and Existence of 92 and 90. Sub-humans in Wrong-belief stage, binding 29 with 2 or 3 or 4 or 5 sensed, sub-human or human Condition, have Operation of 21, 24, 25, 27, 28, 29, 30 and 31 and Existence of 92, 90 88, 84 and 82; in Downfall stage, binding 29, with 5-sensed, sub-human condition they have Operation of 21, 24, 26 and 30 and Existence of 90. The sub-humans in 3rd, 4th and 5th stage do not bind 29, because sub-humans do not bind sub-human or human condition beyond the Downfall stage. They then bind 28 with celestial condition. Humans in Wrong-belief stage, binding 29 with 2, 3, 4, or 5-sensed sub-human or human condition, have Operation of 21, 26, 28, 29, and 30 and Existence of 92, 91, 90, 88 and 84. As fire-bodied and air-bodied souls do not take birth in humans, so there can not be Existence of 82.

If a person before beginning Bondage of Tirthankara Karma had bound hellish age, and if he turns Wrong-believer at the time of going to hell, he will bind 29 with human condition and will have Operation of 30, and Existence of 91. Humans in Downfall stage binding 29, with five-sensed, sub-human or human condition, have Operation of 21, 26, and 30 and Existence of 90. They in Mixed stage do not bind 29. From Vowless to New Thought Activity stage, they bind 29, with Tirthankara and Celestial condition. Thus in Vowless stage, they have Operation of 21, 26, 28, 29 and 30 and Existence of 93 and 91, in Partial vow, they have Operation of 30 and Existence of 93 and 91; in Imperfect vow they have Operation of 25, 27, 28, 29 and 30 and Existence of 93, and 91; in Perfect vow they have Operation of 30 and Existence of 93 and 91; and in New thought activity stage they have Operation of 30 and Existence of 93 and 91.

The three, Residentials etc., and heavenly Residentials from 1st to the 12th heaven, Sahasrara, in Wrong-belief stage binding 29, with rational 5-sensed developable sub-human or human condition, have Operation of 21, 25, 27, 28, and Existence of 92 and 90; in Downfall stage, binding the same sort of 29, have Operation of 21, 25, 27, 28 and 29 and Existence of 90; in Mixed stage binding 29, with human condition, have Operation of 29, and Existence of 92; and 90; in Vowless stage, binding the same, have Operation of 29, in

the three residential etc., and of 21, 25, 27, 28 and 29 in others, and have Existence of 92 and 90.

Heavenly souls from 13th heaven to the last upper Graiveyak, binding 29 with human condition, in Wrong-belief stage have Operation of 21, 25, 27, 28 and 29 and Existence of 92 and 90; in Downfall stage have Operation of 21, 25, 27, 28 and 29 and Existence of 90 only; in Mixed stage have Operation of 29 and Existence of 92 and 90; in Vowless stage have Operation of 21, 25, 27, 28 and 29, and Existence of 92 and 90. Heavenly beings of 9 Anudishas and 5 Anuttaras, binding 29, with human condition, in Vowless stage have Operation of 21, 25, 27, 28 and 29 and Existence of 92 and 90.

(6) *Bondage place of 30.*—This is bound with developable, mobile, cold-light and sub-human condition, or with Tirthankara and human condition, or with assimilative two and celestial condition, by beings of all the four conditions.

All hellish beings, binding 30, with 5-sensed, cold-light and sub-human condition, in Wrong-belief stage, have Operation of 21, 25, 27, 28 and 29 and Existence of 92 and 90; in Downfall stage, binding the same, have Operation of 29, and Existence of 90. There is no bondage of 30, in their Mixed stage. They in Vowless stage, binding 30, with Tirthankara, and human condition, have Operation of 21, 25, 27, 28 and 29 and Existence of 91 in first hell; have Operation of 29 and Existence of 91 in 2nd and 3rd hells. They in other hells cannot bind such 30 subclasses. Sub-humans, binding 30, with cold-light and sub human condition, in Wrong-belief have Operation of 21, 24, 25, 26, 27, 28, 29, 30, 31 and Existence of 92, 90, 88, 84, 82; in Downfall stage, binding 30, with cold-light, 5-sensed, sub-human condition have Operation of 21, 24, 26, 30 and 31 and Existence of 90 only. Such bondage is not possible to them in the 3rd and other stages.

Humans, binding 30, with 2, 3, 4 or 5-sensed, cold-light and sub-human condition, in Wrong-belief stage, have Operation of 21, 26, 28, 29, and 30 and Existence of 92, 90, 88 and 84; in Downfall stage, binding 30, with cold-light and sub-human condition, have Operation of 21, 26 and 30 and Existence of 90 only. Such bondage is not possible in humans beyond Downfall stage. Humans in Perfect vow and New Thought Activity stage, binding 30, with Assimilative two, and celestial condition, have Operation of 30, and Existence of 92 only. Celestial beings, as the three residentials etc., and in the 1st to 12th heavens, binding 30, with cold-light, and sub-human condition

in Wrong-belief stage, have Operation of 21, 25, 27, 28, 29 and 30 and Existence of 92 and 90; in Downfall stage have Operation of 21, 25 and 29 and Existence of 90 only.

There is no such Bondage of 30 in the 3rd and 4th stages. They bind 29 with human condition only. Beings from 1st to 12th heaven in Vowless stage, binding 30, with Tirthankara and human condition have Operation of 21, 25, 27, 28 and 29 and Existence of 93 and 91. Such bondage of 30 is not possible in beings from 13th heaven to last upper Graiveyaka during the first 3 stages. Heavenly souls from 13th heaven to the Sarvārtha Siddhi heaven, binding 30, with Tirthankara, and human condition, in Vowless stage, have Operation of 21, 25, 27, 28, and 29 and Existence of 93 and 91.

(7) *Bondage of 31.*—This is bound with Assimilative two, Tirthankara and Celestial condition by saints of Perfect and New Thought Activity stages. Then they have Operation of 30 and Existence of 98.

(8) *Bondage of one.*—Fame sub-class is bound by saints from 7th part of 8th stage, to the end of the 10th stage. They in 9th and 10th stages, have Operation of 30 and Existence of 93, 92, 91, 90, 80, 79, 78, 77. In 11th stage where there is no bondage of any sub-class of Body making Karma, Operation of 30 and Existence of 93, 92, 91 and 90 are possible. In 12th stage of non-bondage, Operation of 30 and Existence of 80, 79, 78, 77 are possible. In 13th stage of Vibrating Omniscient in Steady condition and not in Over-flow, Operation of 30 and 31 and Existence of 80, 79, 78, 77 are possible, but in Vibrating Omniscients with Over-flow, Operation of 20, 21, 26, 27, 28, 29, 30 and 31 and Existence of 80, 79, 78 and 77 are possible. In the 14th stage in Non-vibrating Omniscients Operation of 30, 31, 9 and 8 and Existence of 80, 79, 78, 77, 10 and 9 are possible.

During (Operation of) twenty-one, Bondage (places are six) from twenty-three to thirty, and Existence (places) are (nine) from ninety-three to eighty and seventy-eight also. During (Operation of) twenty-four, Bondage (places are) the first three, and those of twenty-nine and thirty.

Commentary.

Gathas 747 to 762 describe all the Bondage and Existence places

which are possible during each of the 12th Operative places in the Body-making-Karma as shown in the Table below :—

Operative Places.	Number of Bondage places.	Description of Bondage Places.	Number of Existence Places.	Description of Existence Places.
20	0	0	2	79, 77.
21	6	23, 25, 26, 28, 29, 30.	9	93, 92, 91, 90, 88, 84, 82, 80, 78.

8	0	0	3	79, 77, 9.

These operation places have been distinctly explained at length in the Sanskrit Commentary, the purport of which is given below:—

(1) *Operation place of 20.*—This is possible in ordinary Omnis-gients in Overflow condition. There is no Bondage, but 79 and 77 sub-classes of the body-making Karma exist.

(2) *Operation place of 21.*—This, with Tirthankara, is possible in three instants in both the Sheet-like-and Universal overflows. There is no Bondage, but 89 and 78 can exist. This Operation, with Migratory form is possible in transmigration period among all the souls in the four conditions of existence. During hellish condition

when this place operates in first three hells, in Wrong-belief stage there is Bondage of 29 with five-sensed sub-human or human condition, or of 30 with five-sensed sub-human, cold-light, and Existence places of 92, 91, and 90 are possible. There is no Operation of 21 in Downfall and Mixed stages of the first three hells. These 21 operate in Vowless stage of the first hell, when 29 with human, or 30 with Tirthankara, can be bound and 92, 91 or 90 can exist. These 21 operate in hells from 4th to 7th in Wrong believers only; when there is Bondage of 29, with sub-human or human condition, or of 30 with sub-human and cold-light, and 92 and 90 can Exist.

During sub-human condition on Operation of 21, in Wrong belief stage, there is Bondage of 23, 25, 26, 29, and 30 and Existence of 92, 90, 88, 84, and 82; in Downfall stage, there is Bondage of 29 with five-sensed sub-human or human or, of 30 with sub-human and cold-light, and Existence of 90 only; in Vowless stage 28, with celestial condition, are bound, and 92 and 90 can exist. There cannot be Operation of 21, in Mixed and Partial vow stages. During human condition, on Operation of 21 in Wrong belief stage, there is Bondage of 23, 25, 26, 29 and 30, and Existence of 92, 90, 88, and 84; in Downfall stage there is Bondage of 29, with 5-sensed sub-human or human, or of 30 with sub-human and cold-light, and 90 only can exist; in Vowless stage, there is Bondage of 28, with celestial Condition, or of 29 with Tirthankara, and celestial condition, and Existence of 93, 92 and 91 is possible. There cannot be Operation of 21 in Mixed and Partial vow etc., stages. During celestial Condition, on Operation of 21, in the three Residential etc., and women of all the heavens, in wrong belief stage, there is Bondage of 25, 26, 29, and 30, and Existence of 92 and 90; in the Downfall stage, there is Bondage of 29, with sub-human or human condition, or of 30 with sub-human and cold-light, and Existence of 90 only. Such Operation is not possible in 3rd and 4th stages. On Operation of 21 in Saudharma, and Ishāna heavens, in Wrong belief stage, there is Bondage of 25, 26, 29, and 30, and Existence of 92 and 90; in the Downfall stage there is Bondage of 29 with sub-human or human, or of 30 with sub-human, cold-light, and Existence of 90; during Vowless stage, there is Bondage of 29, with human, or of 30 with Tirthankara, and human, and Existence of 93, 92, 91 and 90. Above that till 10th the Sahasrára heaven, in Wrong belief stage, there is Bondage of 29 with sub-human or with human, or of 30 with sub-human and cold-light, and Existence of 92 and 90, in the Downfall

and Vowless stages, Bondage and Existence are like those of the first heaven. Above them till the uppermost Graiveyaka, in Wrong belief stage, there is Bondage of 29, with human, and Existence of 92 and 90; in Downfall stage, there is Bondage of 29, with human, and Existence of 90, in Vowless stage, there is Bondage of 29, with human or of 30 with Tirthankara and human, and Existence of 93, 92, 91 and 90. Above them till Sarvārtha Siddhi, in Vowless stage, there is Bondage of 29 with human, or of 30 with Tirthankara and human, and Existence of 93, 92, 91 and 90.

(3) *Operation place of 24.*—This is possible in undevelopable one-sensed Wrong believer only. In the totally undevelopable and potentially developable, both, there can be Bondage of 23, 25, 26, 29, and 30 and Existence of 92, 90, 83, 84, and 82. Fire-bodied, and air-bodied beings can have no Bondage of sub classes with human condition, all the fine, undevelopable, fire and air, or common vegetable, with hot-light or cold-light.

(4) *Operation place of 25.*—This is possible in undevelopable condition of all souls in the four Conditions of existence, and in Developable one-sensed. It occurs in Wrong belief stage in all the seven hells; and in Vowless stage in the 1st hell, Bondage and Existence are like those in the place of 21; that is, in Wrong-belief stage there is Bondage of 29 with sub-human or human, or of 30 with sub-human and cold-light and Existence of 92, 91, 90; and in Vowless stage, there is Bondage of 29 with human or of 30 with Tirthankara, and human, and Existence of 92, 91 and 90. There is Operation of 25 with other-destructive in one-sensed, and there is Bondage of 23, 25, 26, 29 and 30 and Existence of 92, 90, 88, 84 and 82. This place of 25 does not operate in mobiles; there, 26 with limbs are Operative. In humans, in sixth stage, during assimilative body, there is Operation of 25 with limbs and without bones; then there is Bondage of 28 with celestial, or of 29 with Tirthankara and celestial, and Existence of 93 and 92. In celestials on Operation of 25, Bondage and Existence are like those of 21.

Operation place of 26.—It is possible, with limbs, in totally undevelopable or potentially developable mobiles. In Wrong believers, there is Bondage of 23, 25, 26, 29, and 30 and Existence of 92, 90, 88, 84, and 82. In one-sensed Wrong-believers, during physical-body-development there is Operation of 26, with respiration, cold-light or hot-light, then there is Bondage of 23, 25, 26, 29

and 30 and Existence of 92, 90, 83, 84, and 82; in their Downfall stage, it is not Operative, but there is Operation of 24, as Downfall stage is changed into Wrong belief, when the place of 23 comes into Operation. This place of 26 is Operative in Downfall stage of 5-sensed sub-humans; then there is Bondage of 29 and 30, and Existence of 90. In their Vowless stage, there is Bondage of 28, with celestial, and Existence of 92 and 90. There is no Operation of 26 in Mixed and Partial vow stage of sub-humans. It is Operative in humans; in Wrong belief stage, there is Bondage of 29, 25, 26, 29 and 30 and Existence of 92, 90, 88 and 84; in Downfall stage there is Bondage of 29 with sub-human, or human, or of 30, with sub-human, and cold-light, and Existence of 90; in Vowless stage, there is Bondage of 28, with Celestial, or of 29 with Tirthankara and Celestial, and Existence of 93, 92, 91, and 90. It is not operative, in Mixed and Partial vow etc., stages. It is also operative in Ordinary omniscients during Door-like Overflow, when there is no Bondage, but 79 and 77 Exist.

(6) *Operation place of 27.*—It is Operative in all the four conditions during body-development, and in one-sensed during respiration development. In the 1st three hells, it is Operative in Wrong belief stage, when there is Bondage of 29, with sub-human or human, or of 30 with sub-human and cold-light, and Existence of 92 and 90. Here there cannot be Existence of Tirthankara Karma, because on body development, these souls which have Existence of Tirthankara Karma must attain true belief. In Vowless stage, in the first hell, on its Operation, there is Bondage of 29 with human, or of 30 with Tirthankara, and human, and Existence of 92, 91 and 90; in 2nd and 3rd hell in Vowless stage, on its Operation, there is Bondage of 30 with Tirthankara and human, and Existence of 91. In 4th, 5th and 6th hells, in Wrong belief, on its Operation, there is Bondage of 29, with sub-human or human, or of 30 with sub-human and cold-light, and Existence of 92 and 90. In 7th hell in Wrong belief stage, on its Operation, there is Bondage of 29 with sub-human, or of 30 with sub-human and cold-light, and Existence of 92 and 90. There is no such Operation in Downfall etc., stages. In one-sensed, 27 with respiration, and either hot or cold-light operate. Then there is Bondage of 28, 25, 26, 29 and 30 and Existence of 92, 90, 88 and 84. There can be Bondage of human, and human Migratory form in one-sensed, other than fire and air-bodied souls during respiration development, then there can be Existence

of 82 also. 27 operate in saints with Assimilative body; then there is Bondage of 28 with celestial, or of 29 with Tirthankara and celestial, and Existence of 93 and 92. 27 operate in Tirthankara omniscients during Door-overflow; then there is no Bondage, but there is Existence of 80 and 78. 27 operate in three Residentials etc., and women of heavenly souls, in Wrong belief; then there is Bondage of 25, 26, 29 with sub-human or human, and 30 with sub-human and cold-light, and Existence of 92 and 90. There is no such Operation in Downfall etc. On their Operation in Saudharma and *Ishana*, in Wrong belief stage, the Bondage and Existence are like those in the three Residentials; in Vowless stage, there is Bondage of 29 with human, or of 30 with Tirthankara and human, and Existence of 93, 92, 91 and 90. In 3rd to 12th heavens, in Wrong belief stage, on its Operation, there is Bondage of 29 with sub-human or human, or of 30 with sub-human and cold-light, and Existence of 92 and 90, in Vowless stage, Bondage and Existence are like those in the 1st and 2nd heavens. From 13th heaven to the upper-most Graiveyaka, in Wrong belief stage, on its Operation, there is Bondage of 29 with human, and Existence of 92 and 90; during their Vowless stage and also in vowless stage in 9 Anudishas and 5 Anuttaras, there is Bondage of 29 with human, or of 30 with Tirthankara and human, and Existence of 93, 92, 91 and 90.

(7) *Operation Place of 28.*—This is operative in sub-humans and humans in Body development, and in hellish and celestials in Respiration development. During its Operation, in 1st hell in Wrong belief stage, there is Bondage of 29 with sub-human and human, or of 30 with sub-human, and cold-light, and Existence of 92 and 90. Here there is no Existence of 91, as with 91 in Existence the hellish being will not give up right belief. During Vowless stage, in first hell, on their Operation, there is Bondage of 29 with human, or of 30 with Tirthankara and human, and Existence of 92, 91 and 90. In 2nd and 3rd hells, in Wrong belief stage on their Operation, Bondage and Existence are like those of the first hell; in their Vowless stage, there is Bondage of 30 with Tirthankara and human, and Existence of 91 only. In 4th, 5th and 6th hells, in Wrong belief stage, Bondage and Existence are like those in the hell. In 7th hell, in Wrong belief stage, there is Bondage of 29 with sub-human, or of 30 with sub-human, and cold-light, and Existence of 92 and 90.

In sub-humans also 28 operate. Then in Wrong belief stage, there is Bondage of 23, 25, 26, 28, 29, and 30 and Existence of 92,

90, 88, and 84; in Vowless stage there is Bondage of 28, with celestial and Existence of 92 and 90.

In humans, on their Operation, in Wrong belief stage, Bondage and Existence are like those in sub-humans; in Vowless stage, there is Bondage of 28 with celestial, or of 29 with Tirthankara and celestial, and Existence of 93, 92, 91 and 90. In saints at the time of Assimilative body, they operate in respiration period; then there is Bondage of 28 with celestial, or of 29 with Tirthankara and celestial, and Existence of 93 and 92.

These 28 also operate in ordinary Omniscients, during Stick overflow, in physical body vibration, then there is no Bondage but Existence of 79 and 77.

The celestials, on Operation of 28, have Bondage and Existence like those on Operation of 27.

(8) *Operation place of 20.*—This is operative in hellish beings in speech development period with harsh voice. All hellish beings in Wrong belief stage, bind 29 with sub-human or human, or 30 with sub-human and cold-light, but the beings of 7th hell do not bind 29 with human; while there is Existence of 92 and 90 in them. All hellish beings in Downfall stage, bind as in the Wrong belief stage, but have Existence of 90 only; in Mixed stage, there is Bondage of 29 with human, and Existence of 92 and 90. During Vowless stage, in the first three hells, on Operation of 29, there is Bondage of 29 with human, or of 30 with Tirthankara and human, and Existence of 92, 91 and 90; and in the other 4 hells, there is Bondage of 29 with human, and Existence of 92 and 90.

In mobile sub-humans in body development, 29 operate with cold-light. Then in Wrong belief stage, there is Bondage of 23, 25, 26, 28, 29, and 30, and Existence of 92, 90, 88 and 84; during Vowless stage, there is Bondage of 28 with celestial, and Existence of 92 and 90.

In humans, during respiration period, 29 Operate with respiration. Then in Wrong-belief stage, there is Bondage and Existence as in sub-humans; during Vowless stage there is Bondage of 28 with celestial, or of 29 with Tirthankara and celestial, and Existence of 93, 92, 91, and 90. In saints in Assimilative body, during speech period, 29 with Sweet Voice operate; then there is Bondage of 28 with celestial, or of 29 with Tirthankara and celestial, and Existence of 93 and 92.

29 also operate in Tirthankara omniscients, in Stick overflow;

Then there is no Bondage; but there is Existence of 80 and 78.

29 also operate in ordinary Omniscients at the instant of contracting like the root-body after overflow during respiration period, then there is no Bondage, but 79 and 77 exist.

29 operate in celestials during speech period, when there is Operation of Sweet Voice; then in the three Residentials and the women of heavenly souls, in Wrong-belief stage, there is Bondage of 25, 26, 28 and 30, in heavens till 12th in Wrong-belief stage, there is Bondage of 29 with sub-human and human, or of 30 with sub-human and cold-light; above that, till the upper most Graiveyaka, 29 with human are bound, there is Existence of 92 and 90. In all celestials till 12th heaven, 29 with sub-human, or human, or 30 with sub-human, cold-light, are bound, and above that till 9th Graiveyaka, 29 with human are bound; there is Existence of 90 in all of them. During Mixed stage, in all celestials, till 9th Graiveyaka 29 with human are bound and 92 and 90 exist. During Vowless stage in 3 Residentials and women of heavenly beings, there is Bondage of 29 with human and Existence of 92 and 90. From the first to the last of Annuttras, there is Bondage of 29, with human, and of 30 with Tirthankara and human, and Existence of 93, 92, 91 and 90.

(9) *Operation place of 30.*—This operates, in sub-human or humans only because they possess bones. In sub humans in respiration period, 30 with cold-light Operate; then in Wrong-belief stage, there is Bondage of 23, 25, 28, 29 and 30, and Existence of 92, 90 88 and 84; during Vowless, there is Bondage of 28, with the celestial, and Existence of 92 and 90. During speech period also, 30 with any of two Voices, without cold-light Operate in sub-humans; then in Wrong-belief stage, there is Bondage of 23, 25, 26, 28, 29 and 30 and Existence of 92, 90, 88 and 84. Here 88 and 84 exist with relation to the not-all-sensed sub-humans, because they do not bind celestial condition and Migratory form, hellish condition and Migratory form, and Fluid-body-and-limbs, on their being twisted away from the existence. During Downfall stage, sub humans bind 29 with sub human or human, or 30 with cold-light and sub-human, and there is Existence of 90 only. During Mixed, Vowless, or Partial vow, there is Bondage of 28, with celestial, and Existence of 92 and 90. In human condition, Tirthankaras, when entering their own body after Overflow, have operation of 30 with respiration; then there is no Bondage, but there is Existence of 80 and 78. Ordinary

Omniscients, when entering their own body after Overflow, have Operation of 30 with any of two Voices, during speech period; then there is no Bondage, but there is Existence of 79 and 77. Other humans have Operation of 30, with any of two voices in speech period; then during Wrong-belief stage, there is Bondage of 23, 25, 26, 28, 29 and 30 and Existence of 92, 91 and 90. Here 91 exist in a soul with Tirthankara, and bound with hellish condition. During Downfall, they bind 29 with sub-human or human or 30 with sub-human and cold-light, and have Existence of 90; during Mixed, there is Bondage of 28 with the celestial, and Existence of 92 and 90; during stages from Vowless to the 6th part of New thought activity, there is Bondage of 28, with the Celestial, or of 29 with Tirthankara and Celestial, and Existence of 93, 92, 91 and 90; but saints in 7th and 8th stages till the 6th part of the 8th, bind 30, with Assimilative and Celestial, and 31 with Tirthankara, Celestial and Assimilative. In the 7th part of New thought-activity, there is Bondage of one, and Existence of 93, 92, 91 and 90; in Advanced thought-activity and Slightest delusion there is Bondage of one, and Existence of 93, 92, 91, 90, 80, 79, 78 and 77. Humans, with Operation of 30, during Subsided Delusion, Delusionless, and Vibrating omniscients have no Bondage, but have Existence of 93, 92, 91 and 90 in Subsided delusion, and of 80, 79, 78 and 77 in the next two stages.

(10) *Operation of 31.*—They with mobile, and cold-light Operate in sub-humans during speech period, with any of two Voices; then Bondage and Existence of sub-classes correspond with those at Operation of 30 without cold-light during speech period. Tirthankara humans have Operation of 31, during speech period; then there is no Bondage but there is Existence of 80 and 78.

(11) *Operation of 9.*—They operate in Tirthankaras during non-vibrating stage; then there is Existence of 80, 78 and 10.

(12) *Operation of 8.*—They operate in ordinary omniscients—then there is Existence of 79, 77 and 9.

During (Existence place of) ninety, Bondage (places) are like those (of Existence-place) of ninety-two, and Operation (places are nine *i. e.*, all) leaving the last two, and that of twenty. Among the (next) three (Existence places), Bondage (places are) six (and five) leaving the fourth (of twenty-eight) (respectively), and (Operation places are) the same (nine) as in (Existence places of) two (*i. e.*, eighty-eight and eighty-four); during (Existence place of) eighty-two, the Bondage (places are the same five) as previously stated, and Operation (places are) four from twenty-one.

758-759. During four (Existence places) of eighty etc., (only) Fame (Karma) is bound; there is Operation of twenty-one, (twenty)-seven, (twenty)-nine, thirty, thirty-one and nine in even places (of Existence of eighty and seventy-eight), but twenty, twenty-six, (twenty)-eight, (twenty)-nine, thirty, and eight operate during odd places (of seventy-nine and seventy-seven). During (Existence of) ten and nine, there is no Bondage, but nine and eight Operate respectively (in them).

Table showing Bondage and Operation places with reference to Existence places of the Body-making Karma as per verse 753 to 759.

A detailed Explanation of the above table taken from the Sanskrit Commentary is given below.

(1) *Existence-place of 93.*—The Existence of all the 93 sub-classes of the Body-making-Karma is possible in the developable and potentially developable human beings of work-region, and in the heavenly celestials in stages beyond the first three. Humans having Existence of 93, in Vowless stage bind 29 with Tirthankara and

celestial; and have Operation of 21, 26, 28, 29, and 30; in Partial vow stage they bind 29, with Tirthankara and celestial, and have Operation of 30; in Imperfect vow stage, they bind 29 with Tirthankara and Celestial, and have Operation of 25, 27, 28, 29 and 30; in Perfect vow and Subsidential New-thought activity stages, they bind 29 with Tirthankara and Celestial, and 31 with Tirthankara and Assimilative two, and have Operation of 30. In Subsidential Advanced thought-activity and Slightest delusion, only one sub class is bound and only 30 Operate; in Subsided Delusion, there is no Bondage but only 30 operate. In Destructive ladder, 93 are not found in Existence. Heavenly celestials in the Vowless stage having Existence of 93, bind 30 with human and Tirthankara and have Operation of 21, 25, 27, 28, and 29. A soul having 93 in Existence does not bind 28, because a soul having Existence of Tirthankara sub-class, always binds Tirthankara Karma, except when it happens to be transmigrating to hellish condition.

(2) *Existence-place of 92.*—This is possible in all the four Conditions of Existence. In the first hell, in Wrong belief stage, a soul binds 29 with human or sub-human, and 30 with sub-human and cold-light, and has Operation of 21, 25, 27, 28 and 29; in Mixed stage, it binds 29 with human, and has Operation of 29; in Vowless stage it binds 29 with human, and has Operation of 21, 25, 27, 28, and 29. In hells, from the second to the sixth, in Wrong belief stage, Bondage and Operation are like those in the 1st hell; in Mixed and Vowless stages, it binds 29 with human and has Operation of 29. In the seventh hell, in Wrong belief stage it binds 29, with sub-human, or 30 with sub-human and cold-light, and has Operation as in the first hell; in Mixed and Vowless stages, it binds 29 with human and has Operation of 29 only.

In sub-humans.—In Wrong-belief stage, there is Bondage of 28, 26, 26, 28, 29 and 30, and Operation of 21, 24, 25, 26, 27, 28, 29, 30 and 31. In Mixed stage there is Bondage of 28, with celestial, and Operation of 30 and 31. In Vowless stage, there is Bondage of 28 with celestial, and Operation of 21, 26, 28, 29 30 and 31. In Partial vow, there is Bondage of 28 with celestial, and Operation of 30 and 31.

In humans.—In Wrong-belief stage there is Bondage of 28, 26, 28, 28, 29, 30 and Operation of 21, 26, 28, 29 and 30. In vowless stage, there is Bondage of 28 with celestial, and Operation of 21, 26, 28, 29 and 30. In Partial vow, there is Bondage of 28 with

celestial, and Operation of 30. In Imperfect vow, there is Bondage of 28 with celestial, and Operation of 25, 27, 28, 29 and 30. In Perfect vow stage and New-thought-activity, there is Bondage of 28 with celestial, or of 30 with assimilative and celestial, and Operation of 30 only. In Advanced-thought-activity, and Slightest delusion, there is Bondage of 1, and Operation of 30. In Subsided Delusion, there is no Bondage, but there is Operation of 30. 92 do not exist in Delusionless stage and beyond.

In Celestials, among the three residential, and heavenly beings of 1st and 2nd heavens, in Wrong-belief stage, there is Bondage of 25, 26, 29 and 30, and Operation of 21, 25, 27, 28 and 29, with human, and Operation of 29. In Vowless, there is Bondage of 29 with human, and Operation of 29 only, in three residential, and of 21, 25, 27, 28 and 29 in beings of the first two heavens. In Wrong-belief stage, beings of heavens from 3rd to 12th heavens bind 29, with sub-human or human, and 30 with sub-human and cold-light. Beings from 13th heaven to the upper-most Graiveyaka, bind 29 with human. There is Operation of 21, 25, 27, 28 and 29 from 3rd heaven to the upper-most Graiveyaka. Beings from 3rd heaven to the upper-most Graiveyaka, in Mixed stage bind 29, with human, and have Operation of 29. In Vowless stage till Annuttaras there is Bondage of 29 with human, and Operation of 21, 25, 27, 28 and 29.

(3) *Existence place of 91.*—Existence of 91 is possible only in hellish, human and celestial beings. In 1st hell, during Wrong-belief stage, there is Bondage of 29 with human, and Operation of 21 and 25. There is no Operation of 27 etc., because a soul with Existence of Tirthankara Karma turns into a Right-believer after bodily development. During Vowless stage, there is Bondage of 30 with human and Tirthankara, and Operation of 21, 25, 27, 28 and 29. With reference to 2nd and 3rd hell, Bondage and Operation are like that in the first only with the difference that there is Operation of 27, 28, and 29. A soul with Tirthankara Karma in Existence does not go beyond the 3rd hell. In humans, during Wrong-belief stage, there is Bondage of 28 with hellish, or 29 with human, and Operation of 30 only; during Vowless stage there is Bondage of 29 with Celestial and Tirthankara, and Operation of 21, 26, 28, 29 and 30; during stages from Partial vow to the sixth part of New-thought-activity stage, there is Bondage of 29 with Celestial and Tirthankara; and during stages from the 7th part of the 8th to Slightest delusion, there is Bondage of one, Fame only. There is no Bondage in

Subsided delusion. But there is Operation of 30 only during stages from Partial-vow to Subsided-delusion. In celestials, 91 exist only in heavenly celestial males in Vowless stage. There is Bondage of 30 with human and Tirthankara, and Operation of 21, 25, 27, 28 and 26.

(4) *Existence of 90.*—In hellish beings during Wrong-belief stage, there is Bondage of 29 with sub-human, or human, and of 30 with sub-human and cold-light except in the 7th hell where there is no Bondage of 29 with human, and Operation of 21, 25, 27, 28, and 29; in Downfall stage, Bondage is as in Wrong-belief, and Operation of 29 only is possible; during Mixed stage, there is Bondage of 29 with human, and Operation of 29; during Vowless stage, there is Bondage of 29 with human, and Operation of 21, 25, 27, 28 and 29 in the 1st hell, but of 29 only in other hells.

In sub humans, during Wrong-belief stage, there is Bondage of 23, 25, 26, 28, 29 and 30, and Operation of 21, 24, 25, 26, 27, 28, 29, 30 and 31; during Downfall stage, there is Bondage of 28 with celestial, 29 with sub-human or human, and 30 with sub-human, and cold-light, and Operation of 21, 24, 26, 30 and 31; during Mixed stage, there is Bondage of 28 with celestial, and Operation of 30 and 31, during Vowless stage, there is Bondage of 28 with celestial, and Operation of 21, 26, 28, 29, 30 and 31; during Partial vow stage, there is Bondage of 28 with celestial, and Operation of 30 and 31.

In humans, during Wrong-belief there is Bondage of 23, 25, 26, 28, 29 and 30, and Operation of 21, 26, 28, 29, 30. During Downfall stage, there is Bondage of 28 with Celestial, 29 with sub-human or human and 30 with sub-human and cold-light, and Operation of 21, 26, and 30. During Mixed stage, there is Bondage of 28 with Celestial, and Operation of 30 only. In Vowless stage, there is Bondage of 28 with Celestial, and Operation of 21, 26, 28, 29 and 30. During Partial-vow, Imperfect, and Perfect vow stages, there is Bondage of 28 with Celestial. During New-thought-activity, there is Bondage of 28 with Celestial, or of one, Fame. During Advanced-thought-activity and Slightest delusion, there is Bondage of one, Fame only. There is Operation of 30 only, in stages from Partial vow to Subsided delusion.

In Celestials, during Wrong belief stage of the three Residentials i.e., and of Saudharma and *Ishana* heavenly beings, there is Bondage of 25, 26, 29 and 30; in heavenly beings from 3rd to 12th heaven, there is Bondage of 29 with sub-human or human, and 30 with sub-human and cold-light. In heavens from 13th to the last

Graiveyaka, there is Bondage of 29 with human. In all the Celestials, till the last Graiveyaka, there is Operation of 21, 25, 27, 28, 29; during Downfall stage there is Bondage of 29 with sub-human or human, and of 30 with sub-human and cold-light, till the 12th heaven, and then of 29 with human, till the last Graiveyaka, but there is Operation of 21, 25, 29 in all Celestials till the last Graiveyaka. During Mixed stage, in all the Celestials till the last Graiveyaka, there is Bondage of 29 with human, and Operation of 29 only. During Vowless stage, there is Bondage of 29 with human, and Operation of 29 in the three Residentials, and of 21, 25, 27, 28 and 29 in all the heavens, till Anuttaras.

(5) *Existence place of 88.*—This is possible in beings from one-to-four-sensed, who have Untwisted the Celestial condition and Migratory-form sub classes, and in those conditions also in which they take re-birth after death. Thus only Wrong-believing humans and sub-humans have this Existence of 88. They bind 23, 25, 26, 28, 29 and 30, and they have Operation, 21, 24, 25, 26, 27, 28, 29, 30 and 31 in sub-human, and of 21, 26, 28, 29, and 30, in humans. This is found in five-sensed sub-humans and humans in Wrong-belief, during bodily development period, when they bind 28 with hellish, or 19 with sub-human or human, or 30 with sub-human and cold-light, also in those five-sensed sub-human or humans during Bodily development period, who were one-to-4-sensed beings in previous birth and who have untwisted the hellish four (the hellish Condition, and Migratory form, and fluid body and limbs), and when they bind the Celestial four (i.e., the Celestial Condition and Migratory-form and Fluid body and limbs).

(6) *Existence place of 84.* This Existence of 84 is possible in one-to four-sensed beings who have un-twisted the hellish four, or in those sub-human Conditions where they are born after death. They are in Wrong belief stage. Sub-classes of Bondage and Operation are similar to those of the Existence of 88, only with this exception that there is no Bondage of 28. This Existence is possible in Bodily developments etc., periods, when sub-human or human conditions have been bound. This is not possible in five-sensed sub-human or human, or human who have bound the hellish or the celestial condition.

(7) *Existence place of 82.* This Existence of 82 is possible in fire-bodied and air-bodied souls, who have untwisted the human condition and the migratory form, and also in the sub-human conditions,

in which they are born after death. They have wrong belief stage only. There is Bondage of 23, 26, 29 and 30, and Operation of 21, 24, 25, and 26, but there is no Operation of 26 in fire and air-bodied souls as they have no Operation of either hot or cold-light, but they have Operation of 25, during period of Bodily and Respiration developments.

(8) *Existence place of 80.* This Existence of 80 is found in Advanced-thought-activity etc., stages of Destructive ladder, and in Tirthankara Omniscient. During 9th and 10th stages, they bind only one, Fame, and there is no Bondage beyond the 10th. There is Operation of 30, till the Delusionless stage, and also in Ordinary Omniscients of 13th stage, but there is Operation of 21, 27, 29, 30, and 31 in Overflow omniscients, and of 9 in Non-vibrating Omniscients.

(9)-(11). *Existence places of 79, 78, and 77.* Existence place of 79 is without Tirthankara, that of 78 is without the Assimilative two but with Tirthankara, and that of 77 is without Tirthankara and the Assimilative. During Existence of these three places, from Advanced-thought-activity to Delusionless stage, there are Bondage and Operation places, like those of the place of eighty. During 13th stage in Existence of 79 and 77, there is Operation of 30 in Ordinary omniscients, and of 20, 26, 28, 29, and 30 in Overflow omniscients, but during Existence of 78, there is Operation like that of 80. During Non-vibrating stage on the Existence of 79 and 77, there is Operation of 8, and of 9 on Existence of 78.

(12 & 13). *Existence of 10 and 9.* They are possible in the last instant of Non-vibrating Omniscient, with or without Tirthankara Karma. There is Operation of nine on Existence of 10, and of 8 on Existence of 9.

786. The (root) causes of inflow are Wrong belief, Vowlessness, Passions and Vibratory activity, of five, twelve, twenty-five, and fifteen, kinds, (respectively).

Commentary.

Having already described the Bondage, Operation, and Existence of 148 sub-classes of Karmas; now it is necessary to deal with the

causes of inflow of Karmas. There are four kinds of activity of the mundane soul, which attract Karmic matter for Bondage, viz:— Wrong belief, Vowlessness, Passions and Vibratory activity. Their intensity decreases gradually, as the soul rises in spirituality and they disappear altogether in the 14th spiritual stage. Wrong belief is of five kinds:—

(1) one-sided (Ekānta) belief. A substance is indestructible as regards its matter and attributes. It is however susceptible to change of conditions. It is "one", in view of the indivisible group of various attributes. It is "many" when the various attributes pervading it are viewed separately. To stick to one view only is one-sided wrong belief. A true believer views a substance from all standpoints.

(2) Perverse belief. It is a belief opposed to the reality, e. g., the belief that Himsa is religiously meritorious.

(3) Doubtful belief. It is a vacillating condition.

(4) Mistaken veneration. This is based on prejudice.

(5) Bind belief. It is belief in things to understand which no effort has been made.

Vowlessness is of 12 kinds viz:—

Non-control of the 5 senses and the mind, and non-compassion on five kinds of immobile, and the mobile.

Passions are divided into 25 sorts. Each of the four main passions, anger, pride, deceit and greed has four degrees called Error-feeding, Partial vow-preventing, Total-vow preventing, and Perfect conduct preventing. There are nine minor passions, laughter, sorrow, indulgence, ennui, fear, disgust, female, male and common sex inclinations.

Vibratory activities are 15:—

4 relating to mind, viz-true, untrue, mixed, and neutral,

4 relating to speech, true, untrue, mixed and neutral.

7 relating to body, physical, physical-mixed, fluid, fluid-mixed, assimilative, assimilative-mixed and karmic.

See Jiva Kanda pp. 131 to 144 Chap. IX.

The aggregate causes of inflow are thus $5+12+25+15=57$.

787. In the first (spiritual stage, all) the four causes (exist) (There are) three causes, (excepting wrong belief) in the next three (stages). In Partial vow (stage) also, (there are three causes), the second (control and non-control), and the next two.

Commentary.

789-790. (There are respectively) fifty-five, fifty, forty-three, forty-six, thirty-seven, twenty-four, twenty-two, and twenty-two (sub-causes of Inflow, from the 1st stage) to that of New-thought-activity. In the gross (Advanced thought-activity stage) there are sixteen to ten places (स्थान) (successively) decreasing by one. (There are respectively) ten, nine, and nine in (the next three stages of) Slightest (delusion) etc., and only seven in the Vibratory (omniscient).

Commentary.

It has been just shown that there are 57 sub-classes of inflow in detail. In the first stage, Wrong-belief, assimilative body, and mixed-assimilative-body vibration, are not possible, and only 55 remain. In the second stage, five kinds of wrong-belief do not exist, so only 50 are possible. It should be noted that the Assimilative two are found in the sixth stage only. In the third stage, physical-mixed, fluid mixed, and Karmic vibrations are not possible, because nobody dies in this stage; and further, because there is no undevelopable condition on birth in a new condition of Existence. There is no Operation of the four Error-feeding passions either. Thus deducting 7 from 50, we have here only 43 sub-causes of inflow. In the 4th, Vowless stage, Physical-mixed, Fluid-mixed, and Karmic vibrations are possible, so adding 3 to 43, we have 46 causes of inflow. In the fifth stage, Partial vow, there are not the above-said three vibrations, nor Fluid-body vibration, non-control towards killing mobiles, nor the four Partial-vow-prevening passions, because this stage is possible only in rational sub-humans and humans, after they have acquired the age of 8 years; then there are (46-9) 37 causes of inflow.

In the sixth stage, Imperfect vow, there are not the remaining 11 kinds of Vowlessness, nor the four-total-vow-preventing passions, but the Assimilative two are possible; so deducting 15 and adding 2 to 37, we have 24 causes of Inflow. There are only 22 causes in the 7th and 8th stages of Perfect vow and New-thought-activity, deducting the assimilative two from 24.

During the 9th stage of Advanced-thought-activity, where 6 minor passions, laughter etc., are non-operative, only 16 causes are found; when common sex is removed, 15 are possible; on removal of feminine inclination, only 14; on removal of male sex, only 12; on removal of anger, only 12; on removal of pride only 11; and on removal of deceit only 10, are found. In the 10th stage, Slightest delusion, there are the same ten, but there is Greed of the very Slightest kind. On removal of greed there are only 9 causes in the 11th and 12th stages of Subsided delusion and Delusionless. In the 13th stage of Vibrating omniscient, False and Mixed, Mind and Speech Vibrations are removed, but Physical-mixed and Karmic vibrations are added owing to Omniscient overflow; thus there are $(9 - 4 + 2)$ seven causes of inflow *i. e.*, True and Neutral, Mind and Speech Vibrations, Physical body and Mixed and Karmic vibrations. There are no causes of any inflow in the 14th stage of Non-vibrating omniscients.

The three states of inflow *i. e.*, non-inflow, inflow, and cessation of flow during 13 spiritual stages are shown in the Chart below : —

Commentary.

The 57 sub-causes of inflow are now discussed with reference to various souls having inflow at various moments; viz. how many causes of inflow are possible in a soul at a particular instant, with how many variations; how those variations can be grouped together; how are they to be mentioned, and in how many combinations they are formed in each spiritual stage.

792. (The Minimum, Medium and Maximum sub-causes of inflow in a soul in the thirteen spiritual stages) should be known to be from ten to eighteen (in the 1st), ten to seventeen (in the 2nd), nine to sixteen in the (next) two, eight to fourteen (in the 5th), five to seven in the (next) three, two and three (in the 9th), two (in the 10th), one (in) (each of the remaining three stages).

Commentary.

This verse gives the number of places of causes of inflow in the 18 stages.

(1) A soul in the 1st stage, the Wrong belief, can have a minimum place of 10 sub-causes of inflow at a particular time out of 55 total sub-causes, 7 Medium places of 11, 12, 13, 14, 15, 16, and 17, and the maximum place of 18 sub-causes. Thus a soul cannot

have more than 18 sub-causes at a particular instant. The total number of places will be 9 in this stage.

(2) A soul in the Downfall stage will have 8 places, a minimum of 10, a maximum of 17, and 6 Medium place of 11, 12, 13, 14, 15, and 16 sub-causes.

(3 & 4). A soul in each of Mixed and Vowless stages can have 8 places of causes varying from 9 to 16.

(5) A soul in the 5th stage will have 7 places of causes from 8 to 14.

(6), (7) & (8) a soul in each of the 6th, 7th and 8th stages will have 3 places from 5 to 7.

(9) A soul in the 9th stage will have only 2 places of 2 and 3.

(10) A soul in 10th stage will have only one place of 2, and

(11), (12) & (13) a soul in each of 11th, 12th and 13th stages will have only one place of one cause of inflow at a time.

The Chart below shows the Different Minimum, Medium & Maximum places of causes of Inflow in the 13 stages.

793. Variations of Places in Wrong belief (stage are) one, three and five from the Minimum (to two places onwards) and also from Maximum (to two places backward); and (each of) the Medium has six (variations). In the other (stages) till the thirteenth, (there are) one and two (i.e., during 4 stages from Minimum onwards, and also from Maximum backward, but each of the Medium has 3 variations; and all the places of the remaining stages have each one variation only.)

Commentary.

I.—There are 9 places in the 1st stage, out of which the places of 10, 11, and 12 have 1, 3, 5 variations, and those of 16, 17, and 18 have respectively 5, 3, and 1, while the Medium places of 13, 14 and 15 have each 6 variations.

II.—There are 8 places in the 2nd stage. Places of 10, 11 have, respectively, 1 and 2, and those of 16 and 17 have respectively 2 and 1, while medium places of 12, 13, 14, and 15, have each 3 variations.

III and IV.—There are 8 places in each of the 3rd and 4th stages. Places of 9, 10 have respectively, 1 and 2, and those of 15, 16 have respectively 2 and 1, and the Medium places of 11, 12, 13 and 14 have each 3 variations.

IV.—There are 7 places in the 5th stage. The places of 8 and 9 have respectively 1 and 2, and those of 13, and 14 have respectively 2 and 1, while Medium places of 10, 11, and 12 have 3 variations.

All the 3, 3, 3, 2, 1, 1, 1 and 1 places of stages from 6th to 13th have each only one variation.

794. Generally, (there are) three groups in Wrong-belief, the first without the pair of fear (and disgust); the second, with any of the two, and the third, with both of them; also three (groups) without Error.(feeding passions).

Commentary.

Any thought-activity causing Inflow of Karmic matter in the Wrong-belief, stage, at a particular time, is composed of one of the

five kinds of Wrong-belief, of non-control of one of the five senses or of the mind, because only one of these six can act at a time. As injury is possible to any one, or more of the six Embodiments (5 immobiles and 1 mobile), at any one moment, one of these six variations is to be included in one particular thought activity. Out of the 16 main classes of passions, only 4 *viz.* anger, pride, deceit and greed, of any one kind operate at a time, so 4 of them are to be taken at a time. As only one of three inclinations operates at a time, only one is included in the group. Each thought may have Operation of either of the pair of laughter and indulgence, or of the pair of ennui and sorrow; so one of the two in the two pairs is to be included. Any of the thirteen vibrations possible in Wrong-belief stages is to be included; because as a rule only one vibration can act at a particular instant. We may expand them all in group system, as below, to show different variations of places of Causes of Inflow. The first group will not include fear and disgust, the second will have one of them, and the third will have both of them.

1st Group (a).

Causes.	Their Expansion.											
5 Kinds of Wrong Belief.	1	1	1	1	1							
6 Senses.	1	1	1	1	1	1						
6 Kinds of embodiment.	1	2	3	4	5	6						
16 Passions.	4	4	4	4								
3 Sex Inclinations.	1	1	1									
2 Pairs of Laughter etc.	2	2										
13 Vibrations.	1	1	1	1	1	1	1	1	1	1	1	1

This is the first group without fear and disgust. It shows the various variations of the sub-causes of inflow. For instance:—

Inflow may be composed of 1 wrong belief + 1 sense + 1 possible injury to any one of the 6 embodiments + 4 passions + 1 Sex-inclination + 2 laughter and indulgence + 1 vibration. Thus it is composed of 11 sub-causes of Inflow. If there be injury to two or more embodiments, we shall have Inflow of 12, 13, 14, 15 or 16 sub-causes. Thus this group shows six Places of inflow i.e., of 11, 12, 13, 14, 15 and 16. Similarly the other 2 groups are to be shown thus :

2nd Group (a).

Causes.	Their Expansion.											
5 Kinds of Wrong Belief.	1	1	1	1	1							
6 Senses.	1	1	1	1	1	1						
6 Kinds of embodiments.	1	2	3	4	5	6						
16 Passions.	4	4	4	4								
3 Sex Inclinations.	1	1	1									
2 Pairs of Laughter etc.	2	2										
13 Vibrations.	1	1	1	1	1	1	1	1	1	1	1	1
Fear or Disgust.	1	1										

This group shows places of 12, 13, 14, 15, 16, & 17 sub-causes of inflow.

3rd Group (a).

Causes.	Their Expansion.											
5 Kinds of Wrong-Belief.	1	1	1	1	1							
6 Senses.	1	1	1	1	1	1						
6 Kinds of embodiment.	1	2	3	4	5	6						
16 Passions.	4	4	4	4								
3 Sex Inclinations.	1	1	1									
2 Pairs of Laughter etc.	2	2										
13 Vibrations.	1	1	1	1	1	1	1	1	1	1	1	1
Both Fear & Digust.	2											

This group will show places of 13, 14, 15, 16, 17, and 18 sub-causes of inflow.

Similarly there will be 3 groups, without the Operation of Error-feeding passions, and omitting Physical-mixed, Fluid mixed and Karmic vibrations; because a soul in developable condition which has already transformed Error-feeding passions into lesser passions, in any

stage from 4th to 7th, coming down to the 1st, the stage of Wrong belief, cannot have Operation of Error-feeding passions, and because undevelopable condition is not possible to such a soul, and therefore those 3 vibrations are also not to be included. We may show the three groups as below:

1st Group (b).

Causes.	Their Expansion.									
5 Kinds of Wrong-belief.	1	1	1	1	1					
6 Senses.	1	1	1	1	1	1				
6 Embodiments.	1	2	3	4	5	6				
12 Passions.	3	3	3	3						
3 Inclinations.	1	1	1							
2 Pairs of Laughter etc.	2	2								
10 Vibrations.	1	1	1	1	1	1	1	1	1	1

This group will show places of 10, 11, 12, 13, 14, and 15, sub-causes of inflow.

2nd Group (b).

Causes.	Their Expansion.									
5 Wrong-Belief.	1	1	1	1	1					
6 Senses.	1	1	1	1	1	1				
6 Embodiments.	1	2	3	4	5	6				
12 Passions.	3	3	3	3						
3 Inclinations.	1	1	1							
2 Pairs of Laughter.	2	2								
10 Vibrations.	1	1	1	1	1	1	1	1	1	1
Fear or Disgust.	1	1								

This group will show places of 11, 12, 13, 14, 15, and 16 sub-causes of inflow.

3rd Group (b).

Causes	Their Expansion.					
5 Wrong-belief.	1	1	1	1	1	
6 Senses.	1	1	1	1	1	1
6 Embodiments.	1	2	3	4	5	6
12 Passions.	3	3	3	3		
3 Inclinations.	1	1	1			
2 Pairs of Laughter.	2	2				
10 Vibrations.	1	1	1	1	1	1
Fear & Disgust.	2					

This group will show places of 12, 13, 14, 15, 16, and 17 sub-causes of inflow. The six groups have thus places as detailed below:—

- I. 11, 12, 13, 14, 15, 16.
- II. 12, 13, 14, 15, 16, 17.
- III. 13, 14, 15, 16, 17, 18.
- IV. 10, 11, 12, 13, 14, 15.
- V. 11, 12, 13, 14, 15, 16.
- VI. 12, 13, 14, 15, 16, 17.

Thus we have 1 variation of 10, 3 of 11, 5 of 12, 6 of 13, 6 of 14, 6 of 15, 5 of 16, 3 of 17 and 1 of 18, as has been shown in the chart to Gatha 793.

(2) Similarly in the Downfall stage we may form groups as follows.

In this stage, Wrong-belief is absent.

Group 1 of Stage II.

Causes.	Their Expansion.					
6 Senses.	1	1	1	1	1	1
6 Embodiments.	1	2	3	4	5	6

3 Inclinations.	1	1	1									
2 Pairs of Laughter etc.	2	2										
13 Vibrations.	1	1	1	1	1	1	1	1	1	1	1	1

This group shows places of 12, 13, 14, 15, 16, and 17.

Thus group No. 1 has places of 10, 11, 12, 13, 14, 15.

795. Taking one (out) of (five kinds of) Wrong belief, with one (of the 6) senses, together with (injury to) one (or more of the) embodiments, then with one of (the four) passions, and one of (the three) inclinations, with one of the two pairs (of laughter etc.,) and one of the vibrations without fear and disgust, with one of them, or with both of them, the combined inflow thought activity must be taken into account and described.

Commentary.

This verse describes the manner in which an Inflow of thought-activity found at one instant, in the wrong belief stage, can be taken into consideration and described. Referring to the already-mentioned 6 groups of the Wrong belief stage, if we take the 1st group (b) without Operation of Error-feeding passions and go on counting separately, we shall have many combinations (Bhanga) of that particular Inflow of thought activity. To take up a place of 10. A thought Inflow may be composed of one-sided wrong belief, desire of sense of touch, hurt of earth embodiment, with Partial and Total-vow and Perfect-conduct-preventing i.e., 3 sorts of anger, with common-inclination, and pair of laughter and indulgence, having true mind vibration, without fear and disgust. It means that a soul in wrong belief stage having true mind, with common inclination, indulging in laughter, and indulgence, wishes to touch a person or thing, but fail-

ing to obtain such an opportunity, becomes agitated with anger, and is engaged in hurling a clod of earth with his hand, or in stamping the earth with his foot. This sort of thought inflow will be composed of 10 sub-causes. The same soul may engage itself in hurting water, fire, air, or a vegetable or a mobile soul. Thus there will be six combinations of thought-inflow of 10 sub-causes with reference to change of 6 embodiments separately. If the same soul is engaged in hurting any two of these six embodiments, there will be 15 combinations. These 15 combinations are with reference to the place of 11 sub-causes, viz (1) earth and water (2) earth and fire (3) earth and air (4) earth and vegetable (5) earth and mobile (6) water and fire (7) water and air (8) water and vegetable (9) water and mobile (10) fire and air (11) fire and vegetable (12) fire and mobile (13) air and vegetable (14) air and mobile (15) vegetable and mobile. If the same soul is engaged in hurting 3 out of 6 embodiments, there will be 20 combinations, with reference to place of 12 sub-causes as follows:—

(1) earth, water and fire (2) earth, water and air (3) earth, water and vegetable (4) earth, water and mobile (5) earth, fire and air (6) earth, fire and vegetable (7) earth, fire and mobile (8) earth, air and vegetable (9) earth, air and mobile (10) earth, vegetable and mobile (11) water, fire and air (12) water, fire and vegetable (13) water, fire and mobile (14) water, air and vegetable, (15) water, air and mobile (16) water, vegetable and mobile (17) fire, air and vegetable (18) fire, air and mobile (19) fire, vegetable and mobile (20) air, vegetable and mobile. If the same soul is engaged in hurting 4 out of the 6 embodiments at a time, there will be 15 combinations, with reference to place of 13 sub-causes as follows.

(1) earth, water, fire and air, (2) earth, water, air and vegetable (3) earth, water, vegetable and mobile (4) earth, fire air and vegetable, (5) earth, fire, vegetable and mobile (6) earth, air, vegetable and mobile (7) earth, fire, air and mobile (8) earth, water, fire and vegetable (9) earth, water, fire and mobile (10) earth, water, air and mobile (11) water, fire, air and vegetable (12) water, fire, air and mobile (13) water, air, vegetable and mobile (14), fire, air, vegetable and mobile (15) water, fire, vegetable and mobile.

If the same soul hurts 5 out of the six Embodiments at a time, there will be 6 combinations with reference to a place of 14 sub-causes, as below:—

(1) earth, water, fire, air and vegetable, (2) earth, water, fire, vegetable and mobile (3) earth, water, air, vegetable and mobile

(4) earth, fire, air, vegetable and mobile, (5) earth, water, fire, air and mobile (6) water, fire, air, vegetable and mobile. If the same soul hurts all the 6 embodiments, at a time, there will be only one combination with reference to a place of 15 sub-causes.

A soul in such a one-sided wrong belief stage while causing injury to one, two, three, four, five or 6 embodiments at a time will have:—

6 combinations when causing injury to one Embodiment.

68.	Combinations in all.				

In view of the five kinds of wrong-belief, we shall have $68 \times 5 = 340$ combinations. All these are due to the touch-sense. In respect of all the 5 senses and the mind we shall have $340 \times 6 = 2040$ combinations. Considering all the four passions, we will have $2040 \times 4 = 8160$ combinations. Having regard to all three-sex-inclinations, we shall have $8160 \times 3 = 24480$ combinations. Having in view the pair of laughter and sorrow, and indulgence and ennui, we shall have $24480 \times 2 = 48960$ combinations. Taking into consideration all the 10 vibrations possible here, we shall have $48960 \times 10 = 4,89,600$ combinations, when there is no operation of fear or disgust. In this way we can calculate other combinations of the other groups also.

796. (There are) seventy-two hundred, and ninety-three hundred and sixty, permanent (combinations, respectively) in the group of wrong belief (stage) without error-feeding passion, or) with it, and (there are) impermanent (combinations also) with reference to the two, fear (and disgust etc).

Commentary.

Combinations of those sub-causes which are always counted are known as permanent, and the others are called impermanent.

We shall here below represent:—

Wrong-Belief by	W. B.	Fear	by	F.
Senses „	S.	Disgust	„	D.
Passions „	P.	Vibrations	„	V.
Sex-Inclination „	S. I.			

Pairs of Laughter-sorrow, and Indulgence-Ennnui by **Pro.**

I. In group of Wrong-belief, without error-feeding passions, the permanent combinations will come to 5 Wrong-belief \times 6 Senses \times 4 passions \times 3 Sex-inclinations \times 2 pairs of Laughter-Sorrow and Indulgence-Ennnui \times 10 Vibrations = 7200.

In its group with error-feeding passions there will be 5 wrong belief \times 6 Senses \times 4 Passions 3 Sex-inclinations \times 2 Pairs as above \times 13 vibrations = 9360 combinations. Adding them both we have 16560 permanent combinations. Each of them will be of 4 kinds (1) without Fear and Disgust, (2) and (3) with Fear or Disgust, and (4) with Fear and Disgust. With reference to the 6 embodiments each such combination will make up 63 combinations in different ways. Thus multiplying 16560 combinations with 4 and 63 we have 41,73, 120 combinations in Wrong belief stage.

II. Taking groups of the Downfall stage we have 6 S. \times 4 P. \times 3 S. I. \times the 2 Pairs \times 12 V. (omitting Fluid-mixed vibration) = 1728 permanent combinations. Adding 6 S. \times 4 P. \times 2 S. I. (without common sex) \times 2 Pairs \times 1 Fluid-mixed-vibration = 96, we have 1824 permanent combinations, in all Multiplying 1824 with 4×63 impermanent combinations as above, we have 4,59,648 combinations in the Downfall stage.

III. In the Mixed stage, we have 6 S. \times 4 P. \times 3 S. I. \times 2 Pairs \times 10 V = 1440 Permanent combinations. Multiplying 1440 with 4×63 we have 3,62,880 combinations in Mixed stage.

IV. In the Vowless stage, we have 6 S \times 4 P \times 3 S. I. \times 2 Pairs \times 10 V (leaving Fluid-mixed, physical mixed, and karmic) vibrations = 1440. With reference to Karmic, and Fluid-mixed, as there is no female inclination, we will have 6 S \times 4 P \times 2 S. I. \times 2 Pairs \times 2 V = 192; and with reference to Physical and Mixed as there is only one male inclination, we will have 6 S \times 4 P \times 1 S. I. \times 2 Pairs \times 1 V = 48. Thus total permanent combinations are 1440 + 192 + 48 = 1680. Multiplying 1680 with 4×63 , as above, there are 4,28,860 combinations in the Vowless stage.

V. In Partial-vow stage we have 6 S \times 4 P \times 3 S. I. \times 2 Pairs \times 2 V = 1296 permanent combinations. Multiplying 1296 with 4 and 63

instead of 63 (as there is no injury to mobile, 32 combinations are not possible), we have 1,60,704 combinations.

VI. In Imperfect-vow stage we have $4 P \times 3 S. I. \times 2 \text{ Pairs} \times 9 V = 216$. With reference to assimilative vibrations we have $4 P \times 1 \text{ male inclination} \times 2 \text{ Pairs} \times 2 V = 16$. Thus we have $216 + 16 = 232$ permanent combinations. As there is no injury to any embodiment, we have to multiply with 4 fear etc., thus there are 928 combinations in the sixth stage.

VII. In Perfect-vow stage there are $4 P \times 3 S. I. \times 2 \text{ Prs.} \times 9 V = 216$ permanent combinations. Multiplying 216 with 4 impermanent combinations, we have 864 combinations in the 7th stage.

VIII. There are the same 864 combinations in the New Thought activity stage as in the 7th.

IX. There are no impermanent combinations in this the Advanced thought activity stage, and hereafter.

The Permanent combinations are:—

$$\begin{array}{rcl}
 4 P \times 3. S. I. \times 9 V & = & 108 \\
 4 P \times 2. S. I. \times 9 V & = & 72 \\
 4 P \times 1. S. I. \times 9 V & = & 36 \\
 3 P \times 1. S. I. \times 9 V & = & 27 \\
 2 P \times 1. S. I. \times 9 V & = & 18 \\
 1 P \times 1. S. I. \times 9 V & = & 9 \\
 \text{Altogether} & & 270
 \end{array}$$

In the Sanskrit Commentary, 36 Combinations of group No. 3 ($4 P \times 1. S. I. \times 9 V$) are not counted. If we include them also, the total combinations will be $270 + 36 = 306$.

X. In the Slightest-delusion stage there are $1 P \times 9 V = 9$ permanent combinations.

XI. In the Subsided delusion, there are only 9 combinations.

XII. In the Delusionless stage, there are the same 9 combinations.

XIII. In the Vibratory omniscient stage, there are 7 combinations.

797-798. Permanent multiplying combinations (*Dhruva Gund-Kāra-Bhanga*), (from Downfall stage) to the New-thought-activity (stage are) respectively 1824, 1440, 1680, 1296, 232, 216, and 216. (They) being multiplied by impermanent ones (make up the total number of) combinations (till the 8th stage). (There are only) permanent combinations further on, without any other combinations.

Commentary.

As stated in verse 796, all the combinations in the 13 stages are as follows:—

Stages.	Permanent Combinations.	Impermanent Combinations.	Total Combinations.
I	16560 ×	4 × 63	41,73,120

Total Inflow Combinations in the 13 stages.			55,82,672

We shall find in the above the description, the numerous thought-activities which cause Inflow of new Karmic matter and its Bondage. If we take into account strongest, stronger, and strong, or mildest, milder and mild degrees of fruition of passions, and minor passions, and also the different kinds of swit and weak vibrations etc., the number of thought-activities causing inflow will be a very large one indeed.

799. Combined multiplicants for wrong-belief (etc.,) four (stages), and for the Partial vow (stage) can be obtained by (spread- ing) six, five etc., (embodiments) till one, and then dividing them respectively by one, (two) etc., after multiplying (each to each.)

Commentary.

As has been stated in explanation to verse 795, there are 63 combinations with reference to injury to any one or more of the 6 embodiments till the 4th stage; and only 31 embodiment combinations in Partial vow stage as said in explanation to verse 796. This verse 799 describes the process of finding out the combined combinations. There are six embodiments, so they must be spread out and 1, 2, 3, 4, 5, 6, be gradually written below them. ($\frac{6}{1} \frac{5}{2} \frac{4}{3} \frac{3}{4} \frac{2}{5} \frac{1}{6}$)

The Combinations in case of injury to one of the 6 embodiments are $\frac{6}{1} = 6$.

The Combinations in case of injury to two of the 6 embodiments are $\frac{6 \times 5}{1 \times 2} = 15$.

The Combinations in case of injury to three of the 6 embodiments are $\frac{6 \times 5 \times 4}{1 \times 2 \times 3} = 20$.

The Combinations in case of injury to four of the 6 embodiments are $\frac{6 \times 5 \times 4 \times 3}{1 \times 2 \times 3 \times 4} = 15$.

The Combinations in case of injury to five of the 6 embodiments are $\frac{6 \times 5 \times 4 \times 3 \times 2}{1 \times 2 \times 3 \times 4 \times 5} = 6$.

This Combinations in case of injury to six of the 6 embodiments are $\frac{6 \times 5 \times 4 \times 3 \times 2 \times 1}{1 \times 2 \times 3 \times 4 \times 5 \times 6} = 1$.

Thus the total number of combinations in case of injury to one or more of the 6 embodiments are $6 + 15 + 20 + 15 + 6 + 1 = 63$. They are possible from 1st to the 4th stage.

As to the 5th stage, leaving mobiles, we have 31 as follows :—

$$\frac{5}{1} + \frac{5 \times 4}{1 \times 1} + \frac{5 \times 4 \times 3}{1 \times 2 \times 3} + \frac{5 \times 4 \times 3 \times 2}{1 \times 2 \times 3 \times 4} + \frac{5 \times 4 \times 3 \times 2 \times 1}{1 \times 2 \times 3 \times 4 \times 5} \\ = 5 + 10 + 10 + 5 + 1 = 31.$$

Commentary.

In order that the student may know clearly what are the main thought-activities which cause bondage of a particular Karma strongly, the author has taken up a discussion of the causes of bondage of the main Karmas. Although every moment, seven or eight classes of Karmas are bound in every soul, influenced by Passion, yet special causes produce an intensity in a particular Karma.

Knowledge-obscuring and Conation-obscuring Karmas are bound together through similar causes, which are discussed below in some detail.

(1) Indiscipline, not paying respect to the learned teachers, the true scriptures and their teachings.

(2) Causing hindrance to acquisition of knowledge by one-self or others, through various vicious ways.

(3) Contradicting true knowledge, by wrong and faulty argument.

(4) Showing displeasure on hearing of the true way to liberation, or feeling jealous of one who has rightly shown the path.

(5) Concealing ones knowledge, with the object that no one may be able to learn thereby.

(6) Not allowing other learned men to express the truth.

These and other such causes produce Bondage of and Intensity in both the Obscuring Karmas.

Commentary.

Jain Tirthankaras have preached that devotion to Arhat and Siddha, worship of images, in contemplative peaceful attitude, adoption of austerities, careful reading of the Jaina Scriptures, respect to the Jaina Preceptor Saint, following Jaina Doctrine, and veneration of a party of Saints, help in the acquisition of and adherence to the three gems-Right faith, Right knowledge, and Right conduct. One who shows disregard, apathy, or aversion to them is possessed of perverse knowledge and faith; and will bind Right-faith-obscuring Karma with strong fruition, which would result in interminable mundane wanderings.

CHAPTER VII. THOUGHT ACTIVITIES.

The chief attribute of the Soul which distinguishes it from non-Soul is consciousness, an active state of knowledge. This knowledge, this consciousness, this thought-activity, reaches its fulness when a soul attains absolute purity, gets rid of all contact with matter. Then its thought-activity, its active condition of living, its *Is-ness*, consists in a quaternary of Infinities—Darshan, Jnana, Sukha, Veerya, and in its attribute of Soulness, Living Consciousness. Before attaining that sublime state, the thought-activities are influenced by ever varying numerous causes, conditions and circumstances in the form of Karmas. These are dealt with in their innumerable conditions, permutations and combinations in this chapter.

811. After bowing to Gommata Jinendra Chandra, I shall describe the appendix on thought-activities, which is a part of the contents of Gommatsara, and which comprises a description of proper topics.

812. Such thought-activities as have arisen, owing to the subsidence, etc. (of Karmas), (and) by which souls are distinguished (from one another), have been said by the all-seeing to be thought-attribute (*Bhāvaguna*).

औपशमिकः क्षायिको मिश्र औदयिकः पारिणामिको भावः ।
भेदा द्विकं नव ततो द्विगुणमेकविंशतिः त्रयः क्रमशः ॥८१३॥

813. The thoughtactivities (are five), Subsidential (*Aupashamika*), Destructive (*Kshâyika*), Mixed, (*Mishra* or *Kshayopashamika*, destructive subsidential), Operative (*Audayika*), and Natural (*Pârinâmika*). (They) are sub-divided respectively, into two, nine, double of that (18), twenty-one and three.

Commentary.

Where there is no operation, but there is subsidence or dormant state of a particular Karma, the resulting thought-activity is called subsidential. The Karma is not in action, but it is in existence. It has subsided. To take an illustration. So long as chalk is held in suspension in its solution with water, the water is cloudy and opaque. The chalk has by its action, by its operation, affected the natural purity and transparency of water, and the water is called a solution. When the chalk settles down, the water regains its purity and transparency; but this condition is liable to be changed again, by a shaking. If however the water is poured or drained off into another vessel, or if it is evaporated and condensed into another vessel, it regains its purity and transparency permanently. Similarly if the Karma held in subsidence is destroyed, the resulting thought-activity of the soul is called Destructive thought-activity.

When there is non-existence of the totally-destructive molecules of the four *Ghatiya* Karmas, when the *Mohaniya* Karma in existence is held in subsidence, and the partially-destructive molecules of the other *Ghatiya* Karmas are in operation, the resulting thought-activity is called Mixed or Destructive-subsidential, *Mishra* or *Kshayopashamika*.

When a Karma is in operation or in effect, the thought-activity is "Operative". The natural thought-activity is that which exists permanently with the soul in all conditions and circumstances.

It may well be noted that it is only Karmas of the *Mohaniya* group which subside, are held in subsidence, and with reference to which the term subsidential thought-activity is used. Karmas of other groups are either destroyed or are operative. Destructive-subsidence

occurs only in respect of the four *Desha-Ghatiya*, the partially-destructive Karmas.

कम्मुवसमम्मि उवसमभावो खीणम्मि खइयभावो दु ।

 कर्मोपशमे उपशमभावः क्षीणे क्षायिकभावस्तु ।
 उदयो जीवस्य गुणः क्षायोपशमिको भवेत् भावः ॥८१४॥

814. Subsidential-thought-activity (results) from the subsidence of Karmas; Destructive thought-activity, by their destruction. Destructive-subsidential thought-activity exists when there is (manifestation of the) attributes of the soul, as well as the operation (of Karmas).

कम्मुदयजकम्मिगुणो ओदयियो तत्थ होदि भावो दु ।

 कर्मोदयजकर्मिगुण औदयिकस्तत्र भवति भावस्तु ।
 कारणनिरपेक्षभवः स्वाभाविको भवति परिणामः ॥८१५॥

815. When the attributes of a mundane soul are affected by the operation of Karmas, the thought-activity is (called) Operative. The inherent thought-nature is (called) Natural, when it is not affected by any cause, (Subsidence, Destruction, Destruction-subsidence or Operation of Karmas).

उवसमभावो उवसमसम्मं चरणं च तारिसं खइओ ।

 उपशमभाव उपशमसम्यक्त्वं चरणं च तादृशः क्षायिकः ।
 क्षायिकं ज्ञानं दर्शनं सम्यक्त्वं चारित्र्यं च दानादयः ॥८१६॥

816. Subsidential thought-activity (is of two kinds), Subsidential-Right-Belief, and (Subsidential) Right-Conduct. Similarly Destructive (is of 9 kinds), Destructive-knowledge, Destructive-conation, Right-belief, (Right) Conduct, and Charity etc., (i. e., charity, acquisition, enjoyment, re-enjoyment, and power).

Commentary.

Right-belief and Right-conduct resulting from the subsidence of Right-belief-preventing and Right conduct-preventing Karmas of the Mohiniya (deluding) Karmas group are called subsidential and the resulting thought-activity of the soul is also termed subsidential; and that resulting from their destruction is called Destructive-thought-activity. The latter is of seven other descriptions with reference to Conation, Knowledge, Charity, Acquisition, Enjoyment, Re-enjoyment and Power. This latter thought-activity begins at the eighth spiritual stage, and continues till liberation. Destructive-knowledge, preceded by Destructive-conation is omniscience resulting from the destruction of knowledge-obscuring Karma. Let us discuss in some detail the Charity and the other four Acquisitions of the Destructive kind. The charity by an omniscient is the spontaneous, effortless gift of peace and knowledge to all that lives. The Acquisition is the assimilation of infinitely auspicious Karmic molecules which keep up the physical body of the omniscient without any gross nourishment. The enjoyment is that of celestial-flower-showers, celestial-music and other miraculous paraphernalia in Samavasarana. The re-enjoyment is of the throne, the umbrella etc., provided by the celestials. Power is the infinite Might possessed by the Omniscient. These are called the five *Labdhies* (Acquisitions):—**चायिक, दान, लाभ, भोग, उपभोग, वार्य**

चायोपशमिकभावः चतुर्ज्ञानं त्रिदर्शनं त्र्यज्ञानम् ।

817. Destructive-subsidential thought-activity (is of 18 kinds)—Right-knowledge of four (descriptions, sensitive, scriptural, visual, mental), three (kinds of) conation (ocular, non-ocular, visual), Wrong knowledge of three (descriptions, sensitive, scriptural, visual), (the group of) five, charity etc., (as above), Destructive-subsidential-right belief, (right) Conduct (affected) with attachment, and Partial control.

818. Operative thought-activities are twenty-one, (having regard to), the (four) conditions of existence, (the three) sex-inclinations, (the four) passions, wrong-belief, (the six) thought-paints, non-liberatedness, non-control and ignorance.

819. Natural thought-activities are soulness, liberableness, and non-liberableness. These (53 are) the sub-divisions of the thought-activities. Note that these sub-divisions are many with reference to their combinations.

820. We have fixed the possible thought-activities and their sub-divisions in the stages and soul quests. (There are) again (Divisions and) combinations (called) Pratyeka, Para-samyoga and Sva-Samyoga.

Commentary.

The five thought-activities and their 53 sub-divisions may form combinations, Bhangas, in three ways, Pratyeka, Para-Samyoga and Sva-Samyoga.

Separate consideration of the thought-activities and of the groups of sub-divisions, at a time, is called Pratyeka. Para-Samyoga sam-

bination means the combination of a sub-division of one kind of thought with another of a different kind of thought at an instant *e.g.*, the simultaneous existence of sub-divisions of operative and subsidential kinds. Sva-Samyoga combinations occur where sub-divisions of one kind of thought exist, along with other sub-divisions of the same thought, at an instant, *e.g.* one kind of operative thought existing along with another kind of operative thought.

Let us first discuss the five thought-activities occurring in the 14 Spiritual stages.

The first three stages have only 3, the Operative, the Destructive-subsidential and the Natural. The next 8 stages from the 4th to 11th have all the five thoughts. The 12th stage has only 4, leaving out the Subsidential. The 13th and 14th stages have 3, the Operative, the Destructive and the Natural. The liberated souls have 2, Destructive and Natural.

To discuss the existence of the 53 sub-divisions in the 14 Spiritual stages.

I. Wrong-belief Stage. All the 21 Operative thought-activities, 10 out of the 18 Destructive-subsidential, *i. e.*, 3 kinds of Wrong knowledge, the two conations, ocular and non-ocular, and five acquisitions, charity etc., and the 3 kinds of Natural thought-activities. Thus 34 out of 53 may be found in this stage.

II. Downfall Stage. The 20 Operative ones, *viz.*, all except Wrong-belief, the 10 Destructive-subsidential, as in the first stage, and the 2 Natural, liberableness and soulness may exist here. Non-liberableness does not exist beyond the wrong belief stage. The total is 32.

III. Mixed Stage. 20 Operative, as in the 2nd, 11 Destructive-subsidential *i. e.*, 3 kinds of knowledge, 3 conations and 5 acquisitions; and the two natural, as in the 2nd. 33 in all are possible.

IV. Vowless Stage. 20 Operative as in the 2nd; 12 Destructive-subsidential, the above 11 and Right-belief; Subsidential-right-belief, Destructive-right-belief and 2 natural as in the 2nd. 36 in all.

V. Partial Vow Stage. 14 Operative *i. e.*, human and sub-human condition, four passions, 3 sex-inclinations, 3 good thought-paints, non-liberatedness, ignorance; 13 Destructive-subsidential *i. e.*, 12 as above

and Partial-control; Subsidential-right-belief, Destructive-right- belief and the 2 Natural. 31 in all.

VI & VII. Imperfect and Perfect Vow Stage. Of the 31 enumerated in the 5th stage, deduct sub-human condition and Partial control, and add Mental knowledge and Destructive-subsidential conduct. Thus 31 in all.

VIII & IX. New and advanced-thought-activity Stages. Of the 31 in stage, V, deduct yellow and pink thought-paint, Destructive-subsidential-right-belief, and right-conduct; and add Subsidential-conduct and Destructive conduct. Thus there are 29 in all.

X. Slightest delusion. Of the above 29, deduct 3 passions, anger, pride and deceit, and 3 sex-inclinations. Thus 23 in all.

XI. Subsided Delusion. Deduct greed and Destructive-conduct from the above 23. Thus there are 21 in all.

XII. Delusionness. From the above-said 21, deduct Subsidential-belief and Subsidential-conduct and add Destructive conduct. Thus 20 in all are possible.

XIII. Vibrating Omniscient. There exist only Operative-human condition, white-thought-paint and non-liberatedness; all the 9 Destructive and the 2 Natural. Thus there are 14.

XIV. Non-Vibrating Omniscient. Deduct white-paint from the above 14, and only 13 remain in this stage. In the liberated soul, there are the 4 Destructive, the quaternary of belief, knowledge, conation and power, and 1 natural *i.e.*, soulness. There are only 5.

The Chart below shows Existence of thought-activities during 14 stages.

Liberated Soul.	0	0	1	0	4	2	5

The above discussion is with reference to various souls at various times. The next question is how many thoughts may be found in a soul in one instant ?

During each of the first three stages, the 3 main thought activities are, Operative, Mixed and Natural. As regards Divisions, there will be 3, when they occur separately. When two occur together, the combinations will be 3 again, *v/z.*, (1) Operative-mixed (2) Operative-Natural (3) Mixed-Natural. There will be only one combination when the three exist simultaneously. These are called Para-Samyoga combinations. The Sva-Samyoga combinations will be 3, Operative-operative, Mixed mixed, Natural-natural. There are thus 10 combinations, altogether, in each of the first 3 stages.

Stages from 4th to 7th, have all the 5 thought-activities. Applying the rule laid down in Varse 799, the number of combinations when each occur separately is 5. When 2 occur at a time they will be $5 \times 4 \div 1 \times 2 = 10$. Deducting the impossible Subsidential-destructive-combination of two, only 9 are possible.

When 3 occur at a time, they will be $5 \times 4 \times 3 \div 1 \times 2 \times 3 = 18$ (1) Subsidential-destructive-operative (2) Subsidential-destructive-mixed (3) Subsidential-destructive-natural, cannot however co-exist here. 7 only are therefore possible.

When 4 exist simultaneously, they will be $5 \times 4 \times 3 \times 2 \div 1 \times 2 \times 3 \times 4 = 6$. Subsidential-destructive-operative-mixed, subsidential-destructive-mixed-natural, subsidential-destructive-operative-natural, cannot exist at one time. Only 2 are therefore possible.

The Sva-Samyoga combinations will be 3:

Mixed-mixed, Operative-operative, Natural-natural. Subsidential-belief and subsidential-belief, or destructive-belief and destructive-belief, are identical, with each other, and hence left out of calculation, do not exist together. In the four stages from 4th to 7th, thus, there are $5 + 9 + 7 + 2 + 3 = 26$ combinations, possible.

During 4 stages of Subsidential ladder, from the 8th to 11th, all the 5 main thought-activities are present.

Their combinations will be 5 Pratyeka, and $5 \times 4 \div 1 \times 2 + 5 \times 4 \times 3 \div 1 \times 2 \times 3 + 5 \times 4 \times 3 \times 2 \div 1 \times 2 \times 3 \times 4 + 5 \times 4 \times 3 \times 2 \times 1 \div 1 \times 2 \times 3 \times 4 \times 5 = 10 + 10 + 5 + 1 = 26$.
Para-Samyoga-Combinations.

The Sva-Samyoga combinations will be 4, i. e., Operative-operative, Subsidential-subsidential, Mixed-mixed, Natural-natural., Destructive-destructive is not possible, because only the destructive-belief exists here, and no other Destructive thought is possible. Thus there are altogether $5+26+4=35$ combinations in each of the stages of the Subsidential ladder.

During 4 Destructive-ladder of the 8th, 9th, 10th and 12th stages, only the 4 main thought-activities exist. The Subsidential does not. Their combinations are 4 Pratyeka, and $4 \times 3 \div 1 \times 2 + 4 \times 3 \times 2 \div 1 \times 2 \times 3 + 4 \times 3 \times 1 \div 1 \times 2 \times 3 \times 4 = 6 + 4 + 1 = 11$ Para-Samyoga.

The Sava-Samyoga combinations are 4 and the total $4+11+4=19$.

In the 13th and 14th stages operative, destructive and natural only exist. The Pratyeka Divisions are 3. Para-Samyoga combinations are $3 \times 2 \times 1 \div 1 \times 2 \times 3 + 3 \times 2 \div 1 \times 2 = 4$ Sva-Samyoga combinations are 3. Thus there are $3+4+3=10$ combinations, altogether, in each of these stages.

Liberated soul have 2, the Destructive and the Natural. Pratyeka are 2, Para-Samyoga 1, and Sava-Samyoga are 2; altogether 5 combinations.

There are, respectively, possible three, five, four, three and two, main thoughts in three (stages) from wrong belief, in three quaternaries (i. e., the 4 stages from the 4th, the 4 stages of the Subsidential ladder, and the 4 stages of the Destructive ladder), in the two (Vibratory and non-Vibratory) and in the liberated souls.

823. Combinations of sub-(thoughts are) of two kinds. Sthanagata, and Padagata. In the first, there is no Sav-Samyoga combination. This is the rule.

Commentary.

The simultaneous grouping of several thoughts in a soul is called Sthāna; and such a group is called sthanagata group. A group of those of one kind, is called Padagata.

Sub-thoughts are altogether 59. They have 2 kinds of combination. Sthānagata covers all the sub-thoughts which are possible in a soul in one instant. The other Padagata comprises sub-divisions of one kind found in a soul in one instant.

824. Groups of Mixed (thoughts), (are) three in (each) of the two, Wrong belief (and Downfall stages), two in (each of) the three, (Mixed, Vowless and Partial.Vow stages), and four in (each of) the seven, the Imperfect vow (etc.,). Operative (thought has only) one group in all (the 14 stages).

825. Obscuring (sub)-thoughts are five (in the first two), six (in the next three), and seven only (in the next seven stages); the five, charity etc., (in all stages from 1st to 12th). Destructive-sub-sidential Right belief (is found) in the four, Vowless (etc., stages) Partial control in the Partial-vow (stage).

826. Control-with-attachment (is found) in the Imperfect and in the other (Perfect-vow). The maximum groups (of Mixed sub-thoughts) in Wrong-belief etc., (12 stages, are thus composed of respectively 10, 10, 11, 12, 13, 14, 14, 12, 12, 12, 12 and 12 sub-thoughts). (There are three groups) in (each of) the two, wrong-belief (and downfall stages, groups of 10, and of 9) leaving out Wrong-visual-knowledge, (and of 8) leaving out ocular conation also.

827. (There are two groups) in each of the three Mixed (etc., stages) ; (the aforesaid group of 11) and there is the another group (of 9) leaving out the two visual (Knowledge and Conation) (the said group of 12 and another of 10 leaving the same two in the Vowless stage), (the said group of 13 and another of 11, leaving the same two in the Partial-vow-stage) Further on (there are) other (groups in each of the 6th and 7th stages, that of 14, that of 13) without Mental knowledge, (of 12) without the Visual pair and (of 11) without both (Mental knowledge and Visual pair). (Each of the stages 8 to 12 has 4 groups, those of 12, 11, 10 and 9 omitting the sub-thoughts just stated).

Commentary.

There are altogether 18 sub-thought activities of the Mixed main kind. The 3 kinds of wrong knowledge, and the 2 kinds of conation, ocular and non-ocular are found in the first two stages. 3 kinds of right knowledge, and 3 kinds of conation, ocular, non-ocular and visual are found in the 3rd, 4th and 5th stages. 4 kinds of right knowledge and the above 3 conations are found in stages from 6th to 12th. Destructive-subsidentia-right-belief is found in the 4th to 7th stages. Partial control is in the partial-vow-stage only. Control-with-attachment or Destructive-subsidentia-control exists in the 6th and 7th stages. There are no Mixed thoughts beyond the 12th.

To find out the total number of thoughts in each stage upto the 12th. We have maximum groups (Jyeshtha Sthāna) of 10 thoughts in each of the first 2 stages consisting of 3 kinds of wrong knowledge, 2 conations and the five, charity etc. As a soul in these two stages may not possess wrong-visual-knowledge or wrong-visual-knowledge and ocular conation, there will be 2 more groups, one of 9 and one of 8. Thus there are 3 groups of 10, 9 and 8, sub-thoughts in each of the first two stages.

The Mixed stage has a maximum group of 11, composed of 3 kinds of knowledge, 3 conations, and five charity etc. As visual knowledge and visual conation may not be found in all the souls, there will be another group of 9. Thus there are 2 groups of 11 and 9 in the 3rd stage.

The Vowless stage has a maximum group of 12, composed of 3 kinds of knowledge, 3 Conations, 1 Destructive-subsidential-right-belief and 5 Charity etc. As one may not have visual knowledge and visual conation, there will be another group of only 10. There are thus 2 groups of 12 and 10 in the 4th stage.

The Partial-vow-stage has a maximum group of 13, composed of the above-said 12, and of partial-control. As a soul may not have visual knowledge and visual conation, there will be another group of 11. Thus there are 2 groups of 13, 11 in the 5th stage.

The 6th and 7th stages have maximum groups of 14, composed of the aforesaid 13, and control-with-attachment. As a saint may not possess mental knowledge, or visual-conation and visual knowledge, or all the three, there will be other groups of 13, 12 and 11 also.

Each of the stages from 8th to 12th has a maximum group of 12, composed of 4 kinds of knowledge, 3 conations and 5, charity etc. As a saint may not have mental knowledge, or visual knowledge and conation, or all the three, there will be other groups of 11, 10, and 9 also. Thus there are 4 groups in each of the stages from 8th to 12th

The following table shows the number of groups of Mixed sub-thought activities during the first 12 stages. Here K=Knowledge; W. K.=Wrong Knowledge; C.=Conation; O. There are 21 sub-thoughts of the Operative kind. Let us consider how many of them can be found in a soul at a time during the 14 spiritual stages.

Stage I. Eight sub-thoughts are possible here, *viz.*, one of the four conditions of existence, one of the three inclinations one of the four passions, one of the six thought-paints, wrong-belief, non-liberatedness, ignorance and non-control.

II, III, IV. Here wrong-belief is not operative. Only 7 sub-thoughts are found.

V to IX. With sex-inclination. Only 6 sub-thoughts are possible. Non-control does not exist.

IX and X. In the 9th without sex-inclination and in the 10th there are 5 sub-thoughts. Sex-inclination has been got over.

XI & XII. There are no passions. Only 4 thoughts are possible *i. e.*, human condition, white thought-paint, non-liberatedness, ignorance.

XIII. Ignorance is removed, only 3 exist.

XIV. Thought paint is removed. Only 2 are possible, which are done away with, when liberatedness is acquired.

828. Possible (combinations of operative sub-thoughts are found) with reference to the four conditions of life, (respectively), twelve (in hellish), seventy-two (in sub-human), the same (in human), and forty-eight (in celestial) by multiplying (the possible) inclinations, passions and thought-paints.

Commentary.

Hellish beings have only the common-sex, 4 passions, and 8 bad-thoughts-paints. There are $1 \times 4 \times 8 = 32$ combinations. Sub-humans and humans have all the 8 sexes, 4 passions, and 8 thought-paints. There are $8 \times 4 \times 8 = 256$ combinations of these. The celestials have

male and female sex, 4 passions, and 6 thought-paints (including the 3 bad ones, which are possible in non-developable condition of the three, residential, peripetatics and stellars). There are $2 \times 4 \times 6 = 48$ combinations of these.

$12 + 72 + 72 + 48 = 204$ combinations are thus possible in each of the Wrong-belief and Downfall stages.

829. It should, however, be known that there are exceptions in the Mixed and Vowless stages, and in the celestials, on account of good thought-paints. Therefore only twenty-four combinations have been described there by (Mahavira) possessed of unassisted might.

Commentary.

During the 3rd and 4th stages also, as stated above, hellish beings have 12, sub-humans and humans, each, have 72 combinations. The celestials, however, have 2 sexes, $\times 4$ passions $\times 3$ good thought paints = 24 combinations only. The 3 Bad thought-paints do not operate there. There are $12 + 72 + 72 + 24 = 180$ combinations.

During the 5th stage, sub-humans and humans have, each, 3 sex-inclinations $\times 4$ passions $\times 3$ good thought paints = 36 combinations. There are $36 + 36 = 72$ combinations.

In the 6th and 7th stages, saints, have 3 sex-inclinations $\times 4$ passions $\times 3$ good thought paints = 36 combinations.

In the 8th and 9th stage with sex-inclinations, saints have 3 sex-inclinations $\times 4$ passions $\times 1$ white thought paint = 12 combinations.

In the 9th stage without sex-inclination, we have 4 passions $\times 1$ white thought paint = 4 combinations.

In the 9th, without anger, saints have 3 passions $\times 1$ white thought-paint = 3 combinations.

In the 9th, without anger and pride, there are 2 passions $\times 1$ white thought paint = 2 combinations.

In the 9th, without anger, pride and deceit; there is one passion and one white thought paint and therefore one combination

In the 10th there is the slightest greed and white thought paint and one combination.

In each of the 11th, 12th and 13th there is only one combination with reference to white thought paint.

In the 14th, human condition only is left in operation.

830. Beings without ocular (conation) are always sub-human either with wrong (knowledge) or with Downfall belief. There the combinations (are 12 obtained) by multiplying four passions and 3 bad thought-paints.

Commentary.

1-to-3-sensed sub-humans do not possess the sense of sight. They are without ocular conation. They have common inclination $\times 4$ passions $\times 3$ bad thought paints = 12 combinations in each of the Wrong belief and Downfall stages.

तद्देशो मनुष्य एव च षट्त्रिंशत् तद्भवा भङ्गाः ॥८३१॥

831. In Vowless-Destructive-Right-Belief (there are respectively) four, sixteen, seventy-two, and twelve combinations (in the four conditions, hellish etc.) in Partial (Vow stage) peculiar to humans only, thirty-six such (combinations are) possible.

Commentary.

A person in the Vowless-Destructive-Right-Belief stage, and in hellish condition, has, in the first hell, common inclination $\times 4$

passions \times 1 grey thought-paint = 4 possible combinations. In sub-human condition he has male inclination \times four passion \times four thought paints, (omitting black and blue) = 16 combinations. In human condition he has 3 sex-inclinations \times 4 passions \times 6 thought-paints = 72 combinations.

Males with any of the 3 sex-inclinations can have Destructive right-belief; so 3 inclinations are here counted.

In celestial condition he has male inclination \times 4 passions \times 3 good thought-paints = 12 combinations. Thus, there are $4 + 16 + 72 + 12 = 104$ combinations in Vowless stage with Destructive right belief.

In Partial-vow-stage, only humans, possess Destructive-right-belief. They will have 3 sex-inclinations \times 4 passions \times 3 good paints = 36 combinations.

832. (There are) two groups of Natural-thought-activity in (a soul in) Wrong-belief, and only one in the other (stages). (One kind of) right belief; can not co-exist with another kind of right-belief; (neither) one (kind of) right conduct with (another kind of) right conduct.

Commentary.

There are 3 natural sub-thought-activities in the wrong belief stage, soulness, liberableness and non-liberableness. They can form 2 groups (1) soulness and liberableness (:) soulness and non-liberableness. In the other 13 stages there is only one group, soulness and liberableness.

833. To the (combinations of the) eight groups in the pair of Wrong-belief (and Downfall stages) and in the quaternary of Vowless (and the next 3 stages) of the Destructive (Right-belief) kind, Para-Samyoga combinations after being separately calculated should be added.

834. In combinations with operative sub-thoughts, the groups are multiplied. Among the remaining thought (combinations), they are added.

Commentary.

From the data given in Verses 827 to 834, let us work out the possible number of combinations of Sub-thoughts in Spiritual stages.

1. In the first, the Wrong-belief stage, in all the four conditions of existence, in beings with ocular conation we have 1844 combinations. Let us work this out in detail. In this stage there are only 3 main thought-activities working—Mixed, Operative and Natural. Subsidential and Destructive do not exist here. As stated in Commentary to Verse 827, there are 2 groups of 10 and 9 sub-thoughts in the Mixed; and of 8 in the Operative. There are 2 groups in the Natural vide Verse 832. Let us place these facts in the tabular form as below:—

Main Thoughts.	Mixed.		Operative.	Natural.	
Number of sub-thoughts in Groups.	A	B	C	D	E
	10	9	8	2	2

The eight Operative sub-thoughts combine in 204 groups in the four conditions of existence Verse 828 (p. 387.) C thoughts will form

9 combinations C, AC, BC, DC, EC+ACD, BCD, ACE, BCE. Combinations of A. B. D. E. will be 8, we have A, B, D, E, AD, AE, BD, BE. Multiplying 204 by 9 and adding 8, we have $204 \times 9 + 8 = 1836 + 8 = 1844$ combinations.

In case of beings without ocular conation there will be only one group of 8 sub-thoughts of the Mixed description; and therefore only 4 groups, of the three Thoughts as below:—

Thoughts.	Mixed.	Operative.	Natural.
Number of sub-thoughts in Groups.	F	C	D E
	8	8	2 2

The combinations of Operative sub-thoughts here are only 12, vide Verse 830, p. 833. The Combinations of Mixed F, with Operative, are FC, FCD, FCE. Multiplying 12 by 3 and adding FD, FE, F, we have $12 \times 3 + 3 = 39$ Combinations.

Adding these to 1844, we have $1844 + 39 = 1883$ Combinations in all, in Wrong-belief stage.

Let us consider this again, in greater detail,

There are 12 combinations of Operative thoughts in hellish condition of existence, vide Verse 828. In wrong belief stage, 8 out of 21 thoughts will operate at a time, viz., 1 out of 4 conditions, 1 of the 3 sex-inclinations, one of the 4 passions, 1 of the 3 bad-thought-paints, wrong-belief, non-liberation, ignorance, non-control vide verse 827. Each of the above 12 possible combinations will be composed of 8 sub-thoughts at a time.

In hellish condition, common-sex-inclination, wrong-belief, non-liberation, non-control, and ignorance are common to all beings. The variations are in respect of 4 passions, and the 3 bad thought-paints. Thus the possible combinations of the 8 sub-thoughts of the operative kind are

...	...	12

Combinations with group of 9 Mixed thoughts	...	12
Combinations with the 2 groups of Natural thoughts	...	24
Combinations with the 2 groups of Mixed thoughts and the 2 groups of Natural thoughts	...	48

The total combinations will be $12 \times 9 =$

... 108

In the sub-human condition the combinations will be

In the human condition, the same vide, Verse 828	...				648
In celestial condition 48×9=	482
					<hr/> 1836

Add the single 2 groups of mixed, 2 of Natural, and the 4 combined groups of Mixed and Natural in all ... 8

And add the 39 combinations with reference to sub-humans without ocular conation ... 39

The total Combinations are ... 1883

II. *Downfall Stage.* The Mixed sub-thought groups of 9 and 10 exist here. Of the operative kind, wrong-belief does not exist. Of the natural there is only one group of soulness and Liberableness.

Thoughts.		Mixed.	Operative.	Natural.
Groups of sub-thoughts	...	A B	C	D
		10 9	7	2

Combinations of the Operative C are 6 viz., C, AC, BC, CD, ACD, BCD.

Multiplying 204 by 6 and adding the combinations, A, B, D, AD, BD, we have $204 \times 6 + 6 = 1229$ combinations. Add to these the new 26 Combinations among beings without ocular conation, 12×2 (FC, FCD) + (F, FD) = $24 + 2 = 26$, and we have $1229 + 26 = 1255$ combinations in the downfall stage.

III. *Mixed Stage.* There are 2 groups of 11 and 9 of the Mixed, one group of 7 of the Operative kind, and one only of the Natural description.

Thoughts.		Mixed.	Operative.	Natural.
Groups of sub-thoughts	...	A B	C	D
		11 9	7	2

Combinations of C are 6 viz., C, AC, BC, CD, ACD, BCD. Combinations of the 7 Operative thoughts are 180, vide Verse 829, p. 337. Combinations among the others are 5, A, B, D, AD, BD.

The total number of combinations is therefore $180 \times 6 + 5 = 1080 + 5 = 1085$.

IV. *Vowless.* Here we have Subsidential-right-belief, 2 groups of 12 and 10 sub-thoughts of the Mixed kind, the one group of 7 sub-thoughts of the Operative kind, and a group of liberable Natural,

Destructive right-belief does not co-exist with Subsidential-right-belief. The combinations will therefore be considered separately.

Thoughts.	Mixed.		Operative.	Natural.	Subsidential.
Groups of sub-thoughts ...	A	B	C	D	E
	12	10	7	2	1

The combinations of C. will be 12, C, AC BC, CD, CE, ACD, BCD, ACE, BCE, CDE, ACDE, BCDE.

Combinations among the Operative-sub thoughts are 180, vide Verse 829, p. 337.

Combinations of the others will be 11, A, B, D, E, AD, AE, BD, BE, DE, ADE, BDE. The total combinations therefore are $180 \times 12 + 11 = 2160 + 11 = 2171$.

As regards Destructive-right-belief, if we substitute F for E, and Destructive for Subsidential in the above tabular statement the new Combinations will be 6 CF, ACF, BCF, CDF, ACDF, BCDF, with C, and 6 F, AF, BF, DF, ADF, and BDE among the rest.

Here the combination among the 7 thoughts of the Operative kind are 104, vide Verse 831, page 339. The total combinations will be $104 \times 6 + 6 = 624 + 6 = 630$.

All the combinations in the Vowless stage are $2171 + 630 = 2801$.

V. Partial Vow Stage. In case of Subsidential-right-belief we have 2 groups of 13 and 11 of Mixed, one of 6 Operative, and one of Natural.

Thoughts.	Mixed.		Operative.	Natural.	Subsidential.
Groups of Sub-thoughts.	A	B	C	D	E
	13	11	6	2	1

As shown in the Vowless stage the combinations with the Operative group are 12, and those otherwise are 11. The combinations among the 6 operative thoughts are 72, vide Verse 829 and the aggregate are $72 \times 12 + 11 = 864 + 11 = 875$.

In case of Destructive-right-belief new Combinations, again, are 6, and 6, as in the Destructive vowless stage.

The combinations among Operative thoughts are 36, vide Verse 831, and all combinations are $36 \times 6 + 6 = 216 + 6 = 222$.

Total combinations in Partial Vow stage are $875 + 222 = 1097$

VI & VII. Imperfect and Perfect Vow stages. The combinations in both these stages are the same. All the 5 thought-activities are present here in groups shown below :

Thoughts.	Mixed.				Operative.	Natural	Subsiden- tial.	Destructive
Sub-thought	A	B	G	H	C	D	E	F
Groups.	14	13	12	11	6	2	1	1

Combinations with C are 30, C, AC, BC, GC, HC, DC, EC, FC, ACD, ACE, ACF, BCD, BCE, BCF, GCD, GCE, GCF, HCD, HCE, HCF, CDE, CDF, ACDE, ACDF, BCDE, BCDF, GCDE, GCDE, GCDF, HCDE, HCDF.

Among the rest they are 29, A, B, G, H, D, E, F, AD, AE, BD, BE, BF, GD, GE, GF, HD, HE, HF, DE, DF, ADE, ADF, BDE, BDF, GDE, GDF, HDE, HDF. The combinations among the Operative thoughts are 36, vide verse 829, page 337. All combinations in the 6th stage are $36 \times 30 + 29 = 1080 + 29 = 1109$.

„ 7th „ „ 1109.

VIII. New—Thought—Activity of Destructive Ladder. Here 4 Thought-activities exist as below:—

Thoughts.	Mixed.				Operative.	Natural	Destructive.
Groups of sub-thought	A	B	G	H	C	D	E
	12	11	10	9	6	2	2

Calculated in the manner shown above there are 20 combinations with C, and 19 otherwise. As shown in verse 829, page 337, the combinations among Operative thoughts are 12. All the combinations are $12 \times 20 + 19 = 240 + 19 = 259$.

IX Destructive with Sex-inclinations. The combinations here will be the same as in the previous stage, viz., $12 \times 20 + 19 = 259$.

IX Destructive, without sex. The difference here is that the group of Operative thoughts will be of 5 instead of 6. The combinations among these 5 are 4, vide verse 829, p. 337. All the combinations will be $4 \times 20 + 19 = 80 + 19 = 99$.

IX. Destructive without anger. Here the combinations of the 4 Operative thoughts will be 3 only. All the combinations will be $3 \times 20 + 19 = 60 + 19 = 79$.

IX.—Destructive without anger and pride. Here the combinations are reduced to 2 vide verse 829. All the combinations will be $2 \times 10 + 19 = 40 + 19 = 59$.

IX.—Destructive without anger, pride and deceit. Here the combination is reduced to one vide verse 829. All the combinations will be $1 \times 20 + 19 = 39$.

X—Destructive. All the combinations here also will be $1 \times 20 + 19 = 39$.

XII.—The combinations here are similar to those in the 10th stage. All the combinations are $1 \times 20 + 19 = 39$.

XIII.—Here we have only 3 thoughts and each has only one group.

Destructive.	Operative.	Natural.
A	C	B
9	3	2

The combinations of C will be 4, and 3 otherwise. All combinations are $1 \times 4 + 3 = 7$.

XIV. Here also we have 3 thoughts and each has one group.

Destructive.	Operative.	Natural.
A	C	B
9	3	2

The combinations are 7 as above.

Liberated (Siddhas) have only the two thoughts below:

Destructive.	Natural.
9	Soulness,

Let us now calculate the combinations in the Subsidential ladder.

During the 4 stages from 8th to 11th there are the following thoughts and groups, with some difference in the operative thoughts beyond the 9th stage with sex-inclination.

Subsidential.	Destructive.	Mixed.	Operative.	Natural.
2	1	12	6	2
		11		
		10		
		9		

Thoughts.	Mixed.				Operative.	Natural.	Subsidential.	Destructive.
Groups.	A	B	G	H	C	D	E	F
	12	11	10	9	6	2	2 (Belief & Conduct.)	Belief.

Comparing the combinations shown in detail under stages VI-VII, the difference here is that E. F. both exist here at the same time,

whereas they do not co-exist in stages VI and VII. There is therefore an increase of 10 combinations with C, CEF, ACEF, BCEF, GCEF, HCEF, CDEF, and ACDEF, BCDEF, GCDEF, HCDEF, and of 10 otherwise.

VIII. Subsidential Ladder. The combinations will be $12 \times 40 + 39$
 $480 + 39 = 519$.

IX. Subsidential with sex-inclination. The combinations are
 $12 \times 40 + 39 = 480 + 39 = 519$.

IX. Subsidential without sex-inclination. The combinations will be $4 \times 40 + 39 = 160 + 39 = 199$.

IX. Subsidential without anger and pride. The combinations are
 $12 \times 40 + 39 = 80 + 39 = 119$.

IX. Subsidential without anger, pride and deceit. The combinations are $1 \times 40 + 39 = 40 + 39 = 79$.

X. Subsidential. The combinations are $1 \times 40 + 39 = 40 + 39 = 79$.

XI. Subsidential. The combinations are $1 \times 40 + 39 = 40 + 39 = 79$.

844. Pada-bhanga are again of two kinds Jatigapad abhanga and Sarva-Pada bhanga. There are also in Jatipada, Sva-Samyoga (combinations) in Destructive, and Mixed (thought-activities), and in their groups.

Commentary.

Sthanagata combinations have already been described in Verses 828 to 843. Padagata combinations are of two sorts Jatigapada-bhanga, where several thoughts in one sub-division of a kind are collectively treated as one. For example four kinds of knowledge form part of a sub-division of Mixed Thought. All the four are collectively considered as one. Sarva Pada-bhanga includes all possible combinations of various kinds of thought in a sub-division. For example, in sub-divisions of Destructive Mixed thoughts, different thoughts combine with one another within the sub-division, e.g. charity co-existing with gain and other acquisitions.

845. The Jatigapada kind of Subsidential (thought is) one in the four (stages) from Vowless, (viz., right belief alone), two in (the four stages of) subsidential (ladder, e. g., Belief and Conduct). The (Jatipada) kind of Destructive (thought is) one, (in the above stages, viz., Belief only). During (four stages of) Destructive (ladder), (they are) two (Belief and Conduct). (They are) five in the Conquerors (Belief, Conduct, Knowledge, Conation and

Acquisition), and (are) four in the liberated souls, all 5 (excepting Conduct).

(There are) three kinds of Mixed (thoughts) (i. e., Wrong-knowledge, Conation and Acquisition) in the three Wrong-belief (etc., stages) in the Vowless (they are) four (i. e., Knowledge, Conation, Acquisition and Belief); in the three Partial (vow etc.), (they are of) five kinds (i. e., the four just stated and Partial Control in the 5th, and control-with-attachment in the 6th and 7th). Further on till the Delusionless, there are three kinds (of them i. e., Knowledge. Conation and Acquisition).

847. (There are) eight Kinds of operative (thoughts) (i. e., Condition, Passion, Sex, Thought-paint, Wrong-belief, Ignorance, Non-control, Non-liberatedness) in the Wrong belief (stage). They (are) seven (all the 8 excepting Wrong-belief) in the three (Down-fall etc.); further on till the 9th stage with sex-inclination (they are) six (omitting here non-control also), thereafter till Slightest (delusion, they are) five, (omitting sex-inclination also); further till Delusionless, (they are) four (leaving passion also). In the Vibratory and Non-Vibratory conquerors (they are respectively) three (leaving Ignorance), and two (leaving Thought-paint also).

848. (There are) two kinds of Natural (thoughts) (Liberable and non-Liberable) in the Wrong-belief (stage), but only one in the remaining (stages). And I shall describe the group of combinations in Wrong-belief etc., (stages). with reference to Jatigapada.

Commentary.

The Jatigapada sub-divisions in five thought-activities are :—

(1) Two *i.e.*, Subsidential Belief and Subsidential Conduct in Subsidential thought-activity.

(2) Five *i.e.*, Knowledge, Conation, Belief, Conduct and Acquisition, in the Destructive thought-activity.

(3) Seven *i.e.*, Wrong Knowledge, Right Knowledge, Conation, Belief, Conduct, Acquisition, Control in Mixed thought-activity.

(4) Eight *i.e.*, Condition, Passion, Sex, Wrong-belief, Ignorance, Non-control, Non-liberableness, Thought-pain in the Operative thought.

(5) Three *i.e.*, Soulness, Liberableness, Non-liberableness, in the Natural thoughts.

Let us now calculate all combinations of the Jatipada-bhanga description.

1. Wrong-belief stage. Here we have three classes of Mixed thought *i.e.*, Wrong-knowledge, Conation and Acquisition. All 8 of the Operative, and two of the Natural, liberableness and non-liberableness as shown in the tabular statement below :—

Thoughts	Mixed.			Operative.	Natural.	
	A	B	F		D	E
Sub-divisions ...	Wrong-knowledge.	Conation.	Acquisitions.	8	Liberableness.	Non-Liberableness.

The combinations of C are 1+5+6=12, C+AC, BC, FC, DC, EC+ACD, ACE, BCD, BCE, FCD, FCE. The combinations among the rest are 5+6+8=14. A, B, F, D, E+AD, AE, BD, BE, FD, FE and the 3 Sva-Samyoga AB, FD, and BF.. The total combinations will be 8×12+14=110.

II. Downfall stage. The following thoughts are present.

We shall adopt the symbols A,B,C, etc., as in Stage I.

Thoughts.	Mixed.			Operative.	Natural.
	A.	B	F	C	D
Sub-divisions ...	Know- ledge.	Conation.	Acquisi- tion.	7	Liberable.

The combinations of C will be (A+AC, BC, FC, DC), + (ACD, BCD, FCD), $1+4+3=8$. Other combinations are A, B, F, D+Ad, Bd, Fd, the 3 AB, AF, BG, Sva-somyga combinations. The total is $8 \times 7 + 10 = 66$.

III. Mixed. Here sub-divisions are the same as in Downfall, and the number of combinations will be the same *i.e.*, 66.

IV. Vowless. Here we have subsidential-right-belief, and Destructive right-belief and 4 kinds of Mixed thoughts *i.e.*, Knowledge, Conation, Acquisition, and Destructive-subsidential-right-belief, seven kinds of Operative thought, as said above, and one Natural, liberableness as shown below:—

Thoughts	Mixed.				Opera- tive.	Natural.	Subsi- dential.	Destruct- ive.
	A	B	F	G.	C	D	H.	I
Sub- Divisions	Know- ledge.	Cona- tion.	Acqui- sition.	Detruc- tive Sub- sidential Right- Belief.	7	Liber- ableness.	Right- Belief.	Right- Belief.

The combinations of the Operative thought C are C+(AC, BC, FC, GC, CD, CH, CI,)+(ACD, ACH, ACI, BCD, BCH, BCI, FCD, FCH, FCI, GCD, GCH, GCI)+(ACDH, BCDH, FCDH, ACDI, BCDI, FCDI); $1+7+12+6=26$, Five thoughts cannot combine- Subsidential and Destructive Right belief cannot co-exist simultaneously. The other combinations are (A, B, F, G, D, H, I)+(AD, AH, AI, BD, BH, BI, FD, FH, FI, DH, DI, GD)+(ADH, BDH, FDH, ADI, BDI, FDI)+(AB, AF, BF, the 3 Sva-samyoga.) $7+12+6+3=28$. All combinations are $7 \times 26 + 28 = 210$.

V, VI & VII. Partial-vow. Imperfect and Perfect-vow-stages. In each of these, there is Subsidential-right belief Destructive-right-belief, 5 thoughts *i.e.*, Knowledge, Conation, Acquisition, Belief, and

Conduct of the Mixed kind ; 6 of Operative thoughts (leaving non-control) ; and Liberableness of the Natural as shown below :—

Thoughts.	Mixed.					Operative.	Natural.	Subsidential	Destructive.
	A.	B	F	G	J	C	D	H	I
Sub-Divisions.	Knowledge.	Conation.	Acquisition.	Destructive Subsidential Right-Belief.	Conduct, mixed.	6	Liberableness	Right-Belief.	Right-Belief.

Calculating in the manner shown above all combinations in each stage will be

$$(1+8+15+8) \times 6 + (8+15+8)+3=32 \times 6 + 31 + 3 = 192+34=226.$$

VIII & IX With sex-inclination on the Subsidential ladder. The thoughts and sub-divisions are as follows :—

Thoughts.	Mixed.			Operative.	Natural	Subsidential		Destructive.
	A	B	F	C	D	H	K	I
Sub-Division	Knowledge.	Conation.	Acquisition.	6	Liberableness.	Right Belief.	Right Conduct.	Right Belief.

Combinations of C are C+(AC, BC, FC, DC. HC, KC, IC)+(ACD, BCD, FCD, CDH. CIK, CDI. CKI, ACH, ACK, ACI. BCH. BCK, CBI, FCH, FCK, FCI)+(HACD, HBCD, HFCD, KICD, KIAC, KIBC, KIFC, IACD, IBCD, IFCD, KACD, KBCD, KFCD)+(KIBCD, KIFCD, KIACD), $1+7+16+13+3=40$. Other combinations are A, B, F, D, H, K, I+(AD, AH, AK, AI, BD, BH, BK, BI, FD, FH, FK, FI, DH, DK, DI, KI)+(ADH, ADK, ADI, BDH, BDK, BDI, FDH, FDK, FDI, DKI, KIA, KIB,) KIF+(ADKI, BDKI, FDKI). $7+16+13+3=39$. Add to them the 3 Sva-samyoga.

All combinations will then be $40 \times 6+39+3=240+42=282$.

IX with sex-inclination has 282.

IX without sex-inclination and X. In each part of the 9th without sex-inclination and the 10th stages, there are the following thoughts:-

Thoughts.	Mixed.			Operative.	Natural.	Subsidential		Destructive.
	A	B	F	C	D	H	K	I
Sub-Divisions	Knowledge.	Conation.	Acquisition.	5	Liberableness.	Right Belief.	Right Conduct.	Right Belief.

Calculating in the manner just above, all the combinations are $5 \times 40 + 42 = 200 + 42 = 242$ in each of these two stages.

XI. In the 11th stage, they are the same as in the 10th; the only difference is that Operative thoughts are 4 only, leaving Passion also. All the combinations are $4 \times 40 + 42 = 160 + 42 = 202$.

Destructive VIII & IX with sex-inclination. We have the following thoughts:—

Thoughts.	Mixed.			Operative.	Natural.	Destructive.	
	A	B	F			I	L
Sub-Divisions.	Know- ledge.	Cona- tion.	Acqui- sition.	6	Liber- ableness.	Right- Belief.	Conduct.

The other combinations are $6 + 11 + 6 = 23$ A, B, F, D, I, L + (AD, BD, FD, AI, BI, FI, AL, BL, FL, DI, DL)+(ADI, ADL, BDI, BDL, CDI, CDL) Add the 3 Sava-Samyoga. All the combinations are $6 \times 24 + 23 + 3 = 144 + 26 = 170$.

IX Destructive, without sex-inclination and X. Each has the thoughts as just above, the only difference is that the Operative thoughts are 5 instead of 6, Sex being excluded. All the combinations will be $5 \times 24 + 26 = 120 + 26 = 146$.

XII. Delusionless. Same thoughts as just above, except that the Operative ones will be 4 instead of 5. All the combinations are $4 \times 24 + 26 = 122$.

XII. Vibrating Omniscient. Here we have the Destructive 5 i. e., Knowledge, Conation, Belief, Conduct and Acquisition, and the Operative are 3 i. e., Condition, Thought-paint and Non-liberatedness Natural is liberableness.

			I	L	M	N	O
Sub-Divi- sions.	3	Liber- ableness.	Belief.	Conduct.	Know- ledge.	Cona- tion.	Acqui- sition.

The combinations with C are C+(CD, CI, CL, CM, CN, CO) +(CDI, CDL, CDM, CDN, CDO). $1+6+5=12$. The other combinations are D, I, L, M, N, O+(DI, DL, DM, DN, DO.) $6+5=11$. Sva-Samyoga is only one. All combinations are $3 \times 12 + 11 + 1 = 36 + 12 = 48$.

XIV. The 14th stage has the same thoughts as the 13th. The operative thoughts will be 2 only, leaving Thought-paint also. All combinations will be $2 \times 12 + 12 = 36$.

Liberated Souls. In the liberated souls, there are no Operative thoughts. The Destructive ones are 4, i. e. Belief, Knowledge, Conation and Acquisition, and the Natural is only 1 soulness.

The combination are $5+4=9$, P, I, M, N, O+ PI, PM, PN, PO.

Commentary.

Sarva-pada-bhanga are of 2 kinds; Pinda-pada or Pratyeka pada. Pinda-pada means a collective group. Five such groups have been described just above in verse 856. Pratyeka-pada signifies each single thought.

(They are) the five conscious-attentiveness, उपयोग (i. e., 3 kinds of wrong-knowledge and 2 conations); (five) charity etc., लब्धि (acquisitions); four Operative, (i. e., Wrong-belief, Ignorance, Non-control; Non-liberatedness); and soulness

858. Adding (to the above 15 Pratyeka-pada), the five Pinda-pada (i. e., the two liberableness and its opposite), the (four)

Conditions, the (three) Sex-inclinations, (four) anger etc., and the (six) Thought-paints, Sarvapada are, verily, twenty only.

861. The desired (value) (of a term) is calculated by squaring two to the power of the desired (number of) terms less one. The desired sum of the last term (combinations) with others (viz of all terms from first to last) is found) by deducting one from double the value of the last term.

The first term wrong-sensitive-knowledge stands by itself. The second term wrong-scriptural knowledge stands by itself, and forms a combination with the preceding term, Wrong-sensitive-knowledge. The 3rd term, Wrong-visual-knowledge and its combinations with the preceding 2 terms, amount to 4. The 4 term combinations are 8. In this manner the, number of possible combinations of each term with the preceding terms would be 1, 1×2 , $1 \times 2 \times 2$, $1 \times 2 \times 2 \times 2$, $1 \times 2 \times 2 \times 2 \times 2$, $1 \times 2^{(n-1)}$ terms or 1, 2^{2-1} , 2^{3-1} , 2^{4-1} , 2^{5-1} , ... 2^{n-1} or

1, 2, 2^2 , 2^3 , 2^4 , 2^{n-1} ; where n is the number of terms.

Such combinations would form a series in geometrical progression, each term being double of that preceding it. 2 is the common ratio of the series, the common factor by which each term is multiplied. The Algebraical formula, known to every student of Mathematics is $l = ar^{n-1}$, where a, represents the first term, l, the last term, r, the common ratio, and n the number of terms.

The rule stated in Verse 861 is practically the same. Here 2 is the common ratio, and 1 is the first term. 2 raised to the power represented by the number of terms less one, thus shows the value of the last term. The other algebraical formula $S = \frac{a(r^n - 1)}{r - 1}$ where

S denotes the sum of all the terms, is also reduced to a simpler form in Verse 861 in view of the fact that the first term is 1, and the

common ratio is 2. $S = \frac{1(2^n - 1)}{2 - 1} = 2^n - 1$ Which is the same thing as

double the value of the last term minus 1. The value of the last term, is $2 \times 2^{n-1} - 1 = 2^n - 1$.

All combinations of the 15 Pratyeka Padas would thus be $2 \times 2^{15-1} - 1 = 2 \times 2^{14} - 1 = 2 \times 16384 - 1 = 32768 - 1 = 32767$. And the number of the last term combination with the previous ones would be $2^{15-1} = 2^{14} = 16384$.

Jain Scholars have for facility of calculation adopted a special unit called Pannatthi, which is

$$\left\{ \left\{ (2^3)^2 \right\}^2 \right\}^2 = 2^{16} = 65536 = P(\text{say})$$

The last term of the geometrically progressive series of the combinations among the 15 pratyeka Padas in the Wrong-belief stage was 16384, which is $1/4 P$.

Let us now calculate all combinations of Pratyeka Pada thoughts with those of the Pinda-Pada which follow them in serial order as stated in Verse 859.

Applying the rule stated in Verse 860, we arrive at the following results.

All combinations of the last term of Pratyeka Pada with those preceding it were 16384 which is $= P/4$.

The 16th term is liberableness. Its combinations with the former 15 terms will be double of the combinations of the preceding term 15, viz $\frac{1}{2}$ of $P=32768$. Nonliberableness will have the same number of combinations i. e., 32768, because a soul may be either liberable or non-liberable. The total number would be P .

Each condition of existence has with the preceding terms double the number of combinations of the preceding term. i. e., $2 P$. All the four conditions have $8 P$ Combinations. A soul can have only one condition at a time.

A Sex-inclination will have combinations double those of a condition i. e., $2 \times 2P = 4P$. Hellish condition has only 1 the Common-sex-inclination. Celestials have male and female; humans and sub-humans each have all the 3. All the 4 conditions have thus 9 sex-inclinations. Combinations of all the sex-inclinations are $36 P$. Each passion will have $2 \times 4P = 8P$ Combinations. Hellish beings have $4 \times 8P = 32P$. In each of the human and sub-human conditions we have all-3 sex-inclinations, and therefore $4 \times 3 \times 8P = 96P$. Celestials have only 2 sex-inclinations and hence $4 \times 2 \times 8P = 64P$. All Combinations of all 4 conditions with preceding thoughts are $(32 + 96 + 96 + 64) P = 288 P$.

A Thought-paint will have $2 \times 8P = 16P$ combinations. Hellish beings have one sex inclination, 4 Passions and 3 Thought-paints. All combinations $16P \times 4 \times 3 = 192P$. Sub-humans have 3 sex-inclinations, 4 Passions, and 6 Thought-paints, and will have $16P \times 3 \times 4 \times 6 = 16 \times 72 P = 1152P$. Humans have the same. Celestial have 2 sex-inclinations, 4 Passions and 6 Thought-paints. They will have $= 16P \times 2 \times 3 \times 4 \times 6 = 16 \times 48P = 768P$ Combinations.

The total combination in all the 4 conditions with reference to 4 Passions, 3 sex-inclinations and 6 Thought-paints are $192P + 1152P + 768P = 3264P$.

The following are the total combinations of the Pinda, collective groups:

1. Liberable and non-Liberable.	1 P.
2. 4 conditions	8 P.
3. 8 Sex-inclinations.	36 P.
4. 4 Passions	288 P.
5. 6 Thought-paints.	3264 P.
	<u>3597 P.</u>

or (65536 X 3597) Combinations.

Combinations of Pratyeka kind are $2^{15} - 1 = 32768 - 1 = 32767 = \frac{P}{2} - 1$

Total Combinations in Wrong-belief-stage are thus $3597P + \frac{P}{2} - 1$

$$\frac{7195}{2}P - 1 = 7195 \times \frac{1}{2}P - 1 = 32768 \times 7195 - 1 = 235765759.$$

11 Downfall Stage. Here we have absence of Wrong-belief and non-liberableness.

The Pratyeka and Pinda-Pada thoughts in the second stage may be shown as below:

All Combinations among the 15 Pratyeka-Pada are as shown above, $2^{15}-1=32768-1=\frac{P}{2}-1$. Let us calculate the combinations in the Pinda-Pada which follow.

The 15th term has $2^{15}-1=2^{14}=16384=\frac{P}{4}$ combinations with the preceding terms

	$\frac{P}{4}$
--	-----	-----	---------------

The four conditions of Existence. Each condition has $2 \times P/4 = P/2$

All 4 Conditions have $4 \times P/2$	2P

In hellish condition, there is one, the common-sex-inclination

-----------------	-----	-----	------

Celestials $4 \times 2 \times 2P$	$\frac{16P}{2}$
			72P.

Thought Paints. Each thought-paint has $2 \times 2P = 4P$.

Hellish condition has common-sex-inclinations, with 4 passions, and the three bad-thought-paints and hence

1x4x3x4P=	48P.
-----------	-----	-----	------

Sub-human has 3 sex-inclinations, 4 passions, 6 thought-paints and hence $3 \times 1 \times 6 \times 4P$.	288P.
--	-------

Human has the same	288P.
--------------------	-------

Celestial has 2, the male and female sex-inclinations, passions, 6 thoughts and hence $2 \times 4 \times 6 \times 4P$.	$\frac{192P}{2}$
---	------------------

816P.

Adding all the above combinations, we have

$$P/2 - 1 + 2P + 9P + 72P + 816P.$$

$$= P/2 - 1 + 899P = \frac{P - 2 + 1798P}{2}$$

$$= \frac{1799P - 2}{2} = 1799\frac{P}{2} - 1.$$

III Mixed Stage. The Pratyeka-Padas will be 16 as below :—

Knowledge.			Conation.			Acquisitions.									
Sensitive.	Scriptural	Visual.	Ocular.	Non ocular.	Visual.	Charity.	Gain.	Enjoyable.	Re-enjoyable.	Might.	Ignorance.	Non-control.	Non-liberatedness.	Soulness.	Liberableness.
1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16

The Pinda-Pada will be the same as stated before. There will be $2^{15} = 32768 = P/2$ Combinations of the 16th term, Liberableness. The sum of all combinations of the 16 terms will be $2^{16} - 1 = P - 1$.

The Pinda-Pada combinations will be calculated as follows in the the manner explained above in detail.

Conditions of existence. Each will have $2 \times P/2 = P$. and all $4 \times P$. $4P$.

Sex-inclinations. Each will have $2P$ and in all 4 conditions of Existence, the sex-inclinations Combinations will be $9 \times 2P \dots 18P$.

Passions. Each will have $2 \times 2P = 4P$, and in all conditions of Existence, and inclinations, the Passion combinations will be $4 \times 9 \times 4 \times P \dots \dots \dots 144P$

Thought Paints. Each will have $2 \times 4P = 8P$.

In Hellish Condition of Existence, there are 3 paints, with 4 passions, common sex-inclination and hence the combinations will be $8 \times 4 \times 1 \times 8P = 12 \times 8 \times P \dots \dots 96 P$.
 Sub-human..... $6 \times 4 \times 3 \times 8P = 72 \times 8P$. $576 P$.
 Human the same. $576 P$.
 Celestial $3 \times 4 \times 2 \times 8P = 192 P$.
 $1440 P$.

All the Combinations in the 3rd stage are thus $P - 1 + 4P + 18P + 144P + 1440 P = 1607P - 1$.

IV Vowless Stage. Here the right-belief Pinda-Pada is an additional term and the other Combinations are the same as in the Mixed Stage viz: $1607 P - 1$.

There are 3 kinds of Right-belief, Destructive, Subsidential and Destructive-subsidential.

Combinations of Riget-belief will be double those of a thought paint $= 8P \times 2 = 16P$. As stated in detail under the third stage on page 337 the combinations of sex-inclination, passions and thought-paints in 4 conditions of Existence are $12 + 72 + 72 + 24 = 180$.

Therefore combinations for subsidential belief will be $16P \times 180 = 2880 P$; and combinations for the destructive-subsidential belief the same $= 16P \times 180 = 2880P$.

To discuss Destructive-right-belief:

In hellish condition this belief is possible only in the first hell. There is only the grey thought-paint, The combinations of passions, sex-inclinations, and thought-paints are $4 \times 1 \times 1 = 4$ 4

Only male sub-humans of enjoyment region can have this belief; and only 4 thought-paints, excluding blue and black. The combinations will be $4 \times 4 \times 1 = 16$... 16

In humans the combinations will be $6 \times 4 \times 3 = 72$... 72

In Celestials only males have this belief and combinations are $8 \times 4 \times 1 = 12$... 12
104

The Destructive-Belief combinations are $104 \times 16P = 1664P$. 1664P.

The total combinations in this stage are thus

1607 P—1 as in the previous stage

2880 P in Subsidential belief,

2880 P in Destructive-subsidential belief

1664 P in Destructive belief.

$= 9031 P - 1$, and $(7367 - 1)$ only without those in Destructive-belief.

V. Partial-Vow. This is possible only in sub-human and human conditions of life. Non-control will in Pratyeka.pada be replaced by Partial control. Otherwise this is similar to the 4th stage.

Combinations of the 16th term with others are and the $P/2$ sum of all terms $P1$.

Let us calculate the combinations in Pinda-Pada.

Conditions of Existence. Each will be $2 \times P/2 = P$, Combinations

in human and sub-human $= 2P$ 2P.

Sex-inclination. Each has $2 \times P = 2P$.

8 Sex-inclinations in each of the 2 condition, will have $6 \times 2P = 12P$.

Passion. Each has double of $2 P = 4P$

Sub-human and human each have 4 passions, and with 8 sex-inclinations, the combinations are $2 \times 4 \times 8 \times 4P = 96P$, ... 96P,

Thought-paints. Each has double that of a passion, $2 \times 4P = 8P$.

There are 8 thought-paints, 4 passions, and 3 sex-inclinations in sub-humans and humans both. The combinations are $8 \times 4 \times 3 \times 2 \times 8P = 576P$ 576P.

Combinations in Right-belief are double those in the preceding term, Thought-paint, viz. $2 \times 8P = 16P$.

Sub-humans and humans each have 8 paints, 4 passions, 3 sex-inclinations. Combinations for Subsidential-belief are $2 \times 3 \times 4 \times 3 \times 16P = 72 \times 16P = 1152P$ 1152P.

Combinations in **Destructive-subsidential-belief** are the same, $72 \times 16P = 1152P$ 1152P.

In **Destructive belief**, which only humans can have, the combinations will be $16P \times 36 = 576P$ 576P.

All Combinations in **Partial-Vow-Stage** are $P-1 + 2P + 12P + 96P + 576P + 1152P + 1152P + 576P = 3567P - 1$ 3567P-1.

Without those in Destructive belief, they are $2991P - 1$ 2991P-1.

VI. Imperfect-Vow-Stage. Here Mental-knowledge is added, and Partial control changed into Control-with-attachment. This stage is possible to humans only. Human condition should therefore be treated as Pratyeka, and the terms amount to 18. The last term "human condition" will have $2^{17} = 2 \times 2^{16} = 2P$ Combinations, and the sum of all terms combinations is $2^{18} - 1 = 2^{16} \times 2 - 1 = 4P - 1$ 4P-1.

To calculate Pinda-Pada.

Sex-inclinations. Each has $2 \times 2P = 4P$. 3 inclinations have $3 \times 4P = 12P$ 12P.

Passions. Each has $2 \times 4P = 8P$. The combinations for 4 passions are $4 \times 8 \times 8P = 12 \times 8P = 96P$ 96P.

Thought-paints. Each has $2 \times 8P = 16P$. The combinations for 8 thought-paints, with 4 passions, 3 sex-inclinations are $8 \times 4 \times 8 \times 16P = 576P$ 576P.

Right-belief. Each has $2 \times 16P = 32P$. The 3 kinds of Right-belief, 8 thought-paints, 4 passions, and 3 inclinations have $3 \times 3 \times 4 \times 3 \times 32P = 108 \times 3P = 3456P$ 3456P.

Grand total of all combinations is
 $4P - 1 + 12P + 96P + 576P + 3456P$, ... 4144P-1,

VII. Perfect Vow has the same as those in Imperfect-vow, 4144P-I. ... 4144P-I

VIII. (S). New-thought-activity, in subsidential-ladder has only the white thought-paint, and conduct is changed into Subsidential. There are thus 19 Pratyeka Pada.

The value of the last term is $2^{\frac{18}{19}} = 2^{\frac{18}{19}} \times 2^{\frac{1}{19}} = 4P$

Pindapada terms are the 3 inclinations, and 2 beliefs, the Subsidential and Destructive.

Each Sex-inclination has $2 \times 4P = 8P$. All 3 have $3 \times 8P = 24P$. 24P.

Each passion has $2 \times 8P = 16P$. The four passions, with 3 inclinations, have $4 \times 3 \times 16P = 192P$ 192P.

Each Right-belief has $2 \times 16P = 32P$. The 2 kinds of Right belief, with 4 passions and 3 sex-inclinations have $2 \times 4 \times 3 \times 32P = 768P$ 768P.

Sum of all 19 Pratyeka-pada is $2^{\frac{19}{19}} - 1 = 2^{\frac{19}{19}} - 1 = 8P - 1$. 8P-1.

All combinations in this stage are $8P - 1 + 24P + 192P + 768P = 992P - 1$. 992P-I.

IX. (S) with Sex-inclination. Has the same as the 8th stage, 992P-I. 992P-I

IX. (S) without sex-inclination. Has the same 19 Pratyeka-pada, and 8P-I Combinations,

Pindapada calculations. The 19th term has $2^{\frac{18}{19}} = 4P$. Each passion has $2 \times 4P = 8P$; 4 passions have $4 \times 8P = 32P$. Each Right-belief: has $2 \times 8P = 16P$. The two kinds of Right-belief, with passions have $2 \times 4 \times 16P = 128P$. All combinations in this stage are $8P - 1 + 32P + 128P = 168P - 1$ 168P-I.

X. (S). By addition of the single passion, slight-greed the pratyeka-pada will be raised to 20. The Pinda-pada is only Right-belief. The 20th term slight-greed has $2^{\frac{19}{20}} = 2^{\frac{19}{20}} \times 2^{\frac{1}{20}} = 8P$. Each Right-belief, has $2 \times 8P = 16P$. The 2 kinds of Right-belief have $2 \times 16P = 32P$. Total of all the Combinations will be $16P - 1 + 32P = 48P - 1$ 48P-I.

XI. Excluding passion, there are only 19 Pratyeka-pada, Combinations of the 19th term are $2^{\frac{18}{19}} = 4P$.

Each Right-belief will have $2 \times 4P = 8P$, The 2 kinds of belief will have $2 \times 8P = 16P$. All combinations in Subsided-delusion stage are $8P - 1 + 16P = 24P - 1$... 24P-1

VIII. (D) In the Destructive ladder, this stage has Destructive control, instead of Subsidential control, and Destructive-right-belief will be added to Pratyeka-pada, making them 20. The last term is $2^{10} = 2^{16} \times 2^8 = 8P$.

Pinda-pada Calculations. Each sex-inclination has $2 \times 8P = 16P$. The 3 sex-inclination will have $3 \times 16P = 48P$. Each passion has $2 \times 16P = 32P$. 4 passions with 3 sex-inclinations have $4 \times 3 \times 32P = 12 \times 32P = 384P$. All combinations are $16P - 1 + 48P + 384P$ 448P-1.

IX (D) with sex-inclination. In the Destructive ladder this stage has the same combinations as VIII (D) ... 448P-1.

IX (D) without sex-inclination. There are 20 Pratyeka-pada and Pinda-pada consists of passion only.

The 20th term is $2^{10} = 2^{16} \times 2^8 = 8P$. Each passion has $2 \times 8P = 16P$. 4 passions have $4 \times 16P = 64P$. The total of both kinds $= 16P - 1 + 64P = 80P - 1$ 80P-1.

X(D). Slight-greed is added to Pratyeka and there is no Pinda-pada. The 21st term is $2^{20} = 2^{16} \times 2^4 = 16P$. All combinations are $16P \times 2 - 1$ 32P-1.

XII. Here there is no Slight-greed, Pratyeka terms are reduced to 20. All combinations are $2 \times 8P - 1$... 16P-1.

XIII. The Pratyeka terms are 14—Perfect knowledge, Perfect conation, Destructive-Right-belief, Destructive-Right-conduct, the 5 Destructive acquisitions, Non-liberatedness, soulness, liberableness, human condition, and white-thought-paint. The combinations are $2^{14} - 1$ P/4-1.

XIV. There is no thought-paint. The sum of combinations of 18 terms is to $2^{18} - 1$ P/8-1.

Liberated souls have Perfect-knowledge, Perfect conation, Destructive-Right-Belief, Infinite power, and soulness.

The sum of all Combinations will be $2^5 - 1 = 32 - 1 = 31$.

Commentary.

Established and generally recognised forms of religion are not many; but personal beliefs vary immensely. One may just as well

say that there are as many sets of belief as there are human beings. Jain philosophers have however reduced all sets of beliefs to 363 kinds.

There are some who have no religious beliefs whatsoever. They may be called negativists or agnostics.

Others are positivists. They attach all responsibility for events to Time, Destiny, Nature, God, Atman.

Illusionists or Epicureans recognise sexual pleasures only ; and do not bother themselves to find out the ultimate reality of things.

Devotionists again content themselves with merely worshipping others. They have no idea of soul-power. Jainism reconciles all these differing, inconsistent and contradictory theories by taking a broad and expansive view of things, by showing that there is partial truth in every theory, and the whole truth is found by looking at things from various points. Truth has many facets. Our view, our knowledge, our information is limited in various ways, and each one of us having an imperfect view of the whole quarrels with the other whose view is as imperfect, but is directed from and to a different point. One who can see the whole object from all points at one and the same moment of time knows the whole truth, and can correct and reconcile the various views of ill-informed disputants.

The story of the seven blind men, who stumble against an elephant, and give their individual ideas of the animal, is an apt illustration of what is said above. One of them who happens to catch the ear, likens the elephant to a large hand-fan, one who catches hold of the tail says it is like a thick stout rope, one who falls upon the legs calls it a pillar, and so on. But one who can see the whole elephant by his eyes, corrects them all, tells them that each is right from a certain point of view, to a limited extent; and the whole truth he describes by giving details of the parts separately perceived by the blind men, which go to form the whole.

Other systems of thought outside Jainism have been divided into 4 main groups, and are sub-divided into 363.

1. Kriya-vadins. These may be called Positivists. Their subdivisions are 180, because of the varying theories in respect of the nine categories, Jiva, Ajiva, Asrava, Samvara, Nirjara, Bandha, Moksha, Punya Papa, as affected by Time, God, Soul, Destiny, and Nature, working by itself, through another, permanently or momentarily. $9 \times 5 \times 4 = 180$.

Akriya-vadins. Negativists have 84 sub-divisions, due to the varying theories of non-existence in respect of each of the seven *tattwas* with reference to Time, God, Soul, Destiny, and Nature working by itself or through another; and non-existence of the 7 *tattwas* with reference to Destiny and Time alone, irrespective of their working by themselves or through another. $7 \times 5 \times 2 + 7 \times 2 = 70 + 14 = 84$.

Ajnana-vadins, or Agnostics, who have no beliefs at all in anything, with reference to the 7 aspects of 9 categories, and the 4 aspects of existence, non-existence, existence and non-existence, and indescribability of the pure soul. $7 \times 9 + 4 = 67$.

Vinaya-Vadins. Devotionists are of 32 kinds with reference to reverence of God, King, Scholars, Saints, Old-men, Children, Mother, father through mind, body, speech and offerings. $8 \times 4 = 32$.

All kinds of Partial or non-true believers are $180 + 84 + 67 + 32 = 363$.

Commentary.

The 7 *Tattwas* are described in Sacred Books of the Jainas, Vol. II, page 7. They form the 9 categories with merit and demerit.

887. Who knows about the four aspects of pure substance, which in two series, (substance and the aspects) gives four Combinations. Thus there are $(63+4)$ 67 (kinds of) Illusionists (अज्ञानो)

Commentary.

Illusionists do not believe in the nine categories having reference to seven aspects, nor in the pure substance being described in four aspects. $9 \times 7 + 1 \times 4 = 67$ are the theories propounded by Illusionists. From Jain point of view Soul is described or understood in 7 aspects.

1. Soul exists in view of its individual attributes.
2. Soul does not exist in view of attributes foreign to it,
3. Soul exists with reference to its own attributes, and does not exist with reference to attributes foreign to it.
4. Soul is indescribable. No words can express its full reality at any moment of time.
5. Soul exists, but is indescribable.
6. Soul does not exist, but is indescribable,
7. Soul exists and does not exist, and yet it is indescribable.

Each of the other 8 categories can be similarly described in 7 ways. The Illusionists do not recognise these aspects. Thus there are 67 kinds of Illusionists.

891. Others believe in Destiny alone and despise efforts as useless. Karna, lofty like the Sal tree, was killed in battle.

Commentary.

Neither Destiny nor Efforts alone are of much avail. A judicious combination of both brings about success. Destiny is the result of efforts, and Destiny helps in efforts. Through effort we can reduce the intensity of bad Karmic forces, and increase that of

good Karmas. And yet sometimes Destiny may prevail, and at another time effort alone may bear fruit.

Commentary.

This is an allusion to the well-known tradition that at selection time, Draupadi chose Arjun as her husband, and garlanded him. It was however given out that the garland fell on all the five, and she was treated as the wife of all the five Pandava brothers.

894. There are as many points of view as there are modes of speech. There are as many perverse theories as there are points of view.

Commentary.

Whenever a man speaks about a thing, he cannot convey all that he means to say about that thing, in any language or words, how so very much profuse. No description is complete by itself. It comprises only one or some of the various aspects of a thing. There are other aspects also. If an aspect, expressed by one sentence is taken to be the whole description of a thing, that will be incorrect and possibly perverse. All the points of view are partially correct. A man is father to his son, but a son to his father. He is a father and a son both, and neither a father nor a son, as the occasion may be. He is either, neither, and both varying with the point of view in the conversation.

Commentary.

This Gommatasara was composed by Shri Nemichandra Acharya for Chamundarai, the great Jain Commander-in-Chief of Raja Rayamalla of the Ganga dynasty. Nemichandra Acharya at the commencement of a fresh Chapter bows to the great Masters of learning, Acharyas Viranandi and Indra Nandi. There is an allusion to the mythological tradition that when the celestials and infra-celestials churned the Ocean, 14 Gems came out thereof, and the Moon was one of them.

897. There are three Karana (special thought activities) which cause destruction, or subsidence of the twenty-one (sub-classes of the) Deluding-Karma. A Saint in the Perfect-vow stage performs the first, Adhah-Pravrittam.

Commentary.

The four error-feeding passions are destroyed by one with destructive-right belief. Out of the 25 sub-classes of Conduct-deluding Karma, 21 only remain to be subsided or destroyed. This is done through three special processes of thought-concentration. The first is called Adhah Pravritta Karana, the primary process, and is used by a saint in the 7th stage.

898. Because, the thought-activity of posterior souls may become as pure as that of prior souls, therefore, the first of the (3 kinds of) thought-activity has been called lower thought-activity (Adhah pravritta karana),

Commentary.

Thought-activity has been divided into 3 kinds, with reference to the degree of purity attainable by one soul with reference to another. The first is the lower thought activity, Adhah Pravritta Karana; for here a soul who has commenced purification later, may come upto the level of one who commenced purifying earlier, in point of time. The rate or speed of progress of one soul may be higher than that of another, who started earlier on the road to purity.

The second is called Apurva-Karana, new-thought-activity. Here arise new thought-activities such as had not arisen in the lower thought activity stages. Here, unlike the lower thought-activity stage, there is never attained the same degree of purity in souls who have commenced advancement at different times. Those, who start at the same time, may or may not have the same degree of purity.

The third and the highest kind is Anivritta Karana, Advanced thought-activity. Here the thought-activities are such that souls who commenced in this stage, simultaneously, shall continue to make uniform progress without any difference in the degree of purity.

901. The Jinās have laid down (the rule), that in lower thought activity, the sum of the differences between the first, and succeeding terms, (प्रचय धन) is numerable part of (आदि धन), the sum of the value of all terms (assuming the value of each term to be the same as that of the first term).

902. The addition of both the (प्रचय धन) and the (आदि धन) is (equal to) the square of the number of terms multiplied by 3 and by the common difference. Therefore the total sum being divided by the square of the terms and by 3 (gives) the common difference.

903. The first term is (obtained) by subtracting the sum of the common differences from the total (3072) and dividing by the number (of terms). By adding the common difference to each (successive term, are obtained) the various steps for attaining purity of thoughts.

Commentary.

The rule given in Sanskrit Commentary to Verse 901, is that (प्रचय धन) the sum of the common differences is obtained by half of the number of terms less one, being multiplied by common difference and by the number of terms. $\therefore \frac{16-1}{2} \times 4 \times 16 = \frac{15}{2} \times 64 = 15 \times 32 =$

480. This is also called Uttara Dhana. (उत्तर धन)

Adidhana = Sarvadhana - Uttara Dhana = 3072 - 480 = 2592.

Verse 900 has assumed:—

3072—to represent the total steps for attainment of purity, सर्वधन.

16—the stages by which such purity is acquired, अध्यायान.

4—the rate of increase in purity.

8—an arbitrary number.

The sum of all the common difference प्रचयधन in all the 16 terms, excluding the first term, is obtained by the Algebraical formula in Arithmetical progression also. :

$$\begin{aligned} S &= \frac{n}{2} (a+1) = \frac{n}{2} \left\{ 2a + (n-1)d \right\} = \frac{15}{2} (2 \times 4 + 14 \times 4) \\ &= \frac{15}{2} (8 + 56) = \frac{15}{2} \times 64 = 15 \times 32 = 480. \end{aligned}$$

And this 480 is obviously a numerable part of 2592 as stated in Verse 901.

According to the rule in verse 902, $16^2 \times 3 \times 4 = 256 \times 3 \times 4 = 256 \times 12 = 3072$, is the **सर्वधन** sum total of all the terms. It is also the sum of **प्रचय** the first term multiplied by 16, the number of terms and **प्रचयधन**.—viz. $2592 + 480 = 3072$

The common difference is $3072 \div 16^2 \div 3 = 192 \div 16 \div 3 = 12 \div 3 = 4$.

According to the rule laid down in Verse 903, $\frac{3072 - 480}{16} = \frac{2592}{16} = 162$, is the first term.

The same result is obtained by the Algebraical formula

$$S = \frac{n}{2} \{ 2a + (n-1)d \}$$

$$= \frac{16}{2} \{ 2a + 15 \times 4 \} = 8 (2a + 60)$$

$$\therefore 16a + 480 = 3072.$$

$$\text{or } 16a = 3072 - 480 = 2592$$

$$\text{or } a = 162.$$

The series would then stand as below :—

Serial No.	Value of terms.	Difference between the first and successive terms.
1	162

Commentary.

The rule enunciated in the Sanskrit Commentary to verse 904 is

$$S=n \left\{ \left(\frac{n-1}{2} \times d \right) + d \right\} \text{ or } = 15 \left(\frac{14}{2} \times 4 + 4 \right) = 15 (28 + 4) = 15 \times 32 = 480$$

905. To divide the values of all the (16) (Sarvaadhvana) terms into numerable parts, (which are assumed to be 4) in a series (Anukrishti), (we have to find out) the value of each term (Prati Samaya dhana), the number of terms (Pada), the common difference (Prachaya), and the first term of the common differences (Prabhava), for preparing a tabular statement (Tirashchi).

906. In the tabular statement, the common difference, being divided by the number of terms in the series, is the common difference (among the sub-terms of the series). The whole sum minus the sum of the common differences प्रचयधन divided by the number of terms, is the first term of the series.

907. In the tabular statement, the common difference is successively added to each term commencing from the first. Such a statement would illustrate the state of progress in lower thought-activity (stage of concentration, Adha Pravritta Karana).

Commentry.

Each of the 16 terms, shown in the tabular statement, following verse 903, has been divided into 4 sub-terms.

The common difference among the 4 sub-terms will according to the rule given in verse 906 be $4 \div 4 = 1$.

The sum of the common differences in all the 4 sub-terms, Prachaya Dhana, will again, be $\frac{4-1}{2} \times 1 \times 4 = 8$ according to rule given in the Commentary just above referred to..

Further, the first sub-term will be $\frac{162-6}{4} = \frac{156}{4} = 39$. The other 3 terms will be successively increasing by the common difference 1. Thus we shall have 39, 40, 41, 42 as the 4 sub-terms of 162, the first of the 16 terms.

Similarly the first sub-term of the second term 166, will be $\frac{166-6}{4} = \frac{160}{4} = 40$, and the other 3 terms following it 41, 42, 43. The same result is obtained by applying the Algebraical rule of Arithmetical progression.

$$\begin{aligned} S &= \frac{n}{2} \left\{ 2a + (n-1) d \right\} \\ 162 &= \frac{4}{2} \left\{ 2a + (4-1) 1 \right\} \\ &= 2 (2a + 3) \\ &= 4a + 6. \\ \therefore 4a &= 162 - 6 = 156 \end{aligned}$$

The first term $a = 39$

The Series is $39 + 40 + 41 + 42 = 162$.

The complete series will be as follows :—

To discuss in detail. Let us suppose that 4 persons have entered upon a stage of lower thought-activity one having 39, the other 40, the 3rd 41 and the 4th, 42 steps of thought purity. Each is advancing every moment by one step. In the next instant the four will respectively have progressed to 40, 41, 42 and 43 steps. Then suppose that another set of four persons have entered upon such thought purity. They will have in the first instant, steps of 39, 40, 41 and 42. Here the person who has 40 in the first instant will be equal to that person who has 40 in the 2nd instant, and one who has 41 in the first instant will be equal to the person who has 41 in the 2nd instant. The one in the first group who has 39 in the first instant will have 42 in the 4th instant, while the 4th person of the 2nd group has 42 in the first instant. Thus a person entering upon thought-purity later may be equal to one who has commenced earlier.

Where such progress of increase of purity is possible, it is called the lower thought-activity.

908. Having passed an Antar-muhurta in the lower thought-activity stage, increasing every moment in purity, the soul acquires the next stage of New thought-activity.

Commentary.

A Saint in the 7th Spiritual Stage passes one Antar-muhurta, in the Lower Thought-Activity, progressing infinite-fold, at every moment in purity of thought; and then ascends to the 8th stage, and acquires New-Thought-Activity, increasing at every instant infinite-fold in purity.

909. In New-Thought-Activity calculation, let four thousand and ninety-six (4096) be the sum (of thought-steps); eight, the number of instants; sixteen, the common difference (at every instant); and four the arbitrary number.

910. The thought steps in New-thought-Activity, are innumerable times the universe (spatial units), increasing for one Antar-muhurta gradually (in purity) at every instant. As a rule, there is no overtaking by another (Anukrishti) here.

Commentary.

Persons advancing in New-Thought-Activity will go on progressing with a steady and uniform increase in purity, in such a manner that

those who have commenced such advance simultaneously may keep pace together, but those who commence later can never over-take them.

According to the rule of Arithmetical progression.

$$S = \frac{n}{2} \{ 2a + (n-1)d \}$$

$$4096 = \frac{8}{2} \{ 2a + (8-1)16 \} = 4(2a + 112)$$

$$\therefore 8a = 4096 - 448 = 3648$$

$$\therefore \text{The first term } a = 456$$

The series will be $456 + 472 + 488 + 504 + 520 + 536 + 552 + 568 = 4096$.

911. Though souls may at one and the same instant, differ from each other in matters like formation of body, yet when they do not differ among themselves in purity of thought, (they are said to be in Advanced Thought-Activity (Anivritti Karana).

912. They, whose thought-purity is similar at each and every moment, are in Advanced Thought-activity (Anivritti Karana). They are consumers of the forest of Karmas by the flames of the fire of very pure concentration.

Commentary.

The souls who commence the stage of Advanced thought-activity in one and the same instant will have equal purity and will progress equally without any difference. Those who commence afterwards will not be equal to those who began before them.

CHAPTER IX.

DURATION AND MODE OF EXISTENCE OF KARMAS

913. With head bowed to the Perfect Souls who have destroyed Karmas, annihilated mundane wanderings, and have reached the purest abode, I shall describe the duration and variations in the workings of Karmas.

Commentary.

In Chapter IX is discussed the quantity of Karmic particles, in their molecular groups, at each instant. These quantities are constantly varying, but in a fixed ratio, amenable to calculation, although the calculation is very minute and subtle, brain-racking to the beginner, but graspingly fascinating to the scholar, the thinker, the saint lost in raptures of meditation.

914. So long as matter bound up as Karma does not come into operation (at maturity), or into immature operation, (the intervening period) is (called) quiescence, Aabaadhaa.

Commentary.

Verses 914, 915, 916, 917, 918, 919, 920 and 921, are identical reproductions of Verses 155, 156, 157, 158, 159, 160, 161 and 162, in *Commatsara Karma Kanda, Part I, Vol. VI. of the Sacred Books of the Jainas Series*, on pages, 87, 88, 89 and 90.

Karmic matter flows into the soul on account of soul-vibrations; and by operation of Karmic Body sub-class of Body-making Karma; and then binds the soul, for a definite duration, varying with the intensity of passions. The period between the moment of bondage and commencement of its operation, matured or immatured, is called Aabaadhaa.

915. With reference to (mature) operation, the quiescence of seven Karmas (viz. all except Age) (is) one hundred years for (a duration of) one crore × crore Sagars (Oceans) of years; and is in the same proportion for (those of) other durations.

Commentary.

Excepting age Karma, all the seven Karmas have a quiescence of 100 years for a duration of one crore×crore sagars. The quiescence-period (*Abadha Kala*) of Knowledge-obscuring, Conation-obscuring Feeling and Obstructive Karmas, each of which has a maximum duration of 80 crore×crore sagars will be 8000 years. Deluding Karma has a maximum duration of 70 crore×crore sagars; its quiescence will be 7000 years. Body-making and Family Karma has each a maximum duration of 20 crore×crore sagars, and a quiescence of 2000 years.

916. For a duration within one crore×crore (Sagars), the quiescence one is Antar-Muhurta. It is a numerable part of this for all small durations.

Commentary.

100 years = $100 \times 12 \times 80 \times 80 = 10,80,000$ Muhurtas. One Muhurta consists of 2 Gharis or 48 Minutes. The quiescence-period for a

duration of a crore × crore Sagars is within this. When quiescence is only one Muhurta, the duration will be $10,00,00,00,00,00,000 \div 10,80,000 = 9259252 - 16/27$ Sagars. This is the period which is therefore meant here by the expression 'within one crore × crore Sagars.' When quiescence is less than this; the duration will be much less.

Working up further, the quiescence for a duration of one Sagar will be $48 \times 60 \div 9259252 - 16/27$ of a second which is about a millionth part of a second.

The Jaina saints have their own method of calculation, which is independent of mechanical contrivances, and is suited to their mode of life, above all possessions and necessities. They measured time not by the clock, but by the motion of the sun, moon, planets, constellations of stars, and by pulse-beats, breath-periods, heat-throbbings.

A year is ordinarily taken to consist of 360 days. According to solar Indian Calendar, after some years, a month is added to the year, and the astronomical calculations regarding the seasons, the festivals, eclipses of the sun and moon are quite accurate.

In a year there are 360 days; in a day 30 muhurtas and 3773 pulse beats in one muhurata, which consists of 48 minutes. Thus, in one hundred years there are $100 \times 360 \times 30 \times 3773 = 1080000 \times 3773 = 4,07,48,40,000$ pulse beats. The quiescence for bondage duration of one sagar is $4,07,48,40,000 \div 10,00,00,00,00,00,000$ of a pulse beat. Thus it is clear that light karmas whose bondage is of an ordinary duration begin to operate practically immediately.

Ordinarily the durations are of medium types of varying periods. The maximum and minimum durations are extremely rare. Our ordinary passions are neither extremely intense, nor extremely mild. The corresponding bondage-Duration is also of ordinary length. The quiescence for one sagar year's duration is roughly 25000th part or exactly speaking $0,00,04,07,464$ of a pulse beat. A Sagar consists of innumerable years. Thus it is evident that if a person at an early age binds a karma of 70 or 80 years' duration, it must begin to operate after one Avali or wink, i. e. practically at once.

The word *Samkhyat* which has been translated as numerable, or reckonable, conveys the idea of a fraction which, though very very small is nevertheless reckonable.

The word *Asankhyat*, irreckonable, innumerable denotes a still smaller or a higher figure; and the word *Anant*, Infinite, a figure smaller or higher than that even, *Samkhyat*, *Asamkhyat*, *Anant*

has each been divided into three grades, minimum, medium and maximum.

For Jaina Theory of Numbers see Page 20 of the Introduction to Gommatsara, Jiva Kanda Vol. V of the Sacred Books of the Jainas Series.

पूर्वाणाम् कोटि त्रिभागादासंक्षपाद्धा वा इति भवेत् ।

917. The quiescence of age Karma is a third part of one crore Purva, (years, as maximum, down to one Asankshapaddha (viz. an innumerable part of an Avali, as the minimum). There is no (rule of) proportion (with reference to) its duration.

Commentary.

Age Karma for the next life is bound within an *Antar-Muhurta*, viz., during a period less than 48 minutes, after the expiry of two-thirds of the current Age-period. If it is not bound within that *Antar-Muhurta* the next stage for its being bound will come when two-thirds of the remaining age has expired and will last for one *Antar-Muhurta*. There are such eight occasions. This is the rule for humans and sub-humans of the work region, each of whom, have a maximum age of one crore *Purva* in the *Videha* region of the continent *Jambu-dvipa*. 84 lakhs of years = 1 *Purvanga*, 84 lakhs *Purvangas* = 1 *Purva*.

In the case of maximum age therefore, one-third of a crore *Purva* is still to be passed, when such soul binds Age-Karma for the next life, and it will come into operation at the end of the present life. The period of 1/3 of a crore *Purva* is therefore the maximum quiescence of age Karma. The minimum will be an in-numerable fraction of an Avali, because a sub-human and human having the minimum age of 1/18th of a pulse-beat time, will bind Age-Karma just before death.

Beings of enjoyment-region bind it 9 months before death, and those of celestial and hellish regions 6 months before death.

918. With respect to premature operation (*Udeerna*), the quiescence is one *Avali* for seven Karmas (viz. all except age Karma). There is, as a rule, no premature operation of Age Karma bound (in present life) for the next incarnation.

Commentary.

The *Avali* in the above Verse is called *अचलावली Achalaavali* or fixed wink, the minimum period of quiescence. Premature cessation of Age-Karma viz., premature, or accidental death, is not possible among Celestial, and hellish beings, and among such human beings who possess a body for the last time, and who also possess the highest kind of physical body, and among humans and sub-humans of the enjoyment region. Only the rest of the humans and sub-humans have premature, or untimely death.

919. The number of *Nishekas* (is equal) to the number of instants of duration after deduction of the period of quiescence. The *Nishekas* of Age-Karma are as a rule, equal to the instants of duration.

Commentary.

Instant-Bondage, *Samaya Prabaddha* is the number of Karmic, or *no-Karmic* molecules bound by a soul in one instant. *Nisheka* which has been translated by J. L. Jaini as a dripping on page 89. Vol. VI of the Sacred Books of the Jains Series is that bundle of Karmic molecules in bondage which shed off in an instant. There is

no deduction of quiescence time from Age-Karma duration, because the quiescence time of Age-Karma is deemed to have been passed in the previous birth. There is no interval of time between any two incarnations. When a soul leaves one body it enters another the very next moment of time. It does not remain body-less, except when it attains Nirvana.

920. When the quiescence-period is passed, the largest number of molecules shed off in the first *Nishaka* (of the first *Gunahani*). The subsequent shedding upto the first *Nishakas* of the second *Gunahani* decreases by a common difference.

Commentary.

Gunahani is the number of terms of a series, the sum of which is the number of molecules of a Unit of Bondage and each term in which is half of the term immediately preceding it.

It would be useful to re-state and recapitulate here what has already been laid down and explained in verses 914 to 920.

A soul binds Karmic particles of subtle matter as the result of its passionate thought-activity. The quantity of the Karmic, and quasi-Karmic particles bound up or assimilated with the soul in one moment of time is called समय प्रबद्ध *Samaya Prabaddha*, Instant-Bondage (verse 924). Such bondage is continuously going on every moment of time.

The particles bound up begin to work, to function, to have effect after an interval. During this interval, they lie dormant, quiet, inactive, in-operative. This interval is called अवाशा काल the period of quiescence (verse 918.)

The working, the functioning, the effect, of the particles bound up continues for a definite pre-determined period of time, during which some particles continue shedding off, while others go on operating, functioning, giving effect. The total period of shedding or dripping off plus quiescence period is called स्थिति *sthithi*, duration. The shedding off is a continuous process, after it once begins.

The bundle, the group, the number of particles shedding off in one instant is called *Nisheka*. The number constituting these *Nishekas* varies. The largest number sheds off in the first division of the duration period. Each of these divisions is called a *Guna-haani*. Literally it means diminishing in efficiency. It is called so because the number constituting the succeeding *Nishekas* or drippings goes on diminishing in a regular arithmetical progression by a common difference. The instants during which the particles constituting one *Guna-haani* work, is called *Gunahani-aayaam*.

The Shedding or dripping of *Karmas* is either spontaneous, involuntary, or forced. It is forced by ascetic practices. It is involuntary, spontaneous, natural in the case of all living beings.

A *Guna-haani* is a group of *Nishekas*. The number of molecules composing each of such *Nishekas* goes on decreasing by a common difference upto the first *Nisheka* of the next *Guna-haani*.

921. In the second (and other subsequent) *Nishekas* of the second (*Gunahani*), (the common) difference of decrease will be half of what it was in the (first *Gunahani*). And so on, in each subsequent *Gunahani* (the common) difference will be half of what it was in the preceding one.

922. In calculating the duration of all *Karmas*, (six particulars) should be kept in view, (1) *Dravya*, the number of the Karmic molecules, bound in one instant (2) *Sthiti* i.e., the number of instants of duration, (3) *Gunahani Ayam*, the number of instants in the *Gunahani*, (4) *Dal-Shalaka*, or *Nana-Gunahani*

the number of *Gunahanis* for each duration, (5) *Do Gunahani* or *Nishekachheda*, double of each *Gunahani-Ayam* (6) *Anyonnyabhyasta-Raashi* (the multiple of 2 as many times as there are *Nana Gunahanis*).

923. Let us take sixty-three-hundred, forty-eight, eight, six, sixteen and sixty-four to be (respectively) the *Dravya* and the others (six particulars mentioned just above).

Commentary.

We have taken as an illustration, the case of a soul which binds 6300 molecules of a particular Karma in each instant, during a period of 48 instants. Here we have omitted to consider the period of quiescence.

Looking to conditions in the 48th instant, the number of molecules bound in the last, the 48th instant, will all be in existence while of those bound in the 47th, (*viz.*, the instant before the last), only 6788 will be in existence; 512 of them would have been shed off. And of those bound in the first instant, only 9 would remain, 6291 would have been shed off. This is shown on page 150 in the commentary to Verse 260 of Karma Kanda Part 1, Vol. VI of the Sacred Books of the Jainas Series, on Page 150, and is shown in full detail in the annexure A.

924. The number of (Karmic) molecules (bound in an instant is called) one *Samayaprabaddha*, the quantity of which has been stated before (in the chapter on bondage); the time of their co-existence with the soul is the period of duration, which is equal to numerable *Palyas*.

925. With reference to Wrong-Belief Karma, the last (viz. *Annyonyabhastrashi*) is the product of (the number of *Varga-Shalaka*, its square, and the first square-root of *Palya*; and the fourth (viz. *Nana Gunahani*) is the sum of the *Ardha-chhedas* (the indices of the ultimate integral square-root) of the above (3 figures).

Commentary.

Let *Palya* be represented by 65536, which is called *Pannaththi* elsewhere. The square-root of this is 256; the square-root of 256 is 16, the square-root of 16 is 4, and the square-root of 4 is 2. There is no further square-root of 2 in integral value. Each Process of extracting a square root is called a *Varga-Shalaka*.

The figure 65536 has 4 *Varga Shalakas*, because the process of extracting a square root can be carried on in integral numbers, for four steps only.

In this case, *Annyonyabhysta-rashi* (अन्योन्याभ्यस्त राशि) will be the product—(*Varga Shalaka*) \times (*Varga Shalaka*)² \times $\sqrt{65536}$ or $4 \times 4^2 \times 256 = 4 \times 4^2 \times 16^2 = 4 \times 4^2 \times 4^4 = 4^7 = 2^{14} = 16384$: *Pannaththi* = 65536 = 2^{16} *Annyonyabhysta Rashi* is therefore $1/4$ P (*Pannaththi*) = 16384.

The *Ardha-Chhedas* of the three figures 4, 16, 256 are the indices of their ultimate integral square-root. The figures 4, 16, 256 are equal to $2^2, 2^4, 2^8$. The *Ardha Chhedas* are 2, 4 and 8.

The sum of these *Ardha-chhedas* $2+4+8=14$ is called *Nana-Gunahani*.

926. Verily, the *Annaonyabhyasta-rashi* is *Palya*, divided by the *Varga Shalaka* of *Palya*; and *Nana-Guna-hani* (is equal to) the difference between the *Ardhachhedas* of a *Palaya* and those of its *Varga-Shalaka*.

Commentary.

Annyonyabhyasta rashi is also equal to $Palya \div Varga$
Shalaka of Palya, $\frac{65536}{4} = 16384$

Nana-Gunahani is the difference between the *Ardha-Chhedas* of *Palya*, 2^{16} and those of its *Varga-Shalaka* 2^2 , viz. $16-2 = 14$.

Both the methods of calculation give the same result,

927. If *Nana-Gunahani* (or all *Gunahanis*) have (all) the *Nishekas* of a Karmic *Prakriti*; how (many *Nishekas*) will one (*Gunahani*) contain ? (Aggregate) *Nishekas* being divided by *Nana-Gunahani* will be (the *Nishekas* of) one *Gunahani*.

Commentary.

If *Nana-Gunahani* are 6, and *Nishekas* are 48 according to instants of Karmic duration; the *Nishekas* of one *Gunahani* will be $48 \div 6 = 8$. 8 will be the number of *Nishekas* in 8 instants in one *Gunahani*.

928. *Nishekahara* is equal to double of *Gunahani-Ayama* (i. e., number of instants of one *Gunahani*). Dividing the desired first *Nisheka* by that (*Nishekahara*), we get the common difference.

Commentary.

Taking the example given above, if 8 are instants of one *Gunahani*, then 16 will be the *Nishekahara*. If 512 be the molecules of the first *Nisheka* of the first *Gunahani*, then $512 \div 16 = 32$ will be the common difference, during 8 instants.

929. The total number of molecules being divided by Annyonyabhasta-rashi minus one, is the number of molecules in the last (6th) *Gunahani*; (the number in the other *Gunahanis*) will be double of those next to it (till we reach) the molecules constituting the first *Gunahani*.

Commentary.

Annyonyabhyasta Rashi is 2 multiplied as many times as there are *Gunahanis*. In the example given above there are 6 *Nana-Gunahanis* (Verse 929); Annyonyabhyasta Rashi = $2 \times 2 \times 2 \times 2 \times 2 \times 2 = 64$.

The number of molecules of the 6th or last *Gunahani* = $6800 \div (64-1) = 100$. The molecules in each *Gunahani* will be double of those in the adjacent one reckoning from the last. Thus we have 6 *Gunahanis* of 6800 molecules as below:—

$$\frac{\text{First}}{3200} + \frac{\text{Second}}{1600} + \frac{\text{Third}}{800} + \frac{\text{Fourth}}{400} + \frac{\text{Fifth}}{200} + \frac{\text{Sixth}}{100} = 6800 \text{ in all}$$

930. To find the common difference, divide the respective molecules (of each *Gunahani*) by the product (of instants of the *Gunahani*, and *Nishekahara* minus half of the instants (of *Gunahanis*) minus one.

Commentary.

Let us find out the common difference for 8200, the molecules of the first Gunahani.

Nishekahara = 2 Gunahani instants = $8 \times 2 = 16$.

$$8200 \div 8 \times 16 - \frac{1}{2} \text{ of } (8-1) = 8200 \div 8 \times (16 - \frac{1}{2}) = 8200 \div 8 \times \frac{25}{2} \\ = 8200 \div 100 = 82.$$

The common difference for 1600 will be $1600 \div 8 \times 16 - \frac{1}{2} (8-1)$
 $= 1600 \div 8 (16 - \frac{1}{2}) = 1600 \div 8 \times \frac{25}{2} = 1600 \div 100 = 16.$

The common difference of each Gunahani also, is thus half of that of the Gunahani preceding it.

This rule is limited in application to the particular figures in the illustration. It is not a rule of general application. For finding out the common difference, the divisor of the sums, in the present case, is a constant quantity viz. 100. If the first term of a series in Arithmetical progression is not given, the common difference would vary indefinitely with the first term. The Algebraical formula of general application has already been stated to be

$$S = \frac{n}{2}(a+1) = \frac{n}{2}(2a_{n-1} + d).$$

To find out d , the common difference it is necessary that the first term be given. The sum and the number of terms are not sufficient data for finding out the difference.

931. Subtract the sum of the differences (between the first and the succeeding terms (*Prachayadhana*) from the respective matter of a *Gunahani*, divide the result by (instants of) the (*Gunahani*, (and you get) the number of the last (*Nisheka* of that *Gunahani*).

Commentary.

Prachayadhana or *Uttardhana* of a *Gunahani* is obtained by multiplying the instants of the *Gunahani* by the common difference, and

by $\frac{1}{2}$ of the instants of the Gunahani minus one. The sum of the difference between the first and the succeeding terms, *Prachaya-dhana*, for the first Gunahani of 3200 is

$$8 \times 32 \times \frac{1}{2} \text{ of } (8-1) = 8 \times 32 \times \frac{7}{2} = 8 \times 112 = 896.$$

The last Nisheka of the Gunahani of 3200 molecules will according to verse 931 will be $(3200-896) \div 8 = \frac{2304}{8} = 288$. The other Nishekas can be had by adding 32 to each successive Nisheka. For the other 5 Gunahanis, the *Prachaya-dhana* as well as the *Chaya* or common difference for each Gunahani will also be half of its former.

The number of molecules in each of the 8 instants of each of the 6 Gunahanis, which are shed off in 48 instants are shown in tabular form annexure A- This is an expanded statement of the Chart given under Verse 260, p. 150, Karma Kanda. Vol. VI. S.B.J. Series.

The above example illustrates the manner in which the molecules bound at an instant are distributed in all the instants of duration which is almost negligible, less the quiescence period, with reference to the seven Karmas. It shows that in the first instant, the largest number of molecules will be shed and at the last instant the least in number. In the above example, 512 will be shed in the first instant and 9 in the last instant. The decrease is gradual as shown in the chart.

932. Nishekahara and the (period of) Gunahani of all the root Karmas are equal. I shall describe Naha-Gunahani (i. e., the numbers of Gunahani) (for each Karma) (These are not equal; they vary according to the duration of Karmas.

933. With regard to Wrong-Belief Karma (which has a maximum duration of 70 crore × crore sagars) (Nana Ganahani) has been stated (in verse 925). The total of the 8, Ardha-chhedas (of the square roots and squares taken serially in order of sequence) will be gradually decreasing by an eighth part. This should be calculated for the seven (Karmas) serially.

Commentary.

Add the Ardha-chhedas of the 1st, the 2nd and 3rd, 4th, 5th, 6th, 7th, 8th, and 9th square roots of a Palya to the Ardha-chhedas of the 8th, 7th, 6th, 5th, 4th, 3rd, 2nd and first squares of Varga Shalaka and Varga Shalaka of a Palya itself. Let us take a Palya to be equal to $65536 = 2^{16}$. Its Ardha-chhedas are 16.

The 1st square root of 65536 is $256 = 2^8$

The 2nd square root of 65536 is $16 = 2^4$

The 3rd square root of 65536 is $4 = 2^2$

Their Ardha-chhedas respectively are 8, 4, 2. Their sum is 14

The 4th square root of 65536 is $= 2^1$

The 5th square root of 65536 is $= 2^{1/2}$

The 6th square root of 65536 is $= 2^{1/4}$

The sum of their Ardha-chhedas will be $1 + \frac{1}{2} + \frac{1}{4} = 1\frac{3}{4} = \frac{7}{4} = \frac{1}{8}$ or $\frac{1}{8}$ th of 14, as said in the above verse.

The 7th square root of 65536 is $2^{1/8}$

The 8th square root of 65536 is $2^{1/16}$

The 9th square root of 65536 is $2^{1/32}$

The addition of their Ardha-chhedas will be

$\frac{1}{8} + \frac{1}{16} + \frac{1}{32} = \frac{1}{8} (1 + \frac{1}{2} + \frac{1}{4}) = \frac{1}{8} (\frac{3}{2} + \frac{1}{4}) = \frac{1}{8} (\frac{7}{4} + \frac{1}{4}) = \frac{1}{8}$ of $\frac{7}{4}$. The totals of 3 Ardha-chhedas thus gradually decrease by an eighth part.

Varga shalaka of a Palya (taking it to be 65536) are $4 = 2^2$. Ardha-chhedas of the 8th, 7th, and 6th squares of 4 are, 256×2 , 128×2 and 64×2 . Adding these we have ... 418 × 2.

Ardha-Chhedas of 8th, 4th and 3rd squares of 4 are 82×2 , 16×2 , 8×2 . Adding these we have ... 56 × 2.

Ardha-Chhedas of the 2nd, and 1st squares of 4, and of 4, the Varga Shalaka itself, are 4×2 , 2×2 , 1×2 .

Adding these we have $4 \times 2 + 2 \times 2 + 1 \times 2 = 7 \times 2$.

Each of the set of three calculations is $\frac{1}{8}$ of the one preceding it.

934. The number of the first term (of nana-Gunahani) with reference to ten crore \times crore (sagars) is an eighth part of the last Ardha-chhedas (i. e., those of a Palya) and of Ardha-chhedas of Varga Shalakas (of a Palya), (which were for 70 crore and crore sagars).

Commentary.

The Guna-hani for the maximum duration of 70 Crore and crore sagars of Wrong Belief Karma is 14.

That for 10 crore \times crore Sagars will be $14 \times 10 \div 70 = 2$, which is $\frac{1}{8}$ of 16, the ardhachhedas of 65536. It is also the Ardhachhedas of 4, the Varga shalaka of Palya, assuming it to be 65536.

Commentary.

Calculated on the assumption that a Palya=66696, the result according to this rule is the same as has been shown in Verses 937, and 938.

Nana-Gunahani for 30 Sagars is 6. Annyonyabhyastarashi for 30 Sagars is $2^6 = 2 \times 2 \times 2 \times 2 \times 2 \times 2 = 64$ (Verse 937).

or as per verse 938, it is

940. In case of bondage of maximum duration, with the maximum quiescence, the maximum (distribution and shedding of molecules) is calculated from the very (first) moment. They go on decreasing in subsequent instants of duration of bondage.

Commentary.

All molecules bound at a particular instant, are distributed in all the instants of its duration minus the quiescence, according to the proportion laid down in Verse 931. The first Nisheka or shedding group will have the maximum number of molecules, and the last one the minimum. The maximum quiescence of the last Nisheka will be the total duration minus one instant, while that of others will be successively decreasing by one instant. The last Nisheka really has maximum duration and maximum quiescence.

Commentary.

The first Nisheka shedding in the first instant will have the least quiescence. Each successive Nisheka will have a quiescence, gradually increasing by one instant, till the last Nisheka sheds off. The duration of the first Nisheka will be the least, while that of the others will be gradually increasing by one instant. The last Nisheka will have the maximum duration.

942. During the direct (distribution of Nisheka, as regards duration), (Nishekas equal to) one Samaya Prabaddha fall off at every instant. Really one Samaya Prabaddha is bound and comes into operation at each instant.

Commentary.

The Chart, annexure A, has been prepared on the assumption that 6800 Karmic molecules are assimilated by a Soul in each instant, and that the total duration of each unit of assimilation समय प्रबद्ध is 48 instants. At each instant, a quantity of molecules continues shedding off automatically according to a fixed proportion. The 48 instants are divisible in 6 groups called Guna-hanis each consisting of 8 instants. The greatest number of molecules falls off in the first instant, and the shedding in each subsequent instant of the first

group decreases by a constant figure, called the common difference till the first instant of the next group. The common difference in the second group is half of what it was in the first group; and the common difference continues to be halved till the last 6th group of 8 instants; when it is reduced to one. This has been worked out in detail in the Chart annexure A. It will appear therefrom that in the last, the 48th instant the balance of 9 molecules will fall off to complete the 6800; 10 will shed off in the 47th, 11 in the 46th, and so on as shown in the Chart, until we find 512 falling off in the first instant. Of the 6800 assimilated in the 2nd instant, 10 will shed off in the 48th instant, 11 in the 47th and so on, and so on. The molecules which remain in existence in the 48th instant are the 6800 which were bound in that instant, 5788 out of those bound in the 47th instant, and so on and on till we come to 9 of those bound in the first instant. Their total will come to 71,904.

It may be noted that one Samya Prabaddha has molecules varying in maximum to an infinite fraction of the total number of liberated souls, (which is infinite), and in minimum to infinite times the number of all (Abhavya) non-liberable souls.

943. All (the Karmic molecules) in existence at any instant, will be less than 1.5 of the instants of Gunahani, multiplied by one Samaya Prabaddha. It will be the sum of the existing molecules of all durations as shown in the triangular chart. (Annexure A).

Commentary.

The triangular chart will show that in the 48th instant, the molecules bound at that very instant are 6800 in existence; and of the molecules bound in the 47th instant, 5788 are in existence, 512 having shed off; of those bound in the 46th instant there are 5808, of them 512 and 480 have shed off; 9 molecules only are remaining out of the 6800 bound in the 1st instant. Their total will be 71904. It is less

than $1\frac{1}{2}$ of the 8 instants of Gunahani \times 6800. Here the instants of each Gunahani are 8.

Then $8 \times \frac{3}{4} \times 6800 = 75600$.

71304 is less than 75600 by 4296.

944. (In Annexure A) the total of the subsequent Gunahani is equal to the balance of its total deducted from the preceding one. The total of the first line (vertical or horizontal) is one Samaya Prabaddha. It goes on gradually decreasing (in other lines.)

Commentary.

The total of each 'Gunahani' is half of the one preceding it, which is tantamount to the statement that it is equal to the balance after deducting it from the preceding one. The rest is obvious at a glance.

The proportionate distribution of 6800 molecules in the 6 Gunahani, is as follows :—

3200, 1600, 800, 400, 200, 100.

Therefore the statement in the above Verse that the total molecules in a Gunahani are half of those in the one immediately preceding, is correct. So is the statement that they are equal to the balance between the molecules in the two "Gunahani" in juxta-position.

946. Santara (Bondage of places of equal duration after intervals) are numerable, (many) thousands in (Souls acquiring Right Belief, Partial-vows, Total-vows, and) ascending (the Subsidential or Destructive) ladders; (but) in other (Souls), the places of duration are from their respective least (duration), to the maximum (of each of them).

Commentary.

Places of "equal duration after intervals" are places where *Karmas with equal duration* continue to be bound for some time, and not continuously. This happens in the case of such wrong-believers as are on the point of acquiring Right Belief, or among Right Believers attaining the Partial-vow or Total-vow Spiritual stage, or ascending the subsidential or destructive ladder. There are a few thousand such places. To take an example: A Saint in Lower-thought-activity in the 7th Spiritual stage may bind Knowledge-obscuring and other Karmas of equal duration, within crore x crore sagars during an Antar-Muhurta. Thereafter, the duration is decreased by an innumerable part of a Palya, and he will bind Karmas of such reduced equal duration for another Antar-Muhurta. This procedure of gradual decrease in bondage of equal duration, happens several thousand times in the case of a saint in the 7th Spiritual stage.

In the 8th, 9th and 10th stages, a similar process of bondage will occur.

At a later period, in the 10th Stage, however, a saint will bind Feeling-Karma for 12 Muhurtas, Body-making and Family-determining Karmas for 8 Muhurtas, and other Karmas for one Antar-Muhurta.

Other souls cannot have such gradual reductions, and bondage of equal duration, during an Antar-Muhurta. They will have all sorts of duration places, one instant less the maximum to the minimum duration,

Commentary.

Deluding Karma has the largest number of places for duration-bondage. The number is obtained by multiplying the places for obstructive Karma duration-bondage by the innumerable part of a Palya. The process of multiplication is thus repeated three times, once for body and family Karmas, again for the 2 obscuring, feeling, and obstructive Karmas, and the third time for Deluding Karma.

As a rule, (they are) gradually increasing (by a common difference for each place) occasioning (durations gradually increasing by one instant, till the passionate-thought-activity place, causing) maximum duration (is reached).

अहियागमणणिमित्तं गुणहाणी होदि भागहारो दु ।

दुगुणं दुगुणं वद्धी गुणहाणिं पडि कमेण हवे ॥ ६५० ॥

अधिकागमननिमित्तं गुणहानिः भवति भागहारस्तु ।

द्विगुणा द्विगुणा वृद्धिः गुणहानिं प्रति क्रमेण भवेत् ॥ ६५० ॥

950. To find out the common difference, (the last Nisheka of) the desired Gunahani should be divided (by twice the instants of Gunahani), or (the first Nisheka be divided by Gunahani instants plus one). This will gradually be doubly increased at each Gunahani.

Commentary.

Let us take the last Nisheka of the last Gunahani to be 16 and Gunahani instants to be 8.

then $16 \div 8 \times 2 = 1$, the common difference.

Again if the first Nisheka of the same Gunahani is 9,

$9 \div (8+1) = 1$, which is the common difference.

For the other Gunahanis following, the common difference will be 2, 4, 8 and so on.

ठिदिगुणहाणिपमाणं अज्भवसाणम्मि होदि गुणहाणी ।

णाणागुणहाणिला असंखभागो ठिदिस्स हवे ॥ ६५१ ॥

स्थितिगुणानिप्रमाणमध्यवसाने भवति गुणहानिः ।
नानागुणहानिशला असंख्यभागः स्थितेर्भवेत् ॥ ६५१ ॥

951. The instants of Guna-hani in thought-activities occasioning duration-bondage are (equal to those of) the Guna-hani of the duration (as said before); but their Naanaa-Guna-haani are the innumerable part of (those of) duration.

Commentary.

The number of instants in the duration of a Karma vary from the minimum to the maximum. These constitute the various degrees of duration. Dividing them by Naana-Guna-haani we get the number of instants in one Guna-haani. The same rule applies to the number of thought-activities causing duration.

Nana-Gunahanis of Deluding Karma are equal to the Ardha-shhedas of a Palya, minus the Ardha-shhedas of Varga Shalaka of a Palya. The same being divided by innumerable will be the Nana-guna-hani in those thought activities. The first Nisheka comprises all those thought-activities, which cause bondage of the least duration. Then adding the common difference (Chaya) we get the second Nisheka which causes bondage of a duration longer by one instant, than that of the former. The common difference is obtained by dividing the first Nisheka plus one, by the instants of a Gunahani. This will be added at each step gradually till the last Nisheka, which brings about the maximum duration.

952. For thought-activities occasioning duration bondage in the seven Karmas (all except Age-Karma) the least increase (or the common difference for the first Gunahani is) innumerable times the Universe into the sixfold increase.

Commentary.

The six fold increase is with reference to the power causing effect or potency in the thought activities. Sixfold increases are :- (1) Infinite-part increase, (2) Innumerable-part increase, (3) numerable-part increase, (4) numerable-fold increase, (5) Innumerable-fold increase, and (6) infinite-fold increase. This has been explained in the Knowledge Quest. Vide Gommatsara Jiva Kanda p. 188. Verse 326. Vol. V. S. B. J. Series.

953. Thought-activities occasioning bondage of the least duration in Age-Karma (are) innumerable (times the spatial units of) the Universe. For each duration (increasing by one instant), the former should be multiplied by the innumerable part of an Avali (till we reach the maximum duration).

. Commentary.

To form a concrete idea of the statement made above, let us assume the various kinds of duration from minimum to maximum to be only 8, and the passionate thought activities binding an Age-karma of minimum duration to be 22, and the innumerable part of an Avali to be 4. The thought-activities in the limited 8 kinds of duration will have risen to 22; 88; 352; 1408; 5632; 22528; 90112; 360448.

954. (In duration-bondage of Age-Karma) there are divisions of an over-lapping character (Anukrishti) equal to an innumerable part of a Palya. Each is gradually increasing proportionately till the last division (which is) the highest

Commentary.

The divisions, assuming them to be 4, in the 8 kinds of duration occasioned by thoughts as assumed in the commentary to the above verse will be as shown below:—

1.	22	4	5	6	7
2.	88	5	6	7	70
3.	352	6	7	70	269
4.	1408	7	70	269	1052
5.	5632	70	269	1052	4241
6.	22528	269	1052	4241	16966
7.	90112	1052	4241	16966	67853
8.	360448	4241	16966	67853	271388

As regards duration bondage of Age-Karma, similar thought-activities occasion different durations in different souls.

लोकानामसंख्यमितानि अधिकप्रमाणानि भवन्ति प्रत्येकम् ।

समुदायेनापि तावत् न हि अनुकृष्टौ गुणहानिः ॥ ६५५ ॥

955. The common difference for each (Gunahani) is (double of that in the former, and is) innumerable times the universe (space-units). Being added together they are the same (i. e. innumerable times the universe space-units, though they have difference in values *inter se*). There are no Gunahanis in this series.

Commentary

Referring to verse 907, to the commentary there to, and to the chart given thereunder we find that in the lower-thought-activity stage a person starting late on the path of purity in thought-activities may overtake one who has had an earlier start. In the same way, different persons with similar passionate thoughts may bind different durations of age-karma, and different persons with dissimilar passionate vibrations—passions and thought-paints—may bind age-karma of the same duration. This probability of overlapping or overtaking is illustrated in a tabular form by figures and is termed Anukrishti. This has also been explained in some detail in the commentary to verse 958 and graphically illustrated in the chart thereunder.

पढमं पढमं खंडं अरणोराणं पेक्खिऊण विसरित्थं ।
 हेट्ठिल्लक्खस्सादोऽणंतगुणादुवरिमजहराणं ॥ ६५६ ॥
 प्रथमं प्रथमं खण्डमन्योन्यं प्रेक्ष्य विसदृशम् ।
 अधस्तनोत्कृष्टादनन्तगुणादुपरितनजघन्यम् ॥ ६५६ ॥

956. The first division in each (series) is unequal to that seen in the other. (As regards potency to cause effect) the lowest figure of a subsequent division is infinite times more potent than the highest of the preceding one.

विदियं विदियं खंडं अरणोराणं पेक्खिऊण विसरित्थं ।
 हेट्ठिल्लक्खस्सादोऽणंतगुणादुवरिमजहराणं ॥ ६५७ ॥
 द्वितीयं द्वितीयं खण्डमन्योन्यं प्रेक्ष्य विसदृशम् ।
 अधस्तनोत्कृष्टादनन्तगुणादुपरिमजघन्यम् ॥ ६५७ ॥

957. (Similarly) the second division in each (series) is unequal to that in the others. The lowest (figure) of the subsequent division is infinite times (more) potent than the highest of the preceding one.

चरिमं चरिमं खंडं अरणोराणं पेक्खिऊण विसरित्थं ।
 हेट्ठिल्लक्खस्सादोऽणंतगुणादुवरिमजहराणं ॥ ६५८ ॥
 चरमं चरमं खण्डमन्योन्यं प्रेक्ष्य विसदृशम् ।
 अधस्तनोत्कृष्टादनन्तगुणादुपरिमजघन्यम् ॥ ६५८ ॥

958. (Similarly) the last division (in each series) is unequal to that in the others. The lowest (figure) of the subsequent division is infinite times (more potent) than the highest of the preceding one.

हेट्ठिमखंडुक्खस्सं उव्वकं होदि उवरिमजहराणं ।
 अट्ठकं होदि तदोऽणंतगुणं उवरिमजहराणं ॥ ६५९ ॥
 अधस्तनखण्डोत्कृष्टमुर्वङ्को भवति उपरिमजघन्यम् ।
 अष्टाङ्को भवति ततोऽनन्तगुणमुपरिमजघन्यम् ॥ ६५९ ॥

959. The highest (figure) in a division is *Urvānk* (i. e. infinite-part-fold more potent than its preceding figure); the

lowest (figure) of the next (division) is *Ashtāṅk* (i. e. infinite fold more potent than the highest figure of the preceding one). Therefore, the lowest of the subsequent (is) infinite fold of the (highest of the preceding).

Six fold increase may best be explained by an illustrative statement—

Let infinite be represented by	2.
„ innumerable „ „	3.
„ numberable „ „	2.

and let the first figure, subject to increase be 48

- (1) Infinite part increase = $48 + 4 \times 8 = 48 + 32 = 80$.
 (2) Innumerable „ „ = $80 + 5 \times 4 = 80 + 20 = 100$.
 (3) Numberable „ „ = $100 + 7 \times 2 = 100 + 14 = 114$.
 (4) Numberable fold „ = $114 \times 2 = 228$.
 (5) Innumerable fold „ = $228 \times 3 = 684$.
 (6) Infinite fold „ = $684 \times 8 = 5472$.

Thus if all the 6 kinds of increase take effect once on 48, it would amount to 5472.

See verse 326, page 188, Jivakanda Vol., V., S. B. J. Series

For exposition (in brief) the names of the 6 (stages of) increase respectively are the figure U (Uru much large, anka-figure),

	(Urvaanka)	...	fu.
The figure 4	(Chaturaanka)	...	f4.
„ 5	(Panchaanka)	...	f5.
„ 6	(Shataanka)	...	f6.
„ 7	(Saptaanka)	...	f7.
„ 8	(Ashtaanka)	...	f8.

960. The lowest (division, shown as 39 in the Chart under Verse 907), (which is the cause of bondage) of minimum

duration, and the highest (division, shown as 57 in the said Chart, which is cause of bondage of) maximum (duration) are unequal (to any other division). All the remaining divisions have their equals (as shown in the Chart) in subsequent (divisions).

961-962. The eight Karmas have (thought activities binding durations as said above). The Age-Karma has, however, (variations) in an (Anukrishti) series, which increase onwards by the common difference till (the last) division of the minimum duration. (Each of the) divisions thereafter in each line upto the maximum in (the last line) goes on increasing gradually innumerable-fold (of its preceding one).

रसबंधज्भवसाणट्टाणाणि असंखलोगमेत्ताणि ।

रसबन्धाध्यवसायस्थानानि असंख्यलोकमात्राणि ।

अवरस्थितेरवरस्थितिपरिणामे स्तोकानि ॥ ६६३ ॥

963. Passionate thought-activity-places bringing about (degree of) fruition in Karmas (Anubhag-bandha-Adhyavasaya Sthan) are innumerable times the Universe (space-units). They are the least in thought-activities which cause bondage of minimum duration (Yet their number is so very large as would be obtained by multiplying thoughts causing bondage of minimum duration with innumerable times the universe space units).

964. Thereafter, the number gradually increases by a common difference. (This common difference would be represented by) the quotient (of the total fruition matter) being divided by innumerable times the space-units of the universe. This increase goes on) till the maximum (division) of the lowest (guna-hani). (For other guna-banis, the common difference will be double of that in the former ones). This is the rule, (till the maximum gunahani).

967. May the currents of intelligence (in Raja Chamundrai) (who is like an) ocean containing gems of virtues, raised high by the spotless (moon) Nemi-chandra (Acharya), rising from the top of the mountain of (Jaina) Siddhant, fill the whole universe.

968. May this Gommatsara, collection of Sutras attain Victory. May Gommata Jina on the top of Gommata (hill in Shravana Belgola) be triumphant. May the (image named) Dakshina-Kukkuta-Jina constructed by Gammatrai (Chamundrai) be victorious.

969. Hail Gommata (Rai, Chamundrai), who established an image (of Shri Bahubali, 56 feet high at Shravana Belgola); whose face has been seen by celestials of Sarvartha Siddhi, (the highest of the heavens) and by saints possessed of high and full visual knowledge.

971. Victory to that Raja Gommata who established a pillar with the image of a Yaksha on its top, such that the rays emanating from the points of its coronet washed like water the pure feet of the Siddhas.

Commentary.

This is in poetic language a reference to a high column on the larger hill at Shravana Belgola.

गोम्मटसूत्रलेखने गोम्मटरायेन या कृता देशी ।

972. May (Raja Chamundrai) named Vir Martanda (or) Gommatrai be ever victorious, who prepared the vernacular (commentary in Canarese), while Gommatsara was being written.

Commentary.

Gommatsara was edited and collected by Shri Nemichandra Chakravarti at the request of Raja Chamundrai, whose qualifications have been declared in such high language by the author in the above Verse. It appears that when the saint was editing the book in Prakrit, its explanation was being written in Canarese by the Raja himself at the feet of the saint. The verses themselves cannot be fully understood without the aid of the Commentary. Later on, Brahmachari Keshava translated the Canarese commentary into Sanskrit. A Hindi version was afterwards prepared by Pandit Todarmal of Jaipur. The English translation is based on the Sanskrit and Hindi Commentaries.

The End.
